Note A – Description of Plan

The following description of the Beaver Toyota 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Beaver Motors, Inc. (the "Company" or "Employer"). The Plan was formed and adopted on January 1, 2003 and has since been amended and restated as of January 1, 2016. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Employees become eligible to participate in the Plan the first day of the first month and seventh month of the Plan Year coinciding with or next following the date the employee attains age 18 and completes 6 months of Eligibility Service; and all other eligibility requirements have been satisfied. Employees that are not eligible to participate in the Plan are non-resident aliens who do not receive any compensation from U.S. sources, union employees whose employment is governed by a collective bargaining agreement under which retirement benefits were the subject of good faith bargaining and leased employees.

Administration

The Plan is administered by the Company. The Plan's assets for the year were maintained and administered by Massachusetts Mutual Life Insurance Company (the "Trustee").

Contributions

Participants may contribute up to 100% of their compensation subject to the maximum allowed by law imposed by the Internal Revenue Code (IRC) limitations. The maximum employee deferral for December 31, 2016 and 2015 was $18,000. A participant who has attained the age of 50 may also make catch up contributions, subject to IRS limitations of $6,000 for December 31, 2016 and 2015. Participants may also contribute amounts representing distributions from other qualified plans. Contributions received from participants are net of excess deferral contributions refunded, as required to satisfy the relevant nondiscrimination provisions of the Plan. Participants also have the option to make Roth contributions.

The Plan has automatic enrollment for all eligible employees. Employees are automatically enrolled at 4%, participants may change the percentage or opt out of the Plan entirely. The Trustee website handles all participant changes or opt outs.

Under the terms of the Plan, the Company has the option to make profit sharing or matching contributions. For the Plan year ended December 31, 2016, the Sponsor made a matching employer contribution of 25% of the first 4% of the participant's compensation. A discretionary profit sharing contribution was not made for the year ended December 31, 2016 All Company contributions are invested into the various investment options of the Plan in accordance with the participants' contribution allocation elections.

Participant Accounts

Each participant's account is credited and/or reduced with the participant's elective deferral contributions and distributions, the Company's contributions, and an allocation of the Plan's investment earnings/losses, investment fees and any administrative expenses paid out of the Plan. Allocations are based on participant earnings or account balances, as defined in the Plan.

Note A – Description of Plan (continued)

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100% vested after four years of credit service as follows:

Years of Services	Vesting Percentage
1	25%
2	50%
3	75%
4	100%

Investment Options

Under the Plan, participants may currently direct investments to any of 32 investment options. Participants may change their investment elections daily through a telephone access system or online system.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account, or other acceptable collateral, and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. The maximum note repayment period is five years unless the note is for the purchase of a primary residence in which case the repayment schedule may be for a term in excess of five years. Principal and interest payments with respect to the notes are credited solely to the account of the borrowing participant from which the note was made.

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. In the event of default, the unpaid portion of the participant's loan will be treated as a taxable distribution as of the first day of the second calendar quarter following the calendar quarter in which the participant failed to make a required installment payment.

Distribution of Benefits

After age 59 ½, upon termination of service due to death, as a qualified reservist, disability or retirement a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or installments paid over various periods, as defined in the Plan agreement, less any applicable taxes. Employees may request a hardship withdrawal from their accounts using only employee deferral balances for distribution.

Forfeitures

Forfeitures occur when a participant terminates employment and has not vested in a portion of the Company's contribution amount. Forfeitures may be applied to reduce employer contributions and Plan expenses. At December 31, 2016 and 2015, forfeited non-vested accounts totaled $37 and $0, respectively. The Plan utilized forfeitures to pay for contributions in the amount of $0 during the year ended December 31, 2016.

Note A – Description of Plan (continued)

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, each participant's account will become fully vested and non-forfeitable. All appropriate accounting provisions of the Plan will continue to apply until the accounts of all participants have been distributed.

Note B – Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (US GAAP).

In May 2015, the FASB issued ASU 2015-07, Fair Value Measurement (Topic 820): *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent),* which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, Fair Value Measurement, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. Management elected to early adopt the provisions of this new standard. Accordingly, the amendment was retrospectively applied resulting in changes to the footnote disclosures related to fair value measurements in Note B.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient*. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015 and should be applied prospectively, with early application permitted. Management has elected to adopt Parts I and II early. Accordingly, the amendments were retrospectively applied resulting in changes to the footnote disclosures related to fully benefit-responsive investments in Note G. Part III is not applicable to this Plan.

As described in the Code *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the Code), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. See Note G for further details.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of changes in net assets during the reporting period. Such estimates include those regarding fair value. Actual results could differ from those estimates.

