TOM BELL GROUP 401 (k) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2016 AND 2015

NOTE 1 - DESCRIPTION OF PLAN

The following description of Tom Bell Group 401 (k) Retirement Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. *General*. The Plan is a defined contribution plan covering all full-time employees of the Company who have six months of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees oversees governance of the Plan. The Plan's Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Trustees.

2. *Contributions*. Each year, participants may contribute an amount set forth in a salary reduction agreement. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, bonds, government securities as investment options for participants. Contributions are automatically invested in a designated balanced fund until changed by the participant. The Company may choose not to make matching contributions to the Plan for a particular Plan year. Additional amounts may be contributed at the option of the Company. Contributions are subject to certain limitations.

3. *Participant Accounts*. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contribution and (b) Plan earnings (losses), and charged with an allocation of any administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. *Vesting.* Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after six or seven years of credited service (depending on whether the Plan is top heavy) or upon attaining the normal retirement age of 65.

5. *Investment Options.* Upon enrollment in the Plan, a participant may direct employee contributions to various investment options under the Fidelity Management Trust Company. Funds are invested in guaranteed fund accounts or pooled fund accounts with the investment company.

6. *Participant Notes Receivable.* Participants may borrow from their fund accounts a minimum of $1,000 and to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The notes are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 4.50%, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest is paid ratably through monthly payroll deductions. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Notes fund. Loan terms range from one to five years or up to fifteen years for purchase of a primary residence. The loans are secured by an irrevocable pledge of 50 percent of the balance in the participant's account and bear interest at a rate determined by the Advisory Committee to be commercially reasonable. The loan must provide for at least simi-monthly payments under a level amortization schedule.

7. *Payments of Benefits* . On termination of service due to death, disability, or retirement, a participant receives a lump - sum amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump - sum distribution.

8. *Forfeited Account* . At December 31, 2016 and 2015, forfeited non-vested accounts totaled $0 and $0, respectively. These accounts will be used to reduce future employer contributions. During the years ended December 31, 2016 and December 31, 2015 the Company's contributions were reduced by $0 and $0, respectively, from the forfeited non-vested accounts.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is relevant measure of the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Notes Receivable - Participant Loans

Notes Receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2016 and 2015, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Investment Valuation and Income Recognition

Investments are reported at fair value and contract value. Fair value is the price received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Investment Committee determines the Plan's valuation policies. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

Certain expenses incurred in connection with the general administration of the Plan are paid by the Plan and are recorded in the accompanying statement in net assets available for benefits. Fees related to the administration of the notes receivable from participants are charged directly to the participant's accounts and are included in administrative expense. Investment related expenses are included in net appreciation of fair value of investments. Other expenses of the Plan are paid for by the Company and are not included in the statements of changes in net assets available for benefits.

NOTE 3 - FAIR VALUE MEASUREMENTS

FASB Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

Fair Value Measurements

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level I inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1). Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net assets values of the shares as reported by the fund. The mutual funds held by the Plan are open-end mutual funds registered with the U.S. Securities and Exchange Commission. The funds must publish their daily net asset value and transact at that price. The mutual funds held by the Plan are considered to be actively traded. The fair values of common stocks are based on the closing price reported on the active market where the individual securities are traded.

Level 2 Fair Value Measurements
The fair value of corporate bonds and U.S. government securities are valued using a market approach on yields currently available on comparable securities of issuers with similar credit ratings.

Level 3 Fair Value Measurements
Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016, and December 31, 2015.

Mutual Funds:
The fair value of mutual funds is based on quoted net asset value of the shares held by the Plan at year-end.

Common/Collective Trust Fund
The fair value of the common/collective trust fund is based on the net asset value (NAV) of units of collective trust, exclusive of the adjustments to contract value. The use of NAV as fair value is deemed appropriate as the collective trust funds do not have finite lives, unfunded commitments relating to these types of investment, or significant restrictions on redemptions.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes it's valuation methods are appropriate and consistent with market participants, the use of different methodologies, or assumptions to determine the fair value of certain financial instruments could result in a different fair value at the reporting date.

The following tables set forth by level within the fair value hierarchy the Plan's assets at fair value as of December 31, 2015 and 2016:

	Investments at Fair Value as of December 31, 2016			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Unobservable Inputs (Level)	Total

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

NOTE 6 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

NOTE 7 - RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

The Plan's investments are in separate accounts managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fidelity Investment Institutional provides recordkeeping services to the Plan. NFP Securities, Inc. provides adviser services to the Plan, therefore, NFP Securities, Inc. is also a party-in-interest to the Plan. Aggregate fees paid to Fidelity Investments and NFP Securities, Inc. for the years ended December 31, 2016 and December 31, 2015 were $29,401 and $23,831, respectively. These amounts are recorded as administrative expenses in the statements of changes in net assets available for benefits. Additionally, certain other investment related fees incurred by the Plan are included in net appreciation in fair value of investment as they are paid through revenue sharing, rather than as direct payment. The Company pays directly any other fees related to the Plan's operations.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit and market risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of Net Assets Available for Benefits.

NOTE 9 - TAX STATUS

Effective January 1, 1997, the Plan adopted a non-standardized form of a prototype plan sponsored by Dick DeWese Chevrolet, Inc. D/B/A Tom Bell Chevrolet Company. The Plan obtained a determination letter on October 18, 1995, in which the Internal Revenue Service stated the Plan, as designed then, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United State of America require the Plan's Management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2014.

NOTE 10 - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 16, 2017, which is the date the financial statements were available to be issued.
