Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Hourly Employees Pension Plan of Kaydon Ring & Seal, Inc. Baltimore Plant (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2016 and 2015, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform and we did not perform, any auditing procedures with respect to the information summarized in Note 11, which was certified by The Bank of New York Mellon/BNY Mellon N.A. and The Northern Trust Company, the trustees of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustees hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained a certification from the trustees as of December 31, 2016 and 2015, and for the years then ended, that the information provided to the plan administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Hourly Employees Pension Plan of Kaydon Ring & Seal, Inc. Baltimore Plant

Notes to Financial Statements
December 31, 2016 and 2015

1. Description of the Plan

The following description of the Hourly Employees Pension Plan of Kaydon Ring & Seal, Inc. Baltimore Plant (the "Plan") is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit pension plan covering bargaining unit hourly employees of Kaydon Ring & Seal, Inc. (the "Company"). Kaydon Ring & Seal, Inc. is a wholly-owned subsidiary of Kaydon Corporation. The Plan was amended in 2014 to limit participation to eligible employees whose most recent hire date is on or before February 1, 2014.

On September 25, 2013, Kaydon Corporation entered into an Agreement and Plan of Merger with Atlas Management, Inc. ("Parent") and Dublin Acquisition Sub Inc. ("Merger Sub"), providing for, among other things, the merger of Merger Sub with and into Kaydon Corporation (the "Merger"), with Kaydon Corporation continuing as the surviving corporation and a direct wholly-owned subsidiary of Parent. Parent is a wholly-owned subsidiary of SKF USA Inc. ("SKF"). The Merger became effective on October 16, 2013, pursuant to the Certificate of Merger filed with the Secretary of State of the State of Delaware.

The Plan is administered by the SKF USA Inc. Pension and Benefits Committee ("Committee"). The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Board of Directors of the Company.

The Committee consented to expand the SKF USA Inc. Master Trust ("SKF Master Trust") at Bank of New York/BNY Mellon N.A. to open an account for the Plan and to transfer the majority of the assets of the Plan to the SKF Master Trust. Such transfer took place on January 9, 2015. The Committee voted to retain the Northern Trust Company under the Kaydon Corporation Retirement and Pension Plan Master Trust ("Kaydon Master Trust"), the existing trust relationship for the foreseeable future to process benefit payments for retirees, until such time as that benefit disbursement function can be transferred to the SKF Master Trust.

The Plan is subject to the provisions of the Employee Retirement Income Securities Act of 1974 ("ERISA").

Pension Benefits

Participants with 5 or more years of credited service are entitled to annual pension benefits beginning at normal retirement age (65) determined by a formula that takes into account the participant's years of credited service and the benefit multiplier in effect on the participant's last day of work as an active participant.

The Plan permits early retirement at ages 55 to 64 for participants with 10 or more years of credited service.

Hourly Employees Pension Plan of Kaydon Ring & Seal, Inc. Baltimore Plant

Notes to Financial Statements

December 31, 2016 and 2015

Participants generally elect to receive the value of their accumulated plan benefits in the form of a life annuity (if single) or qualified joint and survivor annuity (if married) upon retirement or termination. If the present value of a benefit is \$10,000 or less, the benefit may be made in one lump-sum payment. If a participant terminates before rendering 5 years of service, they forfeit the right to receive their accumulated plan benefits.

Death and Disability Benefits

If a participant is vested and dies before beginning receipt of a pension benefit, a death benefit is paid to the employee's surviving spouse. Once a participant has commenced receiving payments under the Plan, survivor benefits (if any) are paid according to the form of payment, and to the beneficiary, the participant elected at retirement. If a participant dies while an active participant, an additional lump-sum death benefit may be payable to the beneficiary for Company-provided life insurance.

Employees who have at least 10 years of vesting service when they become disabled or at least 5 years of vesting service if they are at least age 50 when they become disabled, are eligible for a disability retirement benefit from the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosures of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statement of Changes in Net Assets Available for Benefits. In addition, certain investment related expenses are included in the Plan's interest in the SKF and Kaydon Master Trusts' net investment income (loss) presented in the accompanying Statement of Changes in Net Assets Available for Benefits.

Investment Valuation and Income Recognition

The Plan's investment interests in the Kaydon Master Trust and the SKF Master Trust (collectively, "Master Trusts") are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustees. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the gains and losses on investments bought and sold as well as held in the Master Trusts during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation and years of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances such as retirement, death, disability, and termination of employment are included, to the extent they are attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary as of January 1, 2016. The actuarial present value of accumulated plan benefits is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits as of January 1, 2016 is as follows:

Vested benefits:	
Participants and beneficiaries currently receiving payments	\$ 9,790,899
Other participants	<u>12,125,815</u>
Total vested benefits	21,916,714
Nonvested benefits	<u>352,553</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 22,269,267</u>

Hourly Employees Pension Plan of Kaydon Ring & Seal, Inc. Baltimore Plant

Notes to Financial Statements

December 31, 2016 and 2015

The changes in the actuarial present value of the accumulated plan benefits for the year ended December 31, 2015 are summarized as follows:

Actuarial present value of accumulated plan benefits, at beginning of year	\$ 23,023,432
Increase (decrease) during the year attributable to:	
Benefits accumulated	146,940
Increase for interest	916,128
Benefits paid	(814,056)
Plan changes	229,881
Change in actuarial assumptions	<u>(1,233,058)</u>
Actuarial present value of accumulated plan benefits, at end of year	<u>\$ 22,269,267</u>

Significant assumptions underlying the actuarial computations are as follows:

Discount rate	4.34 percent in 2016 and 4.05 percent in 2015
Long-term rate of return on assets	7.50 percent in 2016 and 7.00 percent in 2015
Mortality	RP-2014 Mortality Tables, projected generationally with scale MP-2015
Retirement age	Age 65

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The discount rate changed from 4.05 percent in 2015 to 4.34 percent in 2016 and the long-term rate of return on assets changed from 7.00 percent to 7.50 percent in 2016 resulting in a decrease in the present value of accumulated plan benefits of \$1,233,058.

Recent Accounting Pronouncements

During February 2017, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960); Defined Contribution Pension Plans (Topic 962); Health and Welfare Benefit Plans (Topic 965): Employee Master Trust Reporting*. ASU 2017-06 clarifies presentation requirements for a plan's interest in a master trust. The amendments also eliminate redundancy relating to 401(h) account disclosures. ASU 2017-06 is effective for fiscal years beginning after December 31, 2018. Early adoption is permitted. The amendment should be applied retroactively to each period for which financial statements are presented.

Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through October 12, 2017, the date the financial statements were available to be issued.

3. Interest in the Kaydon Corporation Master Trust

The Plan holds certain investments in the Kaydon Master Trust, which was established for the investment of assets of the Plan and several other retirement plans sponsored by Kaydon Corporation. The assets of the Kaydon Master Trust are held by The Northern Trust Company, the trustee. At December 31, 2016 and 2015, the Plan's interest in the net assets of the Kaydon Master Trust was approximately 10 percent and 12 percent, respectively. Investment income and administrative expenses are allocated to each plan on the basis of each plan's proportionate interest in the assets of the Kaydon Master Trust.

The following table presents the fair values of investments for the Kaydon Master Trust as of December 31, 2016 and 2015:

	2016	2015
Investments at fair value, Common collective trusts	\$ 693,600	\$ 1,081,138

Total net assets	<u>\$ 693,819</u>	<u>\$ 1,081,391</u>

Investment income (loss) for the Kaydon Master Trust for the years ended December 31, 2016 and 2015 is as follows:

	2016	2015
Net appreciation (depreciation) in fair value of investments	\$ 124	\$ (159,974)
Interest	1,602	7,862
Total net investment income (loss)	<u>\$ 1,726</u>	<u>\$ (152,112)</u>

The change in net assets of the Kaydon Master Trust during the year is as follows:

Notes to Financial Statements

December 31, 2016 and 2015

There were no investments at fair value within the fair value hierarchy as of December 31, 2016 and 2015. In accordance with Subtopic 820-10, certain investments that were measured at net asset value ("NAV") per share (or its equivalent) as of December 31, 2016 and 2015 are as follows:

	<u>2016</u>	<u>2015</u>
Investments measured at NAV	<u>\$ 693,600</u>	<u>\$ 1,081,138</u>

4. Interest in the SKF Master Trust

The Plan has a 3 percent interest in the Master Trust as of December 31, 2016 and 2015. The Master Trust was established for the investment of assets of the Plan and other Company sponsored plans. The assets of the Master Trust are held by The Bank of New York Mellon/BNY Mellon N.A., the trustee. The value of the Plan's interest is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Investment income and administrative expenses relating to the Master Trust are allocated based on the Plan's interest in the net assets of the Master Trust. The following table presents the assets of the Master Trust at December 31, 2016 and 2015:

	<u>2016</u>	<u>2015</u>
Investments, at fair value:

Balance, at December 31, 2016	\$ 13,036,007	\$ 7,422,308	\$ 20,458,315

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in plan interest in Master Trust net income in the Statement of Changes in Net Assets Available for Benefit.

5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Hourly Employees Pension Plan of Kaydon Ring & Seal, Inc. Baltimore Plant

Notes to Financial Statements

December 31, 2016 and 2015

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Short term investments are valued at the quoted NAV of shares held at year end, and U.S. Treasury securities are valued based on quoted prices on the active market for identical assets.

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Master Trusts are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Master Trusts are deemed to be actively traded.

Common stocks are valued based on quoted prices on the active market for identical assets.

Corporate debt obligations are valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote if available.

U.S. government securities are valued using pricing models maximizing the use of observable inputs for similar securities.

Common Collective trust funds are valued based on the NAV of unit values of such funds held by the Plan at year end. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Notes to Financial Statements

December 31, 2016 and 2015

The private equity funds' values assigned are based on the current market values of the underlying assets reported by the investment advisor using audited financial statements of the funds at year end using NAV of shares held. Due to redemption restrictions, these funds are classified as Level 3 in the fair value hierarchy.

Real estate is considered a Level 3 fair value measurement due to the use of significant unobservable inputs. The valuation incorporates the discounted cash flow and the comparable sale methodologies. The discounted cash flow methodology utilizes a 10-year model that discounts projected annual debt-free cash flows of the real estate. This methodology reflects the risk adjustments for vacancy rates inherent in the long-term lease agreements based on industry standard guidelines. The sales comparison methodology is intended to estimate a value through comparable improved sales within a competitive geographical area relevant to the specific real estate held by the Plan. This methodology reflects the risk adjustments for timing, location and physical characteristics.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 investments in real estate, the valuation techniques used to measure the fair value of these investments in real estate, and the significant unobservable inputs and the ranges of values for those inputs.

6. Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. No participant contributions are permitted. The minimum funding requirements of ERISA were met for 2016 and 2015.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

7. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- b) Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations (discussed subsequently).
- c) All other vested benefits (that is, vested benefits not insured by PBGC).
- d) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, a statutory ceiling exists, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

8. Related Party and Party In Interest Transactions

The SKF Master Trust owns property, consisting of two parcels of real property that is leased by one of SKF's subsidiaries. The properties are or have been used in the manufacturing of bearings.

The market value of the properties directly owned by the SKF Master Trust has been determined by periodic independent appraisals as disclosed in Note 5.

The Hanover property was sold in March 2017 for an amount comparable to the fair value determined as of December 31, 2016. The Glasgow property was sold in January 2016 for an amount comparable to the fair value determined as of December 31, 2015.

The investments have been determined to be qualifying employer real property as defined by the regulations of ERISA.

Notes to Financial Statements

December 31, 2016 and 2015

The Plan's investments are administered under a contract with The Bank of New York Mellon/BNY Mellon N.A. and The Northern Trust Company, the trustees of the Plan. Contributions are held and managed by The Bank of New York Mellon/BNY Mellon N.A. and The Northern Trust Company, who invests cash received, interest, and dividend income and makes distributions to participants. These transactions qualify as party in interest transactions which are exempt from the prohibited transactions rules of ERISA.

