Investments and Benefits Committee
LORD Corporation

We have audited the accompanying financial statements of LORD Corporation Salaried Exempt Employees' Savings and Retirement Plan, which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, and the related statement of changes in net assets available for benefits for the year ended December 31, 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of LORD Corporation Salaried Exempt Employees' Savings and Retirement Plan at December 31, 2016 and 2015, and the changes in its net assets available for benefits for the year ended December 31, 2016, in conformity with U.S. generally accepted accounting principles.

Supplemental Schedule

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2016, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Report of Independent Auditors

Investments and Benefits Committee
LORD Corporation

We have audited the accompanying financial statements of LORD Corporation Salaried Exempt Employees' Savings and Retirement Plan, which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, and the related statement of changes in net assets available for benefits for the year ended December 31, 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of LORD Corporation Salaried Exempt Employees' Savings and Retirement Plan at December 31, 2016 and 2015, and the changes in its net assets available for benefits for the year ended December 31, 2016, in conformity with U.S. generally accepted accounting principles.

LORD Corporation
Salaried Exempt Employees' Savings and Retirement Plan
Notes to Financial Statements
December 31, 2016

1. Description of Plan

The following description of the LORD Corporation Salaried Exempt Employees' Savings and Retirement Plan (the Plan) provides general information about the Plan's provisions. LORD Corporation (LORD, Employer, or the Company) is the Plan sponsor. Participants should refer to the Plan document and summary plan description for a more complete description of the Plan's provisions, copies of which may be obtained from the Plan sponsor.

General

The Plan is a defined contribution plan that is designed to provide an incentive for eligible employees to save for retirement by deferring a basic employee contribution and acquiring matching contributions from LORD under the conditions and limitations set forth in the Plan document. Eligible participants are automatically enrolled in the Plan upon hire unless they affirmatively decline to participate. Effective January 1, 2005 an employer defined contribution component was added to the Plan.

Fidelity Management Trust Company is the trustee and recordkeeper for the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Participant Contributions

Each year, participants may contribute up to 25% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). If automatically enrolled, a participant's deferral is set at 5% of eligible compensation until changed by the participant. Participants who have attained age 50 before the end of the year are eligible to make catch-up contributions. All contributions are subject to certain limitations of the Internal Revenue Code (the Code). Effective January 1, 2016, participants may contribute up to 50% of pretax annual compensation, subject to Internal Revenue Service (IRS) limitations.

Investment of Participant Contributions

Participants direct their elective contributions into one or more investment options administered by Fidelity Institutional Retirement Services Company, a qualified investment manager. Additionally, participants can choose to invest outside of these selected funds through the Fidelity BrokerageLink Account, which is a brokerage account for retirement portfolios. Participants can change their future contribution amounts or investment options on a daily basis. Participants who are automatically enrolled have their contributions invested in the applicable designated target fund based on their age until they change their election.

Salaried Exempt Employees' Savings and Retirement Plan

1. Description of Plan (continued)

Company Matching Contributions

Company matching contributions are made solely at the discretion of the Plan Sponsor. Unless a change in the contribution level is communicated in writing to each eligible participant, as soon as administratively practicable after the determination has been made, the Company shall make matching contributions, which aggregated with the Employer's share of forfeitures, shall equal 40% of the first 5% of compensation contributed to the Plan in the form of basic employee contributions for each participant. Matching contributions, other than deemed made from Employer securities held in trust from terminated members, are made in Employer securities.

Employer Defined Contributions

The Plan contains an employer defined contribution component, consisting of discretionary employer contributions for those employees who were covered under the LORD Corporation Salaried Employees' Pension Plan which was generally frozen effective December 31, 2004 (or who would have been covered under such pension plan if participation therein had not been frozen). Following each payroll period, the Company contributes this retirement investment account (RIA) contribution to eligible employees based on the participant's age at the beginning of the payroll period.

The RIA contribution is determined for those hired prior to January 1, 2010 as follows:

<u>Age as of Beginning of Payroll Period</u>	<u>Percentage of Eligible Earnings</u>
Under age 30	3.0%
30 – 39 years	4.0%
40 – 49 years	5.5%
Age 50 and over	8.5%

The RIA contribution is determined for those hired after January 1, 2010 as follows:

<u>Age as of Beginning of Payroll Period</u>	<u>Percentage of Eligible Earnings</u>
20 – 29 years	3.0%
30 – 39 years	4.0%
Age 40 and over	5.5%

Salaried Exempt Employees' Savings and Retirement Plan
Notes to Financial Statements (continued)

1. Description of Plan (continued)

Conversion Out of LORD Corporation Stock

Fully vested employees can cash out a portion of their LORD stock and invest in any of the investment options offered by the Plan. This conversion option is permitted semi-annually, in April and September. Stock may be converted in amounts up to 20% of the total shares owned. Whenever the shares of Employer stock held are equal to \$5,000 or less, only 100% of such shares can be liquidated. LORD stock held in an account of a terminated employee follows mandatory liquidation procedures, not to extend beyond a five-year period.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's matching and RIA contributions and Plan earnings, and is charged with an allocation of administrative expenses. Plan earnings are allocated based on the participant's share of net earnings or losses of their respective elected investment options. Allocations of administrative expenses are based on the participant's account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon; and become 100% vested in the value of their Company matching contributions and RIA contributions in the event of death, disability, or upon attaining age 65 or the early retirement date. Otherwise, vesting in the Company's matching contributions and their RIA contributions are determined on the basis of 20% for each full year of employment. A participant is 100% vested after five years of credited service.

