Notes to Financial Statements

December 31, 2016 and 2015

Note 1 - Description of the Plan

The following description of the Precision Wire Components LLC dba Creganna Medical 401(K) Profit Sharing Plan & Trust (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a 401(k) defined contribution plan covering all eligible non-union employees of Precision Wire Components LLC dba Creganna Medical (the "Company") who have three months of service and have attained the age of 18. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Plan agreement provides for voluntary employee salary deferral contributions. Participants may elect to defer up to the Internal Revenue Service's annual limit. Participants also may contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at three percent of eligible compensation. Employees are eligible to make elective deferrals to the Plan after three consecutive months of eligible service.

The Company may, in its sole discretion, contribute and allocate to each eligible participant's account, a percentage of the participant's elective deferrals. Matching contributions, if any, shall be determined as of the end of the Plan year. Eligible participants must be employed by the Company on the last day of the year and have completed at least 1,000 hours of service during the year.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 - Description of the Plan (continued)

Vesting

Participants are 100 percent vested in their deferred salary contributions plus actual earnings thereon at all times. Vesting in benefits derived from employer contributions and earnings thereon is based on years of service in accordance with a graduated scale. A participant is 100 percent vested after six years of credited service.

Notes receivable from participants

Participants may borrow from their account a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The notes receivable are secured by the balance in the participant's account and bear interest at local prevailing rates as determined quarterly by the Plan Administrator. Principal and interest are paid ratably through periodic payroll deductions.

Payment of benefits

Benefits equal to the vested value of participants' accounts are payable upon retirement, termination, permanent disability, or death. Partial or full withdrawal of participants' account balances are also available under certain circumstances described in the Plan document. Dependent on the circumstances, participants may be able to elect lump sum or installment payments.

Plan termination

The Company has the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, the accounts of all affected participants will become fully vested.

Forfeitures

Forfeitures of unvested employer discretionary contributions will occur on the earlier of the date of an employee's death or the forfeiture date. Any unvested account balance will be forfeited if, after the employee ceases to be employed, the employee receives a distribution of the employee's entire vested account. Forfeitures are allocated to each qualifying participant's individual account based on an allocation formula as defined by the Plan. There were no forfeited nonvested accounts in the Plan as of December 31, 2016.

Note 2 - Changes in the Plan

Effective April 1, 2016, the Plan was amended and restated. The Plan sponsor's name was changed to Precision Wire Components LLC dba Creganna Medical. The Plan's name was also changed to Precision Wire Components LLC dba Creganna Medical 401k Profit Sharing Plan & Trust. An annual discretionary match was added for all eligible participants employed by the Company on December 31 who have completed at least 1,000 hours of service during the year. The hours of service requirement is determined based on the actual hours of service method. Participants must make an elective deferral to the Plan in order to receive the discretionary matching contribution. In addition, the Plan was amended to increase the maximum compensation a participant may defer from 25% to 90%.

On November 22, 2016, the Company's Board of Directors transferred fiduciary responsibility for the Plan, including the role of Plan Administrator for the Plan, from the Company to the Tyco Electronics Corp Employee Benefits Administrative Committee as named fiduciary for administration and the Tyco Electronics Corp Investment Committee as named fiduciary for investments.

Note 3 - Summary of significant accounting policies

Basis of accounting

The accompanying financial statements have been prepared on the accrual basis.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets. Actual results could differ from those estimates.

Payment of benefits

Benefits are recorded when paid.

Note 3 - Summary of significant accounting policies (continued)

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net investment earnings include the Plan's gains and losses on investments bought and sold as well as held during the year.

Reclassifications

Certain items for 2015 have been reclassified in the accompanying financial statements to conform to the presentation for 2016. The reclassification has no effect on net assets available for benefits for the year ended December 31, 2015.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess contributions payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2015 excess contributions to the applicable participants prior to March 15, 2016.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net investment earnings.

Notes to Financial Statements (Continued)

December 31, 2016 and 2015

Note 4 - Certified financial data

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, State Street Bank & Trust Company, the prior trustee of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statement of net assets available for benefits as of December 31, 2015. As a result of a change in service organizations, Reliance Trust Company, the current trustee of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statement of net assets available for benefits as of December 31, 2016, and the schedule of net assets (held at end of year) as of December 31, 2016, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2016.

Note 5 - Fair value measurement

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

**PRECISION WIRE COMPONENTS LLC DBA CREGANNA MEDICAL 401(K) PROFIT
SHARING PLAN & TRUST**

Notes to Financial Statements (Continued)

December 31, 2016 and 2015

Note 5 - Fair value measurement (continued)

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs that are unobservable inputs for the asset or liability.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust funds: Valued at the net asset value of units of a bank collective trust. The net asset value, as provided by the trustee, is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015. Classification within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Notes to Financial Statements (Continued)

December 31, 2016 and 2015

Note 6 - Tax status

The Plan adopted a prototype plan designed to be qualified and exempt from income taxes under applicable Sections of the Internal Revenue Code ("IRC"). The prototype plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to tax examination for years prior to 2011.

Note 7 - Reconciliation of financial statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2016 and 2015 to Form 5500:

Participant contributions receivable end of year	<u>(21,261)</u>
Total participant contributions per Form 5500	<u>\$ 737,410</u>

Note 8 - Party-in-interest transactions

Some of the Plan's assets are invested in funds offered by State Street Global Advisors which is related to a trustee of the Plan. Therefore, transactions involving these investments qualify as party-in-interest. Substantially all administrative expenses related to operating and maintaining the Plan are paid by the Company. Administrative expenses paid to parties-in-interest totaled \$2,550 in 2016. In addition, the trustee of the Plan is a participant in the Plan.

Note 9 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and amounts reported in the statement of net assets available for benefits.

Note 11 - Subsequent events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through October 12, 2017, which is the date the financial statements were available to be issued.

On March 1, 2017, the Plan was merged into the TE Connectivity Corporation Retirement Savings and Investment Plan (the "RSIP"). As a result, the recordkeeping and administration of the Plan transitioned from ADP, Inc. to Northwest Plan Services (recordkeeper for the RSIP) and the Plan's assets were transferred to Northern Trust (the trustee for the RSIP). The transition initiated a "Black Out" period which commenced February 22, 2017 and continued through March 6, 2017. During this period, funds could not be applied to the employee selected funds or withdrawn from the Plan until the Trustee had time to accurately complete the transition. During this period, employee contributions continued to be made through payroll deductions, and contributions were held until the completion of the Black Out period. At the end of the Black Out period, these funds were transferred to the new trustee and invested in funds as requested by each participant.
