Effective January 1, 2015, only hourly employees covered by specified collective bargaining agreements in the Plan document are eligible to participate in the Plan upon hire. All other hourly employees became eligible for the Wolverine Salaried 401(k) Plan.

During 2016, ITT Inc. acquired Wolverine Advanced Materials, LLC. ITT Inc. approved, on May 16, 2016, to merge the Plan into the ITT Retirement Savings Plan. Effective January 1, 2017, an amendment was passed freezing all contributions to the Plan and all participants became eligible to participate in the ITT Retirement Savings Plan. All plan assets were transferred to the ITT Retirement Savings Plan on January 31, 2017.

Contributions

Participants may elect to contribute up to 100% of their base compensation, or the maximum dollar amount allowed by law, as a pre-tax deferral. The Company makes a matching contribution equal to 50% of the first 6% of participant pre-tax deferral contributions. The Company did not make a discretionary profit sharing contribution to the Plan in 2016.

Rollover contributions

Participants may contribute funds previously held for their account in another qualified employee benefit plan to the Plan. A participant shall be fully vested at all times in such amounts transferred into the Plan. Rollover contributions share in income and earnings under the terms of the Plan, but no employer contributions are made with respect to any rollover contribution.

Participant accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions and allocations of (a) the Company's matching contributions, (b) Company discretionary contributions and (c) Plan earnings (losses) and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in pre-tax deferral and rollover contributions plus actual earnings (losses) thereon. Participants will become vested in the Company's contributions plus actual earnings (losses) thereon upon being credited with three years of vested service.

Note 1–Description of the plan–continued

Notes receivable from participants

Effective January 1, 2014 the Plan removed the loan provision of the Plan. Prior to that date, participants could borrow against their vested account balance a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of the participant's vested account balance. Loans are secured by the vested balance in the participant's account, and bear interest at rates commensurate with current interest rates charged for loans made under similar circumstances by lending institutions. The term of any loan shall not exceed five years, except in the case of a loan used to acquire any dwelling to be used as a primary residence.

Payment of benefits

On termination of service due to death, permanent disability, financial hardship, retirement or upon attainment of age 59 ½, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or in annual installments over a fifteen year period. Distributions must commence by March 31 of the calendar year following the calendar year the participant reaches age 70½ and has separated from service.

Forfeitures

When certain terminations of participation in the Plan occur, the non-vested portion of the participant's account, as defined by the Plan, represents a forfeiture. Forfeitures are used to reduce the Company's contributions or pay Plan expenses for the year. At December 31, 2016 and 2015, forfeited non-vested accounts totaled \$0, respectively. These accounts are used to reduce future employer contributions.

Administrative expenses

Administrative expenses are paid by the Plan unless the Company elects to make payment.

Plan termination

As discussed above, the Plan merged into a Successor Plan. Although it has not expressed any intent to do so, the Company has the right under the Plan Agreement to discontinue its contribution at any time and to terminate the Successor Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants will become fully vested in their accounts.

Note 2–Significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion and disclosures related to fair value measurements.

Investment transactions are accounted for on a trade-date basis, and realized gains and losses on sales of securities are determined using the average cost method. Income from investments is recognized when earned. Purchases and sales of securities are recorded on a trade date basis. Interest income is rewarded on the accrual basis. Dividends are recorded on the ex-dividend basis.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based on the terms of the plan document.

Payment of benefits

Benefits are recorded when paid.

Risks and uncertainties

The Plan utilizes various investment instruments, including mutual funds and common/collective trust funds. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the financial statements.

Subsequent events

The Plan has evaluated subsequent events through October 11, 2017, the date the financial statements were available to be issued.

Effective January 1, 2017, an amendment was passed freezing all contributions to the Plan and all participants became eligible to participate in the ITT Retirement Savings Plan. Effective January 31, 2017, the Plan and Plan assets were merged into the ITT Retirement Savings Plan.

