CRANE CO. PENSION PLAN FOR ALL ELIGIBLE EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2016 AND 2015

1. DESCRIPTION OF THE PLAN

The following description of the Crane Co. Pension Plan for all Eligible Employees, as restated effective January 1, 2015, (the “Plan”) is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan’s information.

General — The Plan is a defined benefit pension plan covering eligible employees of Crane Co. and its subsidiaries (the “Company” or “Plan Sponsor”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). A Trust Agreement dated October 1, 1976, between the Company and Chemical Bank Corporation established the Crane Co. Master Pension Trust (the “Master Trust”) which is maintained for the benefit of the Plan. The Trust Agreement provides for receiving and investing contributions and disbursing benefits. Effective January 1, 1995, the Company changed its trustee to The Bank of New York (the “Trustee” or “BONY”).

Eligibility — Employees of Covered Units of the Company as set forth in Exhibit I of the Plan document are eligible to participate in the Plan. Eligibility to participate in the Plan was frozen effective as of January 1, 2006. Any employee hired or rehired, as well as any employee who transfers to a Covered Unit, on or after January 1, 2006, will not be eligible to participate in the Plan. Effective January 1, 2013, the Plan was further amended to eliminate future pension accruals for active participants, other than union employees who are eligible to participate in the Plan pursuant to the terms of a collective bargaining agreement. All active employees whose Plan benefits were frozen as of January 1, 2013 are deemed to have a fully vested interest in their Plan benefits accrued through December 31, 2012. In addition, while active employees may not accrue additional pension benefits under the Plan, continued service with the Company after January 1, 2013 will count for purposes of determining eligibility for early retirement and other benefit options available under the Plan.

Benefits and Vesting — The Plan provides pension, survivor, and disability benefits to eligible pensioners and beneficiaries of pensioners. Benefits paid to participants are generally determined based on age, length of service, and individual average wages for a defined accrued benefit payable at age 65. Participants become 100% vested after they have completed five years of eligible service (unless a participant has a vested interest under a more favorable vesting schedule applicable to a particular Covered Unit or employee population).

Certain participants may elect to receive a lump-sum payment, subject to the provisions of the Plan. All other participants are eligible for various forms of annuities.

If employees terminate before rendering five years of continuous service, they forfeit the right to receive pension benefits upon retirement. Notwithstanding the foregoing, participants whose benefits were frozen as of January 1, 2013 have a 100% vested interest in their accrued benefits under the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”).

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan and Master Trust utilize various investment instruments, including U.S. government securities, corporate debt instruments, registered investment companies, and common stock. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of

CRANE CO. PENSION PLAN FOR ALL ELIGIBLE EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2016 AND 2015

investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment Valuation (Master Trust Fund) — The Plan's investment in the Master Trust is presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust.

Investment Valuation (Securities With no Quoted Market Prices) — Amounts for securities that have no quoted market price represent estimated fair value. Many factors are considered in arriving at estimated value. In general, however, corporate bonds are valued based on yields currently available on comparable securities of issuers with similar credit ratings. Commingled equity funds are valued by dividing the net assets of the fund (based on the quoted market value of the securities it holds) by the number of outstanding units at the close of the market day. Investments in certain restricted common stocks are valued at the quoted market price of the issuer's unrestricted common stock, less an appropriate discount. If a quoted market price for unrestricted common stock of the issuer is not available, restricted common stocks are valued at a multiple of current earnings, less an appropriate discount. The multiple chosen is consistent with multiples of similar companies based on current market prices.

Investment Transactions and Income Recognition — Investments are stated at fair value. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. If available, quoted market prices are used to value investments. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net investment (loss) income include the Master Trust's gains and losses on investments bought and sold as well as held during the plan year.

Administrative Expenses — Certain administrative expenses are paid directly by the Master Trust and allocated to the Plan to the extent expenses are not paid directly by the Company. Other administrative expenses, such as trustee fees and investment advisor fees, are allocated on the basis of the Plan's proportionate share of the Master Trust's assets stated at fair value. The Company provides accounting and other administrative services to the Plan at no charge.

Payment of Benefits — Benefit payments to participants are recorded upon distribution.

Subsequent Events — Subsequent events were evaluated through October 16, 2017, the date the financial statements were available to be issued.

Recently Issued Accounting Standards —

In February 2017, the FASB issued ASU 2017-06, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965), which relates to the reporting requirements for an employee benefit plan with an interest in a master trust. ASU 2017-06 requires a plan's interest in that master trust and any change in that interest to be presented in separate line items in the statement of net assets available for benefits and in the statement of changes in net assets available for benefits, respectively. ASU 2017-06 removes the requirement to disclose the percentage interest in the master trust for plans with divided interests and require that all plans disclose the dollar amount of their interest in each of those general types of investments, which supplements the existing requirement to disclose the master trusts balances in each general type of investments. There are also increased disclosure requirements. ASU 2017-06 is effective for fiscal years beginning after December 15, 2018 with early adoption permitted. The Plan is currently evaluating the impact of the adoption of the standard.

New Accounting Standards Adopted —

ASU No. 2015-07 — In May 2015, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2015-07, Disclosure for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent), Fair Value Measurement (Topic 820). ASU 2015-07 requires the categorization by level for items that are only required to be disclosed at fair value and information about transfers between Level 1 and Level 2. In addition, the ASU impacts

CRANE CO. PENSION PLAN FOR ALL ELIGIBLE EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2016 AND 2015

reporting entities that measure an investment's fair value using the net asset value per share (or an equivalent) practical expedient. The amendments in ASU No. 2015-07 eliminate the requirement to classify the investment within the fair value hierarchy. In addition, the requirement to make specific disclosures for all investments eligible to be assessed at fair value with the net asset value per share practical expedient has been removed. Instead, such disclosures are restricted only to investments that the entity has decided to measure using the practical expedient. The new guidance is effective for public entities reporting periods beginning after December 15, 2015. The ASU was applied retrospectively in all periods presented in an entity's financial statements. The Plan presents the investment disclosure required by this new guidance in Note 5, Fair Value Measurements. The adoption did not have a material effect on the Plan's statements of net assets available for benefits or statement of changes in net assets available for benefits.

ASU No. 2015-12 — In July 2015, FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirement to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015. The adoption did not have a material effect on the Plan's statements of net assets available for benefits or statement of changes in net assets available for benefits.

3. FUNDING POLICY

Contributions to provide benefits under the Plan are made in cash by the Company in amounts sufficient to satisfy the minimum-funding requirements of ERISA. Contributions are based on normal (current service) cost and amortization of the unfunded actuarial liability as determined by the Plan's independent actuary. The Company met the minimum funding requirements of ERISA for the years ended December 31, 2016 and 2015.

4. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the services employees have rendered as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (i) retired or terminated employees or their beneficiaries, (ii) beneficiaries of employees who have died, and (iii) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is determined by an independent actuary. The amount results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The effect of Plan amendments on accumulated plan benefits is recognized during the year in which such amendments become effective.

The significant actuarial assumptions used in the January 1, 2016 and 2015, valuations were:

- Mortality:
 - *For January 1, 2016 Measurement Date* – Mortality for non-disabled lives is based upon the RP-2014 Total Employee and Healthy Annuitant Mortality Tables rolled back to 2006 and projected with Mortality Improvement Scale MP-2015. Mortality for disabled lives is based upon the RP-2014 Disabled Retiree Mortality Table rolled back to 2006 and projected with Mortality Improvement Scale MP-2015.
 - *For January 1, 2015 Measurement Date* - Mortality for non-disabled lives is based upon the RP-2014 Total Employee and Healthy Annuitant Mortality Tables projected with Mortality Improvement Scale MP-2014. Mortality for disabled lives is based upon the RP-2014 Disabled Retiree Mortality Table projected with Mortality Improvement Scale MP-2014.
- Investment return: 7.75% per annum

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2016 AND 2015

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

5. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, as follows: Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

The Plan's policy is to recognize significant transfers between levels at the end of the reporting period.

Asset Valuation Techniques — Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

The Plan's investment in the Master Trust is presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust.

Short-term investments are categorized as Level 1. They are stated at amortized cost, which approximates fair value.

Common stocks and U.S. government securities are categorized as Level 1 and are valued at the closing price reported in the active market in which the individual security is traded.

Certain corporate bonds are valued at the closing price reported in the active market in which the bond is traded and are categorized as Level 1. Other corporate bonds are valued based on yields currently available on comparable securities of issuers with similar credit ratings and are categorized as Level 2.

The units of common trust funds are categorized as Level 2; they are stated at net asset value as determined by the issuer of the fund based on the fair value of the underlying investments.

Certain alternative investments contain a "lock up" period upon initial investment during which the Master Trust cannot redeem its funds from the respective investments. The Archstone fund and Strategic Value fund are categorized as Level 2 because there is no "lock up" period remaining and funds are redeemable upon 90 days notice. The Evanston Capital Management fund is also categorized as Level 2 because there is no "lock up" period remaining and funds are redeemable upon 65 days notice. These funds are included under alternative investments within hedge funds below and are fund-of-fund hedge fund vehicles that are redeemable upon 65-90 days written notice at the NAV on the request date.

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain officers and employees of the Company (who may also be participants in the Plan) perform administrative services related to the operation and financial reporting of the Plan. The Company pays these individuals salaries.

Certain of the Plan's master trust investments are managed by the Plan's Trustee. The balance of these investments as of December 31, 2016 and 2015, were \$75,321,317 and \$62,736,325, respectively. These investments earned net investment income for the years ended December 31, 2016 and 2015, of \$2,320,769 and \$954,026, respectively.

At December 31, 2016 and 2015, the Plan held 427,558 shares of common stock of Crane Co., the sponsoring employer, with a fair value of \$30.8 million and \$20.5 million, respectively. During the years ended December 31, 2016 and 2015, the cost basis of these shares was \$0.9 million and the Plan recorded dividend income of \$0.6 million.

These transactions are not deemed prohibited party-in-interest transactions, because they are covered by statutory and administrative exemptions from the Internal Revenue Code (IRC) and ERISA's rules on prohibited transactions.

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2016 AND 2015

8. FEDERAL INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter dated April 4, 2017, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

9. VOLUNTARY COMPLIANCE RESOLUTION

During 2015, the Plan determined that it had failed to make benefit payments to certain participants over a period of years, which were required based on tax legislation. The Company is taking remedial actions under the Internal Revenue Service's (IRS) Voluntary Correction Program to correct the matter through the distribution of the required minimum distributions plus an interest payment representing the loss of such amounts, and the Plan's administrative procedures are being revised to address this issue prospectively. The Company submitted its request to the IRS in February 2016 and received approval in October 2016. During 2016 and subsequent to obtaining the determination from the IRS, the Plan has further determined that it failed to make benefit payments to certain participants, which were required based on the Plan document. The Company plans to take self-corrective action for these participants.

10. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations there under, and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Prescribed Funding Assumptions and Methods

The following assumptions and methods are prescribed by ERISA.

Funding interest rates

For 2016 Plan Year: Segment Rates with four-month lookback, constrained in accordance with relevant legislation as follows:

	Unconstrained Rates*	Rates Reflecting Corridor**
First Segment Rate	1.34%	4.43%
Second Segment Rate	4.03%	5.91%
Third Segment Rate	5.06%	6.65%

Effective Interest Rate

Based on constrained rates 6.10%

For 2015 Plan Year: Segment Rates with four-month lookback, constrained in accordance with relevant legislation as follows:

	Unconstrained Rates*	Rates Reflecting Corridor**
First Segment Rate	1.15%	4.72%
Second Segment Rate	4.06%	6.11%
Third Segment Rate	5.15%	6.81%

Effective Interest Rate

Based on constrained rates 6.30%

* Used for maximum tax-deduction purposes

** Used for minimum funding and benefit restriction purposes

Mortality

Mortality tables mandated by PPA as specified in IRS Regulation 1.430(h)(3)-1, applied on a static basis, projected 7 years from the valuation date for annuitants and 15 years for non-annuitants.

Actuarial cost method

Unit Credit Method. The Funding Target is the present value of accrued benefits and based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected administrative expenses to be paid from plan assets during the year.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (Continued)

Non-Prescribed Funding Assumptions and Methods

The following assumptions were selected by the plan's enrolled actuary. The asset valuation method was selected by the plan sponsor with the actuary's advice and is an acceptable method under PPA. The retirement, termination and disability rates assumptions were set based on an experience study in 2014.

Expenses

Expected plan administrative of \$4,800,000 were added to the Target Normal Cost. The amount of \$4,800,000 is based on last year's actual expenses (without PBGC premiums) and current year's PBGC premiums.

Frequency of optional payment forms

Current annuitant's were valued based on their elected form of benefit. Participants not in pay status are assumed on retirement to elect:

Single Normal Form	45%
50% Joint and Survivor	15%
100% Joint and Survivor	25%
10 Year Certain and Life	15%

Marital percentage

100% of participants are assumed to be married at death. Husbands are assumed to be 3 years older than their wives.

Asset valuation method

The Actuarial Value of Assets is Market Value as of the valuation date, including discounted receivable contributions, reduced by 2/3 and 1/3 of the gain/(loss) in the prior two years, respectively. The gain/(loss) for each period is determined as the actual return on Market Value during the period less the expected return on Market Value based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third segment rate. The resulting value is constrained to be within a corridor of 90% to 110% of Market Value, including discounted receivable contributions. The actuary's expected rate of return is based on the plan's asset allocation and forward-looking expected rates of return by asset category provided by the plan's investment consultant.

	Actuary's Assumption	Third Segment Rate	Reflecting PPA Limit
2016 Expected Return	7.75%	6.65%	6.65%
2015 Expected Return	7.75%	6.81%	6.81%

Future actuarial measurements

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the economic and demographic assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. An analysis of the potential range of such future differences is beyond the scope of this report.

Summary of Changes from the January 1, 2015 Valuation

- In accordance with HATFA, the first, second and third Segment Rates are constrained to a 90%-110% Corridor around the average Segment Rates for the 25-year period ending September 30, 2015, or **4.43%**, **5.91%** and **6.65%**, respectively, for minimum funding and benefit restrictions but not maximum tax-deductible purposes. This change increased the Funding Target by approximately \$15.1 million.
- The mortality table was updated to those applicable to the current plan year in accordance with PPA. This change increased the Funding Target by approximately \$0.7 million.
- The amount of expenses added to the Target Normal Cost was changed from \$700,000 to \$4,800,000.
