NOTES TO FINANCIAL STATEMENTS

December 31, 2016 And 2015

1. Description Of The Plan

The following description of the Tri-Pack Enterprises, Inc. 401(k) P/S Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan with a 401(k) feature. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility

The Plan covers substantially all nonunion employees of Tri-Pack Enterprise, Inc. (the Company), who have attained the age of 21. Employees can begin participating on the day they satisfy the eligibility requirements.

Contributions

Participants may elect to contribute eligible compensation, as defined by the Plan, not to exceed the maximum amount allowed by law. Additionally, participants age 50 and over may make catch-up contributions. The Company makes matching contributions equal to 50% of the participant's elective deferrals. Under the provisions of the Plan, the Company makes discretionary profit sharing contributions.

Participants may also make rollover contributions to the Plan, provided such rollover amounts meet the criteria for transfer as established under the Internal Revenue Code (the Code).

The Plan provides a safe harbor matching contribution on behalf of participants. The Company contributes on behalf of each participating employee an amount equal to 100% of the amount of the participating employee's elective deferrals that do not exceed 4% of the employee's compensation for the Plan year.

TRI-PACK ENTERPRISES, INC. 401(k) P/S PLAN

Notes To Financial Statements *(Continued)*

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contributions and allocations of the Plan's earnings. The allocation of earnings is determined by the earnings of the participant's investment selection based on each participant's account balance, as defined in the Plan Agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 4.5%, which are commensurate with local prevailing interest rates as determined by the Plan Administrator. Principal and interest are paid ratably through payroll deductions. The loans are due on various dates through March 2021. Under the provisions of the Plan, participants may rollover loans into the Plan. The rollover loans retain the same terms and are not re-amortized.

Payment Of Benefits

On termination of service a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

The Plan provides for retirement at age 59-1/2, subject to postponement upon the mutual consent of the participant and the Company. This allows participants to receive distributions from all contribution accounts.

In-Service Withdrawals

Active participants who reach age 59-1/2 may withdraw all or part of their vested accounts.

Participant Hardship Withdrawals

A participant may withdraw from the Plan that portion of his or her account resulting from his or her elective deferrals in the event of undue financial hardship.

Administrative Expenses

The Plan Sponsor pays certain administrative expenses, other expenses are paid by the Plan.

2. Summary Of Significant Accounting Policies

Basis Of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting.

Estimates And Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation And Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are reflected on a trade-date basis. Dividends are recorded on the ex-dividend date. The net appreciation in fair value of investments in the accompanying statement of changes in net assets available for benefits includes realized gains and losses and unrealized appreciation and depreciation.

Notes Receivable From Participants

Notes receivable from participants are measured at unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Agreement.

Payment Of Benefits

Benefits are recorded when paid.

Subsequent Events

Management evaluates subsequent events through the date the financial statements are available for issue, which is the date of the Independent Auditors' Report.

3. Certified Financial Information

Transamerica Life Insurance Company (the Custodian) holds the Plan's investment assets and executes transactions therein. Financial information relating to investments and related earnings is included in the financial statements and is based on information provided by the Custodian. This information, which has not been audited by the Plan's independent auditors, has been certified to as complete and accurate by the Custodian.

4. Fair Value Measurements

The Plan utilizes an established framework for measuring fair values. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include: <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. |

TRI-PACK ENTERPRISES, INC. 401(k) P/S PLAN

Notes To Financial Statements (*Continued*)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Pooled Separate Accounts

Valued at the net asset value (NAV) of units held by the Plan at year end. The NAV as provided by Principal, is used as a practical expedient to estimate fair value. The NAV is determined by dividing the net assets, at fair value, of the fund by the number of units outstanding on the day of valuation. Pooled separate accounts are primarily comprised of shares of registered investment companies held through subaccounts of a separate account of an insurance company at December 31, 2016 and 2015. The Plan has concluded that the NAV as adjusted (for mutual fund dividends, mutual fund splits and administrative maintenance charges and other items) and reported by the insurance company approximates fair value of the investments. All pooled separate accounts have daily redemption frequencies at NAV with no redemption notice periods, and file a Form 5500 as a direct filing entity. There are no capital commitments related to any of the Plan's pooled separate accounts.

Investments Held In Insurance Company General Accounts

Fair value represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceed crediting rates. Contract value represents contributions plus earnings, less withdrawals and expenses.

The methods described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

TRI-PACK ENTERPRISES, INC. 401(k) P/S PLAN

Notes To Financial Statements (Continued)

There have been no changes in the valuation methodologies used at December 31, 2016 or 2015.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015

	December 31, 2016			
	Level 1	Level 2	Level 3	Total
Investments, At Fair Value				
Investments held in insurance company general accounts	\$ —	\$ 50,848	\$ —	\$ 50,848
Investments Valued At NAV				
Pooled separate accounts				756,453
Total Investments, At Fair Value				\$ 807,301

	December 31, 2015 (Unaudited)			
	Level 1	Level 2	Level 3	Total
Investments, At Fair Value				
Investments held in insurance company general accounts	\$ —	\$ 2,686	\$ —	\$ 2,686
Investments Valued At NAV				
Pooled separate accounts				677,497
Total Investments, At Fair Value				\$ 680,183

As of December 31, 2016, the Plan invested in pooled separate accounts that are measured at fair value using the net asset value per share (or its equivalent) practical expedient, and therefore, have not been categorized in the fair value hierarchy.

5. Plan Termination

The Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. The Plan was merged into another plan as of February 28, 2017.

6. Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

7. Income Tax Status

The Plan uses a prototype plan document sponsored by TransAmerica Retirement Solutions. TransAmerica Retirement Solutions received an opinion letter from the IRS dated March 31, 2014, which states that the prototype document satisfies the applicable provisions of the Code. The Plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income tax has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Party-In-Interest Transactions

The Plan invests in a stable value option managed by Transamerica. Therefore, those transactions qualified as party in interest transactions, which were exempt from the prohibited transaction rules.
