NOTE A BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General - The Complete Rx, Ltd. 401(k) Plan (the Plan) is a defined contribution plan offered by Complete Rx, Ltd. (the Company) and was adopted effective January 1, 1999. The Plan was established to provide a savings and investment plan for the exclusive benefit of employees of the Company and their beneficiaries. The Plan is a defined contributions plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Basis of Presentation - The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States (GAAP). Interest and dividend income are recognized when earned.

Estimates - The preparation of financial statements in conformity with GAAP requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan provides for several investment options which are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

Valuation of Investments - Registered investment companies are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In accordance with the policy of stating investments at fair value, net investment gain or loss is included in the carrying value of related investments in the statements of net assets available for plan benefits and the changes in the net investment gain or loss are reflected in the statement of changes in net assets available for plan benefits.

The Invesco Stable Asset Fund is a fully-benefit-responsive common collective trust fund that is presented at contract value on the statements of net assets available for plan benefits. Contract value is equal to the principal balance plus accrued interest. An investment contract is generally valued at contract value, rather than fair value, to the extent it is fully benefit-responsive.

Benefit-Responsive Fund - The Invesco Stable Asset Fund invests primarily in investment contracts that are fully benefit-responsive and provide that Plan participant-initiated withdrawals permitted under the Plan will be paid at contract value. This investment contract has two components: (1) a portfolio of securities or underlying assets and (2) a wrap contract. Pursuant to the contract, the issuer of the contract (wrap provider) undertakes to repay the principal amount deposited plus accrued interest less expenses to fund participant-directed withdrawals, transfers and loans. The crediting rate of the investment contract is a function of the relationship between the market value, yield and duration of the underlying assets versus the contract value. If the positive adjustment for the portion of net assets attributable to fully benefit-responsive investment contracts from fair value to contract value increases, the crediting rate at the next reset date will be negatively impacted and vice versa. Interest rate change is a key factor that can influence future crediting rates because it impacts the value, yield and duration of the underlying securities.

NOTE A BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment contracts held by the Invesco Stable Asset Fund are fully participating contracts. In a fully participating contract, the asset and liability risks may be transferred from the wrap provider to the Invesco Stable Asset Fund in the event of a termination or non-participant directed withdrawal, transfer or loan, or the occurrence of certain contract-specific termination provisions. The risk of the events happening is not probable.

Notes Receivable from Participants - Loans to participants are reported as a receivable from participants at the unpaid principal balance plus any accrued but unpaid interest.

Other Income - During 2016, administrative fees amounting to $22,025 were reimbursed to the Plan by Reliance Trust Company.

Federal Income Tax - The Company adopted a non-standardized prototype 401(k) and profit sharing plan (the "Prototype Plan") with deferral arrangements. The Prototype Plan received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which stated that the Prototype Plan and related trust constitutes a qualified trust under Section 401(b) of the Internal Revenue Code and is therefore, exempt from federal income taxes. The Prototype Plan has been amended since receiving the opinion letter. However, the Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, the Plan Administrator believes the Plan was qualified and the related trust was tax-exempt as of December 31, 2016.

The Plan believes that all significant tax positions utilized by the Plan will more likely than not be sustained upon examination. As of December 31, 2016, the tax years that remain subject to examination by the major tax jurisdictions under the statute of limitations are from the year 2013 forward (with limited exceptions). Tax penalties and interest, if any, would be accrued as incurred and would be classified as tax expense in the statement of changes in net assets available for plan benefits.

Subsequent Events - The Plan has evaluated subsequent events through October 31, 2017, the date the financial statements were available to be issued. No subsequent events occurred, which require adjustment or disclosure to the financial statements at December 31, 2016.

NOTE B PLAN DESCRIPTION

The following description of the Plan provides only general information about the Plan. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Participation - A non-union, non-leased, non-PRN employee is eligible to become a participant in the Plan after completing two consecutive months of employment and attaining age 21.

NOTE B PLAN DESCRIPTION (CONTINUED)

Contributions - Participants may elect to make contributions to the Plan in an annual amount up to 90% of their eligible compensation. Eligible compensation in 2016 is limited to $265,000. Contributions are made through authorized payroll deductions. These contributions by individual employees were limited to $18,000 (participants under 50 years of age) and $24,000 (participants 50 years of age or older) in 2016. This limitation is periodically adjusted to reflect cost-of-living increases.

