403(b) MATCHED RETIREMENT SAVINGS PLAN**

Notes to Financial Statements

December 31, 2016 and 2015

(1) Description of Plan

The following brief description of the University Hospitals Health System 403(b) Matched Retirement Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

(a) General

The Plan became effective March 1, 1996 and is a matched defined contribution plan sponsored by University Hospitals Health System, Inc. (the System or Plan Sponsor). The Plan covers substantially all employees of the System. There are no service or age requirements of employees to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2015, eligible employees of Comprehensive Health Care of Ohio, Inc. and certain of its subsidiaries (Elyria) and of Parma Community General Hospital, Powers Professional Corporation and certain of its subsidiaries (Parma) began participation in the Plan.

Effective January 1, 2016, eligible employees from Portage Medical Center or one of its subsidiaries began participation in the Plan.

Effective January 1, 2017, eligible employees of St. John Medical Center and certain of its subsidiaries and Samaritan Regional Health System and certain of its subsidiaries will begin participation in the Plan.

The System plans to transfer the assets of the St. John Medical Center Retirement Savings 403(b) Plan, University Hospitals Portage Medical Center 403(b) Plan and the Samaritan Medical Center 403(b) Plan into the Plan during the year ending December 31, 2017.

(b) Employee Contributions

Each year participants may defer and contribute up to 75% of pretax annual compensation as defined in the Plan, up to the maximum allowed under the Internal Revenue Code (IRC).

(c) Employer Contributions

The Plan Sponsor matches 50% of an eligible participant's contribution to the Plan, up to 6% of the participant's compensation. Matching employer contributions commence after the participant completes one year of service and has reached the age of 18.

(d) Participant Rollovers

The Plan permits rollover contributions. The Plan may accept rollover contributions at the direction of the Plan Sponsor. Rollover contributions can be contributed from i) a trust under a qualified plan described in IRC Sections 401(a) or 403(a), ii) an annuity contract described in Section 403(b) of the IRC, iii) an eligible deferred compensation plan described IRC Section 457(b) that is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of the state, or iv) an individual retirement account described in Section 408(d)(3)(A)(ii) of the IRC.

403(b) MATCHED RETIREMENT SAVINGS PLAN**

Notes to Financial Statements

December 31, 2016 and 2015

(e) Participant Accounts

Each participant's account is credited with the employee's and the System's contributions, and investment earnings, appreciation, or depreciation in the fair value of assets. The account balances are participant directed, including the self directed brokerage account, which allows participants to direct their contributions into investments of their choice. Participants may change their investment options at any time. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(f) Vesting

Vesting in the System's contribution to the participant's account is based on a three-year cliff-vesting schedule (i.e., a participant vests in full after three years of service). Participants immediately vest in their own contributions.

(g) Payment of Benefits

Upon termination of service, a participant will be entitled to receive the vested portion of his or her account. Benefits are recorded when paid.

(h) Forfeitures

The forfeited balances of terminated participants' nonvested accounts are used to pay administrative expenses or used to reduce future employer matching contributions. Forfeitures were \$198,511 and \$201,512 during the years ended December 31, 2016 and 2015, respectively.

(i) Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum amount equal to the lesser of \$50,000 or 50% of their vested account balance. A participant may only have one loan outstanding at any one time. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 10.50%, which are commensurate with local prevailing rates as determined by the plan administrator. The loans have maturities of various dates through 2036. Principal and interest are repaid in equal installments over the term of the loan, with payments occurring at least quarterly. Participant loans are valued at amortized cost, which represents the unpaid principal.

(j) Expenses

Certain administrative expenses are paid by the Plan and other administrative expenses are paid by the Plan Sponsor.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

UNIVERSITY HOSPITALS HEALTH SYSTEM
403(b) MATCHED RETIREMENT SAVINGS PLAN

Notes to Financial Statements

December 31, 2016 and 2015

(b) Use of Estimates

The preparation of financial statements, in conformity with the accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

Investments of the Plan are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a guaranteed funds contract. Contract value for this guaranteed funds contract is based on the discontinuance value of the fund as reported by the investment advisor. The statements of net assets available for benefits and statements of changes in net assets available for benefits present the contract value of the investment in the guaranteed funds contract.

