Report on the Financial Statements

We were engaged to audit the accompanying financial statements of FUJIFILM Medical Systems U.S.A., Inc. Profit Sharing Plan, (the "Plan"), which comprise the statements of net assets available for benefits as of January 5, 2017 and December 31, 2016, and the related statement of changes in net assets available for benefits for the period from January 1, 2017 to January 5, 2017 (date of merger), and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by The Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, F.S.B., the trustees of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustees held the Plan's investment assets and executed investment transactions. The Plan administrator has obtained certifications from the trustees as of January 5, 2017 and December 31, 2016 and for the period from January 1, 2017 to January 5, 2017, that the information provided to the Plan administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Emphasis of Matter

Effective January 5, 2017, as more fully discussed in Note 1, all the remaining net assets of the Plan were transferred to the FUJIFILM Long Term Savings Plan pursuant to a merger of the two plans. At such time the Plan was effectively terminated.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustees, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

FUJIFILM Medical Systems U.S.A., Inc. Profit Sharing Plan
Notes to Financial Statements
January 5, 2017 (Date of Merger)

Note 1 – Description of Plan

The following brief description of the FUJIFILM Medical Systems U.S.A., Inc. Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was a defined contribution plan established effective January 1, 1967 and most recently, amended effective January 1, 2011. The Plan used a prototype plan designed by Prudential Retirement Insurance Company of America. Non-union, non-leased employees of FUJIFILM Medical Systems U.S.A., Inc., TeraMedica, Inc. and Fujifilm Optical Devices U.S.A., Inc. (the "Company") became eligible to participate immediately upon entry on their employment commencement date. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") as amended. The Board of Trustees was responsible for oversight of the Plan. Management of the Company determined the appropriateness of the Plan's investment offerings, monitored investment performance and reported to the Plan's Board of Trustees.

On December, 29, 2016, management, as permitted by the Plan document, made the decision and directed Prudential Bank & Trust, F.S.B. ("PB&T") to merge the Plan into FUJIFILM Long Term Savings Plan. All transfers were made on January 5, 2017 and the Plans were merged, effective this date. The Plan's net assets that were transferred on January 5, 2017 were \$133,252,373. After the transfers were made, the Plan was effectively terminated.

Contributions

Prior to January 1, 2011 the Plan was solely a profit sharing plan with no employee contributions allowed. Effective January 1, 2011 the participants could contribute a pre-tax amount equal to not less than 1% and not more than 65%, of their compensation, as defined in the Plan. In addition, participants who attained age 50 before the end of the Plan year were eligible to make catch-up contributions. The Plan included an automatic deferral feature for eligible new employees whereby 3% of their compensation were withheld and contributed to the Plan and would increase by 1% each year after until the deferral rate reached a maximum rate of 6% unless a contrary election was made. Effective April 1, 2014, due to a plan amendment, eligible new employees had 6% of their compensation withheld and contributed to the Plan and would increase by 1% each year until the deferral rate reached a maximum rate of 15% unless a contrary election had been made. The contributions were automatically invested in an age appropriate qualified default investment alternative fund until changed by the participant. Participants could also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The Plan accepted Roth elective deferrals made on behalf of participants. Participants directed the investment of their contributions and employer contributions into various investment options offered by the Plan or into self-directed brokerage accounts. The Company could make a discretionary matching contribution based on the participants' elective deferral. The Company could also make a non-elective contribution. The Board of Directors of the Company determined the amount of the non-elective contribution annually. This contribution was allocated based on eligible compensation to those participants who satisfied the annual allocation requirements. The allocation was integrated with Social Security. Contributions to "highly compensated employees," as defined by the Plan, could not exceed 10% of eligible compensation. In order to receive an allocation of the non-elective contribution for the Plan year, participants had to be employed on the last day of the Plan year, and complete 1,000 hours of service during the Plan year. Effective September 15, 2015, due to a Plan amendment, the Company matching contribution was 50% of each participant's elective deferral up to 6% of their eligible compensation and the non-elective Company contribution was 4% of all participants' eligible compensation. During the period from January 1, 2017 to January 5, 2017, the Company did not make contributions. Contributions were subject to certain Internal Revenue Service ("IRS") limitations.

