The Company also makes an employer matching contribution equal to 100 percent of each participant's deferral, up to 2 percent of the participant's compensation. For the Plan year ended December 31, 2016, the matching contribution was \$333,378.

Note 1. Plan Description (Continued)

Participant accounts: Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions, employer matching contributions, employer safe harbor nonelective contributions, and allocations of Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants may change their investment options monthly via the phone or the internet.

Vesting: Participants are vested immediately in their salary reduction contributions and employer safe harbor nonelective contributions, plus the actual earnings thereon. Vesting in employer matching contributions plus earnings thereon is based on years of continuous service according to the following schedule:

Years of Service	Employer Matching Contribution Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes receivable from participants: Effective January 1, 2011, notes receivable from participants held by Progene Biomedical Laboratories, Inc. 401(k) Plan were merged into the Plan. Effective January 1, 2014, notes receivable from participants held by National Institute of Transplantation Tax Deferred Annuity Plan were transferred into the Plan. The Plan does not have a provision for notes from participants. The outstanding note receivables are secured by the balance in the participant's account and bear interest rates at 4.25 percent. Principal and interest are paid ratably through monthly payroll deductions. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Payment of benefits: On termination of service because of death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the participant's vested interest in his or her account or installment payments, but only for required minimum distributions as defined by the Plan. On termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. In-service distributions are not permitted unless the participant has attained age 59½, certain hardship conditions are met, or rollover contributions are available.

Forfeitures: Forfeitures of terminated participants' nonvested balances are used to reduce employer safe harbor nonelective contributions and may be used to reduce administrative expenses. During the year ended December 31, 2016, \$25,493 of forfeitures were applied to reduce employer safe harbor nonelective contributions. \$42,172 of forfeitures were included in the net asset balance transferred as part of the merger described in Note 7. At December 31, 2016 and 2015, the Plan had \$-0- and \$18,450, respectively, of unallocated forfeitures.

Note 2. Summary of Significant Accounting Policies

Following is a summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements.

Basis of accounting: The accompanying financial statements of the Plan have been prepared on the accrual method of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Board of Directors determines the Plan's valuation policies utilizing information provided by the investment custodians and insurance company. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Payment of benefits: Benefits are recorded when paid.

Note 3. Information Certified and Provided by Great-West Trust Company, LLC

The following is a summary of the Plan's asset information as of December 31, 2016 and 2015, and for the year ended December 31, 2016, included throughout the Plan's financial statements, that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Note 4 related to the following assets:

	December 31	
	2016	2015
Investments at fair value:		
Mutual funds	\$ -	\$ 15,496,367
Common collective trusts	-	191,150
Due from broker	17,037,369	-
	<u>\$ 17,037,369</u>	<u>\$ 15,687,517</u>

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under *FASB Accounting Standards Codification* Topic 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds: Mutual funds are valued at the daily closing price as reported by the fund. Investment funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission and are required to publish their daily net asset value (NAV) and to transact at that price. The investment funds held by the Plan are deemed to be actively traded.

Common collective trusts: Common collective trusts are valued at the NAV of the underlying investments at the end of the Plan year.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

Due to the Plan merger described in Note 7, there were no financial assets or liabilities reported at fair value as of December 31, 2016. The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 15,496,367	\$ -	\$ -	\$ 15,496,367
Common collective trusts (a)				191,150
				<u>\$ 15,687,517</u>

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line item presented in the statement of net assets available for benefits.

Transfers between levels: For the year ended December 31, 2016, there were no transfers between Levels 1 and 2 and no transfers in or out of Level 3.

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2016 and 2015:

Investment	Fair Value, December 31		Unfunded Commitment	Redemption Frequency	Redemption Notice Period
	2016	2015			
Common collective trusts	\$ -	\$ 191,150	None	Immediate	None
	<u>\$ -</u>	<u>\$ 191,150</u>			

Note 5. Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain expenses of auditing the Plan are paid by the Plan Sponsor. Administrative expenses related to distributions and special calculations are paid by the Plan. However, the Plan document provides that administrative expenses may be paid through forfeitures.

Note 6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 7. Plan Merger

On September 20, 2016, the Plan Sponsor's Board of Director's adopted a resolution to terminate the Plan effective December 31, 2016. Effective December 31, 2016, the Plan was merged into the Eurofins Scientific, Inc. 401(k) Incentive Savings Plan. No employee shall be eligible to become a participant in the Plan on or after December 31, 2016. No additional contributions shall be made to the Plan after December 31, 2016.

Net assets of \$17,037,369 were liquidated and held by the Plan's custodian at December 31, 2016, and are reported as due from broker on the statements of net assets available for benefits. Legal control of the Plan's net assets, which includes notes receivable from participants of \$7,839, was transferred to Eurofins Scientific, Inc. 401(k) Incentive Savings Plan on December 31, 2016. As a result, the statement of net assets available for benefits as of December 31, 2016, reflects a due to Eurofins Scientific, Inc. 401(k) Incentive Savings Plan, and the statement of changes in net assets available for benefits for the year ended December 31, 2016, reflects a pending transfer.

Note 8. Income Tax Status

The Plan has adopted a volume submitter document. The volume submitter plan has received an advisory letter from the Internal Revenue Service as to the volume submitter plan's qualified status as of March 31, 2014. The Plan Administrator believes the Plan is designed and is currently being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9. Related-Party and Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds and common collective trusts managed by Great-West Trust Company, LLC. Great-West Trust Company, LLC is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are netted against investment income. In addition, other administrative expenses paid to Great-West Trust Company, LLC amounted to \$104,730 for the year ended December 31, 2016.

Note 10. Subsequent Events

The Plan Administrator has evaluated and disclosed subsequent events up to and including October 10, 2017, which is the date the financial statements were available to be issued.
