Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITOR'S REPORT

To the Trustees
American Pop Corn Company Pension Plan
Sioux City, Iowa

Report on the Financial Statements

We have audited the accompanying financial statements of American Pop Corn Company Pension Plan (the Plan), which comprise the statements of net assets available for benefits (modified cash basis) as of June 30, 2017 and 2016, and the related statements of changes in net assets available for benefits (modified cash basis) for the years then ended and the statements of accumulated plan benefits (modified cash basis) as of July 1, 2016 and 2015, and the related statements of changes in accumulated plan benefits (modified cash basis) for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note B; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also

includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits (modified cash basis) as of June 30, 2017 and 2016, and the changes therein for the years then ended, and its financial status as of July 1, 2016 and 2015 and changes therein for the years then ended in accordance with the modified cash basis of accounting described in Note B.

Basis of Accounting

We draw attention to Note B to the financial statements, which describes the basis of accounting. The financial statements and supplemental schedules are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules (modified cash basis) on pages 16 through 20, are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Describe the change:

Effective with the 2016 plan year, the valuation software used to produce valuation results for the Plan was changed from Milliman's proprietary valuation system to a commercially available software system. This change meets the requirements for automatic approval contained in IRS Announcement 2010-3, which requires the new software system to generate funding target and normal cost results to within 2% of those produced by the prior valuation system.

INDEPENDENT AUDITOR'S REPORT

To the Trustees
American Pop Corn Company Pension Plan
Sioux City, Iowa

Report on the Financial Statements

We have audited the accompanying financial statements of American Pop Corn Company Pension Plan (the Plan), which comprise the statements of net assets available for benefits (modified cash basis) as of June 30, 2017 and 2016, and the related statements of changes in net assets available for benefits (modified cash basis) for the years then ended and the statements of accumulated plan benefits (modified cash basis) as of July 1, 2016 and 2015, and the related statements of changes in accumulated plan benefits (modified cash basis) for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note B; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also

includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits (modified cash basis) as of June 30, 2017 and 2016, and the changes therein for the years then ended, and its financial status as of July 1, 2016 and 2015 and changes therein for the years then ended in accordance with the modified cash basis of accounting described in Note B.

Basis of Accounting

We draw attention to Note B to the financial statements, which describes the basis of accounting. The financial statements and supplemental schedules are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules (modified cash basis) on pages 16 through 20, are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

AMERICAN POP CORN COMPANY PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2017 AND 2016

NOTE A - DESCRIPTION OF PLAN:

The following description of the American Pop Corn Company Pension Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

1. General. The Plan is a defined benefit pension plan covering substantially all employees. The Plan sponsor is American Pop Corn Company (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by the Board of Trustees who are responsible for the operation and administration of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.
2. Eligibility. Prior to July 1, 1995, each employee was eligible on the July 1 following the commencement of employment. Effective July 1, 1995, each employee becomes a participant on the July 1 following the completion of one year of service.
3. Funding Policy. The Plan is funded entirely by contributions from the Company. The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. For the year ended June 30, 2017 and 2016, the Company's contribution to the Plan was \$1,000,000 and \$500,000, respectively. During the year ended June 30, 2017, the Plan's administrative costs totaled \$160,346 of which the Plan paid \$42,422 and the Company paid \$117,924. During the year ended June 30, 2016, the Plan's administrative costs totaled \$127,422 of which the Plan paid \$39,591 and the Company paid \$87,831. The Company's contributions for 2017 and 2016 met or exceeded the minimum funding requirements of ERISA.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

4. Pension Benefits. An employee's retirement benefit is equal to 1.1 percent of his average monthly earnings multiplied by his years of service through December 31, 2009 and 0.5 percent of his average monthly earnings multiplied by his years of service on or after January 1, 2010. Service consists of an employee's years and completed calendar months for each period of employment with the Company prior to age 65, subject to the break-in-service rules. The average monthly earnings are determined by reference to the employee's highest earnings, without regard to discretionary bonuses, during five consecutive years of employment.

