Independent Auditors' Report

To the Participants and Plan Administrator of
Speedway Retirement Plan

Report on the Financial Statements

We have audited the accompanying financial statements of Speedway Retirement Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to financial statements.

Plan Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America (US GAAP); this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with the auditing standards generally accepted in the United States of America (US GAAS). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by Plan management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2016, and the changes in net assets available for benefits for the year then ended, and its financial status as of December 31, 2015 and changes therein for the year then ended, in accordance with US GAAP.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary information listed in the index is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of Plan management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or the financial statements themselves, and other additional procedures in accordance with US GAAS. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Retirement Age	
Active Participants	See Table 2.
Terminated Vested Participants	Age 59 for those assumed to elect a single life annuity. Immediate payment at termination for those assumed to elect a lump sum.
Mortality Rates	
Healthy and Disabled	2016 static mortality table for annuitants and non-annuitants per section 1.430(h)(3)-1(e)
Withdrawal Rates	See Table 3.
Disability Rates	See Table 4.
Decrement Timing	Middle of year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%)
Surviving Spouse Benefit	It is assumed that 70% of males and 35% of females have an eligible spouse, and that males are three years older than their spouses.
Valuation Compensation	2015 pensionable earnings rolled forward one year with the salary increase assumption.
Benefit and Compensation Limits	Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of \$210,000 and the IRC section 401(a)(17) compensation limit of \$265,000.
Valuation of Plan Assets	<p>Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.</p> <p>A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).</p>

We conducted our audits in accordance with the auditing standards generally accepted in the United States of America (US GAAS). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. Speedway Retirement Plan

Notes to Financial Statements

December 31, 2016 and 2015

1. Description of the Plan

The following description of the Speedway Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

General

The Plan is a non-contributory employer defined benefit pension plan covering eligible employees of Speedway LLC (“Speedway”) or of a participating employer as defined by the Plan document. The Plan is sponsored by Speedway. Prior to February 15, 2011, the Plan was known as the Speedway SuperAmerica LLC Retirement Plan. The Plan was also formerly known as the Retail Employer Sub-Plan of the Marathon Petroleum Company LLC Retirement Plan (“MPC Retirement Plan”) and effective June 30, 2007, was spun-off from the Plan and was called the Speedway SuperAmerica LLC Retirement Plan. Prior to January 1, 1999, the Plan was also known as the Petroleum Marketing Retirement Plan (“PMRP”) before merging into the MPC Retirement Plan as the Retail Sub-Plan.

Only the assets and liabilities related to benefits accrued under the Retail Sub Plan as determined by the Plan’s actuary were spun off in the June 30, 2007 Plan change described above. Therefore, some participants will have accrued benefits in both the Plan and in the remaining MPC Retirement Plan. The Plan retained provisions identical to the provisions of the Retail Sub-Plan as they existed immediately prior to the spin-off. The Plan’s Trustee is The Northern Trust Company (“Trustee”) and the Plan’s Sub-Trustee is U.S. Steel & Carnegie Pension Fund (the “Sub-Trustee”). Fidelity Investments is the record keeper for the Plan.

As of January 1, 2016, the Plan was amended and restated to, among other things, incorporate a cash balance design. Generally, only non-store employees in salary grades 11 or below, store employees in salary grades 4 or above, and employees classified as a Shift Leader II are eligible for a cash balance benefit. Under the cash balance component of the Plan, eligible employees will receive an annual 4% cash balance pay credit.

Pension Benefits

Generally, employees of a participating employer, are eligible to participate in the Plan if they are a United States citizen, a non-United States citizen hired in the United States to perform services in the U.S., or within an employee group approved by the Plan Administrator. Employees are not eligible to participate in the Plan if they are covered by a collective bargaining agreement (unless such agreement expressly provides for their participation in the Plan) or if they are subject to any employment agreement or contract that waives or excludes their participation in the Plan.

Effective January 1, 2010, the Plan was closed to all new participation and was amended such that retirement benefits accrued through December 31, 2009 will continue application of compensation updates for all future years of employment. After December 31, 2009, participants stopped earning service credits and age growth updates. Prior to this change, benefits for participants in the Plan were calculated using a pension equity formula. This formula was a participant-account-based formula defined as a percentage of average pay based on age and years of service. Grandfathered PMRP participants are entitled to a benefit accrued under the terms of the PMRP based on their average monthly base compensation at either (1) retirement or termination or (2) December 31, 1998, depending upon a participant’s job category as of December 31, 1998. Participants who were

Speedway Retirement Plan

Notes to Financial Statements

December 31, 2016 and 2015

transferred from the SuperAmerica division of Ashland, Inc. effective as of January 1, 1999 and who participated in the Ashland Inc. and Affiliates Pension Plan are entitled to a supplemental benefit based on the prior plan's pension formula using final average compensation as of the participant's termination or retirement date.

