1. Description of Plan

The following description of the Texas Hydraulics Newco, Inc. (the "Company") 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company who have completed one month of service and are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company was a subsidiary of Dover Corporation from 1988 to 2015 during which time the employees were able to participate in Dover's employee benefit plan. During 2016, Texas Hydraulics established the Texas Hydraulics Newco, Inc. 401(k) Plan and the Texas Hydraulics employees were given the option to rollover their account balances to this Plan from Dover Corporation's Plan. The Plan originated January 15, 2016 and is in compliance with the provisions of the Pension Protection Act of 2006.

Contributions

Participants may elect to contribute up to 50% of their compensation to the Plan as either a pre-tax contribution or a Roth contribution. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3 percent of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. The deferral rate increases annually by 1 percent up to 6 percent. The Company contributes 100 percent of the first 1 percent of base compensation that a participant contributes to the Plan plus 50 percent of the amount of participant contributions that exceed 1 percent of base compensation but that do not exceed 6 percent of base compensation. Additional profit sharing amounts may be contributed at the option of the Company's board of directors and are invested in a portfolio of investments as directed by the Participants. Contributions are subject to maximum annual dollar contribution restrictions of ERISA and the Internal Revenue Service. Participants direct the investment of the contributions into various investment options offered by the Plan. The Plan currently offers 8 pooled separate investment accounts, 8 mutual fund accounts, 11 common/collective trust accounts, and a guaranteed interest investment contract as investment options for participants.

Participant Accounts

Each participant account is credited with the participant's contributions and allocations of (a) Company contributions, (b) Plan earnings, and (c) charged with an allocation of administrative expenses. Allocations of earnings are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participants' vested account.

1. Description of Plan (Continued)

Vesting

Participants are immediately vested in their voluntary and Company contributions plus actual earnings thereon.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $ 1,000 up to a maximum equal to the lesser of $ 50,000 or 50 percent of their vested balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant loans fund. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through weekly or biweekly payroll deductions.

Payments of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant may receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount. Account balances of $ 1,000 or less will be distributed to the participant in cash. Balances exceeding $ 1,000 up to $ 5,000 will be transferred to an IRA if the participant does not make a timely election. Participant consent is required for distributions in excess of $ 5,000. The Plan also allows for in-service withdrawal of vested account balance at age 59.5 and withdrawal of elective deferrals for qualified hardship.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. Summary of Significant Accounting Policies (Continued)

Notes Receivable from Participants

Loans to participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016.

Payment of Benefits

Benefits are recorded when paid.

Plan Expenses

Administrative expenses other than trustee fees of the Plan were absorbed by the company sponsor of the Plan. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants and other member requested services are charged directly to the participants account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

3. Information Prepared and Certified by the Trustee

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2016, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2016, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Principal Trust Company (the trustee of the Plan). The contract value of the guaranteed investment contract was certified by the trustee.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

4. Fair Value Measurements (Continued)

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other that quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled Separate Accounts and Common/Collective Trusts: Valued at the net asset value ("NAV") of its underlying investments, which include mutual funds, stocks, bonds and securities in varying proportions. The majority of the underlying investments have observable level 1 or 2 pricing inputs, including quoted prices for similar assets in active or non-active markets.

4. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016, all of which are participant directed:

	2016				
	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs	NAV Inputs	Total Fair Value
Mutual funds	$ 181,936	$ -	$ -	$ -	$ 181,936
Pooled separate accounts of Principal Life Insurance Co.	-	-	-	252,367	252,367
Common / Collective trust funds of Principal Life Insurance Co.	-	-	-	10,059,275	10,059,275
Total Investments by Fair Value Hierarchy	$ 181,936	$ -	$ -	$ 10,311,642	$ 10,493,578

5. Group Annuity Contract with National Insurance Company

In 2016, the Plan entered into a traditional fully benefit-responsive guaranteed investment contract with Principal Insurance Company (Principal) totaling $ 108,413. Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer. The crediting rate is reviewed at least twice a year for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

This contact meets the fully benefited-responsive investment contract criteria and therefore is reported at contact value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

7. Tax Status

The Plan is using a prototype non-standardized profit sharing plan with CODA document. The Internal Revenue Service (IRS) has determined and informed the Company in a letter dated March 31, 2014 that the standardized form of the Plan is acceptable under Section 401 of the Internal Revenue Code. The IRS's opinion on the acceptability of the form of the Plan is not a ruling or determination as to whether the Plan qualifies under Code section 401(a). However, the Plan administrator believes the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. Party-in-Interest Transactions

The Plan has not considered company contributions to the plan or benefits paid by the plan to participants as party-in-interest transactions.

The Plan holds investments in pooled separate accounts and common/collective trust funds of the trustee. Some fees incurred by the Plan for investment management services by the trustee of the plan were paid for by the Company.

10. Adoption of New Accounting Standards

During 2016, the Plan adopted ASU 2015-7 which removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by FASB AS 820.

During 2016, the Plan adopted ASU 2015-12 parts I and II which 1) designates contract value as the only required measure for fully benefit responsive investment contracts, 2) eliminates the requirement to disclose individual investments that represent 5 percent or more of net assets available for benefits, and 3) eliminates the requirement to disclose net appreciation and depreciation by general type.

11. Subsequent Events

Subsequent events were evaluated through October 16, 2017, which is the date of the financial statements were available to be issued.
