NOTES TO FINANCIAL STATEMENTS (Modified Cash Basis)

December 31, 2016 and 2015

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Premium Building Products Company Hourly Employees Pension Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General and Participation

The Plan is a noncontributory defined benefit plan that covers employees of Premium Building Products Company (the "Company" or "Plan Administrator"), a subsidiary of Associated Materials LLC, who are members of United Steelworkers of America Local Union 8869 and provides for retirement benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Effective November 4, 2013, the Plan is frozen to new entrants. Active participants in the Plan at that time were given the one-time option to freeze future benefit accruals effective December 31, 2013 and begin earning benefits in a Company sponsored defined contribution plan beginning in 2014 or continue earning benefits in the Plan.

Contributions and Funding

Annually, an independent actuary is utilized to determine the Plan's funding requirements. The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. For the years ended December 31, 2016 and December 31, 2015, the minimum funding requirements were $211,729 and $0, respectively. During 2016, the Company funded $0 related to the 2016 minimum funding requirement. During 2017, the Company funded $211,729 related to the 2016 minimum funding requirement plus an additional $23,271 in excess of the minimum finding requirements. During 2015, the Company funded $368,000 of which $160,091 was to fulfill the 2014 funding requirement, and the remainder was to fund an excess contribution. The amount of $368,000 is included as an addition to plan asset in 2015 under the modified cash basis of accounting.

Benefits and Vesting

Participants are entitled to a normal retirement benefit for those that have reached the later of the age of 65 or 5 years of service in the Plan. The normal monthly retirement benefits are calculated based on a participant's years of credited service multiplied by a monthly benefit level as provided in the Plan. Participant's years of service include credited years of service. The monthly benefit level in effect at December 31, 2016 and 2015 was $22. The normal form of benefit is a single life annuity. The Plan also offers a 50% joint and survivor annuity option. The Plan also provides for early retirement, disability retirement and pre-retirement spouse benefits for any participant who meets certain requirements. Participants become fully vested on completion of five years of continuous service.

Termination Provisions

The Company anticipates that the Plan will continue without interruption, but reserves the right to terminate the Plan or to discontinue contributions to the Plan. In the event the Plan is terminated, the Plan provides for the allocation of net assets up to the present value of accumulated plan benefits among the participants and pensioners. To the extent unfunded vested benefits exist, such benefits would be payable by the Pension

NOTE 1 – DESCRIPTION OF THE PLAN – CONTINUED

Benefit Guaranty Corporation ("PBGC"), up to specified limitations, as described in ERISA. To the extent that Plan net assets exceed benefits due participants and pensioners, and the Plan has met all legal requirements, remaining assets, net of applicable taxes, will revert back to the Company.

Benefits under the Plan are insured by the PBGC. Generally, the PBGC guarantees most vested normal retirement benefits, early retirement benefits, and certain disability and survivor benefits. However, the PBGC does not guarantee all types of benefits under covered plans, and the amount of benefit protection is subject to certain limitations. The PBGC guarantees vested benefits at the level in effect on the date of plan termination. However, if benefits have been increased within the five years before plan termination, the benefit increase may not be guaranteed. In addition, there is a ceiling on the amount of monthly benefit that the PBGC guarantees which is adjusted periodically.

Administrative Expenses

Trustee and investment fees are paid by the Plan. All other direct and indirect administrative expenses of the Plan are paid by the Company.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on a modified cash basis of accounting as interest and dividend income, employer contributions, if any, and administrative expenses are recorded when received or paid versus when the revenue or expense has been incurred. The modified cash basis of accounting, which is permitted under the Department of Labor's Rules and Regulations for Reporting and Disclosure, is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income and dividends are recorded when received. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on employees' credited service. The accumulated plan benefits for active employees are based on service rendered as of the valuation date.

NOTES TO FINANCIAL STATEMENTS (Modified Cash Basis) – CONTINUED

December 31, 2016 and 2015

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Benefits payable under all circumstances, including retirement, death, disability, and termination of employment, are included; to the extent they are deemed attributable to employee service rendered to the valuation date.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

NOTE 3 – ACCUMULATED PLAN BENEFITS

Consulting actuaries from Hewitt Associates LLC (operating as Aon Hewitt) estimate the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit information as of December 31, 2015 is as follows:

Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving payments	$ 1,045,302
Other participants	4,690,935
	5,736,237
Nonvested benefits	153,068
Total actuarial present value of accumulated plan benefits	**$ 5,889,305**

NOTE 3 – ACCUMULATED PLAN BENEFITS - CONTINUED

Changes in accumulated plan benefits for the year ended December 31, 2015 are as follows:

Actuarial present value of accumulated plan benefits at December 31, 2014	$ 5,099,280
Increase (decrease) during the year attributed to:	
Benefit payments	(100,311)
Interest accumulation	338,346
Changes in actuarial assumptions	454,212
Actuarial losses	97,778
Net increase	790,025
Actuarial present value of accumulated plan benefits at December 31, 2015	**$ 5,889,305**

