AMERICAN COMMERCIAL BARGE LINE LLC PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 1 - DESCRIPTION OF PLAN

The following description of the American Commercial Barge Line LLC Pension Plan (the Plan) provides only general information about the Plan's provisions. More detailed information concerning the Plan may be found by consulting the Summary Plan Description, which is available from the American Commercial Barge Line LLC Benefits Department.

General: The Plan is a non-contributory defined benefit pension plan sponsored by American Commercial Barge Line LLC (the Company and Plan Sponsor) that covers certain employees of the Company and other subsidiaries of the Company's parent and provides for retirement, death, and disability benefits. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Funding: The Company has agreed to voluntarily contribute such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to plan participants. The Company's contributions for 2016 and 2015 have met the minimum funding requirements of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Participant contributions are not permitted under the Plan.

Pension Benefits: Under the terms of the Plan, participants are eligible for monthly benefit payments upon reaching normal retirement age of 62 for hourly and 65 for salaried members, or upon early retirement age of 55 with five or more years of service for hourly and ten or more years of service for salaried members. In February 2007, new entry/ re-entry to the Plan was closed for all employees.

Participants that meet certain criteria may elect to receive a portion of the value of their accumulated plan benefits as a lump-sum distribution upon retirement and/or they may elect to receive their benefits as a life annuity payable monthly. If a vested employee dies, a benefit equal to the survivorship value of the employee's accumulated pension benefits is paid to the employee's surviving spouse upon eligibility. Active hourly employees and Jeffboat Participants who become totally disabled are eligible to receive annual disability benefit.

Death and Disability Benefits: If a vested active employee dies at age 55 or older, a benefit equal to the 50% survivorship value of the employee's accumulated pension benefits is paid to the employee's surviving spouse upon eligibility. Active salaried employees who become totally disabled and are receiving the long term disability benefit through the company provider will continue to accrue service and credited service under the plan as if they were still working and receiving the rate of base pay earned on their last day worked up to the earlier of normal retirement age 65 or the long term disability coverage ends. Salaried retirement benefits may begin as indicated under an early or normal retirement as eligibility allows. Jeffboat employee's disability benefit is calculated based on one-half (1/2) the multiplier in effect at the time of their last day worked as an active employee paid for the earlier of the date they no longer are totally disabled or for their lifetime. Hourly employees determined to be totally disabled are eligible for an unreduced accrued benefit for the earlier of the date they no longer are determined to be totally disabled or for their lifetime. If a disability benefit ends due to no longer being totally and permanently disabled, the participant can then elect, at a future date, a benefit amount calculated at the normal or early retirement date actuarially offset by the benefits already received under the disability retirement.

Administrative and Investment Management Expenses: The Plan's trustee fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan. All other expenses of the Plan are paid by the Company.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Plan Termination: Although it has not expressed an intention to do so, the Company reserves the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Should the Plan terminate at some future time, the Plan provides for the payment of benefits in a prescribed order of priority for participants' claims to the assets. Retired participants, surviving spouses who are receiving pensions, and participants whose age and service would permit retirement under the Plan have first claim to plan assets. The remaining assets, if any, would be available to pay benefits to other participants. If plan assets are insufficient to pay benefits at plan termination, the Pension Benefit Guaranty Corporation (PBGC), a U.S. government agency, may provide benefit payments. Generally, PBGC guarantees most vested normal age and early retirement benefits, as well as certain survivor benefits, but does not guarantee all types of benefits, and the amount of benefit protection is subject to certain limitations.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value, as further described in Note 5. Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements. Actual results may differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term for the estimates of the actuarial present value of accumulated plan benefits and the fair values of the Plan's interest in various hedge funds.

Risks and Uncertainties: Investments are exposed to various risks such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain Plan investments as well as the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of certain Plan investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Benefit Payments: Benefit payments to participants are recorded when paid.

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

Benefits for retired or terminated employees or their beneficiaries are based on different calculation methods depending upon whether the employee was a salaried or hourly participant or a Jeffboat Participant. For salaried participants, the benefit for credited service rendered prior to February 1, 2000, is based on pension-eligible compensation during the five consecutive years of credited service affording the highest such average. (For this purpose, average compensation is determined as of February 1, 2000.) The benefit for credited service rendered between February 1, 2000, and the valuation date is 1% of pension-eligible compensation during this period. For hourly participants and Jeffboat Participants, the benefit is based on a flat dollar rate for each year of credited service rendered prior to the valuation date.

