The Climate Control Group, Inc. 401(k) Plan

Notes to Financial Statements December 31, 2016

Note 1: Description of the Plan

The following description of The Climate Control Group, Inc. 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan Document and *Summary Plan Description* for a more complete description of the Plan's provisions, which is available from the Plan Administrator.

General

The Plan is a defined contribution plan covering substantially all non-union employees of The Climate Control Group, Inc. (Company) who are 21 years of age and have worked at least 90 days. It is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Vanguard Fiduciary Trust Company serves as the Plan custodian.

Contributions

The Plan permits eligible employees through a salary deferral election to have the Company make annual contributions of up to 75 percent of eligible compensation. Employee rollover contributions are also permitted. Company matching and profit sharing contributions are made at the discretion of the Company. There were no Company matching or profit sharing contributions during 2016. Contributions are subject to certain limitations. Prior service with LSB Industries, Inc. is recognized in consideration of eligibility and vesting requirements.

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing their contributions into any of the separate investment accounts and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution and Plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit, to which a participant is entitled, is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon. Vesting in the Company's matching and profit sharing portion of a participant's account plus the earnings thereon is based on years of continuous service. A participant is fully vested after five years of continuous service. The nonvested balance is forfeited upon termination of service. Forfeitures are used to reduce Plan expenses or Company contributions.

The Climate Control Group, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2016

Notes Receivable From Participants

The Plan Document includes provisions authorizing loans from the Plan to active eligible participants. Loans are made to any eligible participant demonstrating a qualifying need. There is no minimum amount requirement. The maximum amount of a participant's loans is determined by the available loan balance restricted to the lesser of \$50,000 or 50 percent of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on local prevailing rates as determined by the Plan Administrator.

Payment of Benefits

Upon termination of service, participants may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, annual installments over a future period or partial withdrawals. At December 31, 2016, there were no Plan assets allocated to accounts of terminated or retired participants who have elected to withdraw from the Plan, but have not yet been paid.

Forfeited Accounts

At December 31, 2016, there were no forfeited nonvested account balances.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

The Climate Control Group, Inc. 401(k) Plan

Notes to Financial Statements December 31, 2016

Note 1: Description of the Plan

The following description of The Climate Control Group, Inc. 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan Document and *Summary Plan Description* for a more complete description of the Plan's provisions, which is available from the Plan Administrator.

General

The Plan is a defined contribution plan covering substantially all non-union employees of The Climate Control Group, Inc. (Company) who are 21 years of age and have worked at least 90 days. It is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Vanguard Fiduciary Trust Company serves as the Plan custodian.

Contributions

The Plan permits eligible employees through a salary deferral election to have the Company make annual contributions of up to 75 percent of eligible compensation. Employee rollover contributions are also permitted. Company matching and profit sharing contributions are made at the discretion of the Company. There were no Company matching or profit sharing contributions during 2016. Contributions are subject to certain limitations. Prior service with LSB Industries, Inc. is recognized in consideration of eligibility and vesting requirements.

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing their contributions into any of the separate investment accounts and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution and Plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit, to which a participant is entitled, is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon. Vesting in the Company's matching and profit sharing portion of a participant's account plus the earnings thereon is based on years of continuous service. A participant is fully vested after five years of continuous service. The nonvested balance is forfeited upon termination of service. Forfeitures are used to reduce Plan expenses or Company contributions.

The Climate Control Group, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2016

Notes Receivable From Participants

The Plan Document includes provisions authorizing loans from the Plan to active eligible participants. Loans are made to any eligible participant demonstrating a qualifying need. There is no minimum amount requirement. The maximum amount of a participant's loans is determined by the available loan balance restricted to the lesser of \$50,000 or 50 percent of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on local prevailing rates as determined by the Plan Administrator.

Payment of Benefits

Upon termination of service, participants may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, annual installments over a future period or partial withdrawals. At December 31, 2016, there were no Plan assets allocated to accounts of terminated or retired participants who have elected to withdraw from the Plan, but have not yet been paid.

Forfeited Accounts

At December 31, 2016, there were no forfeited nonvested account balances.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.