Forfeitures

Upon termination of employment, participants forfeit their non-vested balances. If a participant is rehired within a five-year period, the forfeited contributions are reinstated if the participant repays to the Plan the entire amount which was distributed following their termination. Forfeited balances of terminated participants' non-vested accounts are used to reduce future Company matching contributions and RIA contributions first, with remaining forfeitures, if any, used to reduce Plan expenses. Unallocated forfeited balances as of December 31, 2016 and 2015 were \$21,119 and \$143,278, respectively, and forfeitures used to reduce Company contributions for 2016 were \$354,693.

Stock Rights

Any Employer stock received as a stock dividend, a stock split, or as a result of a reorganization of the Employer shall be allocated to the Employer securities to which they are attributable. Any cash dividends received on Employer stock are allocated to the participant's Employer Securities Dividend Account and invested pursuant to their direction.

LORD Corporation
Salaried Exempt Employees' Savings and Retirement Plan
Notes to Financial Statements (continued)

1. Description of Plan (continued)

Participant Loans

Participants may borrow from their basic contribution and rollover accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms may not exceed five years. A participant may not have more than two loans outstanding at any point in time. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 6.25% to 6.5%, which is commensurate with local prevailing rates in effect on the loan origination date. Principal and interest is paid ratably through payroll deductions or direct payments. If the loan is not repaid, it will automatically be treated as a taxable distribution to the participant.

Payment of Benefits

Upon retirement, disability, or death, a participant whose vested account balance exceeds \$1,000 may elect to roll the balance over to an eligible retirement plan or receive cash installments, in a lump sum or as a partial payout with the remainder payable in cash installments. If the employee terminates employment for any reason other than retirement, disability, or death, the participant may receive a rollover to an eligible retirement plan or a lump sum distribution equal to their vested account balance. A participant whose vested account balance is \$1,000 or less and has not commenced receiving installment payments will automatically receive an immediate lump-sum distribution equal to their vested account balance.

If a participant's vested accrued benefit exceeds \$1,000 but does not exceed \$5,000, this benefit is payable to the participant prior to his/her normal retirement date without his/her consent. If the participant does not elect to have this benefit rolled over to an eligible retirement plan or paid directly to themselves, the Plan administrator will direct an automatic rollover to an individual retirement plan designated by the Plan administrator in accordance with IRC §7701(a)(37).

In-service withdrawals are available in certain limited circumstances, as defined by the Plan. At any time after the employee attains age 59½, a participant may make a partial or full withdrawal of vested amounts in Plan accounts, other than that portion attributable to RIA contributions. Hardship withdrawals are allowed for active employees incurring an immediate and heavy financial need, as defined by the Plan. Hardship withdrawals are strictly regulated by the IRS and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Investment and Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan's provisions. Administrative expenses paid by the Plan can include recordkeeping, audit and trustee fees. Expenses relating to purchases, sales, or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate. Expenses that are paid by the Company are excluded from these financial statements.

Salaried Exempt Employees' Savings and Retirement Plan
Notes to Financial Statements (continued)

1. Description of Plan (continued)

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants will become 100% vested in their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are recorded when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 or 2015. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, for Department of Labor 5500 form reporting purposes, the participant loan balance is reduced and a benefit payment is recorded.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). The Plan's Investment and Benefits Committee is responsible for determining the Plan's valuation policies and analyzing information provided by the valuation specialists, investment advisers, custodian and insurance company that is used to determine the fair value of the Plan's investments.

Salaried Exempt Employees' Savings and Retirement Plan
Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

See Note 4 for further discussion and disclosures related to fair value measurements, including instruments that are categorized within Level 3 of the fair value hierarchy.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

New Accounting Pronouncements

In May 2015, the FASB issued Accounting Standards Update (ASU) 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)*, (ASU 2015-07). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification (ASC) 820, *Fair Value Measurement*. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for entities (other than public business entities) for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented. Management adopted ASU 2015-07 in 2015.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I of the ASU eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II of the ASU eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Parts III of the ASU is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015. Management adopted Parts I and II in 2015.

Salaried Exempt Employees' Savings and Retirement Plan
Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

New Accounting Pronouncements (continued)

In February 2017, the FASB issued ASU 2017-06, *Employee Benefit Plan Master Trust Reporting*, (ASU 2017-06). ASU 2017-06 requires a plan's interest in a master trust and any change in that interest to be presented in separate line items in the statement of net assets available for benefits and in the statement of changes in net assets available for benefits, respectively. Further, ASU 2017-06 removes the requirement to disclose the percentage interest in the master trust for plans with divided interests and requires that all plans disclose the dollar amount of their interest in each of the master trust's general types of investments. ASU 2017-06 is effective for fiscal years beginning after December 15, 2018, with retrospective application to all periods presented. Early application is permitted. Management has elected to adopt ASU 2017-06 early.