AMERICAN POP CORN COMPANY PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2017 AND 2016

NOTE A - DESCRIPTION OF PLAN (CONTINUED):

The Plan permits early retirement if the employee is at least age 60 and has at least five years of service. The employee receives his accrued pension at age 65 or a reduced amount earlier, the reduction being 5/12 percent for each month between the commencement date and his normal retirement date.

If an employee's employment continues past age 65, his pension at late retirement date is based on service and earnings to retirement.

5. Disability and Death Benefits. Disability retirement occurs after five or more years of service, in the event of total and permanent disability. A disabled employee receives his accrued pension starting in the sixth month after his disability begins.

Upon the death of an employee who has completed five or more years of service, his surviving spouse receives a monthly pension equal to 50 percent of his accrued pension. The spouse's pension is actuarially reduced if the spouse is more than five years younger than the deceased employee. The beneficiary of a deceased retired employee who retired prior to January 1, 2010 receives a lump-sum payment of \$2,000.

6. Deferred Vested Pension Benefits. An employee is entitled to a deferred vested pension upon termination of employment after completing five or more years of service. He receives his accrued pension at age 65 or its actuarial equivalent at age 60.

Upon the death of a vested "former" employee prior to commencement of benefits, a survivor pension of 50 percent of the employee's accrued pension is payable at the later of age at death or the earliest age the employee could have commenced a pension. This pension is reduced for payment at early retirement age, as applicable.

7. Payment of Pension Benefits. Upon termination of employment, a retired, deferred vested or disabled participant has the option of receiving their vested benefit in the form of a one-time lump-sum payment or a monthly payment for their lifetime. A participant with an eligible spouse receives a Qualified Joint and Survivor Pension unless he elects in writing to receive his basic pension. A Qualified Joint and Survivor Pension is a reduced amount of an employee's basic pension, and shall continue after his death at a rate equal to 62-1/2 percent or 75 percent (at the election of the participant) of the rate at which such benefits were payable to the participant, for the life of his eligible spouse. If a participant does not have an eligible spouse, he receives his basic pension payable for his lifetime.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2017 AND 2016

NOTE A - DESCRIPTION OF PLAN (CONTINUED):

A retired participant may elect the actuarial equivalent of his basic pension in another form of payment if he furnishes evidence of good health and the retirement committee approves his election.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The following are the significant policies followed by the Plan:

Basis of Accounting - The accounts of the Plan are maintained on the modified cash basis of accounting. Consequently, revenues and related assets are recognized when received rather than when earned, and expenses are recognized when paid rather than when the obligation is incurred.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Board of Trustees determines the Plan's valuation policies utilizing information provided by its custodian. See Note E for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income is recorded when received. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates - The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Administrative Expenses - The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

Payment of Benefits - Benefit payments to participants are recorded upon distribution.

Subsequent Events - The Plan has evaluated subsequent events through January 12, 2018, the date the financial statements were available to be issued.

NOTE C - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS:

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died, and present employees or their beneficiaries. Benefits under the Plan are accumulated based on employees' compensation for the five consecutive calendar years during which they had their highest earnings. The accumulated plan benefits for active employees are based on their average compensation during the last five years ending on the most recent valuation date. Benefits payable under all circumstances - retirement, death, disability and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of July 1, 2016 and 2015, for the Plan years ended June 30, 2017 and 2016, respectively, were (a) life expectancy of participants (the July 1, 2016 and 2015 valuations used the IRS 2016 and 2015 Combined Healthy Mortality Tables, respectively), (b) retirement age assumptions (the assumed retirement age was 65 with appropriate adjustments made for early retirements and terminations), and (c) investment return (the July 1, 2016 and 2015 valuations assumed an average rate of return of 6.50 per annum). The interest rates used to discount the obligation for July 1, 2016 and 2015 valuations were 3.85 percent and 4.45 percent, respectively. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of July 1, 2016 and 2015. Had the valuations been performed as of June 30, there would be no material differences.

NOTE D - PLAN TERMINATION:

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Benefits attributable to employee contributions, if any, taking into account those paid out before termination.
2. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
3. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
4. All other vested benefits (that is, vested benefits not insured by the PBGC).
5. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE E - FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

All investments are valued at the closing price reported in the active market in which the individual securities are traded, other than certain U.S. Government Agency securities. These other U.S. Government Agency securities are valued based on available trade information, dealer quotes, market indices, market research reports, spreads, bids and offers. There have been no changes in the methodologies used at June 30, 2017 and 2016.

NOTE H - TAX STATUS:

The Plan obtained its latest determination letter on August 11, 2011, in which the Internal Revenue Service states that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

NOTE I - RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTES TO FINANCIAL STATEMENTS

NOTE J - PLAN AMENDMENT:

The Plan was amended effective July 1, 2015 to provide for the distribution of benefits in the form of a lump-sum if their present value does not exceed \$25,000. There was no impact on the July 1, 2015 actuarial valuation results due to this amendment.

NOTE K - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS:

Parties-in-interest are defined under the Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Company pays certain fees for the administration of the Plan. The Plan pays additional fees for investment management and consulting services and are included in administrative expenses in the accompanying financial statements. These transactions qualify as party-in-interest transactions.

Certain employees and officers of the Company, who may also be participants in the Plan, perform administrative services to the Plan at no cost to the Plan.

All investment transactions are performed for the Plan by the Trust Department of Security National Bank of Sioux City, Iowa, who is also custodian for the Plan's trustee, American Pop Corn Company and, therefore, these transactions qualify as party-in-interest transactions.

All of these transactions are exempt from prohibited transaction rules.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V- Summary of Plan Provisions
Plan Name: American Pop Corn Company Pension Plan
EIN: 42-0113600 PN: 001

This summary of plan provisions is intended to only describe the essential features of the Plan. All eligibility requirements and benefit amounts shall be determined in strict accordance with the plan document itself.

The actuarial valuation was prepared in accordance with the provisions of the plan, a summary of which is presented below. The summary describes the principal provisions only and is not intended to be authoritative. For questions about specific benefits, please refer to the plan document. This summary of plan provisions is intended to only describe the essential features of the plan.

Basic Information

Plan Name: American Pop Corn Company Pension Plan

Effective Date of Plan: July 1, 1964

Effective Date of Latest Amendment: July 1, 2015

EIN/PN: 42-0113600/001

Plan Year: July 1 – June 30.

Eligibility: Prior to July 1, 1995, an employee becomes a participant on the July 1 following his employment. Effective July 1, 1995 an employee becomes a participant on the July 1 following the completion of 1000 or more hours of service during the 12 month period beginning on the date of hire or during any plan year.

Years of Service: Determined based on complete and fractional years for each period of employment with the employer, subject to the break-in-service rules.

Average Monthly Compensation: Monthly average compensation in the five consecutive complete calendar years of highest compensation during employment. All pay counts as compensation except discretionary bonuses.

Benefit Formulas and Eligibilities

Normal Retirement

Normal Retirement Date: The first day of the month next following the later of the attainment of age 65 and the 5 anniversary of plan participation.

Normal Retirement Benefit: The sum of (i) and (ii):

(i) 1.1% of such Participant's Average Monthly Compensation multiplied by the Participant's number of Years of Service through December 31, 2009, and; (ii) 0.5% of such Participant's Average Monthly Compensation multiplied by the Participant's number of Years of Service on or after January 1, 2010.

Early Retirement

Early Retirement Date: Attainment of age 60 and the completion of 5 Years of Service.

Attachment to 2016 Form 5500
Schedule SB, Part V- Summary of Plan Provisions
Plan Name: American Pop Corn Company Pension Plan
EIN: 42-0113600 PN: 001

Early Retirement Benefit: Monthly benefit equal to the Normal Retirement Benefit reduced 5/12 of 1% for each month between the commencement date and Normal Retirement Date.

Late Retirement

Late Retirement Date: The first day of the month next following retirement after Normal Retirement Date.

Late Retirement Benefit: Monthly benefit equal to the Normal Retirement Benefit determined as of the Late Retirement Date.

Disability Retirement

Disability Retirement Benefit: A participant who has been found to be permanently disabled after completing at least 5 Years of Service will be entitled to commence receiving a monthly benefit equal to his Normal Retirement Benefit unreduced for early commencement in the sixth month after his disability begins.

Vested Termination

Termination Benefit: Upon termination of employment with at least 5 years of service, a participant is entitled to a monthly benefit commencing on Normal Retirement Date equal to his Normal Retirement Benefit. Monthly benefits may commence upon attainment of 60, but are reduced for commencement prior to Normal Retirement Date.

Pre-Retirement Death

Pre-Retirement Death Benefit: Upon the death of a married active participant who has completed at least 5 years of service, the participant's spouse is entitled immediately commence receiving a monthly benefit equal to 50% of such participant's accrued pension. The spouse's pension is actuarially reduced if the spouse is more than five years younger than the deceased participant.

Upon the death of a vested "former" employee prior to commencement of benefits, a survivor pension of 62 1/2% of the employee's monthly Joint and Survivor annuity is payable at the later of age at death or the earliest age the employee could have commenced a pension. This pension is reduced for payment at early retirement age, as applicable.

Post-Retirement Death Benefit

Post-Retirement Death Benefit: The beneficiary of a deceased retired or disabled participant who retired prior to January 1, 2010 receives a lump sum payment of \$2,000. This benefit is not payable upon the death of a deferred vested participant receiving retirement benefits.

Forms of Payment

Normal Forms: For married participants, a monthly Joint and Survivor annuity payable for the lifetime of the participant with 62-1/2% payable for the lifetime of the spouse after the participant's death. For single participants, a monthly annuity payable for the lifetime of the participant.

Cost of Living Adjustment: All participants in pay status on July 1, 2001 received an ad-hoc cost-of-living adjustment equal to 2% per year times the number of years from the participant's benefit commencement date to June 30, 2001.

Changes in Plan Provisions since Prior Valuation

The plan provisions used in this valuation are the same as those used in the prior valuation.

Attachment to 2016 Form 5500
Schedule SB, Part V- Statement of Actuarial Methods
Plan Name: American Pop Corn Company Pension Plan
EIN: 42-0113600 PN: 001

The ultimate cost of a pension plan is the excess of actual benefits and administrative expenses paid over actual net investment return on plan assets during the plan's existence until the last payment has been made to the last participant. The plan's "actuarial cost method" determines the expected incidence of actuarial costs by allocating portions of the ultimate cost to each plan year. The cost method is thus a budgeting tool to help ensure that the plan will be adequately and systematically funded and accounted for. Annual contributions and accounting expense are also affected by the "asset valuation method" (as well as the plan provisions, actuarial assumptions, and actual plan demographic and investment experience each year).

Actuarial Cost Method

The actuarial cost method used for determining the plan's ERISA funding requirements and plan accounting requirements under FASB ASC Topic 960 is the unit credit method, as required by the Pension Protection Act of 2006. Under this method, an accrued benefit is determined at each active participant's assumed retirement age based on compensation and service at both the beginning and the end of the current year. The plan's normal cost is the sum of the present value of the excess of each active participant's accrued benefit at the end of the current year over that at the beginning of the current year. The plan's accrued liability is the sum of (a) the present value of each active participant's accrued benefit at the beginning of the current year plus (b) the present value of each inactive participant's future benefits.

The actuarial cost method used for determining the plan sponsor's accounting requirements is the projected unit credit method, as required by FASB ASC Topic 715. Under this method, a projected benefit is determined at each active participant's assumed retirement age assuming future compensation increases. The plan's normal cost is the sum of the present value of the portion of each active participant's projected benefit attributable to the current year of service. The plan's accrued liability is the sum of (a) the present value of the portion of each active participant's projected benefit attributable to all prior years of service plus (b) the present value of each inactive participant's future benefits.

Asset Valuation Method

The Actuarial Value of Assets used for determining the plan's ERISA funding requirements is equal to the Adjusted Market Value of Assets minus a decreasing fraction of the investment gain or loss for each of the two immediately preceding plan years, but it cannot be less than 90% nor more than 110% of the Adjusted Market Value of Assets. The expected investment return for a plan year is based on the lesser of the expected rate of return on plan assets (currently 6.50% per year) or the applicable statutory interest rate for the year.

The Market-Related Value of Plan Assets used for determining the plan sponsor's accounting requirements is equal to the Fair Value of Plan Assets (without inclusion of any contributions receivable).

Change in Actuarial Methods since Prior Valuation

Valuation System Change

The 2016 Schedule SB, which will report the results of the July 1, 2016 valuation, will indicate that a change in the funding method was made for this plan year. Effective with the 2016 plan year, the valuation software used to produce valuation results for the Plan was changed from Milliman's proprietary valuation system to a commercially available software system. As will be reported on the 2016 Schedule SB, this change meets the requirements for automatic approval contained in IRS Announcement 2010-3, which requires the new software system to generate funding target and normal cost results to within 2% of those produced by the prior valuation system.

ECONOMIC ASSUMPTIONS

Interest Rates

The current funding and PBGC interest rates are as follows. The funding interest rates are prescribed under IRS regulations based on the Plan Sponsor's interest rate election. The PBGC interest rates are based on the Plan Sponsor's elected method for determining the premium funding target.

	Minimum Funding	Maximum Deductible	PBGC Premium
Segment 1 (0-5 years)	4.43%	1.46%	1.46%
Segment 2 (5-20 years)	5.91%	3.93%	3.93%
Segment 3 (20+ years)	6.65%	4.94%	4.94%
Effective Interest Rate	6.08%	4.22%	4.22%

Interest Rate Election for Determining Funding Liabilities: Segment Rates with 4 month lookback period.

ERISA Minimum Funding: 24-month average segment rates, with 4 month lookback period, adjusted to reflect the applicable segment rate stabilization corridor.

Maximum Deductible Contribution: 24-month average segment rates, with 4 month lookback period, but not adjusted to reflect segment rate stabilization.

Rationale: Plan sponsors have the option to elect the use of a full yield curve, or to use segmented interest rates subject to HATFA constraints. The Plan sponsor is currently using segmented rates with 4 month lookback period, based on prior elections.

PBGC Premium: 24-month average segment rates, with 4 month lookback period, but not adjusted to reflect segment rate stabilization. The alternative method (adopted beginning with 2009 plan year) is used for the PBGC variable rate premium calculation.

Rationale: Chosen by Plan Sponsor.

FASB ASC Topic 960: Discount rate of 6.50% per year.

Rationale: In developing the FASB ASC Topic 960 discount rate, we reviewed the plan's historical investment performance along with expected returns for each asset class based on forward-looking data, including projections of inflation and total return growth.

FASB ASC Topic 715: Discount rate of 3.85% per year (previously 4.45% per year).

Rationale: In developing the FASB ASC Topic 715 discount rate, changes between measurement dates to the Citigroup Pension Discount Curve single equivalent discount rates for liability durations similar to that of this plan were reviewed and considered.

Expected Asset Return

6.50%, per year. This is the assumed rate of return for the Plan's entire portfolio of assets, net of investment expenses. This assumption represents an estimate of future experience and is based in part on observations of estimates inherent in market data.

Rationale: In developing the investment return assumption, we reviewed the plan's historical investment performance along with expected returns for each asset class based on forward-looking data, including projections of inflation and total return growth.

Administrative Expenses

None.

Rationale: There are no expenses paid from plan assets.

Salary Scale

3.00%, per year. This assumption represents an estimate of future experience.

Rationale: This assumption is based on discussions with the plan sponsor which included review of their business prospects, expectations of productivity, and their compensation policies.