Effective January 1, 2013, all compensation updates after December 31, 2012 were eliminated for the PMRP formula, the PEP formula and the supplemental Ashland formula as defined in the Plan. In addition, future social security offset accruals were eliminated for the PMRP formula. Effectively, the amendment froze the single life annuity unreduced for age as of December 31, 2012.

Commencing with the 2013 Plan Year, the GATT rate as determined by the current Plan provisions for purposes of calculating PMRP lump sums were limited to an annual increase as determined by the following table:

Plan Rate (Unadjusted)	Maximum Annual Plan Rate Adjustment
Up to 5.00	.25
≥ 5.01 – 7.00	.50
≥ 7.01	.75

If, however, the Plan provisions for calculating the annual lump sum interest rates result in a rate lower than the previous year's Participant Rate, such lower rate will be used without regard to any cap on the size of the reduction

A participant shall be considered fully vested the earlier of the attainment of normal retirement age of 65 or after completion of three years of vesting service. A participant shall accrue benefits for a particular period of service under the Plan. The Plan was amended effective January 1, 2010 to cease any additional accruals based on service after January 1, 2010.

The Plan provides a single life annuity, joint and survivor annuity, in addition to other optional forms of benefit, including lump sum. Participants who have terminated employment are entitled to commence benefits before attaining normal retirement age. Participants who have PMRP or supplemental Ashland benefits may be entitled to subsidized early retirement benefits upon retirement before age 65.

Plan Amendments

Effective January 1, 2015, the Plan was amended to provide any suit or legal action initiated by a claimant under the Plan must be brought by the claimant no later than one year following the issuance of a final decision on the claim for benefits under the Plan's claims and appeals process.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan were prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Date of Management's Review

Subsequent events were evaluated through October 16, 2017 which is the date the financial statements were available to be issued.

Use of Estimates

The preparation of financial statements in accordance with US GAAP requires the Plan to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities as of the dates of the financial statements and the reported amounts of additions and deductions during the respective periods. Actual amounts could differ from those estimates and assumptions.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes gains and losses on investments bought and sold as well as held during the year.

Contributions

Contributions to the Plan are recorded in the period that the Plan's actuary determines they relate to except that a contribution receivable is recorded to the extent that amounts due are pursuant to formal commitments as well as legal or contractual requirements in existence at the end of the Plan year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Expenses incurred in the administration of the Plan are paid out of Plan assets unless Marathon Petroleum Corporation ("MPC"), in its discretion, pays such expenses.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Notes to Financial Statements

December 31, 2016 and 2015

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Recently Issued Accounting Standards

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, "Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)." ASU No. 2015-07 removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the net asset value per share practical expedient under ASC 820. ASU No. 2015-07 was effective for the Plan retrospectively for the year ending December 31, 2016. Adoption of this accounting standard in 2016 did not have a material impact on the Plan's disclosures.

In February 2017, the FASB issued ASU 2017-06, "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting". ASU 2017-06 requires retrospective application and is effective for the Plan beginning January 1, 2019, with early adoption permitted. This new standard amends current disclosure requirements relating to plan investments in master trusts. The Plan's management is currently evaluating the impact this standard will have on the Plan's financial statements.

3. Investments

Substantially all assets of the Plan are held in the Marathon Petroleum Master Retirement Trust ("the Master Trust"). The Master Trust assets are allocated between the Plan and the Marathon Petroleum Retirement Plan based on each plan's proportionate interest in the Master Trust as calculated on a monthly basis.

The Master Trust has the following plans and accounts with their respective proportionate interest as of December 31, 2016:

	2016	2015
Marathon Petroleum Retirement Plan	90.0%	89.5%
Speedway Retirement Plan	10.0%	10.5%
	100.0%	100.0%

Investment income and administrative expenses relating to the Master Trust are allocated based on average monthly balances invested by each plan, other than items specific to one or the other plan.