Note B – Summary of Significant Accounting Policies (continued)

Valuation of Investments

The Plan's investments are stated at fair value. If available, quoted market prices are used to value shares of mutual funds. Common investment trusts were stated at net asset value. Notes receivable from participants are valued at their outstanding balances, which approximate fair value. The Plan's interest in the guaranteed interest contract is valued based on information reported by the investment advisor using the audited financial statements of the collective trust at year-end. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Fees and expenses of the Plan for legal, accounting and other administrative services may be paid directly by the Company, or at the Company's discretion, may be paid in whole or in part, out of Plan assets.

Fair Value Measurements

The Code has established a framework for measuring fair value, *Fair Value Measurements*. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note B – Summary of Significant Accounting Policies (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

		Fair Value Measurements at Reporting Date Using:	
	Assets Measured at Fair Value at 12/31/2016	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)
Investments, at fair value			
Mutual Funds	$ 1,515,348	$ 1,515,348	$ -
Total assets in the fair value hierarchy	1,515,348	1,515,348	-
Investments measured at net asset value	-		
Investments, at fair value	$ 1,515,348		

		Fair Value Measurements at Reporting Date Using:	
	Assets Measured at Fair Value at 12/31/2015	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)
Investments, at fair value			
Mutual Funds	$ 788,288	$ 788,288	$ -
Total assets in the fair value hierarchy	788,288	788,288	-
Investments measured at net asset value	483,653		
Investments, at fair value	$ 1,271,941		

Note C – Investments

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the auditors not to perform any auditing procedures with respect to the information certified by the Trustee, except for comparing such information to the related information included in the financial statements and supplemental schedule. The Plan Administrator has obtained a certification from the Trustee that the information provided to the Plan Administrator by the Trustee as of December 31, 2016, and for the year ended December 31, 2016, is complete and accurate. Such information includes all investments, notes receivable from participants, investment income, and the information in the supplemental schedule of assets (held at end of year).

Note D – Income Tax Status

The underlying standardized prototype plan has received an opinion letter from the Internal Revenue Service dated March 16, 2010 stating that the written form of the underlying prototype document is qualified under Section 401(a) of IRC, and that any employer adopting this form of the Plan will be considered to have a plan qualified under Section 401(a) of the IRC. Therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. Although the Plan has been amended since receiving the determination letter, the Plan's administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2014.

Note E – Risks and Uncertainties

The Plan provides for various investment options which are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to the changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Note F – Party-In-Interest

Fees paid during the year for accounting and other services rendered by parties-in-interest were based on customary and reasonable rates for such services. Certain Plan investments and the related transactions as of December 31, 2016 and 2015, and for the year ended December 31, 2016, were in investment funds managed by the Trustee; therefore, these investments and transactions qualify as party-in-interest transactions. Notes receivable from participants are also considered to be party-in-interest transactions because they are transacted with Plan participants. Fees paid to the Trustee by the Plan for investment services amounted to approximately $6,300 during the year ended December 31, 2016.

Note G – Fully Benefit-Responsive Investment Contracts

Fully benefit-responsive investment contracts, at contract value on the statement of net assets consist of the following investment(s):

		December 31, 2016
Investment Type	Investment name	Contract value
Group annuity contract	Fixed account	$ 182,603

The Plan invests in a guaranteed interest account (Fixed Account, "the Fund") provided through a group annuity contract. Under the Fund a crediting rate is established and is credited with contributions and charged for participant withdrawals and administrative expenses charged by the Trustee of the Funds. The guaranteed interest account issuers are contractually obligated to repay the principal and a specific interest rate that is guaranteed to the Plan.

Note G – Fully Benefit-Responsive Investment Contracts (continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Specific coverage provided by each contract may be different from each issuer and can be found in the contract of the Funds. Examples of such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investments options or deletion of equity wash provision, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Average yields:

Note I – Subsequent Events

ERISA section 412 and related regulations generally require that every fiduciary of an employee benefit plan and every person who handles funds or other property of such a plan shall be bonded. ERISA's bonding requirements are intended to protect employee benefit plans from risk of loss due to fraud or dishonesty on the part of the persons who "handle" plan funds or other property. ERISA refers to persons who handle funds or other property of an employee benefit plan as "plan officials." A plan official must be bonded for at least 10% of the amount of funds he or she handles, subject to a minimum bond amount of $1,000 per plan with respect to which the plan official has handling functions. In most instances, the maximum bond amount that can be required under ERISA with respect to any one plan official is $500,000 per plan.

Beaver Toyota 401(k) Plan, Plan Administrator and officials were not bonded during the 2016 Plan year. Subsequent to December 31, 2016, the bonding requirement was met, making the Plan compliant with ERISA section 412 for the 2017 Plan year.

Subsequent events have been evaluated through October 11, 2017, which is the date the financial statements were available to be issued.
