1. Description of Plan:

The following description of the Patheon Biologics 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan, which was formally known as the Gallus 401(k) Plan was established effective January 1, 2011 and was a defined contribution plan covering eligible employees of Gallus Biopharmaceuticals, LLC. During 2014, Gallus Biopharmaceuticals, LLC was acquired by Patheon Biologics LLC (the "Company" or "Employer"). As a result of the acquisition, employees of Gallus Biopharmaceuticals, LLC became employees of Patheon Biologics LLC. Also, the Plan was amended and restated, renaming the Plan as the Patheon Biologics 401(k) Plan which covered eligible employees of the Company.

Eligible employees included substantially all employees of the Company who were not union, leased, temporary, or non-US residents. There was no age or service requirement to enter the Plan. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan transfers and mergers

In December 2013, the Laureate Biopharmaceutical Service, Inc. 401(k) Savings Plan merged into the Gallus 401(k) Plan. Assets totaling $5,747,845 were received by the Plan on January 3, 2014 and are reflected in the statement of changes in net assets available for benefits as transfers into the Plan for the year ended December 31, 2014.

On December 15, 2015, the Plan merged into the Patheon U.S. Retirement Savings Plan. As a result, all assets totaling $19,240,646 were transferred to the Patheon U.S. Retirement Savings Plan.

Contributions

Participants could contribute up to 90% of their eligible compensation to the Plan, subject to certain limits permitted by law. Contributions could be deferred pre-tax or as a Roth deferral; in addition, participants could make deferral contribution on Employer paid bonuses. Participants who attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants could also contribute amounts representing distributions from an eligible retirement plan (rollovers). Participants directed the investment of their contributions into various investment options offered by the Plan. The Company contributed 100% on the first 3% and 50% on the next 2% of eligible compensation that a participant contributed to the Plan. The Company could have made discretionary profit sharing contributions to the Plan. During 2015 and 2014, no discretionary company contributions were made.

Participant accounts

Each participant's account was credited with the participant's contribution and Company's matching contributions as well as allocations of Plan earnings and Company discretionary contributions, when applicable. Participant accounts were charged with an allocation of administrative expenses that were paid by the Plan. Allocations were based on participant earnings or account balances, as defined. The benefit to which the participant was entitled was provided from the participant's vested account.

Vesting
Participants were vested immediately in their contributions and all Company contributions, plus actual earnings thereon. Participants who previously participated in the Laureate Biopharmaceutical Service, Inc. 401(k) Savings Plan were 100% vested in all Company contributions after 3 years of credited service.

Notes receivable from participants
Participants could borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans were secured by the balance in the participant's account and bore interest at rates which were commensurate with local prevailing rates as determined by the plan administrator. Principal and interest were paid ratably through payroll deductions.

Payment of benefits
On termination of service due to death, disability, or retirement, a participant could elect to receive a lump sum distribution or a direct rollover. On termination of service, participants with a vested balance of $1,000 or less received a lump sum distribution of their vested balance. Those with vested balances greater than $1,000 and less than $5,000 received a rollover to an individual retirement account or annuity. On termination of service due to death, a death benefit equal to the value of a participant's account was paid to the participant's beneficiary. For termination of service for other reasons, a participant received the value of their vested account balance as a lump sum distribution.

2. Summary of Significant Accounting Policies:

Basis of accounting
The financial statements of the Plan were prepared on the accrual basis of accounting.

Investment valuation and income recognition
The Plan's investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for disclosure of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation (depreciation) included the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants
Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income was recorded on the accrual basis. Related fees were recorded as administrative expenses and were expensed when they were incurred. No allowance for credit losses was recorded as of December 15, 2015 or December 31, 2014. Delinquent participant loans were reclassified as distributions based upon the terms of the Plan document.

Payment of benefits
Benefits were recorded when paid.

Administrative expenses
Certain expenses of maintaining the Plan were paid directly by the Company and were excluded from these financial statements. Fees related to the administration of notes receivable from participants were charged directly to the participant's account and were included in administrative expenses. Investment related expenses were included in either net appreciation (depreciation) in fair value of investments or charged as investment management fees included in administrative expenses.

Accounting change
Recently issued accounting pronouncements —The Financial Accounting Standards Board (FASB) recently issued Accounting Standards Update (ASU) 2015-12, "Plan Accounting: Defined Contribution Pension Plans (Topic 962): (Part 1) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date – Practical Expedient." ASU 2015-12 simplifies disclosures and reporting by employee benefit plans. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015, with earlier adoption permitted. The Plan elected to early adopt Part II of ASU 2015-12. This change had no impact on net assets available for benefits. Parts I and III were not applicable to the Plan as of December 15, 2015.

Additionally, the FASB issued ASU 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)*." ASU 2015-07 simplifies disclosures and reporting on investments valued at net asset value as practical expedient. ASU 2015-07 is effective for fiscal years beginning December 15, 2016, with earlier adoption permitted. Management elected to early adopt ASU 2015-07, applied retrospectively to all periods presented. This change had no impact on net assets available for benefits.

3. Information Certified by the Trustee:

The plan administrator elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the investment information included on the statements of net assets available for benefits and the supplemental schedule of assets (held at end of year), as well as the investment income (loss) shown on the statement of changes in net assets, which were certified by Fidelity Management Trust Company, the trustee of the Plan, as complete and accurate, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule.

4. Fair Value Measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy was based on the lowest level of any input that was significant to the fair value measurement. Valuation techniques used needed to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 15, 2015 and December 31, 2014.

Cash equivalents and mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan were open-end mutual funds that were registered with the Securities and Exchange Commission. These funds were required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan were deemed to be actively traded.

Common/collective trust: Valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the trustee, was used as a practical expedient to estimate fair value. The NAV was based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used if it was determined to be probable that the fund sold the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) occurred daily. Were the Plan to initiate a full redemption of the collective trust, the issuer reserved the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations would be carried out in an orderly business manner. The significant investment strategies of the funds were as described in the financial statements provided by each fund.

The methods described above may have produced a fair value calculation that was not indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believed its valuation methods were appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could have resulted in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014:

	Investments at fair value as of December 31, 2014			
	Total	Level 1	Level 2	Level 3
Interest bearing cash	$ 158,495	158,495	-	-
Mutual funds	18,050,908	18,050,908	-	-
Investments in the fair value hierarchy	$ 18,209,403	18,209,403	-	-
Investment measured at net asset value	$ 1,080,310			
Total investments at fair value	$ 19,289,713			

Fair Value of Investments in Entities that Use Net Asset Value (NAV)

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2014.

2014	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Common/collective trust	$1,080,310	n/a	Daily	None

5. Related Party Transactions:

Certain Plan investments were shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company was the trustee as defined by the Plan and, therefore, these transactions qualified as party-in-interest transactions. Fees paid by the Plan for investment management services were included in net appreciation in fair value of investments, as they were paid through revenue sharing, rather than a direct payment. The Plan Sponsor paid directly any other fees related to the Plan's operations.

6. Tax Status:

Effective January 1, 2014, the Plan adopted a non-standardized prototype plan which received a favorable opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008. The IRS stated in the letter that the Plan, as then designed, was in compliance with the applicable sections of the Internal Revenue Code (the Code). While the Company has not obtained its own determination letter on the Plan, management believed that the Plan was designed and operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes was included in the Plan's financial statements.
