INDEPENDENT AUDITORS' REPORT

To the Board of Directors
Novelis Fairmont Hourly Pension Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Novelis Fairmont Hourly Pension Plan (the "Plan") which comprise the statement of net assets available for benefits as of December 31, 2016, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by State Street Bank & Trust Company ("State Street"), the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2016 and for the year then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2016 financial statements. Accordingly, we do not express an opinion on the 2016 financial statements.

Other Matter - 2015 Financial Statements

The financial statements as of December 31, 2015 were audited by Babush, Neiman, Kornman & Johnson, LLP ("BNKJ"), who merged with Carr, Riggs & Ingram, LLC as of March 1, 2017. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed BNKJ not to perform, and they did not perform, any auditing procedures with respect to the information certified by State Street, the trustee of the Plan. Their report, dated October 17, 2016, indicated that (a) because of the significance of the information that they did not audit, they were unable to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the 2016 financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1: DESCRIPTION OF PLAN

The following description of the Novelis Fairmont Hourly Pension Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for more information.

General

The Plan participants include all persons employed by the Novelis Corporation (the “Company”) who are members of a collective bargaining unit having an agreement with the Company’s Fairmont, West Virginia plant and the International Union of United Steelworkers, AFL-CIO/CLC, who are not accruing benefits as participants of another plan maintained jointly or individually by the Company and/or a collective bargaining unit. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Funding Policy

Contributions are based on the recommendations of the Actuary. Contributions are made in amounts not less than the minimum required under the applicable sections of ERISA and in accordance with the Internal Revenue Code (“IRC”). The Plan met the minimum funding requirements of ERISA for the plan years ended December 31, 2016 and 2015.

Pension Benefits

Participants are entitled to normal retirement benefits on attainment of age 65 or with at least 30 years of continuous service, irrespective of age. The normal monthly retirement benefit is a specified monthly benefit level multiplied by the number of years of credited service. In November 2012, a new collective bargaining agreement was entered into which provides for a \$1 increase in the monthly benefit level effective November 1, 2012 of \$46 with additional \$1 increases on each successive November 1 through and including November 1, 2014. The benefit level that is in effect at December 31, 2014 of \$48 has been used to calculate the actuarial present value of accumulated plan benefits at December 31, 2016 and 2015.

The Plan also provides for early retirement, disability retirement and surviving spouse benefits for those participants who meet certain requirements.

Effective October 17, 2016, an amendment to the Plan allowed certain vested participants terminated on or before May 31, 2016, to take a lump sum during a limited election period of October 17, 2016 through November 23, 2016.

Vesting

Participants become fully vested after five years of service. Persons terminating prior to achieving five years of service forfeit the right to receive benefits.

Novelis Fairmont Hourly Pension Plan Notes to Financial Statements

NOTE 1: DESCRIPTION OF PLAN (CONTINUED)

Termination Provision

The Company anticipates that the Plan will continue without interruption, but reserves the right to terminate the Plan or to discontinue contributions to the Plan. In the event the Plan is terminated, the Plan provides for the allocation of net assets up to the present value of accumulated plan benefits among the participants and pensioners. To the extent unfunded vested benefits exist, such benefits would be payable by the Pension Benefit Guaranty Corporation, up to specified limitations, as described in ERISA. To the extent that Plan net assets exceed benefits due to participants and pensioners and the Plan has met all legal requirements, remaining assets, net of applicable taxes, will revert back to the Company.

Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated August 29, 2012, that the Plan is designed in accordance with the applicable provisions of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt and no provision for income taxes has been included in the Plan's financial statements.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Financial Instruments

The carrying values of the Plan's receivables and payables approximate fair value.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Risks and Uncertainties

The Plan invests in a Master Trust, which invests in collective trusts. The collective trusts invest in various types of investments securities and in various companies within various markets. The underlying investment securities are exposed to various risks, such as interest rate, credit risks and overall market volatility. Due to the level of risk associated with certain investment securities and the level of uncertainty related to the changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in these financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment Valuation and Income Recognition

Investments in the Master Trust are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents in its statement of changes in net assets available for benefits an allocation of the Master Trust's net income (loss) which consists of realized gains or losses, unrealized appreciation (depreciation) on investments and interest and dividend income.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Trustee fees, investment management fees and Pension Benefit Guaranty Corporation premiums are generally paid by the Plan. All other administrative expenses are paid by the Company.

