Chase Industries, Inc. 401(k) Plan

Notes to Financial Statements

Note 1. Description of the Plan

The following brief description of Chase Industries, Inc. 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan sponsored by Chase Industries, Inc. (the Company) for the benefit of its employees who have at least three months of service and are age 18 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Under terms of the Plan, eligible associates (other than nonresident aliens and residents of Puerto Rico) with at least three months of service may participate in the Plan. Participants are automatically enrolled in the Plan with an elective pre-tax deferral rate of 2% of compensation, increasing each January 1 thereafter by 1% until such elective deferral rate is 6% of compensation, unless the participant affirmatively elects out of the automatic deferral feature, elects a different deferral rate or elects not to participate in the Plan. Each year, participants may contribute up to 90% of pretax annual compensation, as defined in the Plan. The amount of participant's contributions for any Plan year may not exceed certain limits set by the Plan document and the Internal Revenue Code (IRC). Contributions may be pre-tax, after-tax or a combination of both, subject to Internal Revenue Service (IRS) 401(k) limitations. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various pooled separate accounts and a guaranteed investment contract as investment options for participants. The Company may make discretionary matching contributions as determined by the Board of Directors. The Company's matching contribution was 50% of employee's salary deferral amounts up to 6% of employee's eligible compensation. The Company may also make a discretionary profit sharing contribution to the Plan, which was \$0 for the year ended December 31, 2016.

Participant accounts: Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's matching contribution, (b) the Company's profit sharing contribution and (c) Plan earnings and losses, including an allocation of administrative expenses. Allocations are based on participant compensation or account balances, in accordance with the method described in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions and earnings thereon. Vesting in employer contributions along with the earnings thereon is based on years of continuous service, where a year is defined as one in which an employee works 1,000 or more hours.

Vesting in the employer's contributions along with earnings thereon is as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 1 year	0%
1 year	30%
2 years	60%
3 or more years	100%

Chase Industries, Inc. 401(k) Plan

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Notes receivable from participants: The Plan includes a provision allowing participants to borrow funds from the Plan. Under the terms of this provision, borrowings are subject to certain limitations, including a minimum borrowing of \$500 and a maximum borrowing not to exceed the lesser of \$50,000 or 50% of the participant's vested account balance. The notes receivable are secured by the balance in the participant's account. The maximum loan term is five years unless the loan is taken for the purchase of a primary residence. The interest rate charged on the outstanding notes receivable balances are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratable through payroll deductions.

Payment of benefits: A participant may receive the value of his or her vested account upon retirement, disability or termination in a lump sum distribution. Upon death of a participant, the beneficiary shall be entitled to the full value of the account. Hardship withdrawals, as defined in the Plan, are also available to participants.

Forfeitures: Forfeited non-vested accounts are used to pay Plan expenses or reduce future employer contributions. Forfeited non-vested accounts totaled approximately \$19,300 and \$2,000 at December 31, 2016 and 2015, respectively. Employer contributions were reduced by approximately \$1,831 from forfeited non-vested accounts during the year ended December 31, 2016.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared using the accrual method of accounting.

Investments held by a defined-contribution plan are required to be reported at fair value, except for fully benefit-responsive contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value (except for fully benefit-responsive contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are treated as distributions based upon the terms of the plan document.

Contributions: Participant contributions and employer matching contributions are recognized when the participant contributions are withheld from the participant's earnings. Discretionary employer contributions are recognized when declared by the employer.

Chase Industries, Inc. 401(k) Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Administrative expenses may be paid by the employer or the Plan, at the Company's discretion.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through December 6, 2017, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by the Custodian

The following is a summary of the Plan's asset information as of December 31, 2016 and 2015 and for the year ended December 31, 2016, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by Standard Insurance Company and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate to the best of their knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets:

	2016	2015
Investments, at fair value:		
Pooled separate accounts	\$ 10,837,182	\$ 8,716,003
Investments, at contract value:		
Guaranteed investment contract	507,991	467,887
	<u>\$ 11,345,173</u>	<u>\$ 9,183,890</u>

Standard Insurance Company also certified to the completeness and accuracy of \$816,921 of net appreciation in the fair value of investments and \$7,394 of interest and dividend income for the year ended December 31, 2016.

Chase Industries, Inc. 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted process for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Pooled separate accounts: Valued at the net asset value per share based on quoted market prices of the underlying investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Chase Industries, Inc. 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	Level 1	Level 2	Level 3	Total
Total assets in the fair value hierarchy	\$ -	\$ -	\$ -	\$ -
Investments measured at the net asset value ^(a)	-	-	-	10,837,182
Investments at fair value	\$ -	\$ -	\$ -	\$ 10,837,182

	2015			
	Level 1	Level 2	Level 3	Total
Total assets in the fair value hierarchy	\$ -	\$ -	\$ -	\$ -
Investments measured at the net asset value ^(a)	-	-	-	8,716,003
Investments at fair value	\$ -	\$ -	\$ -	\$ 8,716,003

^(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfers relative to total net assets available for benefits. For the year ended December 31, 2016, there were no significant transfers in or out of Level 1, 2 or 3.

The following tables summarize investments whose fair value is estimated using net asset value per share (or its equivalent) as a practical expedient as of December 31:

	2016			
	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Pooled separate accounts	\$ 10,837,182	\$ -	Daily	None

	2015			
	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Pooled separate accounts	\$ 8,716,003	\$ -	Daily	None

Chase Industries, Inc. 401(k) Plan

Notes to Financial Statements

Note 5. Guaranteed Investment Contract with Insurance Company

The Plan entered into a traditional investment contract with Standard Insurance Company (Standard). The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The contract value of the traditional investment contract at December 31, 2016 and 2015 was \$507,991 and \$467,887, respectively.

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1%. Such interest rates are reviewed on a quarterly basis for resetting. The contract does permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments. Certain events limit the ability of the plan to transact at contract value with the issuer. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code.
2. The Plan's total investment in the contract falls below an amount specified in the contract.
3. Premature termination of the contract.
4. Plan termination or merger.
5. Changes to the Plan's prohibition on competing investment or other Plan provisions that have an adverse effect on the investment.
6. Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

Note 6. Tax Status

Effective October 1, 2013, the Plan adopted a volume submitter prototype plan sponsored by Standard Retirement Services, Inc. The prototype plan has received an opinion letter from the IRS as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes that the Plan is designed and is being operated in compliance with applicable provisions of the Internal Revenue Code.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their accounts.

Chase Industries, Inc. 401(k) Plan

Notes to Financial Statements

Note 8. Party-In-Interest Transactions

Certain Plan investments held during the year are shares of the guaranteed investment contract managed by Standard. Standard is the custodian, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. During 2016, the Plan paid administrative fees in the amount of \$19,793 to Standard.

Note 9. Nonexempt Transactions

During 2015, the Plan sponsor inadvertently failed to deposit participant contributions of \$55,737 and participant loan payments of \$7,376 within the required timeframe as stated by the United States Department of Labor. The Plan sponsor has reimbursed the plan for lost interest. The Plan sponsor will file Form 5330 and intends to pay the applicable excise tax. The excise tax payments will be made from the Plan sponsor's assets and not from assets of the Plan.

Note 10. Plan Merger

In November 2016, the plan sponsor made the decision to merge the Door Engineering and Manufacturing, LLC 401(k) Plan into the Chase Industries, Inc. 401(k) Plan, effective as of January 1, 2017. The transfer of approximately \$1,740,000 was completed in January 2017.