Recently issued accounting pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent) (ASU 2015-07). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which the fair value is measured using the net asset value per share practical expedient. ASU 2015-07 also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. ASU 2015-07 should be applied retrospectively to all periods presented and is effective for annual periods beginning after December 15, 2016 with early adoption permitted. The Plan has elected to early adopt the new guidance applicable to the Plan for the year ended December 31, 2016, and applied the changes retrospectively to the Plan year ended December 31, 2015.

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I clarifies fully benefit-responsive investment contracts are limited to direct investments between the Plan and the issuer. Part I also eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measurement for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent five percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured at fair value. Plans will continue to disaggregate investments that are measured at fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements should be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. The Plan adopted the applicable provisions of ASU 2015-12 for the plan year ending December 31, 2016. The adoption of ASU 2015-12 resulted in the reclassification of \$320 related to the adjustment from fair value to contract value for fully benefit responsive investment contracts to the common collective trust fund within the statement of net assets available for benefits as of December 31, 2015.

Reclassification

Certain 2015 amounts have been reclassified for comparative purposes to conform to the presentation of the 2016 financial statements. These reclassifications have no effect on the previously reported net assets available for benefits.

Note 3—Investments

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Reliance Trust, (the Trustee) has certified that the following data included in the accompanying financial statements is complete and accurate with respect to investments.

- Investments
- Net appreciation in fair value of investments
- Interest and other income
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4—Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification Topic, Fair Value Measurement, are described as follows:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include:

- a. Quoted prices for similar assets or liabilities in active markets;
- b. Quoted prices for identical or similar assets or liabilities in inactive markets;
- c. Inputs other than quoted prices that are observable for the asset or liability;
- d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note 4–Fair value measurements – continued

Following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value by the Plan. There have been no changes in the methodologies used at December 31, 2016.

Mutual Funds – valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year end. The NAV is based on the fair value of the underlying investments held by the fund, less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Common/Collective Trust Fund – valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level, within the fair value hierarchy, the Plan's assets carried at fair value:

Description	Total	Fair Value Measurements at December 31, 2016		
		Using		
		Level (1)	Level (2)	Level (3)
Mutual funds	\$ 2,368,586	2,368,586	\$ 0	\$ 0
Total investments in the fair value hierarchy	2,368,586	<u>\$ 2,368,586</u>	<u>\$ 0</u>	<u>\$ 0</u>
Investments measured at NAV ^(a)	<u>478,014</u>			
Total	<u>\$ 2,846,600</u>

Note 4—Fair value measurements-continued

Description	Total	Fair Value Measurements at December 31, 2015

		Level (1)	Level (2)	Level (3)
Mutual funds	2,081,433	\$ 2,081,433	\$ 0	\$ 0
Total investments in the fair value hierarchy	2,081,433	\$ 2,081,433	\$ 0	\$ 0
Investments measured at NAV ^{(a) (b)}	447,813			
Total	2,529,246			

- (a) In accordance with Subtopic 820-10, certain investments that were measured at the NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.
- (b) In accordance with ASU 2015-12, indirect holdings, which were reported as a common/collective trust fund in the prior year, are no longer presented as Level 2 but included in the Investments measured at the NAV. The 2015 schedule has been reclassified to reflect such change.

The common/collective trust fund has a daily redemption frequency. The fair value of the common/collective trust fund's fair value is \$478,014 and \$447,813 at December 31, 2016 and 2015.

Note 5—Tax status

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter dated March 31, 2014, from the Internal Revenue Service (IRS), that the Plan, as designed, is qualified for federal income tax-exempt status. The Plan has not individually sought its own letter.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6–Related party transactions and party in interest transactions

Certain Plan investments are managed by the trustee, therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment. There have been no known prohibited transactions with a party in interest, except as noted in the supplemental schedule h, line 4(a) – schedule of delinquent participant contributions.

Note 7–Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31:
