ARES HOLDING CORPORATION 401(K) PLAN

Notes to Financial Statements

December 31, 2016

Note 1 - Description of Plan:

The following description of the ARES Holding Corporation (the "Company") 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan established on January 1, 1996, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Company is the Plan administrator and retains the services of a third party to assist in the administration of the Plan. Through December 31, 2016, the Plan's custodian and third party administrator was Fidelity Management Trust Co. ("Fidelity").

In January 2015, the Plan was amended to include employees of Worksite Inc. Employees of Worksite, Inc. are not eligible for matching contributions.

In April 2016, balances of participants employed by ARES Security Corporation were transferred out to an ARES Security Corporation sponsored plan.

Eligibility - Except for excluded employees, all employees who have reached twenty one years of age are eligible to participate in the Plan on the first day of each month following the participant's date of hire. If an employee terminates employment after becoming a participant and is later re-employed, they become eligible to participate in the Plan after completion of one hour of service. An employee may elect not to participate in the Plan. Certain employee groups are excluded from the Plan.

Participant contributions - Through December 31, 2016, participants may elect to contribute up to 80% of their compensation subject to the maximum allowed under section 401(k) of the Internal Revenue Code ("IRC"). Participants that have reached the age of 50 are eligible to make additional catch-up contributions under the IRC. Participants are also permitted to deposit into the Plan distributions received from other plans (rollovers). Participants direct the investment of their account balances into various investment options offered by the Plan. A participant may elect to increase or decrease their percentage as of each entry date defined as the first day of each month.

Employer contributions - The Company's matching contribution for the current year was 50% of the participant's salary reduction, subject to a maximum of 6% of eligible compensation. The employer matching contribution is calculated based on each pay period. The participant must be employed as of the last day of the contribution period to be eligible for any matching contributions that may be made for that payroll period. Contributions are subject to certain limitations.

Note 1 - Description of Plan (continued):

Employer contributions (continued) - The Company may make discretionary non-elective contributions in an amount to be determined by the Board of Directors for each Plan year. There were no discretionary contributions made for the year ended December 31, 2016 and 2015.

Participant accounts - Each participant's account is credited with the participant's contribution and Company contributions and allocations of Plan earnings. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment options - The Plan provides for investments to be directed by participants into a number of investment options held by the custodian. Some Plan investments are units of funds managed by the custodian, therefore, these investments and most investment transactions are party-in-interest transactions. Earnings of each investment fund are allocated to participants' accounts in proportion to each participant's share of that fund.

Vesting - Participants are fully vested in their contributions, as well as all earnings on those contributions. Participants vest in the Company's matching and non-elective contributions upon the completion of a year of service over a three year period at 33% per year from year one through three. All employees hired prior to May 25, 2012 are immediately 100% vested in employer matching contributions.

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest commensurate with a commercially reasonable rate of interest as determined by the Plan administrator. Loan terms range from one to five years, but may not exceed five years except for loans used for a purchase of a primary residence, which may be repaid over a longer period of up to ten years. Principal and interest are paid ratably through payroll deductions.

Payment of benefits - On termination of service due to death, disability, retirement, or separation from service, participants may receive a lump sum payment equal to the value of the participant's vested interest in his or her account. If a participant's account is less than $1,000 in value, he or she will receive a lump-sum payment. If a participant's account exceeds $1,000 but is less than $5,000, the Plan may distribute the benefit to an Individual Retirement Account ("IRA"). If a participant's account exceeds $5,000 in value, he or she may elect to defer the distribution for a specified period of time ending no later than the participant's normal retirement age.

Note 1 - Description of Plan (continued):

Forfeitures - Forfeitures are retained in the Plan and will first be used to pay administrative expenses. Any remaining forfeitures are then used to reduce employer contributions. Forfeitures remaining in the Plan as of December 31, 2016 and 2015 were $51,000 and $65,000 respectively. For the years ended December 31, 2016 and 2015, approximately $56,000 and $47,000 of Plan forfeitures was used to reduce the employer contributions, respectively.

Note 2 - Significant accounting policies:

Basis of accounting - The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Contributions from participants are recorded when withheld from the participant. Benefit payments to participants are recorded when paid.

Investment valuation and income recognition - The investments in all of the funds, except the insurance contract, are presented at fair value, based on the quoted market prices of the underlying securities within each fund as of December 31, 2016 and 2015. The shares of registered investment companies (mutual funds) are valued at quoted market prices, which represent the net asset values of shares held by the Plan at year-end. The money market fund is valued at cost plus accrued interest, which approximates fair value. Common stock is traded on a national securities exchange and is valued at the last reported sales price on the last day of the Plan year. The insurance contract account is fully benefit-responsive and is reported at contract value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Fair value measurements - The Plan performs fair value measurements in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*. Refer to Note 3 for the fair value measurement disclosures associated with the Plan's investments.

Net appreciation in fair value of investments - The earnings, expenses, realized gains and losses, and unrealized appreciation (depreciation) in registered investments companies and other investments are recorded in the accompanying financial statements as net appreciation in fair value of investments.

Note 2 - Significant accounting policies (continued):

Investment management fees and operating expenses - Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation in fair value of investments.

Administration costs - During 2016 and 2015, an amount of administrative fees were paid with funds from the forfeiture balance, the forfeitures used were not material to the financial statements as a whole. Loan set up costs were deducted directly from the participant accounts.

Subsequent events - The Plan has evaluated subsequent events through the date that the financial statements were available to be issued which is the date of the independent auditors' report.

Note 3 - Fair value:

The Plan performs fair value measurement in accordance with ASC 820. ASC 820 defines fair value as the price that would be received from selling an asset in an orderly transaction between market participants at the measurement date. The accounting guidance for fair value measurement requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard establishes a fair value hierarchy based on the level of independent, objective evidence surrounding the inputs used to measure fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The fair value hierarchy is as follows:

- Level 1: quoted prices in active markets for identical assets or liabilities that the entity has the ability to access;

- Level 2: inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

- Level 3: unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Note 3 - Fair value (continued):

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis consisted of the following types of instruments as of December 31, 2016 and 2015 and have all been determined to be Level 1 by the Plan administrator:

	2016	2015
Mutual funds	$ 56,412,463	$ 54,301,688
Money market fund	69,777	3,426,830
Self-directed brokerage-link account	9,475,322	8,619,938
Total assets at fair value	$ 65,957,562	$ 66,348,456

The Plan' valuation methodology used to measure the fair value of money market funds, common stock and mutual funds were derived from quoted market prices as substantially all of these instruments have active markets.

Note 4 - Stable value fund:

As the stable value fund is a fully benefit-responsive fund, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the stable value fund. Contract value, as reported to the Plan by Fidelity, represents contributions made under the stable value fund, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

As of December 31, 2016 and 2015, there were no reserves against the contract value for credit risks of the issuer. The interest rates are based upon a formula agreed with the issuer and are reviewed on a semi-annual basis for resetting.

Note 4 - Stable value fund (continued):

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exception from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Note 5 - Investments:

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The Plan's independent accountants did not perform any auditing procedures with respect to this information certified by Fidelity Management Trust Co., the custodian of the Plan, except for comparing such information to the related information included in the financial statements and supplemental schedule.

The following information, included in the financial statements and supplemental schedule was provided by and certified by the Plan's custodian as complete and accurate:

- Investments as shown in the Statement of Net Assets Available for Plan Benefits as of December 31, 2016 and 2015.

- Notes receivable from participants as shown in the Statement of Net Assets Available for Plan Benefits as of December 31, 2016 and 2015.

- Investment income and other income as shown in the Statement of Changes in Net Assets Available for Plan Benefits for the year presented.

- Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2016.

Note 6 - Party-in-interest transactions:

Fidelity Management Trust Co., the Plan's custodian, serves as Plan fiduciary, investment manager, and custodian to the Plan. At December 31, 2016 and 2015, the Plan held for investment approximately $19,885,000 and $42,276,000, respectively, in Fidelity Management Trust Co.'s mutual funds and a money market mutual fund account.

Note 7 - Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer matching account balances.

Note 8 - Income tax status:

The prototype plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service stated that the prototype plan, as designed, was in compliance with the applicable requirements of the Internal Revenue Code 401(a). Subsequent to receiving this determination letter, the prototype plan was amended. The Plan administrator believes that the amended prototype plan, as adopted by the Company, is operating in compliance with the requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 9 - Risks and uncertainties:

The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for Plan benefits and participant account balances.
