NOTE 1 – DESCRIPTION OF PLAN

The following description of the Prairie Senior Cottages, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a single-employer defined contribution plan covering all eligible employees of Prairie Senior Cottages, LLC and its affiliates (collectively, the Company) upon completion of the minimum period of service as defined in the Plan and reaching the age of 18. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was established on January 1, 2015.

Eligibility

All employees not otherwise excluded by provisions of the Plan document are eligible to participate for purposes of elective salary deferrals and employer match contributions on the next entry date upon completion of two consecutive months of service, in which the employee completes a minimum of 160 hours of service (effective February 1, 2016 minimum hours were increased to 200 hours of service). If these eligibility requirements were not met, employees could still be eligible for both features if they had completed one year of service, defined as twelve consecutive months in which the employee completed a minimum of 1,000 hours of service. After becoming eligible for a match, the participant has an additional condition of completing a minimum of 1,000 hours of service annually to qualify for the employer match that year. Matching contributions are made throughout the year by the employer to eligible employees. Subsequent to the year-end, the Company tests compliance with the 1,000 hour condition. Any matching contributions to eligible employees that did not meet the 1,000 hour condition are deemed ineligible and are removed from the participant account to a suspense account prior to vesting. These amounts are then applied to reduce future employer contributions of the Plan. Subsequent to year-end, the Company determined the participants that did not meet the 1,000 hour condition for 2016 and removed \$4,907 of contributions from those participant accounts to the suspense account.

To be eligible to participate in the employer profit sharing contribution feature of the Plan, an employee must complete two consecutive months of service, in which the employee completes a minimum of 160 hours of service (effective February 1, 2016 minimum hours were increased to 200 hours of service). If these eligibility requirements were not met, employees could still be eligible if they had completed one year of service, defined as twelve consecutive months in which the employee completed a minimum of 1,000 hours of service. After becoming eligible for a the employer profit sharing contribution, the participant has an additional condition of completing a minimum of 1,000 hours of service annually to qualify for the employer match that year.

Plan entry dates are the first of each month coinciding with or next following the date an employee satisfies the eligibility requirement.

Vesting

Employee contributions made pursuant to a salary reduction agreement are one hundred percent vested in their contributions and earnings thereon, regardless of length of service.

NOTE 1 – DESCRIPTION OF PLAN (continued)

Employer matching and profit sharing contributions to a participant's account are twenty five percent vested after one year of service, fifty percent for a second year of service, with one hundred percent vesting reached by three years of service. The Plan also provides for one hundred percent vesting at the normal retirement date as defined in the Plan, at retirement date due to disability, or upon the death of the participant.

Contributions

Employee salary deferral contributions are provided for in an amount equal to a dollar amount or percentage of the contributing participant's compensation not to exceed the limitations as defined in the Plan. These contributions are based on compensation as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Excess employee salary deferrals are refunded during the following plan year. There were no material excess participant contributions payable as of December 31, 2016.

The Company may, at its discretion, elect to make qualified matching and/or profit sharing contributions to the Plan. For the years ended December 31, 2016 and 2015, the Company's matching contribution was 100% of each participant's deferral contributions up to a maximum of 1% of compensation. Subsequent to year end, the matching contribution was 100% of each participant's deferral contributions up to a maximum of 2% of compensation. Matching contributions totaled \$28,967 and 27,081 for the years ended 2016 and 2015, respectively. There were no employer discretionary profit sharing contributions for the years ended December 31, 2016 and 2015.

Forfeited accounts

Forfeitures occur when a participant terminates prior to being fully vested. Forfeitures of terminated participants' non-vested amounts are applied to reduce employer contributions of the Plan. The unallocated forfeiture balances totaled \$0 and \$262 at December 31, 2016 and 2015, respectively.

