The Plan is a defined contribution plan covering all employees of Plastic Packaging, Inc. who have completed 90 days of service (as determined in the Plan document) and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company's 401(k) Committee is responsible for the oversight of the Plan. The Company's investment committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

(b) Contributions

Upon meeting the eligibility requirements, participants will automatically have four percent of compensation deferred unless otherwise elected. In addition, the Company may allocate discretionary matching contributions, as determined and authorized by the Board of Directors, to each eligible participant. To be eligible for any matching contributions, participants must be employed at the end of the Plan year and have completed a year of service within the Plan year. Participants who retire, die or become disabled are considered to be employed at the end of the Plan year and are considered to have completed a year of service within the Plan year. Total contributions to the Plan cannot exceed the maximum amount deductible under section 404(a)(3) of the Internal Revenue Code of 1986, as amended.

(c) Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of Company contributions and Plan earnings. The allocation of Plan earnings is based on the participants' account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Notes receivable from participants

Participants are permitted by the Plan to borrow from their vested account balance up to the lesser of 50% or $50,000. The minimum amount which may be borrowed is $1,000, and only one loan at a time is permitted. Loan transactions are secured by the balance in the participant's account and bear interest at a reasonable rate of return. Principal and interest are paid ratably through payroll deductions.

(e) Vesting

Participants are immediately vested in their voluntary contributions and earnings thereon. A participant is 100 percent vested in the remainder of their account (i.e., employer contributions) after six years of credited service according to the following schedule:

Years of Service	Vesting Percentage
Less than 2	0%
2	20
3	40
4	60
5	80
6	100

(f) Payment of Benefits

Upon separation of service, due to termination of employment, death, disability or retirement, a participant may elect to receive his or her vested account balance. Distributions are subject to the applicable provisions of the Plan agreement. In addition, the Plan allows hardship distributions and distributions to eligible participants that have attained age 59 1/2, as defined by the Plan.

(g) Forfeited Nonvested Accounts

Forfeitures of nonvested amounts may first be used to pay Plan expenses. Any remaining forfeitures are used to offset future employer contributions. The balance of forfeitures available for use is $0 and $246 for the four month period ended February 28, 2017 and for the year ended October 31, 2016, respectively.

(h) Administrative Expenses

Administrative expenses of the Plan are paid by both the Plan and the Company.

(i) Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, each participant becomes 100% vested. On October 28, 2016, the Company was sold to Sonoco Products Company. Participant balances were merged with the plan sponsored by the acquiring company in February 2017, Sonoco Retirement and Savings Plan.

(j) Investment Options

Upon enrollment in the Plan, a participant may direct contributions into several investment options.

(k) Recently Adopted Accounting Standards Update

In July 2015, the FASB issued Accounting Standards Update ("ASU") 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully-Benefit Responsive Investment Contracts; (Part II) Plan Investment Disclosures; (Part III) Measurement Date Practical Expedient. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015 and should be applied prospectively, with early application permitted.

Management adopted Parts I and II. The plan was impacted by the simplified disclosures as result of the adoption of this standard. As such, the Plan no longer discloses investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation for investments by general type. In addition, in connection with the adoption of Part 1 of the ASU, the Plan is presenting its investment in the fully benefit-responsive contract at contract value and has removed it from the fair value hierarchy for all periods presented. The Plan has also removed the average yield disclosure related to the fully benefit- responsive contract. Part III is not applicable to this Plan.

(2) Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan.

(a) Basis of Accounting

Plan management approved a plan of liquidation on October 28, 2016 and management determined liquidation is imminent. The liquidation basis of accounting is required when liquidation is deemed imminent. Under the liquidation basis of accounting, assets are measured and presented at their net realizable values, which is the amount expected to be collected in settling or disposing the assets. Liabilities are stated at their estimated settlement amounts. Estimates for future costs expected to be incurred during the liquidation period, including costs to dispose of assets are required to be accrued.

(b) Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported additions to and deductions from Plan assets during the periods reported. Actual results could differ from these estimates.

(c) Investment Valuation and Income Recognition

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Board of Trustees determines the Plan's valuation policies utilizing information provided by investment advisors, custodians and the trust company. See note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(d) Payment of Benefits

Benefit claims are recorded as expense when they have been approved for payment and paid by the Plan. There were no benefits payable as of February 28, 2017 and October 31, 2016.

(e) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accural basis. If a participant ceases to make loan repayments and the plan administrator deems the loan to be in default, the loan balance is reduced and a benefit payment is recorded.

(f) Certified Investments

Certain information related to investments disclosed in the accompanying financial statements, including investments held at February 28, 2017 and October 31, 2016, and net appreciation (depreciation) in fair value of investments, interest, and dividends for the four month period ended February 28, 2017 and the year then ended October 31, 2016, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Great-West Life & Annuity Insurance Company ("Great-West"). The contract value of the guaranteed investment contract was certified by the asset custodian.

(3) Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

(3) Fair Value Measurements, Continued

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at February 28, 2017 and October 31, 2016.

Registered investment companies: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Cash funds- Valued as cash and cash equivalents.

(3) Fair Value Measurements, Continued

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of October 31, 2016:

	2016 Level 1
Registered investment companies	$2,872,990
Cash funds	246
Total investments, at fair value	$2,873,236

(4) Investment Contract with Insurance Company

In September 2011, the Plan entered into a traditional fully benefit-responsive investment contract with Great-West. Great-West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Great-West, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

(4) Investment Contract with Insurance Company, Continued

The Key Guaranteed Portfolio Fund is a general account product. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. Interest crediting rate is reset quarterly. The contract value of the investment contract at October 31, 2016 was $785,714.

(5) Related Party Transactions

Plan assets included investments in funds managed by Great-West. Great-West is the Plan's custodian and, as such, transactions with the custodian qualify as party-in-interest transactions under ERISA. Personnel and facilities of the Company have been used to perform administrative functions for the Plan at no charge to the Plan.

(6) Income Tax Status

The Plan adopted a volume submitter plan sponsored by Acuff & Associates, Inc. The volume submitter plan has received an opinion letter from the Internal Revenue Service as to the plan's qualified status. The volume submitter plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor or Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of February 28, 2017 and October 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

(7) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near future and that such changes could materially affect participant account balances and the amounts reported in the statement of net assets available for plan benefits.

(8) Subsequent Events

The Company has evaluated subsequent events through December 12, 2017, the date which the financial statements were available to be issued.
