Notes to the Financial Statements

1. DESCRIPTION OF PLAN

The following description of the REC Solar Inc. 401(k) Profit Sharing Plan & Trust (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was established January 1, 2003 as a defined contribution plan established to provide eligible employees of the REC Solar Inc. (the "Company") with retirement, death and disability benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), and Section 401(k) of the Internal Revenue Code (the IRC).

Participant Eligibility, Contribution, and Vesting

Employees are eligible to participate in the Plan providing they are at least age 18. Employees covered under a collective bargaining agreement and leased employees are not eligible to participate in the plan. Participants may begin deferring a portion of their compensation up to 96% into the Plan on the first day following eligibility. Contributions to the Plan are limited to the maximum amount allowable under the provisions of the IRC and to an annual limitation of \$17,500 (\$23,000 for those participants over age 49).

The Company makes safe harbor matching contributions by matching 100% of the participants' deferrals up to 4% of their annual compensation. For the years ended December 31, 2014 and 2013, the Company made matching contributions in the amount of \$555,677 and \$678,974 respectively.

Additionally, the Plan permits discretionary employer contributions allocated to each participant according to the ratio of the participant's compensation to the ratio of all participants for the plan year. The Company elected to make no profit-sharing contributions for the years ended December 31, 2014 and 2013.

Participants are vested immediately in their voluntary contributions plus actual earnings thereon. The employer safe harbor matching contributions and discretionary profit sharing contributions are also fully vested.

Participant Loans

With the Plan trustee's approval, and subject to IRS regulations and limitations, participants may borrow up to the lesser of \$50,000 or 50% of their vested account balance with a minimum loan amount of \$1,000. Loans are subject to approval by the Plan administrator, bear a fixed rate of interest determined by the administrator on the date of advance and are generally repayable in terms of up to 5 years, except home mortgage loans for which the maximum maturity is 10 years. All loans are secured by the participants' account balances.

REC Solar Inc. 401(k) Profit Sharing Plan & Trust
Notes to the Financial Statements

Participant Accounts

Each participant's account is credited with the employee's payroll contributions; the employer's matching, and Plan earnings and losses. Allocations to participants' accounts are based on participant compensation or account balances in accordance with the provisions of the Plan.

Investment Options

Participants exercise control over the types of investments made on their behalf, provided that such accounts are invested in investment funds designated by the Plan. Participants may invest in any one or more investment funds and change their investment options at any time.

Payment of Benefits

In the case of normal retirement (age 59 ½), early retirement, retirement due to permanent disability, or termination of employment, participants may elect to receive the value of their vested individual account balances, in accordance with the provisions of the Plan, either in lump-sum distribution or in an alternative manner available under the Plan.

Participants who separate from service and have vested account balances of \$1,000 or less are subject to an administrative lump sum distribution at the discretion of the plan administrator. Mandatory distributions of separated participants' vested balances between \$1,000 and \$5,000 are subject to a direct rollover of their balance into an Individual Retirement Account (IRA) designated by the plan administrator in the name of the separated participant.

Administration

The Company is the plan administrator. The Plan's assets are managed by the Transamerica Life Insurance Company (the Trustee). The Trustee, appointed by the Company, processes and maintains the records of participant data and holds Plan investment assets. The plan administrator reviews the performance of the various available investments and decides on the addition or deletion of an investment fund.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

REC Solar Inc. 401(k) Profit Sharing Plan & Trust
Notes to the Financial Statements

Use of Estimates

The preparation of financial statements in conformity accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Valuation of Investments

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

REC Solar Inc. 401(k) Profit Sharing Plan & Trust
Notes to the Financial Statements

3. CERTIFIED INVESTMENTS

Transamerica Life Insurance Company, agent for the Trustee, holds the Plan's investment assets and executes transactions therein. Financial information relating to those assets is included in the accompanying financial statements based on information provided by Transamerica. That information, which has not been audited by independent auditors, is as follows:

	<u>2014</u>	<u>2013</u>
Fixed annuities	\$ 516,371	\$ 556,578
Pooled separate accounts	5,665,487	6,518,244
Assets held for investment purposes at fair value	<u>\$ 6,181,858</u>	<u>\$ 7,074,822</u>

The following investments exceeded 5% of net plan assets:

Transamerica Stable Value Adv	516,371	556,578
Vanguard REIT Index	322,454	-

American Funds New Perspect	420,212	598,153
Compass All Growth Portfolio	526,271	693,164

During the year ended December 31, 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year), depreciated in value by \$892,964, as follows:

Fixed annuities	\$ (40,207)
Pooled separate accounts	<u>(852,757)</u>
Total	<u>\$ (892,964)</u>

During 2014, assets totaling \$2,026,678 were transferred out of this Plan and into REC Solar Commercial Corporation Profit Sharing Plan #46-4201998.

4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the asset or liability;• inputs that are derived principally from or corroborated by observable market data by correlation or other means• If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2014.

Pooled separate accounts: Valued at the net asset value (NAV) of shares held by the plan at year end.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

REC Solar Inc. 401(k) Profit Sharing Plan & Trust

Notes to the Financial Statements

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2014 and 2013:

5. RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by the Trustee of the Plan, Transamerica Life Insurance Company, and therefore, these transactions qualify as party-in-interest transactions as defined by ERISA.

6. TAX STATUS

The plan adopted a prototype non-standardized profit sharing plan with cash or deferral arrangement has received a favorable opinion letter from the IRS, which states that the Plan is designed in compliance with the applicable sections of the IRC. The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

REC Solar Inc. 401(k) Profit Sharing Plan & Trust

Notes to the Financial Statements

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS and Franchise Tax Board. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for prior years.

7. RISKS AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

8. DELINQUENT PARTICIPANT CONTRIBUTIONS

During 2014, the Company failed to remit certain employee deferrals and loan repayments to the Plan in a timely manner according to DOL regulations, aggregating \$154,368. The lost earnings have been calculated using the Department of Labor approved VFCP calculator. Those earnings will be deposited into the Plan, and allocated to the affected participants in December 2017.

9. SUBSEQUENT EVENT
