1. Description Of The Plan

The following description of the Tri-Pack Enterprises, Inc. 401(k) P/S Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan was a defined contribution plan with a 401(k) feature. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. As of February 28, 2017, the Plan Sponsor merged all Plan assets into the Pretium Packaging LLC 401(k) Savings and Investment Plan. This transfer has been reflected as a Conversion Out in the accompanying statement of changes in net assets available for benefits.

Eligibility

The Plan covered substantially all nonunion employees of Tri-Pack Enterprise, Inc. (the Company), who had attained the age of 21. Employees could begin participating on the day they satisfy the eligibility requirements.

Contributions

Participants could elect to contribute eligible compensation, as defined by the Plan, not to exceed the maximum amount allowed by law. Additionally, participants age 50 and over could make catch-up contributions. The Company made matching contributions equal to 50% of the participant's elective deferrals. Under the provisions of the Plan, the Company made discretionary profit sharing contributions.

Participants could also make rollover contributions to the Plan, provided such rollover amounts meet the criteria for transfer as established under the Internal Revenue Code (the Code).

The Plan provided a safe harbor matching contribution on behalf of participants. The Company contributed on behalf of each participating employee an amount equal to 100% of the amount of the participating employee's elective deferrals that do not exceed 4% of the employee's compensation for the Plan year.

Participant Accounts

Each participant's account was credited with the participant's contributions, the Company's contributions and allocations of the Plan's earnings. The allocation of earnings was determined by the earnings of the participant's investment selection based on each participant's account balance, as defined in the Plan Agreement. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Notes Receivable From Participants

Participants could borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested balance, whichever is less. The loans were secured by the balance in the participant's account and bore interest at rates ranging from 4.25% to 4.5%, which was commensurate with local prevailing interest rates as determined by the Plan Administrator. Principal and interest were paid ratably through payroll deductions. Under the provisions of the Plan, participants could rollover loans into the Plan. The rollover loans retain the same terms and are not re-amortized.

Payment Of Benefits

On termination of service a participant could elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

The Plan provided for retirement at age 59-1/2, subject to postponement upon the mutual consent of the participant and the Company. This allowed participants to receive distributions from all contribution accounts.

In-Service Withdrawals

Active participants who reached age 59-1/2 could withdraw all or part of their vested accounts.

Participant Hardship Withdrawals

A participant could withdraw from the Plan that portion of his or her account resulting from his or her elective deferrals in the event of undue financial hardship.

Administrative Expenses

The Plan Sponsor payed certain administrative expenses, other expenses were paid by the Plan.

2. Summary Of Significant Accounting Policies

Basis Of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting.

Estimates And Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation And Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would have been received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are reflected on a trade-date basis. Dividends were recorded on the ex-dividend date. The net appreciation in fair value of investments in the accompanying statement of changes in net assets available for benefits includes realized gains and losses and unrealized appreciation and depreciation.

Notes Receivable From Participants

Notes receivable from participants are measured at unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Agreement.

Payment Of Benefits

Benefits are recorded when paid.

3. Certified Financial Information

Transamerica Life Insurance Company (the Custodian) held the Plan's investment assets and executed transactions therein. Financial information relating to investments and related earnings is included in the financial statements and is based on information provided by the Custodian. This information, which has not been audited by the Plan's independent auditors, has been certified to as complete and accurate by the Custodian.

4. Fair Value Measurements

The Plan utilizes an established framework for measuring fair values. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Pooled Separate Accounts

Valued at the net asset value (NAV) of units held by the Plan at year end. The NAV as provided by Principal, is used as a practical expedient to estimate fair value. The NAV is determined by dividing the net assets, at fair value, of the fund by the number of units outstanding on the day of valuation. Pooled separate accounts are primarily comprised of shares of registered investment companies held through subaccounts of a separate account of an insurance company at February 28, 2017, and December 31, 2016. The Plan has concluded that the NAV as adjusted (for mutual fund dividends, mutual fund splits and administrative maintenance charges and other items) and reported by the insurance company approximates fair value of the investments. All pooled separate accounts have daily redemption frequencies at NAV with no redemption notice periods, and file a Form 5500 as a direct filing entity. There are no capital commitments related to any of the Plan's pooled separate accounts.

Investments Held In Insurance Company General Accounts

Fair value represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceed crediting rates. Contract value represents contributions plus earnings, less withdrawals and expenses.

The methods described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There were no changes in the valuation methodologies used at December 31, 2016.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016:

	December 31, 2016			
	Level 1	**Level 2**	**Level 3**	**Total**
Investments, At Fair Value				
Investments held in insurance company general accounts	$ —	$ 50,848	$ —	$ 50,848
Investments Valued At NAV				
Pooled separate accounts				756,453
Total Investments, At Fair Value				$ 807,301

As of December 31, 2016, the Plan invested in pooled separate accounts that were measured at fair value using the net asset value per share (or its equivalent) practical expedient, and therefore, have not been categorized in the fair value hierarchy.

5. Income Tax Status

The Plan used a prototype plan document sponsored by TransAmerica Retirement Solutions. TransAmerica Retirement Solutions received an opinion letter from the IRS dated March 31, 2014, which stated that the prototype document satisfies the applicable provisions of the Code. The Plan itself had not received a determination letter from the IRS. However, the Plan's management believed that the Plan was currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income tax has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Party-In-Interest Transactions

The Plan invested in pooled separate accounts and a stable value option managed by Transamerica. Therefore, those transactions qualified as party in interest transactions, which were exempt from the prohibited transaction rules.

7. Reconciliation Of Financial Statements To Form 5500

Following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:
