LITTLEJOHN ENGINEERING
401(k) RETIREMENT PLAN

Notes to Financial Statements

January 9, 2017 and December 31, 2016

(1) Description of Plan

The following description of the Littlejohn Engineering 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

(a) General

The Plan, a defined contribution plan, was established by Littlejohn Engineering, Inc. (the "Company") effective May 1, 1992. On December 31, 2014, the Company was acquired by S&ME, Inc. ("S&ME") and the Plan was subsequently administered by an Administrative Committee appointed by S&ME. The Administrative Committee appointed the custodian, who was responsible for investment of the assets of the Plan, as directed by Plan participants. The Company was appointed to be the Plan administrator. Matrix Trust Company served as the custodian of the Plan.

During 2016, the Trustees of the Plan approved the merger of the Plan into the S&ME Personal Retirement Option Plan (the "PRO Plan"), effective in January 2017. Subsequently, on January 9, 2017, the Plan was merged into the PRO Plan. Following the merger of the plans, eligible employees under the Plan now participate in the PRO Plan. Transferred net assets, consisting of investments totaling \$9,800,378, have been recognized in the accounts of the PRO Plan as of January 9, 2017 at their balances as previously carried in the accounts of the Plan, and the Plan was legally terminated.

The purpose of the Plan was to enable employees of the Company to save for retirement and certain special situations, including benefits in the event of death, disability, or other termination of employment, with pretax dollars. The Plan was for the exclusive benefit of eligible employees and their beneficiaries and is subject to the Employee Retirement Income Security Act of 1974 ("ERISA").

(b) Eligibility of Participation

Employees of the Company were eligible to participate in the Plan upon attainment of age twenty-one and completion of three months of service.

(c) Contributions

Participants could elect to contribute a portion of pretax compensation, not to exceed annual limits established by law, and subject to certain discrimination tests prescribed by the Internal Revenue Code, and other limitations specified in the Plan. Participants were allowed to transfer or rollover funds into the Plan from other qualified plans. The Company could elect to make matching or other discretionary nonelective contributions to the Plan. Such contributions were determined annually at the Company's discretion. Participants directed the investment of their contributions and any Company contributions into various investment options offered by the Plan.

(1) Description of Plan, Continued

(d) Participant Accounts

Each participant's account was credited with the participant's contributions, the Company's matching contribution, if any, and an allocation of the Company's discretionary contribution, if any, and the Plan earnings (losses). Plan earnings were allocated based on participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(e) Vesting

Participants were immediately vested in their voluntary contributions plus actual earnings (losses) thereon. Vesting in the Company's contribution was based on years of continuous service. This portion of the account vested at a rate of 20 percent per year beginning in the second year, becoming fully vested after six years of service. A participant's vesting under the Plan carried over into the PRO Plan following the merger.

(f) Loans

Participant loans were not permitted under the Plan.

(g) Payment of Benefits

On termination of service with the Company, a participant would receive a lump-sum distribution amount equal to the value of the participant's vested interest in his or her account. Active employees could make withdrawals of all or a portion of their vested account balances subject to certain withdrawal and contribution rules of the Plan. Withdrawals were not allowed for participants who are less than 59½ years of age, except under certain disability or hardship provisions.

(h) Forfeited Accounts

Forfeitures of nonvested account balances were used to reduce matching contributions that the Company may make to the Plan. All plan assets as of January 9, 2017, including forfeited nonvested accounts, were transferred to the PRO Plan. As of December 31, 2016, forfeited nonvested accounts totaled \$45,237.

(i) Party-In-Interest

During 2017 and 2016, the Plan did not engage in any non-exempt party-in-interest transactions.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America and present the net assets available for plan benefits and changes in those net assets on an accrual basis.

(b) Investments

The Plan's investments are stated at fair market value. Fair value is the price received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. See note 2(f) for further discussion of fair value measurements. All Plan assets were transferred to the PRO Plan before close of business on January 9, 2017.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is accrued as it is earned and dividends are recorded as of the ex-dividend date. Net realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for benefits as net appreciation (depreciation) in fair value of investments.

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of net appreciation in fair value of investments.

(c) Benefits

Benefits were recorded when paid.

(d) Administrative Costs

Certain expenses incurred in connection with the general administration of the Plan are paid by the Plan and are recorded in the accompanying statement of changes in net assets available for benefits as administrative expenses. All other administrative and operating expenses are paid by the Company.

(e) Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions that affect the reported amounts of net assets available for plan benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for plan benefits during the reporting period. Actual results could differ from those estimates.

(f) Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The authoritative guidance for fair value measurements establishes a hierarchy which encourages an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority; Level 2 inputs consist of observable inputs other than quoted prices for identical assets; and Level 3 inputs are unobservable and have the lowest priority.

Following is a description of the valuation techniques used by the Plan to measure different financial instruments at fair value and the level within the fair value hierarchy in which the financial instrument is categorized.

Level 1 Fair Value Measurements

The fair values of equity securities are based on quoted market prices in active markets. The Plan's Level 1 investments consist of investments in mutual funds and money market funds.

(3) Certified Financial Data

The following is a summary of the Plan's financial information and data certified by the custodian as complete and accurate in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA as of January 9, 2017 and December 31, 2016, and for the period from January 1, 2017 to January 9, 2017 and the year ended December 31, 2016:

	<u>2017</u>	<u>2016</u>
Investments	\$ <u>-</u>	<u>9,685,362</u>
Investment return:		
Interest and dividends on investments	\$ <u>-</u>	<u>509,594</u>

(4) Fair Value Measurements

The Plan's investments were reported at fair value in the accompanying statements of net assets available for plan benefits as follows as of December 31, 2016:

	<u>Value</u>	Fair value measurement using <u>Level 1</u>
Assets in fair value heirachy -		
Mutual funds	\$ 9,440,494	9,440,494
Money market funds	244,868	244,868
	<u>\$ 9,685,362</u>	<u>9,685,362</u>

(5) Federal Income Taxes

The Internal Revenue Service has determined and informed the Company by letter dated March 31, 2008, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan was designed and was operated in compliance with the applicable provisions of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

(6) Subsequent Events

The date to which events occurring after January 9, 2017, the date of the most recent statement of net assets available for plan benefits, have been evaluated for possible adjustment to the financial statements or disclosure is October 24, 2017, the date the financial statements were available to be issued.
