1. Description of Plan

The following description of Golden Gate Bell, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General and Eligibility

Golden Gate Bell, LLC 401(k) Plan is a defined-contribution plan sponsored by Golden Gate Bell, LLC (the "Company"). The Plan was adopted on January 1, 1999, and most recently amended and restated effective January 1, 2016, for the purposes of providing retirement benefits to eligible employees. Each participant directs his or her own investment in the various funding options. All current employees who are at least twenty-one (21) years of age and have completed one (1) year of service (at least 1,000 hours) are eligible to participate in the Plan, except for union employees, non-resident aliens and leased employees. Eligible employees can start participation in the Plan the earlier of the first day of the seventh month or the first day of the Plan year coinciding with or immediately following the first day of eligibility.

Plan Administration

The Company is the administrator of the Plan. As administrator, the Company has exclusive authority and responsibility for all matters in connection with the operation and administration of the Plan. John Hancock Life Insurance Company (U.S.A.) was the appointed custodian for the Plan in 2016 and 2015, and acted at the direction of the Plan's administrator. National Retirement Services, Inc. was the recordkeeper for the Plan in 2016 and 2015.

Contributions

Each year, participants in the Plan may defer a portion of their compensation through payroll deductions to the Plan in any percentage of their gross compensation up to fifty percent (50%). The contributions are not to exceed the maximum amount allowable under the provisions of the Internal Revenue Code ("IRC"). The maximum annual amount that can be contributed to a 401(k) arrangement as an elective deferral, that is, as a pre-tax contribution, is $18,000 for 2016. Individuals age 50 or over by the end of the Plan year are allowed to make additional contributions to a 401(k) plan, in excess of the standard limits. Such additional contributions will be limited to the lesser of a specified dollar amount ($6,000 for 2016) or the participant's compensation for the year reduced by the participant's other elective deferrals.

The Plan provides a safe harbor match. The Company safe harbor matching contribution is one hundred percent (100%) of participant deferral up to three percent (3%) of the participant compensation plus fifty percent (50%) of the participant deferral that exceed three percent (3%) of the participant contribution but do not exceed five percent (5%) of the participant's compensation.

Participant Accounts

Each active participant's account is credited with individual contributions, Plan earnings or losses, and the Company's contributions, if any. Allocations are principally based on the participant's earnings, or account balance, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of Plan, continued

Participant Accounts, continued

Certain investment fees are charged to the funds and are offset against Plan investment income and loss as presented on the statement of changes in net assets available for benefits. Participants should refer to the prospectuses of these funds for details on the various types and amounts of investment fees charged to the Plan and their individual accounts.

Vesting

Participant contributions, rollovers, employer matching contributions, and net earnings on these contributions, are fully vested when made or earned.

Participants are fully vested upon retirement, death, disability, or Plan termination.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $500, and up to a maximum amount equal to the lesser of one-half of the vested account value or $50,000. Loan terms range from one to five years, except for loans used to purchase a primary residence, which may exceed five years. The notes receivable from participants are secured by the balance in the participant's account and the interest rate must be one that a bank or other professional lender would charge for making a loan in a similar circumstance. The interest rate used is the prime rate at the date of issuance plus 1%. Interest rates on notes receivable as of December 31, 2016 ranged from 4.25% to 4.50% per annum. Principal and interest is paid ratably though payroll deductions.

Payment of Benefits

The Plan provides for the payment of benefits in the form of lump sum payments to the participants (or if applicable, the beneficiary) at retirement, disability, death or termination of employment with the Company. In addition, distributions to participants as a result of financial hardship may be made in certain circumstances. The Plan defines financial hardship as a participant's purchase of primary residence; education expenses for a participant, spouse, child or dependent; medical expenses; burial or funeral expenses for a participant's deceased parent, spouse, child, other dependents or beneficiaries; expenses for the repair of damage to the participant's principal residence due to casualty; or the need to prevent eviction from a primary residence or foreclosure on a mortgage.

Investment Options

Upon enrollment in the Plan, a participant may direct his or her contributions in percentage increments into a series of pooled separate accounts and guaranteed interest accounts offered by the Plan. Participants may change their investment options at any time.

A description of each investment is provided to participants by the Company. Unless specified in writing by the participant, each participant's account is automatically invested in a cash fund.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, disclosure of contingent assets and liabilities and changes in net assets available for benefits. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. All of the Plan's investments are held by the custodian under a group annuity contract consisting of guaranteed interest accounts and pooled separate accounts ("PSAs"). The guaranteed interest accounts are not fully benefit-responsive and are valued by the custodian, an insurance company, at fair value, which has closely approximated contract value. Investments in PSAs are stated at fair value as determined by reference to its underlying investments, which are valued at the closing net asset value ("NAV") per share held by the Plan at year-end. The NAV of PSAs is based on the readily available market value of its underlying investments. The PSA NAV is not a publicly-quoted price in an active market. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisor, and custodian.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015.

