NOTES TO FINANCIAL STATEMENTS

CRANEVEYOR CORP.
401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2016

DESCRIPTION OF PLAN:

The following description of the *CraneVeyor Corp.* (Company) *401(k) Profit Sharing Plan* (Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all nonunion employees of *CraneVeyor Corp.* with three months of service and who have attained age 21. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). During the year, all of the Plan's assets were' transferred from John Hancock Life Insurance Company (U.S.A.) to Fidelity Investments, with investments in primarily pooled separate accounts.

During the current year, the Plan converted from a February 28 fiscal year-end to a December 31 calendar year-end. Accordingly, the financial statements reflect a ten (10) month period from March 1, 2017 to December 31, 2016.

Contributions: Each year, participants may contribute up to $18,000 of pretax annual compensation ($24,000 for qualified "catch-up contributions"), as defined in the Plan. Participants may also contribute (rollover) amounts representing distributions from other qualified defined benefit or contribution plans. The Company matches $.25 for each dollar of the first 6% of base compensation that an employee participant contributes to the Plan. The exact percentage or dollar match, and any additional employer profit sharing contribution amounts are determined each year by the Company's Board of Directors. Contributions are subject to certain limitations.

Participants Accounts: Each participant's account is credited with the participant's contribution, the Company's match/profit-sharing contribution, account earnings, and is charged with an allocation of administrative expenses. Participants direct the investment of their accounts into various options offered by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. The Company's discretionary contributions plus earnings thereon vest at 20% per year beginning with the completion of the second year of service and continue through the completion of six years of service at which time the participant becomes fully vested in the Plan.

Notes Receivable From Participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant's loan fund. Loan terms of up to five years (fifteen years for a personal residence) are permitted. The loans are secured by the balance in the participant's account and bear interest at rates comparable with similar loans from other lenders. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits: On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his account, or annual installments.

SUMMARY OF ACCOUNTING POLICIES:

Basis of Accounting: The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Note 3 discusses fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date and are immediately reinvested in the related fund. Net appreciation or depreciation of investments is reported in the statement of changes in net assets available for benefits and consists of realized gains or losses and unrealized appreciation or depreciation d fund. Net appreciation of these investments. Notes Receivable from Participants are reported at their unpaid principal balances plus accrued but unpaid interest.

Payment of Benefits: Benefits are recorded when paid.

Subsequent Events: The Plan Administrator has reviewed the results of operations for the period of time from its year end December 31, 2016 through October 14, 2017 the date the financial statements were available to be issued, and has determined that no adjustments are necessary to the amounts reported in the accompanying financial statements.

FAIR VALUE MEASUREMENTS:

The Plan's investments are reported at fair value in the accompanying statement of assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820-*Fair Value Measurements and Disclosures,* establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority; Level 2 inputs consist of observable inputs other than quoted prices of identical assets; and Level 3 inputs are unobservable and have the lowest priority, The Plan uses appropriate valuation techniques based on available inputs to measure fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are used only when Level 1 or Level 2 inputs are not available.

INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN:

The Plan's investments are held exclusively by the Plan's custodian, *Fidelity Investments, Inc.*. The custodian has certified to the Plan's administrator as to the completeness and accuracy of the following information included in accompanying financial statements and schedule:

	2016
Investments:	
At fair value	$ 9,869,199
Value of loan security accounts	331,656
Additions	
Net appreciation (depreciation) in fair value of investments	(1,057,689)
Contributions	2,619,330
Interest income	13,289
Deductions:	
Benefits paid to participants	1,024,668
Trustee / administrative fees	25,264

PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

TAX STATUS:

By letter dated March 31, 2008, the Internal Revenue Service determined that the Prototype Non-standardized Profit Sharing Plan with CODA that the Company adopted as a restatement of its existing Plan, was designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan continues to be updated since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near teiru and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