Novelis Fairmont Hourly Pension Plan Notes to Financial Statements

NOTE 3: INVESTMENT IN MASTER TRUST (UNAUDITED INFORMATION)

All of the Plan's investments are held by State Street and are commingled with the assets of other retirement plans of participating employers in the Novelis Master Retirement Trust (the "Master Trust") with the Trustee. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income based on specific asset holdings less actual distributions and administrative expenses. The Master Trust holds investments in 14 collective trusts managed by Mercer Global Investments, Inc. ("MGI" or "Investment Manager"). Each plan in the Master Trust can elect to invest in any or all of the available collective trusts in any allocation appropriate for that plan's objectives.

The Trustee holds investment assets and executes transactions therein, and substantially all information pertaining to investments included in the financial statements has been certified by them. Therefore in accordance with the request of the Company and as allowed under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, this information was not subjected to auditing procedures generally accepted in the United States of America by the Plan's independent public accountants.

The Plan's interest in the Master Trust net assets was 4% for the years ending December 31, 2016 and 2015.

The following table presents the net assets held by the Master Trust at December 31, 2016 and 2015 as certified by the Trustee:

	2016	2015
Cash	\$ 5,402,150	\$ -
Investments, at fair value:		
Collective trusts	617,286,933	612,831,581
Net Assets Held by the Master Trust	\$ 622,689,083	\$ 612,831,581

The following presents investment income for the Master Trust for the year ended December 31, 2016 as certified by the Trustee:

Net appreciation in fair value of investments:	
Collective trusts	\$ 45,026,899

NOTE 4: FAIR VALUE MEASUREMENTS (UNAUDITED)

Financial Accounting Standards Board, Accounting Standards Codification 820, *Fair Value Measurements* ("ASC 820"), defines fair value, establishes a framework for measuring fair value and requires additional disclosures about the use of fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date.

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are observable as of the reporting date. These inputs include quoted prices for similar assets in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in methodologies used at December 31, 2016 and 2015.

Collective trusts ("CT"): Valued based on the net asset value ("NAV") of the units held which are based primarily on quoted market prices of the underlying securities of the funds. Certain of the collective trust funds' underlying investments include securities for which quoted market prices are not available. Those securities are valued using data obtained by the custodian from the best source available (i.e., brokers, dealers, and/or appraisers) or the market value of similar investments with a readily ascertainable market value. There are no unfunded commitments related to the CTs and the investments in CTs can be redeemed on a daily basis without restriction and redemption notification period is 5 to 15 days.

Novelis Fairmont Hourly Pension Plan Notes to Financial Statements

NOTE 4: FAIR VALUE MEASUREMENTS (UNAUDITED) (CONTINUED)

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

As of December 31, 2016 and 2015, the Master Trust's investments in the collective trusts are valued based on NAV, and therefore no investments fall under the fair value hierarchy.

	2016	2015
Investments in the fair value hierarchy	\$ -	\$ -
Investments measured at NAV		
Collective trusts (a) (b)	617,286,933	612,831,581
Total Investments, at fair value	\$ 617,286,933	\$ 612,831,581

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net asset available for benefits.

(b) Measured using the NAV per unit (or its equivalent) as a practical expedient and held in a fund that files a Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity.

NOTE 5: ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances such as retirement, death, disability, and termination of employment are included, to the extent they are considered attributable to employee service rendered to the valuation date.

Novelis Fairmont Hourly Pension Plan Notes to Financial Statements

NOTE 5: ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

The actuarial present value of accumulated plan benefits is determined by the Plan's consulting actuary. The present value of accumulated plan benefits is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. It is at least reasonably possible that the actuarial assumptions used to calculate accumulated plan benefits will change in the near term and that the effect of such change could be significant.

