Note 1 - Description of plan:

The following description of the Agri-Carriers Group, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan sponsor is Agri-Carriers Group, Inc. (the Company, Plan Sponsor or Plan Administrator). The Plan is a defined contribution plan covering substantially all employees of the Company, age 18, with two months of service, as defined in the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Management of the Company is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment offerings, and monitors investment performance. On September 19, 2016 the Plan Sponsor was acquired by Kenan Advantage Group, Inc. (Kenan) and effective March 31, 2017, the Plan merged out of existence through merger into the Kenan Advantage Group, Inc. 401(k) Plan (Kenan Plan), a qualified plan. Assets totaling $3,536,595 were transferred to the Kenan Plan. Participants ceased contributions to the Plan and became eligible to contribute to the Kenan Plan effective January 1, 2017.

Contributions

Prior to the merger, participants could contribute up to 100% of pretax annual compensation (excluding bonuses), as defined in the Plan document. Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants could also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). After tax (Roth) contributions were also permitted. Prior to the merger, the Company match was discretionary and through June 30, 2016, the declared match was 50% of the first 5% of eligible compensation deferred. Beginning July 1, 2016, the declared Company match was 36% up to the first 6% of eligible compensation deferred. Additional profit sharing amounts could also be contributed at the option of the Company's board of directors. During the period ended March 31, 2017, the Company did not make matching or profit sharing contributions to the Plan. Participants could direct the investment of their contributions into various investment options offered by the Plan. Contributions were subject to certain Internal Revenue Service (IRS) limitations.

Note 1 - Description of plan - continued:

Participant accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants were immediately vested in their contributions plus actual earnings thereon. Vesting in the Company contributions and earnings thereon is based on years of continuous service.

Participants became vested in Company matching and profit sharing contributions, made prior to 2016, in accordance with the following schedule:

| Completed Years of Service | Percentage Matching Contributions Vested | Percentage Profit Sharing Contributions Vested |
|---|---|---|
| 1 | 0% | 0% |
| 2 | 20% | 20% |
| 3 | 40% | 40% |
| 4 | 60% | 60% |
| 5 | 80% | 80% |
| 6 or more | 100% | 100% |

Effective January 1, 2016, the vesting schedule above was changed so that participants vest 20% per year after year one and were fully vested at year five.

Participants are immediately vested upon termination of the Plan, upon reaching the normal retirement age of 65, or upon disability or death while an employee of the Plan Sponsor. Effective January 1, 2016, employees hired prior to May 1, 2016, were eligible for early retirement at age 55 with six years of participation in the Plan. Forfeitures of terminated participants' non-vested accounts were used to pay administrative expenses and/or reduce the employer's contribution for the plan year.

Note 1 - Description of plan - continued:

Forfeitures

At March 31, 2017 and December 31, 2016, forfeited non-vested accounts totaled $0 and $1,522. These accounts were used to pay administrative expenses and/or reduce future employer contributions. During the period ended March 31, 2017, employer contributions were reduced by $0 from forfeited non-vested accounts and $2,237 was used to reduce administrative expenses paid by the Plan Sponsor.

Payment of benefits

A participant was entitled to receive a lump-sum amount equal to the vested value of his or her account upon termination of service, retirement, or death. A participant could request a withdrawal from the Plan while still under the employment of the Company for reasons of financial hardship, but the withdrawal was limited to the amount of the participant's pretax contributions and earnings thereon.

Notes receivable from participants

Effective January 1, 2016, participants could borrow from the Plan in any amount greater than $1,000 up to 50% of the participant's vested account balance, not to exceed $50,000. Note terms were for a period not exceeding five years. Notes were secured by the balance in the participant's account and bore interest at an agreed-upon percentage based on prevailing market rates. Principal and interest was paid ratably through payroll deductions. Participants were allowed two outstanding notes.

Administrative expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. The Company reserves the right to elect to pay, or have the Plan pay, administrative costs in the future. Investment related expenses are included in net appreciation of fair value of investments.

Note 2 - Summary of significant accounting policies:

Basis of accounting

The financial statements of the Plan are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Fully benefit-responsive investment contract

Fully benefit-responsive investment contracts are required to be reported at contract value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents the cost plus contributions made under the contract plus interest at the contract rates less withdrawals and administrative expenses. This specifically affects the presentation of the amounts related to the Plan's participation in the guaranteed investment contract, see Note 8. The statements of net assets available for benefits present the contract value of the fully benefit-responsive guaranteed investment contract.

Investment valuation and income recognition

Investments are reported at fair value, except as discussed in Note 8. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The management of the Company determines the Plan's valuation policies utilizing information provided by Great-West Life and Annuity Insurance Company (Great-West).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of benefits

Benefits are recorded when paid.

Note 2 - Summary of significant accounting policies - continued:

Use of estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of March 31, 2017. If a participant ceases to make note repayments and the Plan Administrator deems the participant note to be in default, the participant note balance is reduced and a benefit payment is recorded.

Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate risk, market risk and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

Subsequent events

The Plan has evaluated subsequent events through January 15, 2018, which is the date these financial statements were available to be issued. All subsequent events, if any, requiring recognition as of December 31, 2016, have been incorporated into these financial statements.

Note 3 - Investments and information certified by the trustee:

Great-West held the Plan's investment assets as of December 31, 2016, and executed investment transactions during 2016 and through March 31, 2017. Certain information related to investments disclosed in the accompanying financial statements, including investments held at March 31, 2017 and December 31, 2016, and net appreciation in fair value of investments and interest and dividends for the period ended March 31, 2017, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Great-West.

Note 4 - Fair value measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification No. 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4 - Fair value measurements - continued:

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets and liabilities measured at fair value. There have been no changes in the methodology used at March 31, 2017 and December 31, 2016.

- Mutual funds are valued at the net asset value of shares held by the Plan at year-end by obtaining quoted prices on nationally recognized securities exchanges.

The methodology described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methodology is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

As of March 31, 2017, there were no assets in the Plan. The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016:

| | Assets at Fair Value as of December 31, 2016 | | | |
|---|---|---|---|---|
| | Level 1 | Level 2 | Level 3 | Total |
| Mutual funds | $ 2,126,897 | $ - | $ - | $ 2,126,897 |
| Investments at fair value | $ 2,126,897 | $ - | $ - | $ 2,126,897 |

There were no significant transfers between Level 1 and Level 2 investments or into or out of Level 3 investments during the period ended March 31, 2017 and the year ended 2016.

Note 5 - Related-party transactions:

Certain Plan investments were shares of mutual funds and a guaranteed investment contract managed by Great-West, and therefore, these transactions qualify as party in interest transactions and are exempt from the prohibited transaction rules. Fees incurred by the Plan for the investment management services are included in net appreciation.

Note 6 - Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. The Plan merged out of existence effective March 31, 2017.

Note 7 - Tax status:

The underlying volume submitter plan has received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2014 stating that the form of the Plan is qualified under Section 401(a) of the Internal Revenue Code (IRC), and therefore, the related trust is tax-exempt. The Plan Administrator has determined that it is eligible to and has chosen to rely on the current IRS volume submitter plan opinion letter. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator is taking steps to bring the Plan into compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8 - Guaranteed investment contract:

The Plan has a fully benefit-responsive investment contract with Great-West. Great-West maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is presented in the financial statements at contract value. Contract value, as reported by Great-West, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the Issuer or otherwise.

The Plan's investment contract specifies certain conditions under which distributions from the contract would be payable at amounts below contract value. Such circumstances include Plan termination or merger, premature contract termination initiated by the Company, the establishment of another plan or program to which participants contribute, and a spin-off, sale or merger of any business unit of the employer or Plan Administrator causing a group of participants to be excluded from eligibility. The contract limits the circumstances under which Great-West may terminate the contract. Examples of circumstances that would allow Empower to terminate the contract include the Plan's termination, loss of its qualified status, addition of a competing investment option to the Plan, or breaches of the contract responsibilities. If one of these events were to occur, Great-West could terminate the contract at an amount less than contract value. Currently, management believes that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value is not probable. This investment was transferred as part of the merger into the Kenan Plan.
