REGIONALCARE HOSPITAL PARTNERS RETIREMENT SAVINGS PLAN

Notes to the Financial Statements

December 31, 2016 and 2015

(1) Description of plan

The following description of the RegionalCare Hospital Partners Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan was a defined contribution plan which was adopted on May 1, 2010 to provide retirement benefits for employees of RegionalCare Hospital Partners Holdings, Inc. and Subsidiaries (the "Plan Sponsor"). The Plan covered substantially all employees who had completed one month of service ("participants"). The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

On April 29, 2016, the Plan Sponsor completed a merger with Capella Healthcare, Inc. The assets of the Plan were merged into the Capella Healthcare, Inc. 401(k) Retirement Plan (the "Capella Plan") effective at close of business on December 31, 2016, at which time the Capella Plan was renamed as the RCCH Healthcare Partners 401(k) Plan.

(b) Contributions

Participants could voluntarily make qualified retirement contributions to the Plan which were deductible by the participants for federal income tax purposes under Section 401(k) of the Internal Revenue Code ("IRC"). Participants could also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants could direct the investment of their contributions into various investment options offered by the Plan. In order to participate, participants must have made a minimum contribution of 1% of compensation. Participant contributions were permitted up to 100% of compensation.

Newly hired, eligible employees were automatically enrolled in the Plan at a deferral rate of 3% in the first month following the date eligibility requirements were met. The employee could opt out of this election or change the deferral percentage at any time. The automatic deferral rate increased by 1% each Plan year, up to 6% of the participant's compensation.

The Plan Sponsor could contribute a discretionary match of each participant's contributions depending on the subsidiary in which the participant was employed. Matching contributions occurred at two and four subsidiaries in 2016 and 2015, respectively.

Unrelated to the discretionary match contribution, the Plan Sponsor's Board of Directors could authorize an annual discretionary contribution to the Plan; however, an annual discretionary contribution by the Plan Sponsor was not required. No annual discretionary contribution was made by the Plan Sponsor during 2016 or 2015.

REGIONALCARE HOSPITAL PARTNERS RETIREMENT SAVINGS PLAN

Notes to the Financial Statements

December 31, 2016 and 2015

Plan Sponsor and participant contributions could not exceed the maximum amount deductible for federal income tax purposes.

(c) Participant accounts

Each participant's account was credited (charged) with the participant's contributions, Plan Sponsor matching contributions and allocations of Plan Sponsor discretionary contributions, investment earnings (losses), and administrative expenses. Allocations were based on a participant's compensation or account balance as defined in the plan agreement. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

(d) Vesting

Participants were immediately vested in their elective salary deferrals plus actual earnings (losses) thereon. Vesting in the Plan Sponsor's matching and discretionary contributions was based on years of continuous service. Participants vested prorata over five years of service, at which time they were fully vested.

(e) Notes receivable from participants

Participants could borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The notes receivable from participants were secured by the vested balance in the participant's account and bore interest at fixed rates ranging from 3.50% to 5.25%, which were commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest were collected ratably through payroll deductions.

(f) Payment of benefits

On termination of service due to death, permanent disability, or retirement, a participant could elect to receive a lump-sum payment equal to his or her entire account balance. For termination of service due to other reasons, a participant was entitled to receive only the vested interest in his or her account as a lump-sum distribution.

(g) Hardship withdrawals

The Plan permitted distributions in the event of a hardship, as defined in the plan agreement. These distributions were taxable and subject to a tax penalty equal to 10% of the hardship distribution amount if the participant was younger than age 59½. Hardship withdrawals were limited to the participant's salary deferral account balance, including rollovers, if the participant was younger than age 59½. If the participant had attained age 59½, hardship withdrawals could be distributed from the participant's entire vested account balance. Any participant receiving a hardship withdrawal was precluded from making any qualified contributions for six months after receiving the hardship withdrawal.

(h) Forfeited accounts

Forfeitures were created when participants terminated employment prior to becoming fully vested in the Plan Sponsor contribution portion of their accounts. Such forfeitures were first used to pay administrative expenses of the Plan; second, to restore benefits previously forfeited in accordance with Section 7.5(b) of the plan agreement; and third, to reduce Plan Sponsor matching contributions. At December 31, 2016 and 2015, forfeited nonvested accounts totaled \$308,393 and \$496,627, respectively. Forfeited nonvested accounts used amounted to \$425,208 and \$387,800 during 2016 and 2015, respectively.

(i) Administrative expenses

Certain expenses of maintaining the Plan were paid directly by the Plan Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are netted from the total distribution amount. Fees incurred by the Plan for the investment management services or recordkeeping are netted within net appreciation (depreciation) in fair value of investments, as they were paid through revenue sharing, rather than a direct payment from the Plan.

(2) Summary of significant accounting policies

(a) Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

(b) Investment valuation and income recognition

Investments are stated at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determined the Plan's valuation policies utilizing information provided by the investment advisers, custodian or trustees. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date.

(c) Notes receivable from participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant notes receivable were reclassified as distributions based upon the terms of the plan agreement.

(d) Payment of benefits

Benefits were recorded when paid.