The significant actuarial assumptions used in the valuation dated December 31, 2016 and 2015 were:

Mortality Basis:	Mercer Industry Longevity Experience Study (MILES) for the Basic Materials, Paper and Packaging Industry (base year of table is 2010), without collar adjustments for annuitants and to RP-2014 with removal of mortality improvements for years after 2007 (base year of table is 2007), without collar adjustments for non-annuitants.
Discount Rate:	6.50%
Normal Retirement Age:	Rates vary by age; average age of 65

Under the above assumptions, the actuarial present value of accumulated plan benefits as of December 31, 2016 and 2015 is as follows:

	2016	2015
Vested benefits:		
Participants currently receiving payments	\$ 14,574,221	\$ 13,348,378
Other participants	8,713,552	9,559,756
Total vested benefits	23,287,773	22,908,134
Nonvested benefits	571,862	578,302
Total actuarial present value of accumulated plan benefits	\$ 23,859,635	\$ 23,486,436

Novelis Fairmont Hourly Pension Plan Notes to Financial Statements

NOTE 5: ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

Under the above assumptions, the changes in the actuarial present value of accumulated plan benefits for the year ended December 31, 2016 is as follows:

Actuarial present value of accumulated plan benefits at beginning of year	\$ 23,486,436
Increase (decrease) during the year attributable to:	
Benefits paid	(1,635,996)
Actuarial (gains) losses	213,459
Interest accrued	1,493,905
Benefits accumulated	301,831
Net Increase	373,199
<u>Actuarial present value of accumulated plan benefits at end of year</u>	<u>\$ 23,859,635</u>

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated benefits.

NOTE 6: PLAN TERMINATION

Although the Company has not expressed any intent to terminate the Plan, it may do so at any time. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- (a) Benefits attributable to employee contributions, taking into account those paid out before termination.
- (b) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- (c) Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations.

NOTE 6: PLAN TERMINATION (CONTINUED)

(d) All other vested benefits (that is, vested benefits not insured by the PBGC).

(e) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefits protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and on the level of benefits guaranteed by the PBGC.

NOTE 7: PARTY IN INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Plan investments include shares of collective trusts in which State Street Global Advisors serves as a sub-advisor to the Investment Manager. Fees are paid by the Plan for investment management services. State Street is the trustee of the Plan, and therefore, these transactions qualify as party-in-interest transactions.

NOTE 8: SUBSEQUENT EVENTS

Management has evaluated subsequent events through November 1, 2017, which is the date the financial statements were available to be issued, and have determined that, there are no subsequent events that require disclosure under ASC 855, *Subsequent Events*.

Part V- Statement of Actuarial Assumptions and Methods

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets for determining minimum required contributions	<p>Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2015 plan year).</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with Novelis and, based on that review, is not aware of any significant benefits required to be valued that were not.

Part V- Statement of Actuarial Assumptions and Methods

Assumptions Rationale

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Other significant assumptions	See memo "Novelis - Assumptions Rationale and Documentation Memo" provided on April 15, 2016.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.
------------------------	--

Changes in Assumptions and Methods

Change in assumptions since prior valuation	<p>The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2014 to September 2015 reflecting the interest rate corridors of HATFA.</p> <p>The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.</p> <p>The assumed plan-related expenses added to the target normal cost were changed from \$140,000 for 2015 to \$170,000 for 2016 to account for higher expenses paid from the trust.</p>
Change in methods since prior valuation	None

STATEMENT OF REASONABLE CAUSE
2016 Form 5500, Part I, Line D

The Plan Sponsor is filing under the extended deadline provided to taxpayers in Georgia and Florida relating to Hurricane Irma relief. Under the Hurricane Irma relief, affected taxpayers have until January 31, 2018 to file certain returns and forms required by the IRS, including Form 5500. Affected taxpayers include those whose records necessary to meet a filing deadline are located in a disaster area. The Plan is a part of a master trust administered in Atlanta, Georgia, and the Plan's benefit distribution center is in Jacksonville, Florida. Therefore, the Plan Sponsor is eligible for the Hurricane Irma relief and extended filing deadline.

Part V- Summary of Plan Provisions

Other Plan Provisions

Forms of payment	For single employees, benefits will be paid in the form of a single life annuity. For married employees, benefits will be paid in the form of the 50% joint and survivor annuity. Optional forms are a 75% and 100% joint and survivor annuity.
Conversion factors for optional forms of payment	6.00% interest and the "Applicable Mortality Table" as in effect for 2012 pursuant to Section 417(e)(3) of the Code.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in dollar limits are assumed for determining pension cost but not for determining contributions.

Plan Status for PBGC Reporting Purposes

Ongoing, but eligibility frozen.

Future Plan Changes

The ultimate benefit level was recognized in determining minimum and maximum contributions.

Changes in Benefits Valued Since Prior Year

There have been no changes in benefits valued since the prior year.
