GREAT RIVER INDUSTRIES 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 1 – PLAN DESCRIPTION

The following description of Great River Industries 401(k) Plan (the Plan) provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established April 1, 2015, under Internal Revenue Code Section 401(k), and is sponsored by Great River Industries, LLC, covering all employees who wish to participate. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Each year, participants may contribute up to 100% of their annual compensation, as defined in the Plan, subject to normal IRS limitations - \$18,000 in 2016, \$24,000 in 2016 if over the age of 50. Participants direct the investments of their contributions into various options offered by the Plan. The Plan currently offers various mutual funds and an insurance investment contract as investment options for participants. The Company may elect at, its sole discretion, to make a matching contribution, and to determine the amount and allocation formula of that matching contribution. The current matching formula in effect is ½ of the first 8% contributed by the participant. The total amount that can be contributed to the plan on any participant's behalf is \$53,000.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which the participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Participants are 100% vested after six years of credited service, or upon reaching normal retirement age (65) while an employee, or death or disability while an employee.

NOTE 1 – PLAN DESCRIPTION (CONTINUED)

Loans

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest rates commensurate with local prevailing rates. Principal and interest is paid ratably through monthly payroll deductions for a period not to exceed five years, unless the loan is to secure a primary residence and then the maximum repayment period is thirty years.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed as they are incurred. No allowance for credit losses had been recorded as of December 31, 2016 and 2015. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over (a) the life of the participant; (b) the life of the participant and a Beneficiary; (c) a period certain not extending beyond the life expectancy of the participant; or (d) a period certain not extending beyond the Joint and Last Survivor Expectancy of the Participant and a Beneficiary.

Forfeitures

Forfeitures which shall occur during a plan year shall be applied first to pay any charge under the contract made in connection with the termination of employment of the participant whose termination resulted in the forfeiture and, any other charges under the contract which are past due; any amount of forfeitures remaining after such payments shall be applied to reduce employer contributions. There were \$30,756 of nonvested accounts at December 31, 2016.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan uses the accrual basis of accounting. Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive contracts from fair value to contract value.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition

Investment assets are maintained in mutual fund accounts and are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United State of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Expenses

Certain administrative expenses incurred maintaining the plan are paid directly by the Plan, or may be paid by the Sponsor. The Plan is not required to reimburse the Sponsor for any expenses paid on its behalf. Investment-related expenses are included in net appreciation/(depreciation) of fair value of investments.

NOTE 3 – INVESTMENTS

As permitted in a limited scope audit, certain investment information being reported was obtained from data that has been prepared and certified by the trustee. For the years ended December 31, 2016 and 2015 the fair value of the investments and investment income were all certified. During the years ended December 31, 2016 and 2015 the values of the Plan's investments were as follows:

	Fair Market Value 2016	Fair Market Value 2015
Investments in Mutual Funds (Fair Value)	\$ 822,159	\$ 705,486

NOTE 4 – PLAN TERMINATION PROVISION

Although it has not expressed any intent to do so, the Plan Sponsor has the right to terminate the Plan subject to the provisions of ERISA. Remaining assets will be used to pay claims that come due subsequent to termination. Any unpaid claims remaining following the disbursement of all Plan assets are the responsibility of the Plan Sponsor.

NOTE 5 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board Statement No. 157, *Fair Value Measurements* (FASB Statement No. 157) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels are as follows:

- Level 1 – inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.
- Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:
 - Quoted prices for similar assets or liabilities in active markets
 - Quoted prices for identical or similar assets or liabilities in inactive markets
 - Inputs other than quoted prices that are observable for the asset or liability
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – inputs that are unobservable inputs for the asset or liability

There have been no changes in the methodologies used at December 31, 2016 and 2015. Investments in mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The Plan's investments are categorized at Level 1 for fair value measurement.

NOTE 6 – RISKS AND UNCERTAINTIES

The Plan invests in investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 7 - NONEXEMPT TRANSACTIONS

Defined contribution plans are required to remit employee contributions to the Plan as soon as they can be reasonably segregated from the employer's general assets, but no later than the 15th business day of the month following the month in which the participant contributions are withheld by the employer. The Plan made all remittances in a timely manner for the year ended December 31, 2016.

NOTE 8 – TAX STATUS

The Plan is established under a trust contract with the Plan Sponsor. Since the Plan Sponsor can terminate the contract, it is treated as a grantor trust with all investment income allocable to the Plan Sponsor. Therefore, no provision has been made in these financial statements for income taxes.

The Plan and Trust are intended to qualify as a tax-exempt profit sharing plan and trust under Code sections 401(a) and 501(a), respectively, and the cash-or-deferred arrangement forming part of the Plan (to the extent provided in the Adoption Agreement) is intended to qualify under Code section 401(k).

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability or asset if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor, Internal Revenue Service, and ERISA. The plan administrator has analyzed the tax positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9 – DATE OF MANAGEMENT’S REVIEW

Subsequent events were evaluated through October 13, 2017; the date financial statements were available to be issued.
