THE SCRIPPS PENSION PLAN—ALBUQUERQUE PUBLISHING COMPANY

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2016 AND 2015

1. DESCRIPTION OF THE PLAN

The following is a general description of The Scripps Pension Plan—Albuquerque Publishing Company (the “Plan”). Participants should refer to the Plan document for more complete information.

General—The Plan represents the participation of the Albuquerque Publishing Company (the “Company”) in The Scripps Pension Plan, a defined benefit pension plan maintained The E. W. Scripps Company (“Scripps”). Russell Trust Company (the “Trustee”) serves as the trustee of the Plan and manages the Plan’s investments. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

On March 31, 2009, the Plan was amended to freeze the accrual of participants’ plan benefits.

Pension Benefits—The Plan covers certain employees of the Company (principally employees not covered under a bargaining agreement). Normal retirement occurs upon attainment of age 65; however, early retirement may be elected if certain conditions are met. Vesting occurs after five years of credited service or upon normal retirement. The amount of monthly benefits is a function of participants’ compensation, years of credited service, and in some circumstances, age. Retirement benefits are reduced 0.5% for each month participants are under age 65 at the time benefits commence. For participants who are considered to be early retirees (age 55 and 10 years of credited service), retirement benefits are reduced 5% for each year the participant is under age 62 at the time benefits commence. There is no post-retirement death benefit for participants retiring after December 31, 2010. Participants who became permanently and totally disabled before December 31, 2010 and after completing 15 years of credited service are entitled to accrued benefits, with no reduction for commencement prior to normal retirement age. The surviving spouses of participants may be entitled to death benefits under certain conditions. Contributions by participants are not required or permitted.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting—The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“US GAAP”).

Subsequent Events—The Plan has evaluated all subsequent events through September 26, 2017, the date the financial statements were available to be issued.

Investments—The Plan’s investments in commingled trust funds are presented at fair value, which has been determined based on the fair value of the underlying investments. Generally, quoted market prices are used to value the underlying investments. Purchases and sales of securities are recorded on a trade-date basis. Net (depreciation) appreciation includes the Plan’s gains and losses on investments bought and sold, as well as held during the year.

Use of Estimates—The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties—The Plan invests in commingled trust funds which have underlying investments including corporate debt instruments, mutual funds and corporate stocks. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to the uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Expenses—Administrative expenses of the Plan are paid by the Plan as provided in the Plan document.

Administration—Scripps is responsible for the administration of the Plan. Scripps provides the Plan with certain accounting and administrative services for which no fees are charged.

Payment of Benefits—Benefit payments to participants or their beneficiaries are recorded upon distribution.

3. FAIR VALUE MEASUREMENTS

As permitted by US GAAP, the Plan uses net asset value as a practical expedient to determine the fair value of all investment funds which do not have a readily determinable fair value and have the attributes of an investment company. In accordance with US GAAP, the investments that are measured at net asset value have not been classified in the fair value hierarchy. For all years presented, all investments have been valued using the net asset value.

The Plan's investments in commingled trust funds are based on the net asset value of the funds, all which have a daily redemption frequency and do not require a notice of redemption. At December 31, 2016 and 2015, the Plan had no unfunded commitments from redemption of commingled trust funds.

4. FUNDING POLICY

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary. The Company met the minimum funding requirements of ERISA for the years ended December 31, 2016 and 2015.

5. INFORMATION CERTIFIED BY THE TRUSTEE

The following is a summary of the unaudited information as of and for the years ended December 31, 2016 and 2015, included in the Plan's financial statements and supplemental schedule, that was prepared by the Trustee or derived from information prepared by the Trustee. The plan administrator has obtained certifications from the Trustee that such information prepared by the Trustee is complete and accurate.

	2016	2015
Statements of net assets available for benefits:		
Investment in commingled trust funds	\$ 23,560,211	\$ 23,185,769
Receivable for investments sold	121,496	119,561
Statements of changes in net assets available for benefits:		
Net appreciation (depreciation) in fair value of commingled trust funds	2,231,409	(657,182)
Other income	-	131
All investment balances and information included in the supplemental schedule.		

6. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of December 31, 2016 and 2015, were:

- a. Life expectancy of participants
 - i. 2016—RP-2014 Static Mortality Table
 - ii. 2015—RP-2014 Static Mortality Table
- b. Average retirement age—62 years in 2016 and 2015, respectively
- c. Discount rate—4.65% for 2016 and 2015, respectively

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated benefits.