(d) Recently Issued Accounting Standards

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts (FBRICs) and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive contracts. Part II eliminates the requirements to disclose individual investments that represent 5 % or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of asset. Part III permits plan sponsors with a fiscal year-end that does not fall on a month-end to measure defined benefit pension plan assets and obligations as of month-end that is closest to the entity's fiscal year-end. Part III is not applicable to the Plan. The Plan adopted Parts I and II which are applied retrospectively effective January 1, 2016. Management has adopted Parts I and II to reduce complexity of reporting investments. The adoption resulted in the modification of certain investment disclosures.

(3) Investments

During the years ended December 31, 2016 and 2015, the investment income and net appreciation (depreciation) in the Plan's investments (including investments bought, sold, and held during the year) as certified by the Custodian of the Plan were as follows:

	<u>2016</u>	<u>2015</u>

Mutual funds	16,115,994	27,620,113

Total investment income	<u>\$ 56,938,830</u>	<u>1,283,515</u>

(4) Information Prepared and Certified by the Custodian

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the custodian of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate with respect to investments from participants:

- Investments, at fair value
- Investments, in fully benefit-responsive investment contracts, at contract value
- Net appreciation (depreciation) in fair value of investments
- Interest and dividends
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(5) Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Level 1 instruments consist of mutual funds and their fund's fair value is normally calculated as of the close of business of the New York Stock Exchange. There are no Level 2 or 3 investments.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

December 31, 2016				
		Investments at fair value

(a) Certain investments that are fully benefit-responsive investment contracts are measured at contract value and have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the table of fair values of investments and total net assets for the Trustee.

For the years ended December 31, 2016 and 2015, there were no transfers in or out of Level 1, 2 or 3.

(6) Plan Termination

Although it has not expressed any intention to do so, the System has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. Upon termination, participants will become 100% vested in their accounts.

(7) Tax Status

The Plan is intended to comply with the applicable requirements of Section 403(b) of the IRC. A tax determination letter program is not yet available for IRC Section 403(b) plans through the Internal Revenue Service. The Plan is required to operate in conformity with the IRC to maintain the tax-exempt status for plan participants under Section 403(b). The Plan Administrator and the Plan's tax counsel believes the Plan is currently being operated in compliance with the applicable provisions of the IRC and, therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Hospital believes the Plan is no longer subject to income tax examinations for years prior to 2013.

(8) Party-in-Interest Transactions

Certain plan investments and shares of mutual funds are managed by the Custodian of the Plan. Therefore, transactions in these mutual funds qualify as party-in-interest transactions.

Notes to Financial Statements

December 31, 2016 and 2015

(9) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(10) Investment Contract with Insurance Company

The Principal Fixed Account (PFA) is a general account backed stable value contract issued by the Principal Life Insurance Company. The purpose of the PFA is to provide a stable investment option with a declared interest rate, which is specific to the PFA, fully guaranteed and communicated in advance.

The PFA is comprised of guaranteed interest funds (GIF). A separate GIF is established for each defined period of time over which deposits will be accepted and each GIF has a guaranteed interest rate. Terms of the GIFs are typically established for each plan year. The composite interest rate is the blended rate of all GIF interest rates within the PFA. The composite interest rate is used for reporting purposes by the Custodian. Participant activity is accounted for at book value, thereby maintaining the liquidity desired by the participant.

The guaranteed interest rate for deposits made during the years ended December 31, 2016 and 2015 was 1.3% for both years. The composite interest rate for the year ended December 31, 2016 and 2015 was 1.8% and 1.7%, respectively.

(11) Subsequent Events

All activity of the Plan has been evaluated through October 16, 2017, the date the financial statements were available to be issued. Other than information disclosed in note 1(a), there were no reportable events.
