AGRI-CARRIERS GROUP, INC. 401(k) PLAN

Notes to Financial Statements

December 31, 2016 and 2015

Note 1 - Description of plan:

The following description of the Agri-Carriers Group, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was formerly known as the Charles G. Lawson Trucking, Inc. 401(k) Salary Deferral Plan. Lawson Trucking Inc. (Lawson) and Landes Trucking, Inc. (Landes) were acquired to form Agri-Carriers Group, Inc. The Plan sponsor is Agri-Carriers Group, Inc. (the Company, Plan Sponsor, or Plan Administrator). The Plan is a defined-contribution plan covering substantially all employees of the Company. During 2015, eligibility requirements were age 21, with at least one year of service, as defined in the Plan document. During 2016, eligibility requirements were age 18, with two months of service, as defined in the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Management of the Company is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment offerings, and monitors investment performance.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation (excluding bonuses), as defined in the Plan document. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). After tax (Roth) contributions are also permitted. During 2016, the Company match was discretionary and through June 30, 2016, the declared match was 50% of the first 5% of eligible compensation. Beginning July 1, 2016, the declared Company match was 36% up to the first 6% of eligible earnings. Additional profit sharing amounts may be contributed at the option of the Company's board of directors. During the year ended December 31, 2016, the Company did not make a profit sharing contribution to the Plan. Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 - Description of plan - continued:

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company contributions and earnings thereon is based on years of continuous service.

Participants become vested in Company-matching and profit-sharing contributions, made prior to 2016, in accordance with the following schedule:

Completed Years of Service	Percentage Matching Contributions Vested	Percentage Profit Sharing Contributions Vested
1	0%	0%
2	20%	20%
3	40%	40%
4	60%	60%
5	80%	80%
6 or more	100%	100%

Effective January 1, 2016, the vesting schedule above was changed so that participants vest 20% per year after year one and are fully vested after year five.

Participants are immediately vested upon termination of the Plan, upon reaching the normal retirement age of 65, or upon disability or death while an employee of the Plan Sponsor. Effective January 1, 2016, employees hired prior to May 1, 2016, are eligible for early retirement at age 55 with 6 years of participation in the Plan. Forfeitures of terminated participants' non-vested accounts are used to pay administrative expenses and/or reduce the employer's contribution for the Plan year.

Forfeitures

At December 31, 2016 and 2015, forfeited non-vested accounts totaled \$1,522 and \$0, respectively. These accounts are used to pay administrative expenses and/or reduce future employer contributions. During the year ended December 31, 2016, employer contributions were reduced by \$12,655 from forfeited non-vested accounts.

Note 1 - Description of plan - continued:

Payment of benefits

A participant is entitled to receive a lump-sum amount equal to the vested value of his or her account upon termination of service, retirement, or death. A participant may request a withdrawal from the Plan while still under the employment of the Company for reasons of financial hardship, but the withdrawal is limited to the amount of the participant's pretax contributions and earnings thereon.

Notes receivable from participants

Effective January 1, 2016, participants may borrow from the Plan in any amount greater than \$1,000 up to 50% of the participant's vested account balance, not to exceed \$50,000. Note terms are for a period not exceeding five years. Notes are secured by the balance in the participant's account and bear interest at an agreed-upon percentage based on prevailing market rates. Principal and interest is paid ratably through payroll deductions. Participants are allowed two outstanding notes.

Administrative expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. The Company reserves the right to elect to pay, or have the Plan pay, administrative costs in the future. Investment related expenses are included in net appreciation of fair value of investments.

Note 2 - Summary of significant accounting policies:

Basis of accounting

The financial statements of the Plan are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Fully benefit-responsive investment contract

Fully benefit-responsive investment contracts are required to be reported at contract value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to

initiate permitted transactions under the terms of the Plan. Contract value represents the cost plus contributions made under the contract, plus interest at the contract rate, less withdrawals and administrative expenses. This specifically affects the presentation of the amounts related to the Plan's participation in the guaranteed investment contract, see Note 8. The statements of net assets available for benefits present the contract value of the guaranteed investment contract.

Investment valuation and income recognition

Investments are reported at fair value, except as discussed in Note 8. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The management of the Company determines the Plan's valuation policies utilizing information provided by Capital Bank and Trust Company (Capital Bank) and Great-West Life & Annuity Insurance Company (Great-West).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of benefits

Benefits are recorded when paid.

Use of estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016. If a participant ceases to make note repayments and the Plan Administrator deems the participant note to be in default, the participant note balance is reduced and a benefit payment is recorded.

Note 2 - Summary of significant accounting policies - continued:

Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate risk, market risk, and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

New accounting pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)* (ASU 2015-07). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification 820, Fair Value Measurement. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate fair value using the net asset value practical expedient. ASU 2015-07 is effective for entities (other than public business entities) for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented. Early application is permitted. ASU 2015-07 is not applicable to the Plan.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) : (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient* (ASU 2015-12). Part I of ASU 2015-12, eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II of ASU 2015-12, eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III of ASU 2015-12, allows a plan with a fiscal year end that does not coincide with the end of a calendar month to measure its investments and investment-related accounts using the month end closest to its fiscal year end. ASU 2015-12 is effective for fiscal years

beginning after December 15, 2015, and early application was permitted. Plans could early adopt any of the ASU's three parts without early adopting the other parts. Parts I and II were to be applied retrospectively. Part III was to be applied prospectively. Management elected to early adopt Parts I and II during 2015. Part III is not applicable to the Plan. The adoption of Parts I and II of ASU 2015-12 did not have a material impact on the Plan's financial statements.

Subsequent events

The Plan has evaluated subsequent events through December 27, 2017, which is the date these financial statements were available to be issued. All subsequent events, if any, requiring recognition as of December 31, 2016, have been incorporated into these financial statements.

Note 3 - Investments and information certified by the trustees:

Capital Bank held the Plan's investments and executed transactions until June 13, 2016. Great-West held the Plan's investment assets, as of December 31, 2016, and executed investment transactions from June 13, 2016 through December 31, 2016. Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2016 and 2015, and net appreciation in fair value of investments and interest and dividends for the year ended December 31, 2016, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Capital Bank and Great-West.

Note 4 - Fair value measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification No. 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

AGRI-CARRIERS GROUP, INC. 401(k) PLAN

Notes to Financial Statements - Continued

December 31, 2016 and 2015

Note 4 - Fair value measurements - continued:

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

- Mutual funds are valued at the net asset value of shares held by the Plan at year-end by obtaining quoted prices on nationally recognized securities exchanges.
- Money market funds are stated at cost, which approximates fair value, due to the short-term nature of these investments.

The methodologies described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

December 31, 2016 and 2015

Note 4 - Fair value measurements - continued:

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

Assets at Fair Value as of December 31, 2016				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 2,126,897	\$ -	\$ -	\$ 2,126,897
Investments at fair value	<u>\$ 2,126,897</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 2,126,897</u>
Assets at Fair Value as of December 31, 2015				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 1,331,362	\$ -	\$ -	\$ 1,331,362
Money market funds	<u>1,367,936</u>	<u>-</u>	<u>-</u>	<u>1,367,936</u>
Investments at fair value	<u>\$ 2,699,298</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 2,699,298</u>

There were no significant transfers between Level 1 and Level 2 investments or into or out of Level 3 investments during the years ended December 31, 2016 and 2015.

Note 5 - Related-party transactions:

Certain Plan investments are shares of mutual funds and a guaranteed investment contract managed by Great-West and, therefore, these transactions qualify as party in interest transactions and are exempt from the prohibited transaction rules. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments.

Note 6 - Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

AGRI-CARRIERS GROUP, INC. 401(k) PLAN

Notes to Financial Statements - Continued

December 31, 2016 and 2015

Note 7 - Tax status:

The underlying volume submitter plan has received an opinion letter from the IRS dated March 31, 2014, stating that the form of the Plan is qualified under Section 401(a) of the Internal Revenue Code (IRC), and therefore, the related trust is tax-exempt. The Plan Administrator has determined that it is eligible to and has chosen to rely on the current IRS volume submitter plan opinion letter. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator is taking steps to bring the Plan in compliance with the applicable requirements of the IRC, and, therefore believes that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8 - Guaranteed investment contract:

The Plan has a fully benefit-responsive investment contract with Great-West. Great-West maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is presented in the financial statements at contract value. Contract value, as reported by Great-West, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the issuer or otherwise.

The investment contract specifies certain conditions under which distributions from the contract would be payable at amounts below contract value. Such circumstances include Plan termination or merger, premature contract termination initiated by the Company, the establishment of another plan or program to which participants contribute, and a spin-off, sale, or merger of any business unit of the employer or Plan Administrator causing a group of participants to be excluded from eligibility. The contract limits the circumstances under which Great-West may terminate the contract. Examples of circumstances that would allow Great-West to terminate the contract include the Plan's termination, loss of its qualified status, addition of a competing investment option to the Plan, or breaches of the contract responsibilities. If one of these events were to occur, Great-West could terminate the contract at an amount less than contract value. Currently, management believes that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value is not probable.
