Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Holcim (US) Inc. Pension Plan (the "Plan"), which comprise the statement of net assets available for benefits - modified cash basis as of December 31, 2016 and 2015 and the related statement of changes in net assets available for benefits - modified cash basis for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Fidelity Management Trust Company (the "Trustee"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes related transactions. The plan administrator has obtained certifications from the Trustee as of and for the years ended December 31, 2016 and 2015 that the information provided to the plan administrator is complete and accurate.

To the Plan Administrator
Holcim (US) Inc. Pension Plan

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Basis of Accounting

We draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements and supplemental schedules are prepared on a modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter. The financial statements for 2015 have been restated to reflect the modified cash basis of accounting, which was adopted in 2016.

Other Matter

The modified cash basis supplemental schedules of assets held at end of year as of December 31, 2016 and reportable transactions for the year ended December 31, 2016 are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Holcim (US) Inc. Pension Plan

Notes to Financial Statements December 31, 2016 and 2015

Note 1 - Plan Description

The following description of Holcim (US) Inc. Pension Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a noncontributory defined benefit plan covering substantially all United States salaried, union, and nonunion hourly employees of Holcim (US) Inc.; hourly employees included in the collective bargaining agreement between Holcim (US) Inc. as successor to St. Lawrence Cement Co., LLC and the Local 2-00033 of the Paper, Allied Industrial Chemical and Energy Workers International (PACE) District Counsel No. 1; and hourly employees included in the collective bargaining agreement between Holcim (US) Inc. as successor to St. Lawrence Cement Co., LLC and the Cement, Lime, Gypsum, and Allied Division of the International Brotherhood of Boilermakers Local Lodge D 50, Catskill, New York (collectively, the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective December 31, 2015, the Plan was frozen to prohibit new entrants and to stop all future benefit accruals.

Vesting - Eligible participants' accrued benefits were fully vested following attainment of either five years of vesting service or age 65 prior to January 1, 2008 and three years or age 65 after January 1, 2008.

Payment of Benefits - Retirement benefits payable on or after the normal retirement date are payable in an amount equal to the basic credits of the participant, as defined in the plan agreement, multiplied by the participant's average annual compensation, plus any supplemental credits multiplied by the participant's average annual compensation in excess of covered compensation, as defined by the Plan. The Plan permits early retirement; however, a reduction is applied to the participant's benefit payment as determined in accordance with the Plan's actuarial equivalence rules.

Participants may either elect a lump-sum distribution, an annuity form of payment, or receive a portion of their benefit in the form of a cash payment and the remaining portion in an annuity form. If the lump-sum benefit of a participant's vested payable as of the participant's termination of employment date does not exceed \$1,000, the participant shall receive a lump-sum distribution.

Participants may elect to receive payment of their retirement benefits under the Plan as of the first day of the month following the date of their termination of employment. If a participant terminates employment before the normal retirement age, an election to defer the retirement benefit payment may also be made. However, if a participant decides to continue working after normal retirement age, the payment of benefits will begin on the first day of the month following the date of the participant's termination of employment.

Holcim (US) Inc. Pension Plan

Notes to Financial Statements December 31, 2016 and 2015

Note 1 - Plan Description (Continued)

Contributions - All contributions are made by the Company and are determined on an actuarial basis to provide the Plan with assets sufficient to meet future benefit payments. The Company's present intention is to make annual contributions in amounts sufficient to fund the annual year's service cost plus amortization of prior service costs under the regular minimum funding basis prescribed by ERISA. The Plan has met the ERISA minimum funding requirements for both 2016 and 2015.

The Company may, at its discretion, make contributions in excess of the minimum funding requirements.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Fidelity Management Trust Company and Aetna Life Insurance Company, the trustee and custodian of the Plan, respectively; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Basis of Presentation - Effective January 1, 2016, the Plan adopted a policy of preparing its financial statements on the modified cash basis of accounting. Revenue is recorded when received, rather than when earned, expenses are recorded when paid, rather than when the obligation is incurred, and investments are recognized at fair value. Previously, contributions receivable and accrued interest were recorded when earned. The effect of this change was applied retrospectively and was to reduce the December 31, 2015 ending net assets by \$847 and to decrease the December 31, 2014 net assets by \$6,436,293, respectively. Accordingly, the 2015 change in net assets is \$6,435,446 higher related to the recognition of this income. Accordingly, the financial statements are not intended to be in conformity with accounting principles generally accepted in the United States of America.

Investment Valuation - The Plan's investments are stated at fair value except as noted below. The unallocated contract with Aetna Life Insurance Company is valued at contract value. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees.

The common collective trust funds are valued at net asset value per share or its equivalent of the funds, which is based on the fair value of the funds' underlying assets.