Benefits payable under all circumstances, retirement, death, disability, and termination of employment are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from Conduent Human Resource Services and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of December 31, 2015 were as follows:

Assumed investment return 7.75%

Retirement rate	<u>Age</u>	<u>Salaried Rate</u>	<u>Hourly Rate</u>	<u>Jeffboat Rate</u>
	55	7%	8%	20%
	56	8	8	4

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefit information as of December 31, 2015 was as follows:

Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving payments	\$ 75,412,141
Other participants	<u>86,300,218</u>
	161,712,359
Non-vested benefits	<u>1,479,117</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 163,191,476</u>

The changes in the actuarial present value of the accumulated plan benefits information during 2015 are as follows:

Actuarial present value of accumulated plan benefits at beginning of year	\$ 154,340,354
Increase (decrease) during the year attributed to:	
Interest	12,131,352
Benefits accumulated	3,845,404
Change in actuarial assumptions **	7,756,595
Benefits paid	<u>(14,882,229)</u>
Net increase	<u>8,851,122</u>
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 163,191,476</u>

**The change in actuarial assumptions line is due to a change in the assumed investment return assumption from 8.25% to 7.75%. The change was made to better reflect the anticipated experience of the Plan.

An actuarial valuation of the Plan's accumulated plan benefits as of December 31, 2016 has not yet been completed.

NOTE 4 - INVESTMENTS - UNAUDITED INFORMATION

Substantially all information pertaining to the Plan's investments included in the financial statements, including the associated investment income (loss), was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Wells Fargo Bank, N.A. the trustee of the Plan. This certified information has not been audited by independent accountants.

NOTE 5 - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual Funds and Common Stocks: The fair values of mutual fund and common stock investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Collective Trusts: The fair values of participation units held in collective trusts are based on the net asset values reported by the fund managers as of the financial statement date and recent transaction prices. Each collective trust provides for daily redemptions at the reported unit values, no advance notification is required.

Hedge Funds: The fair values of the hedge funds are based on the net asset values per share as reported by the investment manager as of the financial statement dates and recent transaction prices. In determining the reasonableness of the methodology used to estimate fair value, management reviews the funds' audited financial statements and evaluates a variety of factors including the investment manager's assumptions, economic conditions and industry and market developments.

NOTE 5 - FAIR VALUE MEASUREMENTS (Continued)

During 2016 and 2015 the Plan held investments in the Definitive Guardian Fund Ltd, the Kohinoor Core Fund, the Hayman Capital IRT Mirrored Holding Fund, the Winton Futures Fund Ltd, the Mesa West Core Lending Fund, LP, and multiple share classes of the Blackgold Opportunity Offshores Fund, Ltd. As of December 31, 2016 the Plan added four share classes of the Blackgold Opportunity Offshore Fund Ltd. The Definitive Guardian Fund Ltd. fund is an offshore feeder fund with substantially all of its investments in the Definitive Guardian Master Fund, Ltd ("Definitive Master Fund"). The Definitive Master Fund invests in various fixed-income instruments and derivative securities traded primarily in the United States with primary focus on municipal bonds. Capital is invested among numerous themes including, but not limited to, relative value, correlation and structurally-driven opportunities. The Definitive Master Fund generally seeks to hedge first order exposures and interest in instruments where it believes there will be a short-term reversion toward fair value. The Definitive Guardian Fund Ltd can be redeemed monthly with a 45-day notice. As of December 31, 2016, the Definitive Guardian Fund Ltd was liquidated.

The Kohinoor Core Fund is an offshore feeder fund with substantially all of its investments in the Kohinoor Core Master Fund. At December 31, 2016, the fund's holding in the Kohinoor Core Master Fund accounts for 100% of the Kohinoor Core Master Fund's net assets. NOTE 6 - INCOME TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated May 16, 2017, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes that the Plan is designed and being operated in compliance with the Code.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016 and 2015, there are no uncertain tax positions taken or expected to be taken that would require a recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

NOTE 7 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. At December 31, 2016 and 2015 the Plan held an investment in collective trust fund offered by Wells Fargo Bank, N.A., trustee of the Plan.

NOTE 8 - SUBSEQUENT EVENTS

Management evaluated subsequent events for the Plan through October 13, 2017, the date the financial statements were available to be issued.

Asset valuation method

The Valuation Assets are determined using a method that spreads assets gains/(losses) over 2 years. The gain/(loss) for each period is determined as the actual return during the period less the expected return based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third segment rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value. The discounted value of accrued contributions, if any, is included in the Valuation Assets.

	Actuary's Assumption	Third Segment Rate	Reflecting PPA Limit
2016 Expected Return	8.00%	6.65%	6.65%
2015 Expected Return	8.00%	6.81%	6.81%
2014 Expected Return	8.00%	6.99%	6.99%

Future Measurements

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the economic and demographic assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. An analysis of the potential range of such future differences is beyond the scope of this report.

Summary of Changes from the January 1, 2015 Valuation

Prescribed changes:

- The interest rate and mortality were updated to those applicable to the current plan year in accordance with PPA. The interest rates are constrained according to HATFA.
- The change in mortality and interest rates increased the plan's Funding Target by \$7,595,000.

Non Prescribed changes:

- Expected plan administrative expenses added to the Target Normal Cost increased to \$2,599,256 from \$1,836,630. This was due to the increase in anticipated PBGC premiums. No inflation in expected administrative expenses of \$200,000 was anticipated.