Payments of Benefits

Benefit are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

2. Summary of Significant Accounting Policies, continued

Recent Accounting Pronouncements

Effective January 1, 2016, the Plan adopted Part II of Financial Accounting Standards Board ("FASB") Accounting Standards Update ("ASU") No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans* (Topic 960), *Defined Contribution Pension Plans* (Topic 962), *Health and Welfare Benefit Plans* (Topic 965): (Part I) *Fully Benefit-Responsive Investment Contracts*, (Part II) *Plan Investment Disclosures*, and (Part III) *Measurement Date Practical Expedient* (consensuses of the FASB Emerging Issues Task Force). Under Part I of the new ASU, fully benefit-responsive investment contracts are to be measured, presented, and disclosed at contract value only. Part II of the ASU eliminates the disclosure requirements for 1) individual investments that represent 5 percent or more of net assets available for benefits, 2) the net appreciation or depreciation for investment by general type (disclosure in the aggregate is still required), for both participant-directed investments and nonparticipant-directed investments and 3) disaggregation of investments by nature, characteristics and risks (disclosure in aggregate by type is still required). Part III of the ASU permits the election of a practical expedient to measure investments and investment-related accounts as of a month-end date that is closest to the Plan's fiscal year-end, when the fiscal period does not coincide with the month-end. Any significant contribution, distribution, or other event that occurs between these two measurement dates is required to be disclosed. Part I and III are not applicable to this Plan.

Effective January 1, 2016, the Plan adopted FASB ASU No. 2015-07, *Fair Value Measurement* (Topic 820), *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in ASU 2015-07 apply to reporting entities that measure an investment's fair value using the NAV per share (or its equivalent) practical expedient. The ASU eliminates the requirement to classify the investment within the fair value hierarchy. In addition, the requirement to make certain disclosures for all investments eligible to be assessed at fair value with the NAV per share practical expedient has been removed. Instead, such disclosures are restricted only to investments that the entity has elected to measure using the practical expedient.

These ASUs have been applied retrospectively. Accordingly, the 2015 statement of net assets available for benefits and certain related 2015 disclosures have been modified to be in accordance with these new standards. The modifications had no effect on previously reported net assets available for benefits.

Information Certified by the Custodian

John Hancock Life Insurance Company (U.S.A.) has prepared and certified as complete and accurate the Plan's schedule of investment assets and notes receivable, transactions, and net realized and unrealized gains and losses on investments and notes receivable, and interest and dividend income, which was used to prepare the accompanying financial statements and supplemental schedule.

3. Fair Value Measurements

Accounting standards for fair value measurements establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value on a recurring basis where cost basis is different than fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Pooled separate accounts: Valued at the NAV of units of the separate account. The NAV, as provided by the trustee or custodian, is used as a practical expedient to estimating fair value. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the separate account, the investment advisor reserves the right to temporarily delay withdrawal from the account in order to ensure that securities liquidations will be carried out in an orderly business manner.

Guaranteed interest accounts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. The significant unobservable inputs include the interest rate and credit and liquidity risk.

Continued

3. Fair Value Measurements, continued

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2016 and 2015:

	Investments at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Guaranteed interest accounts	$ -	$ -	$ 323,606	$ 323,606
Total investments at fair value	$ -	$ -	$ 323,606	$ 323,606

	Investments at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Guaranteed interest accounts	$ -	$ -	$ 281,202	$ 281,202

5. Related-Party Transactions and Party-in-Interest Transactions

Certain Plan investments in pooled separate accounts are managed by John Hancock Life Insurance Company (U.S.A.), the custodian of the Plan. Any purchases and sales of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan, and are specifically exempt from the prohibition of party-in-interest transactions under ERISA. Fees incurred by the plan for the investment management services are included in net appreciation (depreciation) in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment.

6. Tax Status

The Plan uses a volume submitter plan document sponsored by National Retirement Services, Inc. National Retirement Services, Inc. received an opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2014, which states that the prototype document satisfies the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provisions for income tax have been included in the Plan's financial statements.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of a Plan termination, participants would become fully vested in their accounts.

8. Risks and Uncertainties

The Plan provides for various investment options in any combination of pooled separate accounts and guaranteed interest accounts offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuations, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

9. Subsequent Events

In accordance with accounting standards affecting disclosures of subsequent events, the Plan evaluated subsequent events for recognition and disclosure through October 14, 2017, the date which these financial statements were available to be issued. Management concluded that no material subsequent events have occurred since December 31, 2016 that requires recognition or disclosure in such financial statements.