The remaining assets of the investable funds of the Plan and the Marathon Petroleum Retirement Plan are combined and held in the UCF Marathon Petroleum Group Trust ("UCF Trust"), with each plan having a proportionate interest in the assets of the UCF Trust. The Sub-Trustee is the trustee of the UCF Trust. The UCF Trust is not considered a master trust or a 103-12 investment entity for reporting purposes because the UCF Trust is one of many unrelated group trusts held within UCF's Master Trust. Thus, the Plan reports its interest in the UCF Trust assets, income, and expenses, which are allocated based on each plan's historical participation.

4. Fair Value Measurements

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. There are three approaches for measuring the fair value of assets and liabilities: the market approach, the income approach and the cost approach, each of which includes multiple valuation techniques. This hierarchy consists of three broad levels:

- Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and liabilities. These inputs have the highest priority;
- Level 2 inputs consist of observable market-based inputs or unobservable inputs that are corroborated by market data, and are either directly or indirectly observable as of the measurements date;
- Level 3 inputs are unobservable inputs that are not corroborated by market data and may be used with internally developed methodologies that result in management's best estimate of fair value. These inputs have the lowest priority.

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following provides a description of the valuation techniques employed for each major plan asset category:

- Cash and cash equivalents – Cash and cash equivalents include a collective fund serving as the investment vehicle for the cash reserves and cash held by third-party investment managers. The collective fund is valued at net asset value ("NAV") on a scheduled basis using a cost approach, and is considered a Level 2 asset. Cash and cash equivalents held by third-party investment managers are valued using a cost approach and are considered Level 2. The non-Master Trust cash and cash equivalents include cash on deposit and an investment in a money market mutual fund that invests mainly in short-term instruments and cash, both of which are valued using a market approach and are considered Level 1. The money market mutual fund is valued at the NAV of shares held.
- Equity – Equity investments include common & preferred stock, mutual and pooled funds, public and non-public investment trusts, and S&P 500 exchange-traded funds. Common & preferred stock is valued using a market approach. These assets are priced daily in active markets and are considered Level 1. Mutual and pooled equity funds are well diversified portfolios, representing a mix of strategies in domestic, international, and emerging market strategies. Mutual funds are publicly registered, valued at NAV on a daily basis using a market approach, and are considered Level 1 assets. Pooled funds are valued at NAV using a market approach, and are considered Level 2 assets. Investments in public trusts and S&P 500 exchange traded funds are valued using a market approach at the closing price reported in an active market and therefore are considered Level 1. Non-public investment trusts are considered Level 2 and are valued using a market approach based on the underlying investments in the trust, which are publicly traded securities.

- Fixed Income – Fixed income investments include corporate bonds, U.S. dollar treasury bonds, and municipal bonds. These securities are priced on observable inputs using a combination of market, income, and cost approaches. These securities are considered Level 2 assets. Fixed income also includes a well-diversified bond portfolio structured as a pooled fund. This fund is valued at NAV on a daily basis using a combination of market, income, and cost approaches. It is considered a Level 2 asset.
- Private Equity - Private equity investments include interests in limited partnerships which are valued using information provided by external managers for each individual investment held in the fund. These holdings are considered Level 3.
- Real Estate - Real estate investments consist of interests in limited partnerships. These holdings are either appraised or valued using investment manager's assessment of assets held. These holdings are considered Level 3.
- Other - Other investments include two limited liability companies ("LLCs") with no public market. The LLCs were formed to acquire timberland in the northwest United States. These holdings are either appraised or valued using investment manager's assessment of assets held. These holdings are considered Level 3.

The following table represents significant unobservable inputs used in the fair value measurement of Level 3 assets for the year ended December 31, 2016:

Instrument	Fair Value	Valuation Technique	Unobservable Input	Range
Private Equity ⁽³⁾⁽⁴⁾	\$ 5,821,388	NAV	N/A	N/A

Other	\$ 1,838,880	Discounted Cash Flows	Discount Rate ⁽¹⁾ Revenue Growth ⁽²⁾	5.3-6.5%

The following table represents significant unobservable inputs used in the fair value measurement of Level 3 assets for the year ended December 31, 2015:

Instrument	Fair Value	Valuation Technique	Unobservable Input	Range
Private Equity ⁽³⁾⁽⁴⁾	\$ 6,077,218	NAV	N/A	N/A
Real Estate ⁽³⁾	\$ 5,000,242	NAV	N/A	N/A
Other	\$ 1,933,358	Discounted Cash Flows	Discount Rate ⁽¹⁾ Revenue Growth ⁽²⁾	5.3-6.5%

⁽¹⁾As much as 0.5% of the discount rate is for exit premium.

