PENSION PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

Note 1 - Description of plan and significant accounting policies

The following description of the University of Toledo Physicians, LLC Pension Plan and Trust (the Plan) is provided for general information purposes only. Participants should refer to the Summary Plan Description for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of University of Toledo Physicians Clinical Faculty, Inc. (the Company and Plan Administrator), formerly known as Medical College of Ohio Clinical Faculty, Inc. and Associated Physicians of the Medical College of Ohio, Inc., and provides retirement benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

The contributions of the Company to the Plan are in an amount equal to either 15% or 8% of the compensation paid to all active participants subject to the Internal Revenue Code of 1986 (IRC) limitations on annual additions to participants' accounts. Each participant is allocated a share of the Company's contribution in proportion to the ratio of the participant's allowable annual compensation to the total allowable annual compensation of all participants. Company contributions equal to 15% of compensation paid are made to active employees that are classified as physicians, CRNA's, AA's, or Senior Management and 8% to all other employees.

Participant accounts

Each participant's account is credited with their allocation of the Company's contribution and Plan earnings (losses). Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. All contributions and earnings, excluding self-directed accounts, are invested among the funds offered by the Plan at the discretion of the participant.

Vesting

Participants hired prior to September 1, 2006, are immediately vested in the Company contributions plus earnings (losses) thereon. For employees hired after September 1, 2006, participants are vested in Company contributions plus earnings (losses) subject to a three year graded vesting schedule.

Self-directed accounts

The Pension Committee may permit a participant to self-direct the investment of amounts held in their account to investments other than the mutual funds offered by the Plan. Any amounts so designated are segregated and represent an investment for the benefit of the self-directed account.

NOTES TO FINANCIAL STATEMENTS – CONTINUED
December 31, 2016 and 2015

Note 1 - Description of plan and significant accounting policies – Continued
Forfeitures

Forfeitures accumulated from terminated, non-fully vested participants are used first to reduce future employer contributions. The remaining amount of forfeitures is used to pay plan expenses, and then any excess is reallocated to participants as a discretionary employer contribution. The Company used \$126,649 of forfeitures to reduce employer contributions and \$69,864 to reduce expenses during the Plan year ended December 31, 2016. At December 31, 2016 and 2015, forfeitures held in a separate account were \$74,344 and \$51,839, respectively.

Notes receivable from participants

Loans are made at the participant's request and are authorized by the Plan Administrator. Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of the vested balance of the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably through payroll deductions. Repayment terms include up to 5 years, or 10 years if funds are borrowed for a principal residence. The interest rate charged in 2016 ranged from 3.25% to 3.50%.

Loans to participants are reported at their unpaid principal balances plus any accrued but not paid interest.

Payment of benefits

Upon termination of service, due to death, disability, or retirement, a participant may elect to receive a lump-sum payment or in equal monthly, quarterly, semiannual or annual installments over a specified period, equal to the value of the participant's vested interest in his or her account.

Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. Upon termination, the assets of the Plan may be distributed immediately to the participants or otherwise provided in the Plan and participants will become 100% vested in the employer-contributed portion of their accounts.

Valuation of investments and income recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Pension Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, trustees and insurance company. See Note 4 for discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 1 - Description of plan and significant accounting policies – Continued

Use of management's estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Accordingly, actual results may differ from those estimates.

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Plan expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Note 2 - Information prepared and certified by trustee

The trustees of the Plan hold the accounts in trust and execute all investment transactions, based on participants' direction, including the self-directed investments. The related financial information included in the accompanying financial statements and schedule is based solely on information provided by the trustee, certified as complete and accurate. State Street Bank and Trust Company, Massachusetts Fidelity Trust Company, and Transamerica Financial Life Insurance Company Inc. were the trustees during 2016 and 2015.

The following presents investments that were certified by the trustee of the Plan as complete and accurate at December 31, 2016 and 2015:

	<u>2016</u>	<u>2015</u>
Investments:		
Mutual funds at fair value	\$ 58,785,023	\$ 51,871,827

Note 3 - Income tax status

The IRS has determined and informed the Company by a letter dated November 18, 2013, that the prototype plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain tax position that more likely than not would not be sustained by examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Note 4 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access at the measurement date.

Level 2: Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Note 4 - Fair value measurements – Continued

- Self – directed money market, mutual funds, and stock investments: Valued the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.
- Self – directed annuity investments: Valued based on the internal models used by the independent pricing service.
- Mutual funds: Valued the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.
- General account: Valued at the cumulative value of the underlying portfolio and contract termination provision.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

For the years ended December 31, 2016 and 2015, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015.

Assets at fair value as of December 31, 2016:

	Level 1	Level 2	Level 3	Total

Note 5 - Transactions with parties-in-interest

Certain Plan investments are shares of mutual funds managed by State Street Bank and Trust Company, Massachusetts Fidelity Trust Company, and Transamerica Financial Life Insurance Company Inc.. State Street Bank and Trust Company, Massachusetts Fidelity Trust Company, and Transamerica Financial Life Insurance Company Inc. are the trustees as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. As described in Note 1, the Plan made direct payments to third party service providers of \$185,456, which were not covered by revenue sharing. The Plan Sponsor pays directly any other fees related to the plan's operations.

Note 6 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 7 - Investment in Guaranteed Pooled Fund

The Plan has assets invested in the Transamerica Financial Life Insurance Company Guaranteed Pooled Fund. The Guaranteed Pooled Fund is a guaranteed pooled separate account provided under a group annuity contract issued by Transamerica Financial Life Insurance Company, Inc. (TFLIC). Transamerica Retirement Solutions Corporation ("Transamerica") is the service agent for such contract. The investment is considered a fully benefit-responsive investment contract. TFLIC maintains the contributions in a pooled separate account. The Plan does not own any underlying securities of this Fund, and has guaranteed benefits under the terms of the contract. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The TFLIC issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Note 7 - Investment in Guaranteed Pooled Fund – Continued

Because the TFLIC is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investments held by the Guaranteed Pooled Fund. The TFLIC is presented on the face of the statement of net assets available for benefits at contract value. Contract value, as reported to the Plan by Transamerica, represents the contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2016 and 2015, was \$13,457,347 and \$13,004,503, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 1.0%. Such interest rates are reviewed on an annual basis for resetting.

Certain events limit the Plan's ability to transact at contract value with TFLIC. Such events include the following: (a) amendments to the Plan documents (including complete or partial termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with Plan participants, is probable.

Note 8 - Subsequent events

The Plan has evaluated subsequent events through October 12, 2017 the date the financial statements were available to be issued. There were no subsequent events that required adjustment to the financial statements or additional disclosures.
