HARPER BROTHERS CONSTRUCTION LLC 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2016

Note 1 – Description of Plan

The following description of the Harper Brothers Construction LLC 401k Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a safe harbor 401(k) plan that was established on January 1, 2015 and covers substantially all employees of Harper Brothers Construction LLC and Texas Wall Systems, LLC (collectively, the "Company" or "Employer"). The Plan operates as a controlled group as both Harper Brothers Construction LLC and Texas Wall Systems, LLC are under common ownership. Under the terms of the Plan, employees become eligible to make salary deferral contributions after the completion of one month of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Under the terms of the Plan, employees become eligible to make salary deferral contributions upon the completion of thirty days of service, except (1) employees included in a unit of employees covered by a collective bargaining agreement between the employer and employee representatives, if retirement benefits were subject of good faith bargaining, (2) any leased employee, and (3) any employee who is a nonresident alien who does not received earned income from the Company.

Contributions

Participants may contribute up to 100% of their salary and wages, through pretax compensation deferrals, not to exceed $18,000 for 2016. Additionally, participants who are at least 50 years of age by December 31, 2016 are permitted to make additional contributions up to $6,000 for 2016. Employees can begin making contributions on (or any time after) the first of the month following the satisfaction of the eligibility requirements. Employee contributions may be made only by payroll deductions. Participants can rollover contributions representing distributions from other qualified defined benefit or contribution plans. For the year ended December 31, 2016, rollover contributions totaled $31,513.

Participants are eligible for Company matching contributions upon the completion of thirty days of service. The Company matches 100% of participant's contributions up to 4% of the participant's eligible compensation. For the year ended December 31, 2016, the Company made matching contributions of $139,675.

Participant Accounts

Separate accounts are maintained for each participant. Participant accounts are credited with the participant contributions, rollover contributions, allocations of Company contributions and investment earnings and losses, and charged with withdrawals and administrative fees. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 – Description of Plan (Continued)

Vesting

Participants are always fully vested in their contributions, rollover contributions, and safe harbor matching contributions. Vesting in the Company's profit sharing account will vest based on years of vesting service defined as follows:

Years of Service	Vested Percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

Notes Receivable from Participants

Under the Plan's loan provisions, participants may borrow from their accounts no amount less than $1,000, up to a maximum equal to the lesser of $50,000 or one-half of their vested account balance, reduced by the outstanding loan balance in the account during the prior 12-month period. The loans are adequately secured by the vested interest in the participant's account and are charged a reasonable rate of interest. Principal and interest payments are paid ratably through regular payroll deductions over a term not to exceed five years, unless the loan was obtained to acquire a principal residence. The maximum loan term for a principal residence loan is 15 years. A participant may have two loans outstanding at any one time.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant or their beneficiary may elect to receive either a lump-sum distribution or payment in equal periodic installments based on the valuation of the participant's account as of the date of termination. For termination of services due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. If the participant dies after distribution has begun, the remaining portion of the account will continue to be distributed under the method of distribution being used prior to death.

Withdrawals

Participants may make early withdrawals of all or a portion of their elective deferral contributions in their account under the hardship provision of the Plan. Participants may make unrestricted withdrawals of their vested account balance on or after age 59½. At the age of 70½, a participant is required to receive minimum required distributions from their account annually.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts and disclosures. Estimates that have the most impact on the financial position and results of performance primarily relate to the fair value of investments. Actual results may differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value, as determined by the John Hancock Life Insurance Company (the "Custodian"). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Net appreciation or depreciation of investments is reported in the statement of changes in net assets available for benefits and consists of the realized gains or losses and the unrealized appreciation or depreciation of these investments. Purchases and sales of securities are recorded on a trade-date basis. Expenses related to the purchase or sale of investments are added to the cost or deducted from proceeds.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances. Delinquent notes receivable from participants are recorded as a distribution based upon terms of the Plan document. Interest income is recorded on the accrual basis.

Benefit Payments

Benefit payments are recorded as a deduction from net assets available for benefits when paid.

Plan Expenses

The Plan permits the payment of Plan expenses to be made from the Plan's assets. If the Company does not pay these expenses, then the expenses paid using the Plan's assets will generally be allocated among the accounts of all participants in the Plan.

Note 2 – Summary of Significant Accounting Policies (Continued)

Concentrations of Credit Risk

The Plan's investments potentially subject the Plan to concentrations of credit risk. The Plan has not experienced any credit losses associated with these instruments.

Note 3 – Investments

Unaudited Information Certified as Complete and Accurate by the Plan Custodian

The December 31, 2016 statement of net assets available for benefits, the investment activities included on the statement of changes in net assets available for benefits for the year ended December 31, 2016, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the Custodian in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The information certified as complete and accurate includes total investments and notes receivable of $1,037,087 at December 31, 2016 and related net appreciation in fair value of investments of $53,551 and interest income on notes receivable of $403 for the year ended December 31, 2016. The Plan's net appreciation in fair value of investments totaling $53,551 includes gains and losses on investments bought, sold, and held during the year ended December 31, 2016.

Note 4 – Fair Value Measurements

The FASB's Accounting Standards Codification 820 "Fair Value Measurements and Disclosures" (ASC 820) establishes a framework for measuring fair value and provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Note 4 – Fair Value Measurements (Continued)

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Pooled separate accounts: The Plan adopted ASU No. 2015-07 which removed the requirement to categorize and disclose investments for which fair value is measured using the net asset value (NAV) per share as the practical expedient within the fair value hierarchy. Pooled separate accounts accounted for $971,953 and $537,739 of the Plan's total investments recorded at fair value as of December 31, 2016 and 2015, respectively. The pooled separate accounts are valued, as a practical expedient, based on the Custodian's net asset value of units held by the Plan at year-end. The calculated NAV is directly related to the net asset value of the underlying investment adjusted for dividends or distributions received by the Custodian and the daily equivalent of any fees charged. The investments held by each pooled separate account are traded on an active market.

Money market funds: Valued at cost which approximates fair value. Money market funds accounted for $33,836 and $20,734 of the Plan's total investments as of December 31, 2016 and 2015, respectively.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

Assets at Fair Value as of December 31, 2016

	Level 1	Level 2	Level 3	Total
Money market fund	$ 33,863	$ -	$ -	$ 33,863
Pooled separate accounts*	-	-	-	971,926
Totals	$ 33,863	$ -	$ -	$ 1,005,789

Note 4 – Fair Value Measurements (Continued)

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Money market fund	$ 20,734	$ -	$ -	$ 20,734
Pooled separate accounts*	-	-	-	537,739
Totals	$ 20,734	$ -	$ -	$ 558,473

*In accordance with ASU 2015-07, certain investments that are measured at fair value using the net asset value per share have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the total investments in the statements of net assets.

Note 5 – Related Party and Party-in-Interest Transactions

The Company provides the Plan with certain accounting and administrative services for which no fees are charged. The Plan invests in various pooled separate accounts offered by the Custodian, as approved by the Plan's trustees. These investments are considered party-in-interest transactions. These transactions are exempt from being prohibited transactions by ERISA. Fees paid by the Plan for administrative services totaled $6,173 for the year ended December 31, 2016.

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 7 – Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500 as of December 31, 2016:

Net assets available for benefits per financial statements	$ 1,033,017
Less: Employee contribution receivable	(394)
Less: Employer contribution receivable	(730)
Net assets available for benefits per Form 5500	$ 1,031,893

The following is a reconciliation of employee and employer contributions per the financial statements for the year ended December 31, 2016 to Schedule H of Form 5500:

Employee contributions per financial statements	$ 264,197
Less: Current year employee contribution receivable	(730)
Employee contributions per Form 5500	$ 263,467

Note 7 – Reconciliation of Financial Statements to Schedule H of Form 5500 (Continued)

Employer contributions per financial statements	$	139,675
Less: Current year employer contribution receivable		(394)
Employer contributions per Form 5500	$	139,281

Note 8 – Tax Status

The Plan uses a prototype plan sponsored by its third-party administrator. The third-party administrator received a letter from the Internal Revenue Service ("IRS") dated September 30, 2014, which states that the prototype document satisfies the applicable provision of the Internal Revenue Code. The prototype plan has been amended since receiving this determination letter. The Plan itself has not received a determination letter from the IRS. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require the Company to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9 – Fidelity Bond Coverage

The Plan is covered by a fiduciary insurance policy that is designed to satisfy the fidelity bond requirement in accordance with 29 CFR 2580.412-11. Plan management considers the Plan to be in compliance with the bonding requirement.

Note 10 – Risks and Uncertainties

The Plan provides for various investments in pooled separate accounts. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statement of net assets available for benefits.

Note 11 – Subsequent Events

Management has evaluated subsequent events through January 24, 2018, which is the date the financial statements were available for issuance, and has determined that, no subsequent events or transactions took place that would require disclosure herein.