The money market fund is valued at quoted market prices. See Note 3 for additional information.

Holcim (US) Inc. Pension Plan

Notes to Financial Statements December 31, 2016 and 2015

Note 2 - Summary of Significant Accounting Policies (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - All costs and expenses incurred with regard to investment transactions are borne by the Plan. All other administrative expenses may be paid from the assets of the Plan or by the Company. For 2016 and 2015, various administrative costs were paid by the Company.

Actuarial Present Value of Accumulated Plan Benefits - Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, that are attributable, under the Plan's provisions, to the services rendered by the employees to the valuation date. These include benefits expected to be paid to the following:

- a. Retired or terminated employees or their beneficiaries
- b. Present employees or their beneficiaries
- c. Beneficiaries of employees who have died

Benefits payable under all circumstances such as retirement, death, disability, and termination of employment are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

Actuarial Assumptions - The actuarial present value of accumulated plan benefits is determined by an actuary from Willis Towers Watson and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

Holcim (US) Inc. Pension Plan

Notes to Financial Statements December 31, 2016 and 2015

Note 2 - Summary of Significant Accounting Policies (Continued)

The significant actuarial assumptions used in the valuation of the Plan at December 31, 2015 are summarized as follows:

Actuarial cost method	- Projected unit credit
Assumed rate of return	- 5.75 percent per annum
Mortality basis	- RP-2014 mortality table projected back with Scale MP-2015 to 2006, adjusted by 9.2 percent, projected generationally with MP-2014 adjusted for a 10-year convergence period
Retirement	- Age 65

These actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Use of Estimates - The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including August 30, 2017, which is the date the financial statements were available to be issued.

Holcim (US) Inc. Pension Plan

Notes to Financial Statements December 31, 2016 and 2015

Note 3 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2016 and 2015.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Notes to Financial Statements December 31, 2016 and 2015

Note 3 - Fair Value Measurements (Continued)

There were no unfunded commitments or redemption restrictions on the investments described above.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer.

Note 4 - Unaudited Information

Fidelity Management Trust Company (the "Trustee") holds the Plan's investments, other than the guaranteed investment contract, and executes all related investment transactions. Other than the unallocated contract, the investment balances and related investment results included in the accompanying financial statements, supplemental schedule of assets held at end of year, and supplemental schedule of reportable transactions are based solely on information certified by the Trustee.

The Plan's investments in the unallocated contract totaling \$121,074 and \$128,850 at December 31, 2016 and 2015, respectively, and related investment income of \$6,888 and \$7,313 for the years ended December 31, 2016 and 2015, respectively, were not certified by Fidelity Management Trust Company.

Note 5 - Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by consulting actuaries. The calculations of the accumulated plan benefits attributable to participants in the Plan and the summary of significant changes in the accumulated plan benefits, which were made as of and for the year ended December 31, 2015, the most recent actuarial valuations, are as follows:

Actuarial present value of accumulated plan benefits:

Net decrease	<u>(9,164,452)</u>
Actuarial present value of accumulated plan benefits - End of year	<u>\$ 254,200,066</u>

Note 6 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 7 - Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Provide benefits for all participants or beneficiaries whose benefits have been, or could have been, in pay status for the entire three-year period prior to termination, based on the plan provisions in effect during the five-year period ending on such date under which such benefit would be the least
2. Provide all other benefits guaranteed under Title IV of the Employee Retirement Income Security Act of 1974 (without regard to the limitation of Section 4022(b)(3) or the limitation on benefits payable to "substantial owners" of Section 4022(b)(5))
3. Provide all other vested benefits other than those becoming nonforfeitable solely on account of the termination of the Plan
4. Provide all other benefits under the Plan

Holcim (US) Inc. Pension Plan

Notes to Financial Statements December 31, 2016 and 2015

Note 7 - Plan Termination (Continued)

The Pension Benefit Guaranty Corporation (PBGC) guarantees the payment of all nonforfeitable basic benefits subject to certain limitations prescribed by ERISA. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

Note 8 - Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2016 and 2015 to Form 5500:

Form of payment	Participants are assumed to elect the lump sum form of payment. For grandfathered participants, lump sums were valued using prior IRC §417(e) assumptions (30-year treasury). A 3.00% interest rate assumption was used for this purpose.
Percent married	100% of males; 100% of females. Used to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement.
Spouse age	Wife three years younger than husband
Covered pay	N/A
Administrative expenses	The amount included this year in plan-related expenses is \$1,125,000.
At-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan, which is usually the lump sum form of payment.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets [for determining minimum required contributions]	<p>Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings of 5.75% (with such expected earnings limited as described in IRS Notice 2009-22) . The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2015 plan year.)</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