	2016	2015
As of December 31 (end of Plan year):		
Actuarial present value of accumulated vested benefits:		
Participants/beneficiaries currently receiving payments	\$ 16,972,274	\$ 16,999,910
Other participants	<u>13,521,870</u>	<u>14,126,641</u>
Total actuarial present value of accumulated vested benefits	30,494,144	31,126,551
Actuarial present value of accumulated unvested benefits—active participants	<u>203,380</u>	<u>243,339</u>
Total actuarial present value of accumulated benefits	<u>\$ 30,697,524</u>	<u>\$ 31,369,890</u>

	2016	2015
For the years ended December 31:		
Actuarial present value of accumulated benefits—beginning of year	\$ 31,369,890	\$ 33,611,758
Increases (decreases) due to:		
Change in assumptions	(356,269)	(2,520,403)
Interest	1,423,318	1,380,093
Actuarial (gains) losses	(217,634)	403,224
Benefit payments to participants or their beneficiaries	<u>(1,521,781)</u>	<u>(1,504,782)</u>
Actuarial present value of accumulated benefits—end of year	<u>\$ 30,697,524</u>	<u>\$ 31,369,890</u>

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain investments of the Plan are shares of commingled trust funds managed by the Trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were approximately \$94,400 and \$95,400 for the years ended December 31, 2016 and 2015, respectively.

8. FEDERAL INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated December 3, 2013, that the Plan was designed in accordance with applicable regulations of the Internal Revenue Code. The Company and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code and the Plan continues to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by federal and state tax authorities. The plan administrator has analyzed the tax positions taken by the plan and has concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

9. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested, normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive the benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide these benefits, the priority of benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

Actuarial value of assets

An average value of assets is determined based on the market value as of the valuation date and the market values on the two preceding 12 month periods. Adjustments are made to the asset values for contributions, benefit payments, expenses and expected investment returns over the period between the respective preceding determination dates and the current valuation date, as applicable. Expected investment returns are equal to the expected return on assets assumed for ASC.715 calculations (5.25% for 2014, 4.20% for 2015). The rate of return used in determining the average value of assets is equal to the lesser of the expected rate and the third segment rate from the prescribed yield curve that applies to the appropriate earnings period.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with The E. W. Scripps Company and, based on that review, is not aware of any significant benefits required to be valued that were not.

Change in Assumptions and Methods Since Prior Valuation

There have been no changes in non-prescribed assumptions and methods since the prior valuation.

Assumptions Rationale - Significant Economic Assumptions for Contributions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Administrative expenses	Administrative expenses are assumed to equal non-PBGC expenses from the prior plan year plus an estimate of the PBGC expenses for the current plan year that are paid from the trust.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions were selected by the plan sponsor and, as required by U.S. GAAP represents a best estimate of future experience. Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on anticipated turnover. Gains and losses are reviewed each year, and if a significant portion of the gain or loss is due to actual turnover different than assumed, Albuquerque Publishing Company and Willis Towers Watson will study actual experience to determine if the assumption should be changed
Retirement	Retirement rates were based on anticipated retirements. Gains and losses are reviewed each year, and if a significant portion of the gain or loss is due to actual retirements different than assumed, Albuquerque Publishing Company and Willis Towers Watson will study actual experience to determine if the assumption should be changed.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Schedule SB, Line 22 Description of Weighted Average Retirement Age as of January 1, 2016

A fixed population and the retirement rates described in the attached Actuarial Assumptions and Methods and shown below, were used to project the number of retirements per year for ages 55 through 70. Actuarial value of assets

An average value of assets is determined based on the market value as of the valuation date and the market values on the two preceding 12 month periods. Adjustments are made to the asset values for contributions, benefit payments, expenses and expected investment returns over the period between the respective preceding determination dates and the current valuation date, as applicable. Expected investment returns are equal to the expected return on assets assumed for ASC.715 calculations (5.25% for 2014, 4.20% for 2015). The rate of return used in determining the average value of assets is equal to the lesser of the expected rate and the third segment rate from the prescribed yield curve that applies to the appropriate earnings period.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with The E. W. Scripps Company and, based on that review, is not aware of any significant benefits required to be valued that were not.

Assumptions Rationale - Significant Economic Assumptions for Contributions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Administrative expenses	Administrative expenses are assumed to equal non-PBGC expenses from the prior plan year plus an estimate of the PBGC expenses for the current plan year that are paid from the trust.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions were selected by the plan sponsor and, as required by U.S. GAAP represents a best estimate of future experience. Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on anticipated turnover. Gains and losses are reviewed each year, and if a significant portion of the gain or loss is due to actual turnover different than assumed, Albuquerque Publishing Company and Willis Towers Watson will study actual experience to determine if the assumption should be changed
Retirement	Retirement rates were based on anticipated retirements. Gains and losses are reviewed each year, and if a significant portion of the gain or loss is due to actual retirements different than assumed, Albuquerque Publishing Company and Willis Towers Watson will study actual experience to determine if the assumption should be changed.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.
