COILMASTER CORPORATION
401(k) PROFIT SHARING PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2015 AND 2014

NOTE 1 - SUMMARY OF PLAN

The following description of Coilmaster Corporation 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan was established effective January 1, 2007 and was amended and restated in 2015.

GENERAL - The Plan is a defined contribution savings plan covering all eligible full-time employees of Coilmaster Corporation (the "Employer") effective January 1, 2007. The Plan is a 401(k) plan under the Internal Revenue Code and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan Administrator is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan Administrator.

ELIGIBILITY - Employees who are over age 21, and have completed one year of service, as defined, are eligible to participate in the Plan. The entry date for participation in the Plan is the first day of the Plan Year quarter coinciding with or next following the date the eligibility requirements are met.

CONTRIBUTIONS - Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan, not to exceed the maximum allowable deferral as prescribed by IRS regulations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The Employer contributes to the Plan an amount equal to 3% of each participant's salary deferral plus 50% of salary deferrals between 3% and 5% of compensation. Contributions are subject to certain IRS limitations. Additional profit sharing amounts may be contributed at the option of the Employer's Board of Directors. No profit sharing contributions were made to the Plan during the years ended December 31, 2015 and 2014.

PARTICIPANTS' ACCOUNTS - Each participant's account is credited with the participant's contributions, employer contributions, and Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the Participant's vested account.

VESTING - Participants are vested immediately in their contributions and in all Employer contributions made on their behalf, plus actual earnings thereon. Vesting in the Employer's profit sharing contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after 6 years of service.

NOTE 1 - SUMMARY OF PLAN - CONTINUED

INVESTMENT OPTIONS - Upon enrollment in the Plan, a participant may direct his or her contributions into any one of multiple investment options with Minnesota Life Insurance Company ("Minnesota"). The investment options include:

- **Guaranteed Return Account** - funds are invested in a fully benefit-responsive investment contract with Minnesota. Amounts invested earn a guaranteed rate of return. The underlying assets in the guaranteed return account are invested in the general assets of Minnesota which are mostly in fixed income investments, such as bonds, mortgages and private placements.
- **Multiple pooled separate accounts** are generally represented by over the counter open end mutual funds which are available across multiple investment disciplines including but not limited to money market, bonds and equities, both domestic and foreign.

Employer and employee contributions may be directed into any of the investment options.

PAYMENT OF BENEFITS - Upon termination of service, a participant receives payments equal to the value of his or her vested account balance in a lump sum, in installments, or in a direct rollover to an IRA or other eligible employer plan, at the option of the participant. Terminated employees with aggregate account balances exceeding \$1,000 may elect to leave their funds in the Plan and continue participation as noncontributory members of the Plan. At December 31, 2015 and 2014, no benefits were payable to participants who had terminated employment as of that date.

FORFEITED ACCOUNTS - Forfeited balances of terminated participants' nonvested accounts are used to reduce current or future employer contributions or administrative expenses. At December 31, 2015 and 2014 there was no balance in the forfeited invested account. During 2015 and 2014, \$449 and \$542 of forfeited funds were used to reduce administrative expenses, respectively.

PLAN TERMINATION - The Employer has the right under the Plan to discontinue contributions at any time and to terminate the Plan as of the end of any Plan year.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING - The Plan's financial statements are presented on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive

NOTES TO FINANCIAL STATEMENTS - CONTINUED
YEARS ENDED DECEMBER 31, 2015 AND 2014

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

BASIS OF ACCOUNTING - continued - investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

USE OF ESTIMATES - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities therein, and disclosures of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

QUALIFIED NON-ELECTIVE CONTRIBUTIONS (QNECs) - The statement of changes in net assets available for benefits includes qualified non-elective contributions for the years ended December 31, 2015 and 2014 of \$21,404 and \$37,408, respectively. Qualified non-elective contributions due to the Plan at December 31, 2015 and 2014 were \$255,164 and \$233,760, respectively. An adjustment of \$196,352 was made to net assets available for benefits at the beginning of the year ended December 31, 2014 to record the QNEC contributions due for Plan years prior to 2014. These contributions and related receivables relate to contributions required under ERISA to correct plan operational failures for the years ended December 31, 2015 and 2014 and years prior. The receivables due to the Plan have been adjusted for earnings from the end of the Plan year of the failure through the date of the statement of net assets available for benefits. The QNEC receivables due to the Plan are expected to be remitted during the year ending December 31, 2017.

INVESTMENT VALUATION AND INCOME RECOGNITION - Investments are reported at fair value, as determined by the trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the custodian and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

PAYMENT OF BENEFITS - Benefits are recorded when paid.

OPERATING EXPENSES - Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the processing of distributions are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

SUBSEQUENT EVENTS - The Plan's policy is to evaluate subsequent events through the auditor's report date, which is the date the financial statements are available for issuance.