Subsequent Events

Management evaluated subsequent events for the Plan through October 12, 2017, the date the financial statements were available to be issued.

3. Nonparticipant-Directed Investments

Information about the net assets and the significant components of changes in net assets related to the nonparticipant-directed investment is as follows:

4. Fair Value Measurements

The fair value framework establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below.

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

Following is a description of the valuation techniques and inputs used for each general type of investment measured at fair value by the Plan. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Registered Investment Company Funds (Mutual Funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

LORD Corporation
Salaried Exempt Employees' Savings and Retirement Plan
Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

Collective Trust Funds: Valued at the NAV of units of a collective trust. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities, and then divided by the number of units outstanding. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Pooled Separate Account: Valued at the NAV equivalent of the plan's interest in New York Life's Pooled Separate Account No. 25 as of the valuation date. The NAV (or its equivalent), as provided by the custodian, is used as a practical expedient to estimate fair value.

Plan Interest in LORD Corporation Master Savings Trust: A description of the valuation methodology is in Note 5.

Additional investments purchased through the BrokerageLink® investment option include the following additional types of investments:

Common Stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Preferred Stocks, Warrants, and Options: Valued at the quoted market price of the issuer's unrestricted common stock, less an appropriate discount.

Corporate Bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote, if available.

U.S. Government Securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

Certificates of Deposit – Traded: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Real Estate Investment Trusts and Publicly Traded Limited Partnership Interests: Valued at the NAV traded closest to year-end for units held, adjusted for activity between the trading date and the valuation date, if deemed appropriate.

4. Fair Value Measurements (continued)

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management has evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2016 and 2015, there were no significant transfers in or out of levels 1, 2 or 3.

5. Plan Interest in LORD Corporation Master Savings Trust

The Plan is a participant in the LORD Corporation Salaried, Hourly & Exempt Employee's Savings Trust ("LORD Corporation Master Savings Trust" or "the Trust"). The Trust was created for the purpose of receiving, holding, investing, and disbursing the assets of the employee savings plans sponsored by LORD Corporation. The assets of the Trust are held by PNC Bank (Trustee).

The sole investment of the Trust is shares of LORD Corporation Paired Class B Common Stock and Class C Preferred Stock, which is valued semi-annually by an independent valuation specialist. Although the income, cost and market valuation approaches are considered, emphasis is placed on the market approach (guideline company methodology) with an adjustment for a discount for lack of marketability.

Dividends on LORD Corporation stock are deposited in cash to each participant's account with the same allocation mix as the participant-directed contributions.

Investment income (loss) from the Trust is allocated among the individual participating plans based upon the shares of LORD Paired Class B Common Stock - Class C Preferred Stock allocated to each plan. The Trust is reported on a cash basis. Accrued investment income is reflected on the financial statements for each plan. All other changes in net assets available for benefits are specifically identified and are allocated to each plan. Accordingly, contributions, benefits paid to participants and transfers are all reflected on the financial statements for each plan.

Each participating plan's interest in the Trust is based on shares held at the beginning of the year plus shares for current year contributions and earnings less distributions. At December 31, 2016 and 2015, the Plan's interest in the net assets of the LORD Corporation Master Savings Trust was 61.71% and 59.55%, respectively.

Net appreciation in fair value of investments	\$ 14,866,789
LORD stock dividend	1,916,276
Total investment income	\$ 16,783,065

6. Risks and Uncertainties

The Plan invests in various investments that are exposed to various risks, such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Related-Party and Party in Interest Transactions

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company (Fidelity), which is the trustee and recordkeeper for the Plan and, therefore, these transactions qualify as party-in-interest transactions. The Plan invests in the common and preferred stock of the Company through the LORD Corporation Master Savings Trust. The Plan holds New York Life's Pooled Separate Account No. 25, which invests in a pool of securities managed by New York Life, the issuer. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA. During 2016, the Plan received \$1,175,178 in stock dividends from the Company.

8. Related-Party and Party in Interest Transactions (continued)

The Plan participates in a Revenue Credit Program (RCP) with Fidelity where revenue sharing credits are held in an unallocated account to be used to pay Plan expenses. At December 31, 2016 and 2015, the RCP account balances were \$94,065 and \$110,013, respectively. The total revenue sharing credits earned during the year ended December 31, 2016 was \$51,815. Investment advisory fees and administrative fees paid from this RCP account in 2016 was \$67,828. Other investment related expenses are included in net appreciation of fair value of investments.

9. Tax Status

The Plan has received a determination letter from the IRS dated February 24, 2014, stating that the Plan is qualified under Section 401(a) of the Code and therefore the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended and restated. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The Plan administrator and the Plan's tax counsel believe the Plan is being operated in compliance with the applicable requirements of the Code and therefore, believe the Plan, as amended and restated, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions.