⁽²⁾ Revenue Growth is calculated using projections of future harvest volumes, physical measurement and statistical information of timber inventory, future timber prices and expenses.

⁽³⁾ The remaining lives of such investments range from less than one year to up to twelve years.

⁽⁴⁾ Investments are valued at net asset value ("NAV"), unless it is determined that this does not represent fair value. In such instances, fair value is estimated in accordance with the Plan's valuation practices. For 2016 & 2015, such adjustments decreased the fair value of private equity funds by an immaterial amount.

5. Accumulated Plan Benefits

A third party actuary determines the actuarial present value of accumulated plan benefits. The amount results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for termination after becoming vested, death, disability, withdrawal, and retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in determining accumulated plan benefits as of January 1, 2016 are as follows:

Interest Rate:	5.00%
Mortality Rate:	Aggregate 2006 base rates from the RP-2014 mortality study, projected generationally from 2006 using scale MP-2015
Assumed Average Retirement Age:	59

The interest rate assumption used to value accrued benefits was 5.0 percent for 2016 and 2015 respectively. The actuarial assumptions are based on the presumption that the Plan will continue. If the Plan is terminated, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The accumulated plan benefits information at the beginning of the 2016 plan year is as follows:

Actuarial present value of accumulated plan benefits:

Vested benefits:	
Participants currently receiving payments	\$ 14,435,257
Other participants	127,060,156
Total vested benefits	<u>141,495,413</u>
Nonvested benefits	9,651,756
Total actuarial present value of accumulated plan benefits	<u>\$ 151,147,169</u>

The change in the actuarial present value of accumulated plan benefits from last actuary valuation to current actuary valuation date is attributed to the following:

Actuarial present value of accumulated plan benefits at beginning of year	\$ 160,060,955
(Decrease)/increase during the year attributable to:	
Benefit payments	(9,176,437)
Interest accumulation	7,776,435
Actuarial assumptions	(3,496,462)
Benefits accumulated, net of experience gain or loss or changes in data	<u>(4,017,322)</u>
Net change	(8,913,786)
Actuarial present value of accumulated Plan benefits at end of year	<u>\$ 151,147,169</u>

6. Funding Policy

The actuarial cost method used for funding of the Plan is the “projected unit credit” method of actuarial valuation. The funding policy provides that Speedway will contribute amounts necessary to maintain the Plan on a sound actuarial basis and in accordance with the minimum funding requirements of ERISA plus any additional amounts which may be approved from time to time.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit and overall market risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

8. Party-In-Interest Transactions

Fees paid by the Plan to the Trustee in its capacity as Plan Trustee for 2016 were \$51,380 and for 2015 were \$87,584. Fees paid by the Plan to the Sub-Trustee in its capacity as Sub-Trustee for 2016 was \$62,573 and for 2015 was \$59,072. The Trustee and Sub-Trustee have been identified as parties-in-interest, but these transactions are exempt from the prohibited transaction rules.

9. Plan Termination

Speedway may amend, terminate, or otherwise modify the Plan at any time. In the event of the termination of the Plan, the assets thereof shall be distributed in accordance with Section 4044 of ERISA. The Plan is a covered plan under the plan termination insurance provisions of ERISA, and the Pension Benefit Guaranty Corporation (“PBGC”) guarantees the payments of certain benefits thereunder. Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants’ benefits. Whether a particular participant’s accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

10. Income Tax Status

The Plan received a favorable determination letter on November 24, 2015 from the IRS stating that the Plan is qualified under Section 401(a) of the Code. The determination letter expired on January 31, 2016. The Plan was amended and restated effective as of January 1, 2016 and submitted in a determination letter application to the IRS on January 29, 2016, and was determined favorable on February 24, 2017. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016 there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2013.

11. Commitments

At December 31, 2016 and 2015, the Plan had additional funding commitments related to various real estate and limited partnership investments amounting to \$2 million and \$2.5 million respectively.

12. Subsequent Events

The Plan was amended effective as of April 1, 2017 to appoint David Sauber as the Plan Administrator.

Northern Trust was appointed successor trustee of the Marathon Petroleum Group Trust effective as of September 30, 2017.