Note 1 – Description of Plan (continued)

Participant Accounts

Each participant's account was credited with the participant's contributions and Company matching contributions, as well as an allocation of (a) the Company's discretionary contribution, (b) plan earnings and losses, and (c) Plan administrative expenses that were paid by the Plan. Earnings, losses and investment expenses were allocated by fund based on the ratio of a participant's account invested in a particular fund to all participants' investments in that fund. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Vesting

Participants were immediately vested in their voluntary contributions plus actual earnings thereon. The vesting in the company's contribution portion of the participants' accounts was based on credited years of continuous service. A participant became 25% vested after two years of service, 50% vested after three years of service, 75% after four years of service and 100% vested after five years of service. Effective with the September 15, 2015 amendment, a participant was 100% vested immediately in the Company non elective contribution and became 50% vested after two years of service and 100% after three years of service for Company matching contributions. However, if an active participant died or became totally and permanently disabled prior to attaining the normal retirement age, the participant's account became 100% vested.

Forfeited Accounts

Forfeitures of non-vested benefits were used to reduce the Company's discretionary contribution and plan expenses. At December 31, 2016, forfeited non-vested accounts totaled \$66,343. For the period from January 1, 2017 to January 5, 2017, no amounts were used to offset Company contributions or to reduce Company expenses.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant with a vested interest over \$5,000 could elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, a distribution in the form of any annuity, or a combination of both. If the vested interest was less than \$5,000, a participant would receive the value of the vested interest in his or her account as a lump-sum distribution. Distributions were subject to the applicable provisions of the Plan agreement.

Notes Receivable from Participants

Effective September 15, 2015 due to a plan amendment, the Plan allowed for loans. Participants could borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans were secured by the balance in the participant's account and bore interest at rates that ranged from 4.25% to 4.75% which were commensurate with local prevailing rates as determined quarterly by the Plan administrator. The loans had to be repaid over a period not to exceed five years or ten years for the purchase of a primary residence. Principal and interest was paid ratably through bi-weekly payroll deductions.

Note 2 – Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan were prepared on the accrual basis of accounting.

January 5, 2017 (Date of Merger)

Note 2 – Summary of Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") required management to make estimates and assumptions that affected the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could have differed from those estimates.

Investment Valuation and Income Recognition

The Plan's investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Management of the Company determined the Plan's valuation policies utilizing information provided by the Plan's investment advisers, custodians and insurance company.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation included the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income was recorded on an accrual basis. Related fees were recorded as administrative expenses and were expensed as incurred. No allowance for credit losses were recorded as of December 31, 2016. If a participant ceased to make loan repayments and the Plan administrator deemed the participant loan to be in default, the participant loan balance was reduced and a benefit payment was recorded. There were no defaulted loans recorded as benefit payments for the period from January 1, 2017 January 5, 2017.

Payments of Benefits

Benefits were recorded when paid by the Plan.

Administrative Expenses

The Plan's expenses were paid either by the Plan or the Company as provided by the plan agreement. Certain administrative expenses of the Plan that were paid by the Plan were recorded as deductions in the accompanying Statement of Changes in Net Assets Available for Benefits. Expenses that were paid by the Company were excluded from these financial statements. Fees related to the administration of notes receivable from participants were charged directly to the participant's account and were included in administrative expenses. Investment related expenses were included in net appreciation in fair value of investments.

Subsequent Events

The Plan evaluated subsequent events for potential recognition or disclosure in the financial statements through October 6, 2017, the date the financial statements were available to be issued.

FUJIFILM Medical Systems U.S.A., Inc. Profit Sharing Plan
Notes to Financial Statements
January 5, 2017 (Date of Merger)

Note 3 – Investments

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements, including investments and notes receivable from participants held at December 31, 2016, and net appreciation in the fair value of investments and interest and dividends for the period from January 1 2017 to January 5, 2017 (date of merger), was obtained and derived from information supplied to the Plan administrator and certified as complete and accurate by Prudential Retirement Insurance and Annuity Company ("PRIAC") and PB&T, the trustees of the Plan, except for the stable value pooled separate account.

The assets of the Plan were invested at the direction of the participants in various investment funds at December 31, 2016.

Note 4 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The levels of the fair value hierarchy are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	<p>Inputs to the valuation methodology include</p> <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy was based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016.

Pooled separate accounts: Valued at fair value based on the current market values of the underlying assets of the fund.

FUJIFILM Medical Systems U.S.A., Inc. Profit Sharing Plan
Notes to Financial Statements
January 5, 2017 (Date of Merger)

Note 4 – Fair Value Measurements (continued)

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan were open-end mutual funds that were registered with the Securities and Exchange Commission. These funds were required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan were deemed to be actively traded.

Stable value pooled separate account: The stable value pooled separate account was not available in an exchange and active market, however, the fair value was determined based on the Plan's pro-rata share of the underlying investments in the pooled separate account. The underlying investments were principally comprised of investment grade: mortgage pools, corporate bonds and U.S. and foreign government bonds. Values were determined by quoted prices, market indexes and bid and asked criteria.