Significant assumptions underlying the actuarial computations are:

Discount rate	5.99% and 6.70% per annum for 2015 and 2014, respectively
Mortality rates	RP – 2014 Mortality table projected generationally by Scale MP – 2015 for 2015 and RP-2014 Mortality table projected generationally by Scale MP-2014 for 2014
Weighted average retirement age	63 years of age, based on probability of retirement table

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2016. Had the valuation been performed as of December 31, 2015 there would be no material difference. The change in the discount rate resulted in an increase in accumulated plan benefits during the year ended December 31, 2015 of $520,031. The change in the mortality projection scale resulted in a decrease in accumulated plan benefits during the year ended December 31, 2015 of $65,819.

NOTES TO FINANCIAL STATEMENTS (Modified Cash Basis) – CONTINUED

December 31, 2016 and 2015

NOTE 4 – SUMMARY OF FINANCIAL INFORMATION CERTIFIED BY TRUSTEES

State Street Bank and Trust Company ("State Street") held the Plan's investment assets and executed investment transactions as of December 31, 2016 and for the period from May 17, 2016 through December 31, 2016. Bank of America, N.A. ("Bank of America") was the trustee of the Plan and held the Plans investment assets and executed investment transactions as of December 31, 2015 and for the year then ended and for the period from January 1, 2016 through May 16, 2016.

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustees have certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate:

- Investments as shown in the Statements of Net Assets Available for Benefits as of December 31, 2016 and 2015
- Interest and dividends and net appreciation in fair value of investments on the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2016 and 2015
- Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2016 and Schedule H, Line 4j – Schedule of Reportable Transactions for the year ended December 31, 2016

The Plan's independent accountants did not perform any auditing procedures with respect to the certified information, except for comparing such information to the related information in the financial statements and supplemental schedules.

NOTE 5 – FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds: Valued at the closing price reported on the active market on which the individual securities are traded.

Money funds: Valued under the amortized cost method which approximates current market value. Under this method, the securities are valued at cost when purchased and thereafter, a constant proportionate amortization of any discount or premium is recorded until the maturity of the security. The funds seek to maintain the net asset value ("NAV") per share at $1.00.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

December 31, 2016 and 2015

NOTE 5 – FAIR VALUE MEASUREMENTS – CONTINUED

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

	Assets at Fair Value at December 31, 2016			
Type of Asset	**Level 1**	**Level 2**	**Level 3**	**Total**

NOTES TO FINANCIAL STATEMENTS (Modified Cash Basis) – CONTINUED

December 31, 2016 and 2015

NOTE 6 – TAX STATUS OF THE PLAN

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated July 29, 2014 that the Plan and related trust is designed in accordance with applicable sections of the Internal Revenue Code ("Code"). Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan has been amended since receiving the determination letter. The Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress.

NOTE 7 – PARTY-IN-INTEREST TRANSACTIONS

The Plan's investments included a money fund which is managed by Bank of America, the trustee of the Plan as of December 31, 2015 and the period January 1, 2016 through May 16, 2016, and, therefore, these transactions qualify as party-in-interest transactions which are exempt from the prohibited transaction rules. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

NOTE 8 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 9 – SUBSEQUENT EVENTS

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through October 16, 2017, the date the financial statements were available to be issued. The Plan is not aware of any subsequent events which would require recognition or disclosure in the financial statements.

Schedule SB, Part V—Statement of Actuarial Assumptions/Methods

Interest Rates for Minimum Funding Purposes	Based on segment rates with a four-month look-back (as of September 2015), each adjusted as needed to fall within the 25-year average interest rate stabilization corridor.
1st Segment Rate	4.43%.
2nd Segment Rate	5.91%.
3rd Segment Rate	6.65%.
Interest Rates for Maximum Tax Purposes	Based on segment rates with a four-month look-back (as of September 2015), without regard to interest rate stabilization.
1st Segment Rate	1.34%.
2nd Segment Rate	4.03%.
3rd Segment Rate	5.06%.
Retirement Age	
Active Participants	See Table 1.
Terminated Vested Participants	Age 65.
Mortality Rates	
Healthy and Disabled	2016 static mortality table for annuitants and non-annuitants per §1.430(h)(3)-1(e).
Withdrawal Rates	See Table 2.
Disability Rates	See Table 3.
Decrement Timing	Middle of year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%).
Surviving Spouse Benefit	It is assumed that 95% of males and 95% of females have an eligible spouse, and that males are one year older than their spouses.
Benefit Limits	Projected benefits are limited by the current IRC section 415 maximum benefit of $210,000.

Valuation of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
Expected Return on Assets	
2014 Plan Year	7.50%, limited to 6.99%.
2015 Plan Year	6.70%.

Valuation of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
Expected Return on Assets	
2014 Plan Year	7.50%, limited to 6.99%.
2015 Plan Year	6.70%.