Maximum Benefit and Annual Compensation Limitation Increases

ERISA Minimum Funding and PBGC Premium: Not applicable.

FASB ASC Topic 715: 3.00%, per year. This assumption represents an estimate of future experience.

Rationale: This assumption is based on the projected CPI.

DEMOGRAPHIC ASSUMPTIONS

Mortality for Healthy Participants

ERISA Minimum Funding, Maximum Deductible Contribution, PBGC Premium and FASB ASC Topic 715 and 960: IRS 2016 Combined Healthy Mortality Tables, separate tables for males and females.

Rationale: The mortality assumption is one of the available tables permitted by the IRS for PPA funding, is reasonable for the contingency it is measuring and is not anticipated to produce significant cumulative actuarial gains or losses over the measurement period. Given the size of the plan's mortality exposure, we believe that the mortality table is appropriate for FASB ASC Topic 715 and 960 as well.

Mortality for Disabled Participants

ERISA Minimum Funding, Maximum Deductible Contribution and PBGC Premium: IRS 2016 Combined Healthy Mortality Tables, separate tables for males and females.

Rationale: The mortality assumption is one of the available tables permitted by the IRS for PPA funding, is reasonable for the contingency it is measuring and is not anticipated to produce significant cumulative actuarial gains or losses over the measurement period.

FASB ASC Topic 715 and 960: RP-2000 Disabled Retiree Mortality Table, separate tables for males and females.

Rationale: The plan is not large enough to develop a credible mortality table based exclusively on plan experience. We have relied on the above mentioned published mortality table in which credible mortality experience was analyzed. We believe the assumption selected is reasonable for the contingency being measured and is not anticipated to produce significant cumulative actuarial gains or losses over the measurement period.

Age	Rate
60	5%
61	5%
62	20%
63	10%
64	10%
65	100%

Terminated vested participants are assumed to retire at age 65.

Rationale: We have reviewed the plan's historical experience to help develop this assumption. We believe the retirement assumption selected is reasonable for the contingency it is measuring, and is not anticipated to produce significant cumulative actuarial gains or losses over the measurement period.

55	0.58%
60	1.18%

Rationale: The assumption selected is reasonable for the contingency it is measuring, and is not anticipated to produce significant cumulative actuarial gains or losses over the measurement period.

Marital Characteristics

For participants not in pay status: 80% of participants are assumed to be married, with males 5 years older than females.

For participants in pay status: Actual birth dates of spouses are included in the census data, where relevant.

Rationale: The assumption selected is reasonable for the contingency it is measuring, and is not anticipated to produce significant cumulative actuarial gains or losses over the measurement period.

Form of Payment

Single Life Annuity payable monthly for the lifetime of the participant.

Rationale: The assumption selected is reasonable for the contingency it is measuring, and is not anticipated to produce significant cumulative actuarial gains or losses over the measurement period.

Change in Actuarial Assumptions

The methods and assumptions used in this valuation are the same as those used in the prior valuation except as follows:

The statutory segment interest rates for determining minimum funding requirements and potential benefit restrictions have been changed from 4.72%, 6.11%, and 6.81% per year to 4.43%, 5.91%, and 6.65% per year, respectively.

The statutory interest rates for determining maximum deductible contribution and PBGC variable premium prior to reflecting funding relief have been changed from 1.25%, 4.08% and 5.15% per year to 1.46%, 3.93%, and 4.94% per year, respectively.

For FASB ASC Topic 715-30 accounting purposes, the discount rate has been changed from 4.45% to 3.85%.

For determining minimum funding requirements, maximum deductible contribution and PBGC variable premium, the mortality table for all the participants has been changed from IRS 2015 Combined Healthy Mortality Tables, separate tables for males and females to IRS 2016 Combined Healthy Mortality Tables, separate tables for males and females.

For FASB ASC Topic 715 and 960 accounting purposes, the mortality table for healthy participants has been changed from IRS 2015 Combined Healthy Mortality Tables, separate tables for males and females to IRS 2016 Combined Healthy Mortality Tables, separate tables for males and females.