(e) Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(f) Events occurring after reporting date

Management of the Plan has evaluated events and transactions that occurred between December 31, 2016 and October 16, 2017, which is the date that the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

(3) Summary of information certified by the custodian and trustees

The fully benefit responsive investment contract was certified as complete and accurate by MassMutual Life Insurance Company, custodian of the Plan, as of December 31, 2015 and for the period from January 1, 2015 through October 19, 2016. All other information was certified as complete and accurate by State Street Bank and Trust, trustee, for the period from January 1, 2015 through June 4, 2015, and by Reliance Trust Company, trustee, as of December 31, 2016 and 2015, and for the period from June 5, 2015 through December 31, 2016.

(4) Fair value measurements

Financial Accounting Standards Boards Accounting Standards Codification 820, *Fair Value Measurements*, provides the framework for measuring fair value. The framework provides a fair value hierarchy prioritizing the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets at fair value. There were no changes to the methodologies used during the years ended December 31, 2016 and 2015.

- (i) *Mutual funds*: Valued at the net asset value ("NAV") of shares held by the Plan at year end based on quoted prices in an active market.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to the Financial Statements

December 31, 2016 and 2015

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

Fair Value Measurements Using The Following Inputs

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Assets in the fair value hierarchy - mutual funds	\$ <u>99,844,942</u>	\$ <u>-</u>	\$ <u>-</u>	\$ 99,844,942
Investments measured at NAV, as a practical expedient (a)				<u>464,199</u>
Investments at fair value				\$ <u>100,309,141</u>

- (a) Certain investments were measured at NAV as a practical expedient to estimate fair value and, therefore, have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table summarizes investments, which solely consisted of a stable value collective trust fund, for which the fair value was measured using the NAV per share practical expedient as of December 31, 2015. There were no participant redemption restrictions for this investment; the redemption notice period was applicable only to the Plan.

(5) Investment contract with insurance company

The Plan held a traditional benefit-responsive investment contract with an insurance company, MassMutual Life Insurance Company, which totaled \$13,007,587 at December 31, 2015. Effective October 19, 2016, the Investment Committee elected to discontinue the fully benefit-responsive investment contract with MassMutual Life Insurance Company and transferred the funds in the fully benefit-responsive investment contract to the Fidelity Government Money Market Fund. The insurance company maintained the Plan's contributions in a general account which was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer was contractually obligated to repay the principal and a specified interest rate that was guaranteed to the Plan. The crediting rate was based on a formula established by the contract issuer. The crediting rate was reviewed on a quarterly basis for resetting. The guaranteed investment contract did not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

REGIONALCARE HOSPITAL PARTNERS RETIREMENT SAVINGS PLAN

Notes to the Financial Statements

December 31, 2016 and 2015

This contract met the fully benefit-responsive investment contract criteria and therefore was reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by MassMutual Life Insurance Company, represented contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants could ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due was dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations could have been affected by future economic and regulatory developments.

Certain events could have limited the ability of the Plan to transact at contract value with the issuer. Such events included, but were not limited, to the following: (1) the complete or partial termination of the Plan; (2) the establishment or activation of, or material change in, any Plan investment fund, or an amendment to the Plan or a change in the administration or operation of the Plan, including the removal of a group of employees from Plan coverage as a result of the sale or liquidation of a subsidiary or division or as a result of group layoffs or early retirement programs. No events were probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that would also limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allowed the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events included (1) an uncured violation of the Plan's investment guidelines, (2) breach of a material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without the consent of the issuer.

(6) Income tax status

The Plan received a favorable determination letter from the Internal Revenue Service ("IRS") on July 3, 2014 stating that the Plan was in compliance with the applicable requirements of the IRC. The Plan was required to operate in conformity with the IRC to maintain its qualification. The Plan had been amended since receiving the determination letter; however, the plan administrator believed that the Plan was designed and was operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress.

(7) Related party transactions

Certain investments were managed by MassMutual Life Insurance Company, the custodian of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Administrative expenses of \$135,558 and \$119,708 for 2016 and 2015, respectively, paid by the Plan to MassMutual Life Insurance Company, State Street Bank and Trust, and Reliance Trust Company qualify as party-in-interest transactions. The Plan also held notes receivable from participants which also qualify as party-in-interest transactions.

(8) Late remittance of participant deferrals

The Plan Sponsor was required by Department of Labor regulation to remit participant contributions as soon as practicable, but by no later than the fifteenth business day following the end of the month in which the amounts were withheld from wages. During 2016 and 2015, contributions totaling \$11,258 and \$49, respectively, were withheld on various dates and not remitted timely to the Plan.

Schedule C Soft Dollar Compensation Eligible Indirect Compensation Statement

Mutual fund investments of the plan (whether direct or indirect through a separate investment account) may have soft dollar arrangements pursuant to which the investment advisor or sub-advisor to the mutual fund (and/or its affiliates) may direct trades to certain brokers in exchange for research and other services, other than just trade execution. For plans investing directly or indirectly in the MassMutual Premier or Select Funds, MassMutual provided the required written disclosure regarding soft dollar compensation on the Schedule C Formula Description and/or EIC Statement Description Attachment. For all other mutual funds, MassMutual provided the required written disclosure in the Statement of Additional Information ("SAI").

For additional information on soft dollar compensation, refer to the section of the mutual fund's SAI that discusses brokerage allocation and other practices.