Self-directed brokerage accounts: Consisted of interest bearing cash, common stocks, and mutual funds. Cash was valued at fair value based on current market values of the underlying assets of the fund. The common stocks were valued at the closing price reported in the active market in which the individual securities are traded. The mutual funds were valued at the NAV of shares held by the Plan at year end. Cash is valued at fair value based on current market values of the underlying assets of the fund.

The preceding methods described may have produced a fair value calculation that was not indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believed its valuation methods were appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could have resulted in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016:

	<u>Investments at Fair Value as of December 31, 2016</u>			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Pooled separate accounts:				
Equity securities	\$ -	\$18,836,604	\$ -	\$ 18,836,604
Mutual funds	81,428,035	-	-	81,428,035
Stable value pooled separate account	-	27,044,924	-	27,044,924
Self-directed brokerage accounts	<u>1,325,826</u>	<u>428,827</u>	-	<u>1,754,653</u>
Total investments at fair value	<u>\$82,753,861</u>	<u>\$46,310,355</u>	<u>\$ -</u>	<u>\$129,064,216</u>

Note 5 –Stable Value Pooled Separate Account

The Plan's investment in the stable value pooled separate account ("the Fund"), a pooled separate account of PRIAC, was based on the fair value of the underlying investments. The investment objective was to receive a constant rate of return on the investments held in the Fund which was contractually agreed to (i.e. guaranteed) between the Plan and the Fund. The Plan participants' accounts were credited with earnings on the underlying investments and charged for participant withdrawals and certain administrative expenses. PRIAC was contractually obligated

FUJIFILM Medical Systems U.S.A., Inc. Profit Sharing Plan
Notes to Financial Statements
January 5, 2017 (Date of Merger)

Note 5 –Stable Value Pooled Separate Account (continued)

to repay the principal and a specified interest rate in a manner that mimicked contract value. Said rate was reset every six months, but fair value appreciation and gains and losses were rolled into the next six month fixed rate setting process. Generally, there were no restrictions on Plan participants' ability to redeem their investment in the Fund at a contract value rate. Certain affiliates of the Plan were also a part of this pooled separate account. Withdrawals prompted by certain events could have restricted a participant's ability to redeem the investment. The contract did not permit PRIAC to terminate the agreement prior to the scheduled maturity date.

The Plan's ability to receive amounts due was dependent on PRIAC's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations could have been affected by future economic and/or regulatory events.

Certain events limited the ability of the Plan to transact at the mimicked contract value with PRIAC. Such events included: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that caused a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. The Plan administrator, as well as the Company and its management, did not believe that any events were probable of occurring that could have limited the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants. The interest rate credited to participants in effect at December 31, 2016 was 3.05%.

Note 6 – Tax Status

The Company adopted a Prudential Retirement Insurance Company of America Prototype Plan which received a favorable opinion letter from the IRS dated March 31, 2008, which stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). Although the Plan was amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believed that the Plan was designed and was being operated in compliance with the applicable requirements of the IRC and therefore believed that the Plan was qualified and the related trust was tax exempt.

Accounting principles generally accepted in the United States of America required Plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan took an uncertain position that more likely than not would not be sustained upon examination by the IRS. The trustees of the Plan analyzed the tax positions taken by the Plan, and had concluded that as of January 5, 2017, no uncertain positions were taken or were expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan administrator believed it was no longer subject to tax examinations for years prior to 2013.

Note 7 – Related Party Transactions

The investments owned by the Plan were managed by PRIAC and PB&T, the trustees as defined by the Plan and, therefore, these transactions qualified as party-in-interest transactions. Fees incurred by the Plan for the investment management services were included in net appreciation in fair value of investments, as they were paid by revenue sharing, rather than direct payment. As described in Note 2, the Plan made direct payments to the third party administrator of \$663 for the period from January 1, 2017 to January 5, 2017; which were not covered by revenue sharing. The Company paid directly any other fees related to the Plan's operations.

FUJIFILM Medical Systems U.S.A., Inc. Profit Sharing Plan
Notes to Financial Statements
January 5, 2017 (Date of Merger)

Note 8 – Risks and Uncertainties

The Plan invested in various investment securities. Investment securities were exposed to various risks such as interest rate, market and credit risks. Due to the level of risks associated with certain investment securities, it was at least reasonably possible that changes in the values of investment securities would occur in the near term and that such changes would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9 – Benefits Payable

As of the date the financial statements were available to be issued, the Company had not completed the discrimination testing for the Plan, nor the affiliated plans in the controlled group (as defined), for the period from January 1, 2017 to January 5, 2017 and year ended December 31, 2016. Management believed the amount of refunds, if any, resulting from the 2016 testing would not be material to the financial statements and, therefore, no liability has been recorded for such refunds, if any.
