A. DESCRIPTION OF THE PLAN

The following description of the Stream-Flo 401(k) Plan (formerly Stream-Flo USA LLC 401(k) Profit Sharing Plan and Trust) (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan changed its name effective January 1, 2016 from Stream-Flo USA LLC 401(k) Profit Sharing Plan and Trust to Stream-Flo 401(k) Plan.

Administration

The Plan was established on January 1, 2009 and was amended and restated effective January 1, 2016 to conform to recent legislative and regulatory changes. The Company serves as the Plan Administrator and Principal Trust Company ("Principal") serves as the trustee of the Plan's investments and Alliance Benefit Group is the third party administrator.

Participation

The Plan is a defined contribution plan designed and intended to operate as a safe harbor 401(k) plan that provides retirement savings benefits to eligible employees of the Company through tax deferred voluntary contributions by employees and safe harbor and discretionary non-elective profit sharing contributions by the Company.

Employees are eligible to participate in the Plan after attaining the age of twenty-one and completion of six months of service. Employees can enter the plan immediately upon satisfaction of the eligibility requirements. Employees who are covered by a collective bargaining agreement, a non-resident alien who received no earned income or an employee not required to be taken into account for nondiscrimination testing purposes are not eligible to participate in the Plan.

Master Flo Valve USA, Inc. is an affiliated employer and has adopted the Stream-Flo 401(k) Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants may elect to defer a percentage or dollar amount of their salary each pay period up to 100% of their annual eligible compensation, as defined by the plan document, in the form of pre-tax contributions. Participants may also contribute eligible rollovers from other qualified defined benefit or defined contribution plans and individual retirement accounts. Effective January 1, 2016, the plan allows after tax voluntary contributions. Prior to this date, after tax contributions were not permitted.

Participant and Employer contributions are subject to certain limitations under the Code. Each participant's annual contribution shall not exceed the maximum amount allowed for deferral under the Code, which was $18,000 for the 2016 plan year. Participants who have attained the age of 50 before the end of the plan year are eligible to make catch-up contributions up to $6,000 for the 2016 plan year.

A. DESCRIPTION OF THE PLAN - CONTINUED

Contributions - continued

The plan is a safe harbor plan providing matching contributions under a basic matching contribution formula. During 2016 and 2015, the Company matched 100% of participant's contributions up to the first 3% of each participant's compensation, plus 50% of the participant's contributions up to the next 2% of eligible compensation. The Company matching contributions are 100% vested immediately and invested in the same manner as the participant has directed for their contributions.

Additionally, each plan year the Company may make discretionary non-elective profit sharing contributions in amounts determined by the Company. Discretionary non-elective profit sharing contributions are allocated to eligible participants based upon the percentage of the participant's compensation to the total compensation of all eligible participants. Eligible participants who are employed on the last day of the plan year and received credit for at least 1,000 hours of service during the plan year share in any non-elective profit sharing contributions. There were no non-elective profit sharing contributions made during the years ended December 31, 2016 and 2015.

Participant's accounts

Each participant's account is credited with the participant's contribution, rollover contribution, if any, and matching contribution and allocations of Plan earnings or losses, net of administrative expenses. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately and fully vested in their voluntary contributions and employer safe harbor matching contributions plus actual earnings thereon. Vesting in the Company's discretionary non-elective profit sharing contributions and earnings thereon is based on years of continuous service. A year of service is defined as 1,000 hours of service during any plan year. Additionally, a participant will become fully vested in the Company contribution portion of their account upon reaching normal retirement age or in the event of death or total and permanent disability.

The vesting schedule for Company's discretionary non-elective profit sharing contributions and earnings is determined as follows:

Completed years of service	Vested Percentage
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

A. DESCRIPTION OF THE PLAN - CONTINUED

Notes receivable from participants

Under the Plan's loan provisions, participants may borrow from their funds a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loan term may not exceed 5 years, except that any loan used to purchase your principal residence may be repaid over a longer period. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan administrator. Interest rates for 2016 range from 4.25% to 4.50%. Participant's may not have more than one loan outstanding at any one time.

Payment of benefits

On termination of employment, disability, death, or natural retirement, a participant or designated beneficiary may elect to receive a lump-sum cash distribution equal to the vested value of the participants account, a direct rollover distribution, or a combination of a cash distribution and direct rollover distribution. If withdrawing participants are not entitled to their entire account balance, the amounts not received are forfeited. Participants may defer receipt of distribution until a later date unless their account balance is $5,000 or less. If the vested account balance is $5,000 or less, the Company will direct the custodian that any amount exceeding $1,000 be distributed to the participant, without consent as a lump sum distribution in cash.

If an active participant has attained age fifty-nine and one-half (59 ½), they may elect to withdraw all or a portion of their account while still employed by the Company. Hardship distributions are not permitted.

Forfeited accounts

Forfeitures represent the non-vested benefits remaining from employees who have withdrawn from the Plan before coming fully vested. Forfeited amounts are retained in the plan and will first be used to pay administrative expenses. Any remaining forfeitures will be used to reduce any employer contribution to the plan. Forfeited non-vested accounts amounted to $0 as of December 31, 2016 and 2015.

B. SUMMARY OF SIGNIFICANT ACCOUNTING AND REPORTING POLICIES

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

B. SUMMARY OF SIGNIFICANT ACCOUNTING AND REPORTING POLICIES - CONTINUED

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of contributions, benefit payments and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the investment advisers and the custodian. See Note C for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Payment of benefits

Benefits are recorded when paid.

Excess contributions payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability. The Plan distributed the 2016 excess contributions to the applicable participants prior to March 15, 2017.

Administrative expenses

The Plan permits the payment of expenses incurred in connection with the recordkeeping and administration of the Plan to be made from the Plan's assets. Expenses will generally be allocated among the accounts of all participants in the plan proportionately based on the value of the participant's account balances. Specific fees such as loan processing fees may also be charged directly to a participant's account in response to transactions requested under the Plan. Certain expenses such as advisory, audit and tax return preparation are paid by the Company. Administrative expenses totaled $3,853 and $2,373 for the year ended December 31, 2016 and 2015.

B. SUMMARY OF SIGNIFICANT ACCOUNTING AND REPORTING POLICIES - CONTINUED

Subsequent events

The plan has evaluated subsequent events through December 7, 2017, the date the financial statements were available to be issued.

New accounting pronouncement

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* Part I of the ASU eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II of the ASU eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III of the ASU is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015. Parts I and II are to be applied retrospectively. Management has elected to adopt Parts I and II early and, accordingly, the presentation of the financial statements and notes herein have been changed to reflect such adoption.

C. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board Statement (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

C. FAIR VALUE MEASUREMENTS - CONTINUED

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Common stocks, corporate bonds, and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the plan are open-ended funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

Assets at fair value at December 31, 2016:

	Level 1	Level 2	Level 3	Total
Mutual funds	$3,692,546			$3,692,546
Total assets at fair value	$3,692,546			$3,692,546

Assets at fair value at December 31, 2015:

	Level 1	Level 2	Level 3	Total
Mutual funds	$4,484,271			$4,484,271
Total assets at fair value	$4,484,271			$4,484,271

D. GUARANTEED INVESTMENT CONTRACT WITH PRINCIPAL LIFE INSURANCE COMPANY

In 2016, the Plan entered into a fully benefit-responsive interest account with Principal, which maintains the contributions in a general account totaling $118,766 for 2016. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula established by the contract issuer and is 1.10% as of December 31, 2016. The crediting rate is reviewed on a semi-annual basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the plan. Contract value, as to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the availability of the Plan to transact at contract value with the issuer. Such events include the following: (1) the Plan's failure to qualify under Section 401(a) or Section 401(k) of the Internal Revenue Code; (2) the establishment of a defined contribution plan that competes with the plan for employee contributions; (3) any substantive modification of the plan or the administration of the plan that is not consented to by the wrap issuer; (4) complete or partial termination of the plan; (5) any change in law, regulation or administrative ruling applicable to the plan that could have a material adverse effect on the fund's cash flow; (6) merger or consolidation of the plan with another plan, the transfer of plan assets to another plan, or the sale, spin-off or merger of a subsidiary or division of the plan sponsor; (7) any communication given to participants by the plan sponsor or any other plan fiduciary that is designed to induce or influence participants not to invest in the fund or to transfer assets out of the fund; (8) exclusion of a group of previously eligible employees from eligibility in the plan; (9) any early retirement program, group termination, group layoff, facility closing, or similar program; (10) any transfer of assets from the fund directly to a competing option. The Plan Administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probably.

E. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

During 2016, the Plan investments were shares of mutual funds managed by Principal. Principal is a custodian as defined by the Plan and, therefore, a party in interest with respect to the Plan. These transactions are covered by an exemption from the "prohibited" transaction provisions of ERISA and the IRC.

F. PLAN TERMINATION

Although it has not expressed any intent to do so, the company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

G. TAX STATUS

The Company adopted a prototype volume submitter profit sharing plan with cash or deferred arrangement that received a favorable opinion letter from the Internal Revenue Service (IRS) dated September 30, 2014, which stated that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC) and that the trust created there under is exempt from federal income tax. Although the plan has been amended since receiving the determination letter, the plan administrator and the plan's tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the plan is qualified and the related trust is tax exempt.

U.S. generally accepted accounting principles require plan management to evaluate tax positions taken by the plan and recognize a liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

H. RISKS AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

I. CUSTODIAL CERTIFICATION

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained certifications from the custodian that all of the information provided by them is complete and accurate. Information included in the accompanying financial statements and notes to financial statements as to investments, net appreciation in fair value of investments, and all the information on the schedule H, line 4i-schedule of assets (held at end of year) is presented in reliance solely upon those certifications. No auditing procedures were performed by the independent auditors with respect to this information.

The following represents information certified by the custodian to be complete and accurate:
