1. DESCRIPTION OF PLAN

The following description of the Bean Automotive Group 401(k) Plan (the "Plan") provides only general information. Reference to the Plan document should be made for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Kendall Imports, LLC, West Kendall Imports, LLC and G.F.B Enterprises, LLC (collectively as the "Employer") who have completed at least three months of service and are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan became effective on January 1, 2015.

Contributions

Contributions to the Plan are made by the participants and the Employer. Participants may elect to defer up to 100% of their annual compensation on a pre-tax basis, subject to Internal Revenue Service ("IRS") limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Additionally, participants may roll over or transfer to the Plan any portion or all of the property received from another qualified employee benefit trust (rollover contribution). The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3 percent of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. The Employer contributes and allocates to each eligible participant's account an amount equal to a percentage of the participant's salary savings agreement contribution (matching contribution). Employer contributions are discretionary and may be changed from year to year.

Participant Accounts

Each participant's account is credited with the participant's contribution, an allocation of the Employer's contribution, if applicable, and the Plan's earnings. Allocations of earnings are based on earnings or losses attributable to the specific funds in which the accounts are invested and are reduced by administration and management fees, as defined. The Employer's matching and discretionary contributions are allocated based on a percentage of compensation of eligible participants for the plan year as determined by the Employer. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Forfeitures shall be applied to reduce the Employer's contribution for such Plan year. The forfeiture amount for the year ended December 31, 2016 was $17,910.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Employers' matching and discretionary contribution portion of participants' account, plus actual earnings thereon, is based on years of service in accordance with the following:

Years Vested Of Service	Percentage
0 But Less than 2	0%
2 or More	100%

Payment of Benefits

Upon termination of service, a participant may elect to receive either a lump-sum amount equal to the value of his or her account, or defer distribution until the year following the year in which the participant reaches 59 ½ years of age. A hardship withdrawal may also be taken to satisfy an immediate and heavy financial need that cannot be satisfied from other financial resources. Hardship withdrawals may be taken for reasons as defined in the Plan document.

1. DESCRIPTION OF PLAN (CONTINUED)

Notes Receivable from Participants

A participant may borrow from the Plan a minimum of $1,000 not to exceed the lesser of: (a) $50,000 or (b) 50% of the participant's vested account balance. Loan terms range from 1-5 years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local market prevailing rates. The interest rates applicable to all participant loans during the years ended December 31, 2016 and 2015 vary between 3.25% and 4.50%. Principal and interest is paid ratably through monthly payroll deductions.

Investment Options

Upon enrollment in the Plan in 2016, a participant may direct their employee and Employer's contributions into any of the investment fund options held by Mass Mutual Life Insurance Company ("MassMutual"). Participants may change their investment options at their discretion.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See NOTE 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment Management Fees and Operating Expenses

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned and are reflected as a component of net appreciation in fair value of investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on an accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Payment of Benefits

Benefits are recorded when paid.

Tax Status

The Plan adopted its latest Prototype Standardized Profit Sharing Plan with a cash or deferral arrangement developed by Mybenefits, LLC, effective January 1, 2015, which obtained a favorable IRS opinion letter on March 31, 2014 in which the IRS stated that the form of the underlying prototype plan was acceptable under provisions of the Internal Revenue Code ("Code") and that any employer adopting this form of the plan will be considered to have a plan qualified under the Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the accompanying financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Administrative Expenses

The Plan agreement allows for all administrative expenses to be paid by the Plan or the Employer.

Recent Accounting Pronouncements

Fair Value Measurement

In May 2015, the Financial Accounting Standards Board ("FASB") issued an accounting standard update that removes the requirement to include investments in the fair value hierarchy for which fair value is measured at net asset value using the practical expedient. The update also changes certain disclosure requirements. The update is effective retrospectively for fiscal years beginning after December 15, 2016 and interim periods within those fiscal years. Early application is permitted. The Plan is currently evaluating the effect the update will have on its financial statements.

Subsequent Events

The Plan has evaluated events through January 10, 2018, which is the date the financial statements were available to be issued.

3. INFORMATION PREPARED AND CERTIFIED BY THE CUSTODIAN

Information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedules held at December 31, 2016 and 2015, and net appreciation in fair value of investments, dividends, and interest on notes receivable from participants for the year ended December 31, 2016, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by MassMutual, the custodian of the Plan.

4. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits according to the financial statements to Form 5500:

	December 31, 2016	December 31, 2015
Net assets available for benefits per the financial statements	$ 4,751,093	$ 2,159,329
Less participant contributions receivable	-	(27,004)
Plus excess contribution payable	85,127	-
Net assets available for benefits per the Form 5500	**$ 4,836,220**	**$ 2,132,325**

The following is a reconciliation of contributions per the financial statements to Form 5500:

	Year Ended December 31, 2016
Total contributions per financial statements	$ 2,598,688
Plus prior year contribution receivable	27,004
Plus excess contribution payable	85,127
Total contributions per the Form 5500	**$ 2,710,819**

5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Employer contributions, if applicable.

6. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The FASB Accounting Standards Codification ("FASB ASC") provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

7. FAIR VALUE MEASUREMENTS

The three levels of fair value hierarchy under FASB ASC are described as follows:

- Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 — Inputs to the valuation methodology include:
  - quoted prices for similar assets or liabilities in active markets;
  - quoted prices for identical or similar assets or liabilities in inactive markets;
  - inputs other than quoted prices that are observable for the asset or liability;
  - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trusts: Valued at the NAV, provided by MassMutual, of shares held by the Plan at year end. The NAV for most common collective trusts is quoted on a private market that is not active, however, the unit price is based on quoted market prices of the underlying investments which are traded on an active market.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value on a recurring basis as of December 31, 2016 and 2015.

		Fair Value Measurements at Reporting Date Using:		
Description	**Fair Value 12/31/2016**	**Quoted Prices in Active Markets for Identical Assets (Level 1)**	**Significant Other Observable Inputs (Level 2)**	**Significant Unobservable Inputs (Level 3)**
Mutual funds	$ 3,433,392	$ 3,433,392	$ -	$ -
Common collective trusts	757,313	-	757,313	-
Total assets at fair value	**$ 4,190,705**	**$ 3,433,392**	**$ 757,313**	**$ -**

7. FAIR VALUE MEASUREMENTS (CONTINUED)

		Fair Value Measurements at Reporting Date Using:		
Description	Fair Value 12/31/2015	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$ 1,628,274	$ 1,628,274	$ -	$ -
Common collective trusts	380,532	-	380,532	-
Total assets at fair value	**$ 2,008,806**	**$ 1,628,274**	**$ 380,532**	**$ -**

The Plan uses NAV to determine the fair value of all the underlying investments which (a) do not have a readily determinable fair value and (b) prepare their financial statements consistent with the measurement principles of an investment company or have the attributes of an investment company.

The following tables summarizes investments for which fair value is measured using the NAV as of December 31, 2016 and 2015:

December 31, 2016	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common collective trusts	**$ 757,313**	**$ -**	N/A	N/A

December 31, 2015	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common collective trusts	**$ 380,532**	**$ -**	N/A	N/A

8. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan entered into a fully benefit-responsive guaranteed investment contract with MassMutual totaling $251,571 and $92,923 for 2016 and 2015, respectively. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment account is reported at contract value, which approximates fair value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Contributions allocated to the guaranteed investment account are held in the MassMutual general account. The guaranteed investment account guarantees a return of principal plus interest as stated in the contract. The guaranteed interest rate is an effective annual rate based on the investment yield realized on MassMutual's general account. The contract guarantees an interest rate for the first guarantee period and a minimum rate for the following guarantee period. The separate investment accounts' income consists of dividends and interest less administration expenses and management fees. The net appreciation in fair value of investments represents the net change in the market value of the separate investment accounts exclusive of changes due to deposits, withdrawals and investment income. The investment yield is the overall percentage gain or loss experienced by the separate investment accounts during the year.

8. INVESTMENT CONTRACT WITH INSURANCE COMPANY (CONTINUED)

As described in NOTE 2 Basis of Accounting, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by MassMutual at December 31, 2016 and 2015, represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and administrative expenses.

9. TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain Plan investments are managed by MassMutual. MassMutual is the custodian of the Plan and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment.

10. LATE REMITTANCES

During 2016, the Employer did not remit participant deferrals totaling $453,882 in a timely manner as required by Department of Labor regulations. As a result, the Employer contributed the lost earnings on these late remittances through self-corrections made to the Plan during the subsequent year.

The aforementioned late remittances of participant deferrals were a result of a payroll software conversion which took approximately six to nine months to finalize. At this time, participant deferral remittances were systematically processed electronically and are reported in a timely manner. These financial statements do not include any adjustments for any potential fines, penalties or interest related to these nonexempt transactions.

11. EXCESS CONTRIBUTIONS PAYABLE

Contributions received from participants for 2016 are net of payments totaling $85,127 made to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. Those amounts have been included in the Plan's statements of net assets available for benefits as excess contributions payable as of December 31, 2016. There were no excess contributions payable as of December 31, 2015.
