D & L Foundry Retirement Plan
Notes to Financial Statements
December 31, 2016 and 2015

Note 1 – Plan Description

The following description of the D & L Foundry Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan and Trust documents for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit sharing plan established under Section 401(k) and related provisions of the Internal Revenue Code. All employees who worked at least one year for D & L Foundry (the Company) and had been credited with at least 1,000 hours of service during that period and who had attained 21 years of age were eligible to participate in the Plan on January 1 or July 1 by completing an enrollment form. The Plan is subject to the provisions of the Employees' Retirement Income Security Act of 1974 (ERISA).

Contributions

Each participant may elect to defer up to the lesser of 100 percent or \$18,000 of his or her eligible compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company may make a discretionary matching contribution based on participant deferrals. The Company currently matches 10 percent of each participant's deferrals, up to a maximum of \$200 per participating employee. Upon enrollment in the Plan, participants may direct employee and employer matching contributions into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Upon enrollment in the Plan, a participant may direct their contributions into any of the investment options of the Plan, which are listed in the supplemental schedule of assets held. Participants may change their investment elections on a daily basis.

D & L Foundry Retirement Plan
Notes to Financial Statements
December 31, 2016 and 2015

Note 1 – Plan Description (Continued)

Vesting

Amounts contributed to the Plan by individual participants are immediately 100 percent vested. Vesting in the Company's discretionary matching contribution portion of their accounts plus actual earnings thereon is based on years of service as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 or more	100%

For vesting purposes, the 12-consecutive-month period during which an employee is credited with 1,000 hours of service equates to one year of service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of one-half of their vested balance or \$50,000. Loan terms are for 5 years, or 10 years for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account and bear interest at a rate of prime plus two percent. At December 31, 2016, there were 11 outstanding loans with interest rates of 4.25 and 4.50 percent. At December 31, 2015, there were seven outstanding loans with interest rates of 4.25 percent. Principal and interest are paid ratably through weekly payroll deductions.

Payment of Benefits

Upon retirement, death, disability, termination of service, financial hardship, or the attainment of age 59 ½ the participant may elect to receive a lump-sum amount or a single-sum payment of his or her vested account balance as soon as administratively practicable following the date the request for distribution is made. Benefits are recorded when paid.

Administrative Expenses

Significant administrative expenses are paid by the plan sponsor. Participants are charged third-party administration fees, and fees to the custodian and trustee.

Note 1 – Plan Description (*Continued*)

Forfeited Accounts

Forfeited non-vested accounts are first used to pay any administrative expenses. Any remaining forfeitures are used to reduce employer matching contributions. As of December 31, 2016 and 2015, forfeited non-vested accounts totaled \$0 and \$50, respectively.

Note 2 – Summary of Accounting Policies

Basis of Accounting

The Plan's financial statements have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Notes Receivable from Participants

Notes receivable from participants are recorded at the outstanding principal balance plus accrued interest. Notes receivable from participants are valued at their unpaid principal balance plus any accrued but unpaid interest, which approximates fair value. The Plan considers the entire balance of the notes at year end to be collectible and no allowance is recorded.

Management's Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America normally requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Recent Accounting Pronouncements

In July 2015 the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965)*, which permits a plan to no longer disclose individual investments that represent five percent or more of net assets available for benefits and the net appreciation or depreciation for investments by general type. This is effective for both participant-directed investments and non-participant-investments.

D & L Foundry Retirement Plan
Notes to Financial Statements
December 31, 2016 and 2015

Note 2 – Summary of Accounting Policies (*continued*)

Recent Accounting Pronouncements (*continued*)

ASU 2015-12 also designated contract value as the only required measure for fully benefit-responsive investment contracts thus eliminating the need for fair value measurement for presentation and disclosure purposes. ASU 2015-12 also eliminated the requirement to provide a reconciliation of contract value to fair value.

The net appreciation or depreciation in investments for the period will still be presented in aggregate. Net asset available for plan benefits at fair value is no longer required to be presented on the Statement of Net Assets Available for Benefits. The ASU is effective for periods beginning after December 15, 2015. Early adoption is permitted. The Plan elected to adopt the standard for the year ended December 31, 2014.

Risk and Uncertainties

The Plan provides various funds that hold investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risk in the near term would materially affect participants' account balances and the amounts reported in the financial statements. The Plan provides investment options that hold securities of foreign companies, which may involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than securities of comparable U.S. companies.

Payment of Benefits

Benefits paid to participants are recorded when paid.

Investments Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to determine the fair value of shares of registered investment companies, which represent the net asset value of shares held by the Plan at year end. Transactions are recorded on a trade-date basis. Interest and contributions are recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought, sold or held during the year. There are no restrictions on transfers and sales of investments in mutual funds.

D & L Foundry Retirement Plan
Notes to Financial Statements
December 31, 2016 and 2015

Note 2 – Summary of Accounting Policies (*continued*)

Investments Valuation and Income Recognition (*continued*)

The investment funds offered by John Hancock Life Insurance Company (U.S.A.) (JHLI) did not pay out dividends or interest. Rather, the Plan received the benefit of dividend and interest income through the account unit values.

Note 3 – Information Certified by the Custodian and Trustee (Unaudited)

At December 31, 2016, and for the period July 1, 2016 to December 31, 2016 the Plan's investments were held and certified by The Capital Bank and Trust Company (CBTC), which was the Plan's custodian and trustee. At December 31, 2015, and for the period January 1, 2016 to June 30, 2016 the Plan's investments were held and certified by JHLI, which was also the Plan's custodian and trustee during the period. All investments are participant-directed. CBTC also certified the information included in the supplemental Schedule of Assets (Held at End of Year).

As a result in the change in the custodian and trustee during the period the Plan moved all of its funds from investment options managed by JHLI to investment options managed by CBTC. These transactions qualify as reportable transactions in the aggregate.

Note 4 – Fair Value Measurement

FASB ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 – Quoted prices in active markets for identical assets or liabilities; includes all mutual and money market funds held by the plan and guaranteed income accounts.

Level 2 – Observable inputs other than Level 1 including quoted prices for similar assets or liabilities, quoted prices in less active markets, or other observable inputs that can be corroborated by observable market data; includes the guaranteed portfolio fund and the guaranteed interest fund.

Level 3 – Unobservable inputs supported by little or no market activity for financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation; no assets are categorized in this level.

Note 5 – Fair Value Measurement (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value.

Corporate bonds and U.S. government securities: valued at the closing price reported on the active market on which the individual securities are traded.

Money Market or Interest Rate Funds: the fund's value is established by multiplying client contributions by an established interest rate.

International Stock Funds: are comprised of mostly international equities, and are valued at the net asset value per share (NAV). Securities held by the fund are priced using the closing price from the appropriate local stock exchange(s).

U.S. Bond Funds: are portfolios that contain domestic fixed-income securities, and are valued at the net asset value (NAV).

U.S. Stock Funds: these are funds largely invested in domestic equities, and are valued at the net asset value per share (NAV). Securities in these funds are priced using the closing price from the applicable exchange, NYSE, NASDAQ, etc.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value:

Assets at Fair Value as of December 31, 2016				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 739,997	\$ -	\$ -	\$ 739,997

Note 5 – Tax Status

The plan obtained its latest determination letter on July 7, 2014, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been restated since receiving the determination letter. However, the Plan administrator and Plan trustee believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, the Plan administrator and trustee believe that the Plan is qualified and the related trust is tax-exempt as of the financial statement date.

Note 6 – Party-in-Interest Transactions

CBTC manages the Plan investments and is also the Plan's custodian and trustee. JHLI also managed Plan investments and was the Plan's custodian and trustee before CBTC took on these roles. As a result, both of these entities are parties-in-interest to the Plan. Pension Plan Specialists, PC acts as the third party administrator and recordkeeper for the Plan and, therefore, qualifies as a party-in-interest. The Plan paid administrative fees to these parties-in-interest for their services during the year ended December 31, 2016

Note 7 – Plan Termination

The Company has not expressed any intention to terminate the Plan; however, the Company is free to do so at any time, subject to the provisions of ERISA and the plan document. In the event of plan termination, participants will become 100 percent vested in their portion of any employer contributions. Employees are always 100 percent vested in their elective deferrals.

Note 8 – Concentration

Holdings in two mutual funds constitute 61% and 89% of total Plan investments as of December 31, 2016 and 2015, respectively. If returns on these funds significantly declined, the net assets available for plan benefits would be negatively impacted.