Participant accounts

Participants' accounts are credited with the salary reduction contributions, the employer matching contributions, the employer discretionary contributions, and an allocation of Plan earnings and forfeitures of participants' non-vested amounts. Allocations are based on participant compensation or account balances, as appropriate, as defined in the Plan. The benefit to which a participant is entitled is the benefit which can be provided from the participant's account. All contributions made to these accounts are directed by the participant into a particular investment offered by the administrator and the allocations can be changed at will.

Payment of benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments over a period of time as defined in the Plan. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

NOTE 1 – DESCRIPTION OF PLAN (continued)

Notes receivable from participants

Participants may borrow against their vested account balances a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or fifty percent of their vested account balance less any outstanding note balances during the previous twelve months. Repayment terms may not exceed five years, except for notes related to the purchase of a principal residence for which the repayment term may be longer. Notes are generally repaid through salary withholdings. Notes outstanding at the time of a participant's termination are deducted from amounts due to participants prior to final distribution of vested account balances. Notes are secured by the balance in the participant's account and bear interest at the prime rate. The prime interest rate was 3.75% and 3.5% at December 31, 2016 and 2015, respectively. Notes outstanding at December 31, 2016 have interest rates of 3.25-3.5% and are due at various dates through December 2020. One note outstanding at December 31, 2016 had an interest rate of 3.25% and was due in November 2020.

Participant directed accounts

Assets of the Plan are held in various funds as defined in the Plan summary. Participants may transfer their interests between the funds at times designated by the Plan Administrator.

Merger

Subsequent to year-end and during 2017, the management of Prairie Senior Cottages, LLC, approved the merger of this Plan into the Pro Resources Retirement Savings Plan (a Multiple Employer Plan). The effective date with Pro Resources Retirement Savings Plan was October 1, 2017. At that time the company ceased making contributions to the Prairie Senior Cottages 401k Plan and began making contributions to Pro Resources Retirement Savings Plan. The transfer of the assets from the Prairie Senior Cottages 401k Plan to the Pro Resources Retirement Savings Plan is currently pending due diligence review. Once due diligence review is completed, the transfer of assets will occur at that time and the Prairie Senior Cottages 401K Plan will cease to exist.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting from information supplied by the Company, the Plan administrator, and the Trustee.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Payment of benefits

Benefits are recorded when paid.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2016 and 2015, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the Plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Investment valuation and income recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The shares of registered investment companies (mutual funds) are valued at quoted market prices. The money market funds are valued at cost plus accrued interest which approximated fair value. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisers and trustee. See Note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year. Earnings from the common collective trust are reinvested in the fund and reflected in dividends and interest.

Plan and administrative expenses

The plan sponsor pays for all audit, recordkeeping and advisory fees. The asset management fees are paid by the Plan sponsor. Effective January 1, 2017, the asset management fees will be paid by the Plan participants.

Subsequent events

The Plan has evaluated subsequent events through October 16, 2017, the date which the financial statements were available to be issued.

NOTE 3 – INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Ascensus Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected in the accompanying Statement of Net Assets Available for Benefits as of December 31, 2016 and 2015, and the supplemental Schedule H, Line 4(i) – Schedule of Assets Held at End of Year as of December 31, 2016, and the related investment activity reflected in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2016.

NOTE 4 – CONCENTRATION OF CREDIT RISK

The Plan maintains its investment accounts in uninsured accounts held by Ascensus Trust Company. These accounts are subject to the market risks associated with the various accounts' specific investments and general market conditions.

NOTE 5 – INCOME TAX STATUS

The Plan adopted a prototype plan from Ascensus Trust Company. This plan received a determination letter from the Internal Revenue Service on March 31, 2014, stating that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Generally, the Plan's tax returns remain open for three years.

NOTE 6 – PARTIES-IN-INTEREST

The Company is the Plan sponsor and has been designated as Plan administrator. This service is provided at no expense to the Plan.

Ascensus Trust Company is the Plan record keeper. Fees for these services totaled \$2,454 and \$479 for the years ended December 31, 2016 and 2015, respectively. Fees for these services were paid by the Plan and allocated to Plan participants.

