Intelius, Inc. 401(k) Plan

Notes to Financial Statements

1. Description of the Plan

The following description of the Intelius, Inc. 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

Effective January 1, 2017, the plan sponsor amended the Plan to merge the plan into the Classmates, Inc. 401(k) Plan as of January 1, 2017. On January 1, 2017, the Classmates, Inc. 401(k) Plan was renamed the PeopleConnect, Inc. 401(k) Plan. The Plan assets were transferred to the PeopleConnect, Inc. 401(k) Plan on January 3, 2017.

General

The Plan, which was sponsored by Intelius, Inc. (the “Company”), provided certain benefits to Company employees. The Plan was a defined contribution plan under Section 401(k) of the Internal Revenue Code (“IRC”). The purpose of the Plan was to enable employees to save for retirement.

The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Plan Committee was responsible for oversight of the Plan and determined the appropriateness of the Plan’s investment offerings and monitored investment performance.

Eligibility

All Company employees who attain the age of 21 were eligible to participate in the Plan and may join effective the first day of the month following the date of hire.

Contributions

Participants had the option to make pre-tax and Roth (after-tax) contributions based on a percentage of their eligible compensation, as defined in the Plan agreement, subject to certain Internal Revenue Service (IRS) limitations. Participants directed the investment of their contributions into various investment options offered by the Plan.

Participants could also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers).

The Company made employer matching contributions up to 4% of each participant’s eligible compensation.

There were no contributions to the Plan from January 1 to January 3, 2017.

Participant Accounts

Each participant’s account was credited with the participant’s contributions and employer contributions, Plan earnings less any participant and administrative expenses. The benefit to which a participant was entitled is the benefit that could be provided from the participant’s vested account balance.

Intelius, Inc. 401(k) Plan

Notes to Financial Statements

Vesting

Participants were immediately vested in their contributions and employer matching contributions, plus actual earnings thereon.

Notes Receivable from Participants

Participants could borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of a participant's vested account balance. All notes must be repaid over a term not to exceed five years, unless the note is for the purchase of a primary residence, in which case the note may be for a maximum of up to 10 years. Participants were allowed only one outstanding note at a time; principal and interest were paid ratably through payroll deductions. Notes were secured by the participant's vested account balance and bore interest at a rate commensurate with prevailing rates as determined by the Plan Administrator.

Payment of Benefits

Participants could withdraw the vested value of their accounts upon retirement, disability, death, or termination of employment. Participants could elect to receive a lump sum amount equal to the value of the vested interest in their account. The Plan allowed for hardship withdrawals to participants meeting certain criteria. Upon execution of a hardship withdrawal, participant deferrals were suspended for a period of six months.

Upon termination, if the participant's vested benefit under the Plan did not exceed \$1,000, then the Plan Administrator could direct the trustee to make a single lump sum distribution to the participant without prior written consent. If the vested benefit under the Plan exceeds \$1,000, then the participant must have consented to the distribution before it could be made.

Administrative Expenses

Certain expenses of maintaining the Plan were paid by the Plan, unless otherwise paid by the Company. Expenses that were paid by the Company are excluded from these financial statements. Fees related to participant-requested services were charged directly to the participant's account and were included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP required the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Intelius, Inc. 401(k) Plan

Notes to Financial Statements

Risks and Uncertainties

The Plan allowed participants to direct their balances into various investment options offered by the Plan. Investment securities were exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities it is at least reasonably possible that changes in the values of investments could occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Investment Valuation and Income Recognition

Investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for a discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation included the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants were valued at amortized cost, plus any accrued and unpaid interest.

Payment of Benefits

Benefits were recorded when paid. There were no benefits paid from January 1 to January 3, 2017.

3. Information Certified by the Plan's Trustee

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements and the supplemental schedule of assets (held at year end/end of period) is complete and accurate.

	January 3, 2017	December 31, 2016
Investments at fair value	\$ -	\$ 7,163,492
Period from January 1 to January 3, 2017		
Net appreciation in fair value of investments	\$	45,894
Total Net Investment Income	\$	45,894

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information with the related information included in the financial statements and supplemental schedule.

4. Fair Value Measurements

The framework for measuring fair value provided a fair value hierarchy that prioritized the inputs to valuation techniques used to measure fair value. The hierarchy gave the highest priority to the unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at January 3, 2017 and December 31, 2016.

Money market funds were stated at cost, which approximates fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

There were no Plan investments as of January 3, 2017. The following table sets forth by level within the fair value hierarchy the Plan investments as of December 31, 2016:

Intelius, Inc. 401(k) Plan

Notes to Financial Statements

Investment Assets at Fair Value at December 31, 2016

	Level 1	Level 2	Level 3	Total
Money market fund	\$ 124,465	\$ -	\$ -	\$ 124,465
Mutual funds	7,039,027	-	-	7,039,027
Total investments, at fair value	\$ 7,163,492	\$ -	\$ -	\$ 7,163,492

5. Party-in-Interest Transactions

Certain Plan investments were managed by Fidelity Management Trust Company, the trustee of the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Administrative expenses paid by the Plan to the trustee were \$8 for the period from January 1 to January 3, 2017.

6. Plan Termination

The Company had the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would remain 100% vested in their employer matching contributions.

7. Income Tax Status

In a letter furnished to the Plan record keeper dated March 31, 2008, the Internal Revenue Service determined that the prototype of the plan used to develop the Plan is acceptable under the applicable sections of the IRC for use by employers for the benefit of their employees. The Company adopted the prototype plan and the Plan has since been amended. However, the Plan administrator believed that the Plan was designed and operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes was included in the Plan's financial statements.

8. Subsequent Events

The Plan has evaluated subsequent events through November 20, 2017, the date on which the financial statements were available to be issued.
