1. Plan Description

The following brief description of Central States Indemnity Co. of Omaha Employees' Progress Sharing Plan (the Plan) is provided for general informational purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was a noncontributory defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was established to provide retirement benefits for the employees of Central States Indemnity Co. of Omaha (the Company).

Employees were eligible to receive Company discretionary contributions after attaining age 19 and completing one year of service with at least 1,000 hours of service. Participants under the age of 62 were required to be employed on the last day of the Plan year and have completed 1,000 hours of service during the Plan year to receive a discretionary contribution. Employees who attained age 62 and terminated or retired during the Plan year with 1,000 hours of service were also eligible to receive a discretionary contribution. Eligible employees were able to become participants on the first day of the first calendar month following the date on which entry requirements were fulfilled.

Effective February 1, 2017, the Plan was merged into the Profit Sharing Plan (see Note 8).

Contributions

Contributions by the Company were made at the sole discretion of the Company's Board of Directors. Contributions were subject to certain limitations.

Participant Accounts

Each participant's account was credited with an allocation of the Company's contribution and Plan earnings or losses. The Company's discretionary contribution was allocated among participants based upon compensation of eligible participants. Participant direction of investments was not permitted; however, beginning twelve months prior to a participant's retirement date, after attaining age 55, such participant was able to direct the custodian that the full amount in the participant's account be placed in a certificate of deposit, money market certificate or similar interest bearing account. Plan earnings or losses were allocated on the basis of actual results of the investments. Investments were maintained in individual member accounts managed by the Vanguard Group, Inc. (Vanguard).

Vesting

Participants were vested in the Company contributions plus actual earnings thereon upon completing one hour of service with the Company.

Payment of Benefits

Upon termination, retirement, disability, or death the participant or beneficiary was able to elect to receive a lump sum equal to the value of the vested funds allocated to the participant's account. The Plan required mandatory distribution payments between $1,000 and $5,000 be directly rolled over to an individual retirement account designated by the plan administrator in the event the participant did not elect otherwise. Distributions under $1,000 were paid out to the participant in the event the participant did not elect a payout option. Benefits were recorded when paid.

2. Summary of Significant Accounting Policies

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements is set forth below.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis and in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company determined the Plan's valuation policies utilizing information provided by the investment advisors and custodians. See Note 5 for further discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation included the Plan's gains and losses on investments bought and sold as well as held during the year.

Expenses

Certain expenses to maintain the Plan were paid directly by the Company and were excluded from these financial statements. Investment related expenses were included in net appreciation in fair value of investments.

Risks and Uncertainties

The Plan invested in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it was at least reasonably possible that changes in the values of investment securities could occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent Events

Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued and may require potential recognition or disclosure in the financial statements. Management has considered such events or transactions through November 13, 2017 noting no items requiring disclosure.

3. Information Certified by Vanguard

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Vanguard except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental information.

The following table presents the value of the investments in this Plan that were certified by Vanguard as of February 28, 2017 and December 31, 2016:

5. Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy was based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at February 28, 2017 and December 31, 2016.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan were open-end mutual funds that are registered with the Securities and Exchange Commissions. These funds are required to publish their daily Net Asset Value (NAV) and to transact at that price. The mutual funds held by the Plan were deemed to be actively traded.

Common Collective Trust: Valued at the NAV based on the market value of its underlying investments. FASB ASC 820, *Fair Value Measurement*, allows NAV per share to serve as a practical expedient to estimate the fair value as long as certain requirements are met. It is the Plan's assessment that this fund met those requirements. Since the participants had the ability to redeem the fund at NAV as of the measurement date on a daily basis, the fund was properly categorized as a Level 2 fair value measurement.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believed its valuation methods were appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could have resulted in a different fair value measurement at the reporting date.

There were no Plan investments as of February 28, 2017.

The following table presents by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016.

	Level 1	Level 2	Level 3	Total
Mutual Fund	$ 3,993,093	$ -	$ -	$ 3,993,093
Common Collective Trust	-	2,598,313	-	2,598,313
Total Investments at Fair Value	$ 3,993,093	$ 2,598,313	$ -	$ 6,591,406

The following table summarizes Level 2 investments measured at fair value based on the NAV per share as of December 31, 2016.

December 31, 2016	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common Collective Trust	$ 2,598,313	None	Daily	1 Day

6. Tax Status

The Plan was qualified as a profit sharing plan under Section 401(a) of the Internal Revenue Code and was exempt from federal income taxation under Section 501(a) of the Internal Revenue Code.

The plan administrator believes that the Plan was designed and operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes was included in the financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authority. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

7. Related Party Transactions

Plan investments were managed by Vanguard. Vanguard was the custodian as defined by the Plan and, therefore, these transactions qualified as party-in-interest transactions.

8. Plan Merger

The Board of Directors of the Company voted on December 28, 2016 to merge the Plan into the Central States Indemnity Co. of Omaha Profit Sharing and Savings Plan effective February 1, 2017. Plan assets of $6,616,518 were settled and received into the Central States Indemnity Co. of Omaha Profit Sharing and Savings Plan on February 3, 2017.