Ascensus Trust Company is the trustee and custodian of the Plan and holds the Plan's investments. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, and are paid through revenue sharing, rather than a direct payment.

The management of the Plan administrator does not believe any of the above parties-in-interest transactions constitute prohibited transactions under the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 7 – FAIR VALUE MEASUREMENTS

FASB ASC Topic 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE 7 – FAIR VALUE MEASUREMENTS (continued)

Level 2: Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from, or corroborated by, observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual Funds: Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trusts: The fair value is measured at net asset value (NAV) as reported in the audited financial statements by the investment manager based on the fund's underlying assets.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016 and 2015.

		Fair Value Measurements using:		
	Fair Value	Level 1	Level 2	Level 3
December 31, 2016				
Mutual funds	\$ 342,565	\$ 342,565	\$ -	\$ -
Total assets in the fair value hierarchy	342,565	342,565	-	-
Investments measured at NAV*	3,014	-	-	-
Investments, at fair value	\$ 345,579	\$ 342,565	\$ -	\$ -
		Fair Value Measurements using:		
	Fair Value	Level 1	Level 2	Level 3
December 31, 2015				
Mutual funds	\$ 229,028	\$ 229,028	\$ -	\$ -
Investments, at fair value	\$ 229,028	\$ 229,028	\$ -	\$ -

NOTE 7 – FAIR VALUE MEASUREMENTS (continued)

*In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in the table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statement of Net Assets Available for Benefits.

The following table sets forth additional disclosures for the fair value measurement of investments in certain entities that calculate NAV per share (or its equivalent) as of December 31, 2016 and 2015:

Investments	Fair Value Estimated Using Net Asset Value Per Share				
	Fair Value*		Unfunded Commitment	Redemption Frequency	Redemption Notice Period
	2016	2015			
Fixed income funds (a)	\$ 3,014	\$ -	None	Daily	None
Total	\$ 3,014	\$ -			

* The fair values of the investments have been estimated using the NAV of the investment.

(a) The fixed income fund strategies seek high total investment return through a combination of current income and capital appreciation by investing in a diversified portfolio of fixed income securities. The common collective trust seeks to provide a moderate level of stable income without principal volatility through active management of a diversified portfolio of investment contracts issued by selected high quality insurance companies and financial institutions.

NOTE 8 – PLAN RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rates, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

NOTE 9 – PLAN TERMINATION

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in all employer contributions. Any unallocated assets of the Plan would be allocated to participant accounts and distributed in such a manner as the Company may determine. As discussed in Note 1, subsequent to year-end the plan and its participants were in the process of being merged into the Pro Resources Retirement Savings Plan.

NOTE 10 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

Certain balances included on Schedule H Part I, II of the Annual Return/Report of Employee Benefit Plan (Form 5500) have been reclassified for purposes of presentation in the financial statements. The following is a reconciliation of net assets available for Plan benefits, per the financial statements, to Form 5500:

	December 31, 2016
Net assets available for plan benefits, per the financial statements	\$ 391,606
Less: participant contributions receivable	-
Less: employer contributions receivable	-
Net assets available for plan benefits, per Form 5500	<u>\$ 391,606</u>

The following table reconciles the net increase in assets, per the financial statements, to the Form 5500:

	Year Ended December 31, 2016
Net increase in assets, per the financial statements	\$ 112,342
Less: participant contributions receivable	-
Less: employer contributions receivable	-
Less: interest on participant loans	(75)
Net increase in assets, per Form 5500	<u>\$ 112,267</u>

NOTE 11– ERISA BOND REQUIREMENT

The Employee Retirement Income Security Act of 1974 (ERISA) requires that every person who handles funds or other property be bonded. The bond coverage is to be determined by the balance of the total Plan assets, and is required to be at least equal to the lesser of 10% of the Plan's assets at the beginning of the Plan year or \$500,000. Through November 30, 2016 the Plan's sponsor did not maintain bond coverage for the Plan. On December 1, 2016, the Plan's sponsor attained the required bond coverage for the Plan.