Certain expenses of BNY Mellon N.A. and The Northern Trust Company are paid by the Plan related to plan operations and investment activity described in Note 2. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

9. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated April 13, 2011, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in accordance with the applicable requirements of the IRC and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. Risks and Uncertainties

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

In addition, the Plan's interest in the Master Trusts consists of various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statement of Net Assets Available for Benefits.

The Kaydon Master Trust as of December 31, 2016 and 2015 had investments of \$693,600 and \$1,081,138, respectively, which were concentrated in one fund.

The SKF Master Trust as of December 31, 2016 and 2015 had investments of \$98,942,033 and \$90,457,327, respectively, which were concentrated in one fund.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Prescribed Funding Assumptions and Methods

The following assumptions and methods are prescribed by ERISA.

Funding interest rates

For 2016 Plan Year: Segment Rates with no lookback, constrained in accordance with relevant legislation as follows:

	Unconstrained Rates*	Rates Reflecting Corridor**
First Segment Rate	1.41%	4.43%
Second Segment Rate	3.96%	5.91%
Third Segment Rate	4.97%	6.65%

Effective Interest Rate
Based on constrained rates 6.07%

For 2015 Plan Year: Segment Rates with no lookback, constrained in accordance with relevant legislation as follows:

	Unconstrained Rates*	Rates Reflecting Corridor**
First Segment Rate	1.22%	4.72%
Second Segment Rate	4.11%	6.11%
Third Segment Rate	5.20%	6.81%

Effective Interest Rate
Based on constrained rates 6.26%

* Used for maximum tax-deduction.

** Used for minimum funding and benefit restriction purposes.

Mortality

Mortality tables mandated by PPA as specified in IRS Regulation 1.430(h)(3)-1, applied on a fully generational basis.

Actuarial cost method

The Funding Target is the present value of accrued benefits based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected plan related expenses to be paid from plan assets during the year.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (continued)

Non-Prescribed Funding Assumptions and Methods

Based on the results of an experience study completed during 2014, the following assumptions were selected by the plan's enrolled actuary. The asset valuation method was selected by the plan sponsor with the actuary's advice and is an acceptable method under PPA.

Expenses

Expected plan related expenses of \$112,501 were added to the Target Normal Cost¹.

Frequency of optional payment forms

It is assumed that 100% of participants elect to receive a single life annuity. This assumption has never been formally studied, but reflects no inherent bias since the single life annuity is actuarially equivalent to all available optional payment forms.

Asset valuation method

The Actuarial Value of Assets is Market Value as of the valuation date, including discounted receivable contributions, reduced by 2/3 and 1/3 of the gain/(loss) in the prior two years, respectively. The gain/(loss) for each period is determined as the actual return on Market Value during the period less the expected return on Market Value based on an assumed earnings rate chosen by the plan administrator but required by PPA to be not greater than the applicable third segment rate. The resulting value is constrained to be within a corridor of 90% to 110% of Market Value, including discounted receivable contributions.

	EA's Expected Return	Third Segment Rate	Reflecting PPA Limit
2016 Expected Return	7.50%	6.65%	6.65%
2015 Expected Return	7.00%	6.81%	6.81%
2014 Expected Return	7.00%	6.99%	6.99%

The EA's Expected Return is based on the Plan's asset allocation and forward-looking expected rates of return by asset category provided by the plan's investment consultant.

Future Actuarial Measurements

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the economic and demographic assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. An analysis of the potential range of such future differences is beyond the scope of this report.

Impact of Prescribed Changes

- The interest rate basis was updated to the current rates as specified in IRS Regulations 1.430(h)(2)-1. These rates are constrained in accordance with HATFA. This change increased the Funding Target by approximately \$300,000.
- The EA's Expected Return was changed from 7.00% to 7.50% to be consistent with the asset allocation of the pooled trust that plan assets were moved into during 2015.
- The administrative expenses added to the Target Normal Cost changed from \$68,634 to \$112,501 to better reflect anticipated plan experience.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