RECLASSIFICATIONS - For comparability, certain prior year amounts have been reclassified where appropriate to conform with the financial statement presentation in the current year.

NOTE 4 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The Plan held no investments subject to Level 1 inputs.

NOTE 4 - FAIR VALUE MEASUREMENTS - CONTINUED

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2015 and 2014.

Pooled separate accounts: Valued at market value less operating expenses accrued but not deducted, if any. If market value is not readily available, then the separate account is valued at the fair value of the underlying investments held in the separate account as determined by Minnesota Life.

Guaranteed return account: Valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (see Note 5). Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Investment Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms such as the crediting rate.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2015 and 2014:

Unrealized gains/(losses) from the guaranteed return account are not included in the statement of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of value for those inputs.

NOTE 5 - GUARANTEED INVESTMENT CONTRACT WITH NATIONAL INSURANCE COMPANY

The Plan has a fully benefit-responsive guaranteed investment contract with Minnesota. Minnesota maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is a fully benefit-responsive contract, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Minnesota, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2015 and 2014 approximated contract value of \$1,049,203 and \$878,067, respectively. The crediting interest rate represents average renewal market rates applied to new deposits as well as expected rollover rates and an average withdrawal rate. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemptions from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The average yields earned by the guaranteed investment contract are as follows:

<u>Average yields</u>	<u>2015</u>	<u>2014</u>
Based on actual earnings	1.50%	1.50%
Based on interest rate credited to participants	1.50%	1.50%

NOTE 6 - TAX STATUS

The Plan is a prototype plan document prepared by Minnesota, the custodian of the Plan. The Internal Revenue Service has determined and informed Minnesota by a letter dated March 31, 2014, that the prototype plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has not obtained an individual determination letter and has been amended since March 31, 2014, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and accordingly has no income tax liabilities.

During 2015, Plan operational errors were discovered relating to years prior to 2014 and including the years ended December 31, 2015 and 2014. If these errors were left uncorrected, the Plan could be disqualified. However, the Plan sponsor and trustee have taken reasonable action to investigate and correct the errors discovered, including a Voluntary Compliance Application submitted to the IRS on July 18, 2017. The statements of net assets available for benefits at December 31, 2015 and 2014 reflect the QNEC to correct these errors and the statements of changes in net assets available for benefits for the year ended December 31, 2015 and 2014 include the qualified non-elective contributions required as disclosed in Note 2 - Qualified Non-Elective Contributions.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2012.

NOTE 7 - INFORMATION CERTIFIED BY THE CUSTODIAN

Minnesota holds the Plan's investments and executes investment transactions and administers the Plan's assets, together with the income therefrom. Certain expenses of the Plan may be paid directly by the Company. Minnesota maintains the records relating to each participant's account and performs other administrative functions. The following information included in the financial statements and supplemental schedules was provided and certified by Minnesota as complete and accurate:

	<u>2015</u>	<u>2014</u>
Investments, at fair value	\$ 2,835,551	\$ 1,920,377

NOTE 7 - INFORMATION CERTIFIED BY THE CUSTODIAN - CONTINUED

The following information included in the financial statements and supplemental schedules was provided and certified by Minnesota as complete and accurate:

- Investments
- Investment income
- Contributions
- Assets held for investment purposes
- Benefits paid
- Administrative expenses

Minnesota has also certified that there were no loans, leases or fixed income obligations in default or classified as uncollectible, nonexempt transactions with known parties-in-interest, reportable transactions, arrangements with financial institutions involving compensating balances or other arrangements involving restriction on cash balances, nor any agreements or commitments to purchase or sell investment assets.

NOTE 8 - RELATED PARTY TRANSACTIONS

Plan investments consisting of the interest in insurance company guaranteed return account and interest in pooled separate accounts are managed by Minnesota. Minnesota is the custodian as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. In addition, all administrative expenses included in the accompanying statements of changes in net assets were incurred with Minnesota.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan provides for participation in various investments. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values to investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 11 - ACCOUNTING CHANGES

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part III is not applicable to the Plan. Part I requires that fully benefit-responsive investment contracts be presented at contract value in the statement of net assets available for benefits and eliminates the requirements to measure each contract's fair value and to present each contract's related fair value measurement disclosures. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management is currently evaluating the effects of this ASU.

NOTE 12 - SUBSEQUENT EVENTS

In November 2016, the Plan sponsor was purchased through a sale of its stock. Per the terms of the sale, the Plan is to be merged with the purchasing company's existing 401(k) plan. The timing and structure of the merger are unknown at this time, but are expected to be determined upon receipt of approval of the Voluntary Compliance Application submitted to the IRS and after all QNEC contributions are remitted to the Plan as noted in Note 6.