All new hires and employees not contributing to the Plan who meet eligibility requirements and have not declined participation are automatically enrolled contributing 3% of eligible wages. The participants that are not taking full advantage of the Company's matching contributions will have their contribution rate automatically escalated 1% of each year to a maximum of 10%, unless otherwise specified by the participant.

In accordance with the safe harbor contribution requirements, the Company matched the sum of 100% of each participant's elective deferrals that did not exceed 1% of the participant's compensation, plus 50% of the participant's elective deferrals that exceeded 1% of the participant's compensation, but did not exceed 6% of the participant's compensation.

Participant Accounts and Investments - Each participant account is credited with the participant's contribution, the Company's contributions and allocation of plan earnings and charged with an allocation of administrative expenses. Expense allocations are based on participant earnings on account balances as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the Participant's vested account. Each participant directs the investment of their contributions into various investment options.

Vesting - Participants are immediately vested in their salary reduction and rollover contributions plus actual earnings thereon. Any Company discretionary contributions and related earnings vest as follows:

| Years of Vesting Service | Vested Percentage |
|---|---|
| Less than 1 | 0% |
| 1 | 20% |
| 2 | 40% |
| 3 | 60% |
| 4 | 80% |
| 5 | 100% |

Any Company safe harbor contributions and related earnings vest as follows:

| Years of Vesting Service | Vested Percentage |
|---|---|
| Less than 1 | 0% |
| 1 | 0% |
| 2 | 100% |

NOTE B PLAN DESCRIPTION (CONTINUED)

Forfeitures of account balances not fully vested will be used to reduce employer contributions or to pay Plan expenses if the Company elects not to pay such expenses directly. Forfeitures utilized to reduce employer matching contributions during the year ended December 31, 2016 amounted to $53,304. Forfeitures available at December 31, 2016 amounted to $6,053.

Form of Benefits - Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum distribution equal to the value of the participant's vested interest or annual installments as outlined in the Plan document. If the amount payable is $1,000 or less, the participant may receive a lump sum distribution as soon as feasible following the date of termination. If the amount payable is greater than $1,000 and less than $5,000 and the participant does not elect to have such distribution paid directly to an eligible retirement plan, then the Plan's administrative committee will pay the distribution in a direct rollover to an individual retirement plan designated by the administrative committee. Benefits are recorded when paid.

Participant Loans - Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer between the investment fund and participant loans receivable. Loan terms range from 1 to 5 years or longer for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with prevailing rates. Interest rates on loans outstanding at December 31, 2016 range from 4.25% to 5.25%.

Administration - The Company, as the Plan Administrator, may, at its discretion, pay the Plan's administrative expenses. Any Plan expenses not paid by the Company will be paid by the Plan. Substantially all Plan expenses were paid by the Company for 2016.

Plan Termination - Although the Company has not made a determination to terminate the Plan, the Company has the right under the Plan to terminate the Plan subject to provisions set forth in ERISA. Upon termination, all participants would become fully vested in their accrued benefits as of the date of termination.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE D FAIR VALUE DISCLOSURES

GAAP provides a framework for measuring fair value using a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value based upon whether the inputs to those valuation techniques are observable or unobservable. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical financial instruments and the lowest priority to unobservable inputs. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The financial instrument's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. These inputs are summarized in the three broad levels listed below:

Level 1 - Unadjusted quoted prices for identical financial instruments in active markets that the Plan has the ability to access.

Level 2 - Other significant observable inputs (including quoted prices in active or inactive markets for similar financial instruments), or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the financial instruments.

Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the financial instruments. The fair value of Level 3 financial instruments is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

Following is a description of the valuation technique used for investments measured at fair value. There have been no changes in the technique used during 2016 and 2015.

Registered investment companies are valued at the net asset value of shares held by the Plan at year end.

NOTE D FAIR VALUE DISCLOSURES (CONTINUED)

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation technique is appropriate and consistent with other market participants, the use of different techniques or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Registered investment companies are categorized as Level 1 investments at December 31, 2016 and 2015.

There were no significant transfers in and/or out of the fair value categories during 2016 and 2015.
