NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2016

NOTE 1 - DESCRIPTION OF PLAN

The following description of IRISNDT Inc. 401 (k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all full-time employees of the Company who are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may make an elective deferral, for each Plan year, in an amount equal to the maximum amount allowable not to exceed the limits of Code Sections 401(k), 404 and 415. The Company will have the option of making a discretionary matching contribution to be determined by the Board of Directors each Plan year. The Company contribution for 2016 was $508,050.

Participant Accounts: Each Participant's account is credited with the Participant's contribution and an allocation of the Company's contribution and Plan earnings. Allocations are based on Participant earnings or account balances, as defined. The benefit to which a Participant is entitled is the benefit that can be provided from the Participant's vested account.

Investment Options: Upon enrollment in the Plan, the Participant is given a summary of the various investment options available under the Plan. The Participant then directs their contributions and any matching Employer contribution, to the various investments of their choosing. Changes in investments in the Participant's account are made directly by the Participant with John Hancock Life Insurance Company, the Custodian of the Plan.

Participant Notes Receivable: Participants may borrow from their fund accounts an amount equal to the lesser of $50,000 or 50% of their vested account balance with a minimum loan amount of $1,000. The terms of the loans shall not exceed five years unless for the purchase of a primary residence. The loans are secured by the balance in the Participant's account and bear interest of a rate commensurate with rates charged by representative commercial banks, currently 4.5%.

Vesting: Participants are immediately vested in their voluntary and the Company's matching safe harbor contributions. Participants are fully vested in the Company's discretionary contributions after six years of credited service.

Payment of Benefits: On termination of service due to death, disability or retirement, a Participant may elect to receive an amount equal to the value of the Participant's vested interest in his or her account in a lump-sum amount, installments over a period of not more than the assumed life expectancy, or the purchase of a different form of annuity. For termination of service due to other reasons, a Participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Forfeitures: Forfeitures are applied to reduce the Employer's contribution for such Plan year. At December 31, 2016 and 2015 the unapplied forfeiture balance was $113 and $196, respectively.

Administrative Expenses: Administrative expenses for the Plan for 2016 were $48,105.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Date of Management's Review: Subsequent events were evaluated through January 16, 2018 which is the date the financial statements were available to be issued.

Basis of Accounting: The financial statements are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the plan.

Estimates: The preparation of the financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that effect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note 3 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits: Benefits are recorded when paid.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

administrative expenses when incurred. As of December 31, 2016 and 2015, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the Plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

NOTE 3 – FAIR VALUE MEASUREMENTS

The Plan's investments (other than guaranteed interest contracts) are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurements accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consist of three broad levels: Level 1 inputs consists of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs were used only when Level 1 inputs were not available. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Level 1 Fair Value Measurements

The fair value of mutual funds and managed income portfolio funds is based on quoted net asset values of the shares held by the Plan at year-end as certified to by the Custodian.

	Fair Value	Measurements Using Level 1
December 31, 2016		
Mutual Funds	$ 8,549,074	$ 8,579,074
December 31, 2015		
Mutual Funds	$ 6,886,155	$ 6,886,155

NOTE 4 - INVESTMENTS CONTRACTS WITH INSURANCE COMPANY

The Plan's investments are held by John Hancock Life Insurance Company (JH). All Participant accounts are self-directed as to both Employer and Employee contributions. JH maintains the contributions in pooled separate accounts. The accounts are credited with actual earnings on the underlying investments and charged for Plan withdrawals. The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been certified to as complete and accurate by JH. The December 31, 2016 and 2015 Statements of Net Assets Available for Benefits, the investment activities included on the Statement of Changes in New Assets Available for Benefits for the year ended December 31, 2016, and the accompanying Notes to the Financial Statements were prepared in part or entirely from information certified by JH, the Custodian, in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified includes total investments of $8,864,167 and $7,161,585 at December 31, 2016 and 2015, respectively, and related income of $610,488 for the year ended December 31, 2016.

NOTE 5 – ACCOUNTING CHANGE ASU 2015-12

In July 2015, the FASB issued ASU 2015-12, Plan Accounting for Defined Contribution Pension Plans, consisting of (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date Practical Expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provides certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. The effect of ASU 2015-12 on the financial statements for the years ended December 31, 2016 and 2015 relates to disclosures and the requirement to report the guaranteed interest contract at contract value on the face of the financial statements.

NOTE 6 – GUARANTEED INTEREST CONTRACT WITH INSURANCE COMPANY

The Plan has guaranteed interest contracts with John Hancock Life Insurance Company (JH), that are for three, five and ten year periods. JH maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. JH is contractually obligated to repay the principal

NOTE 6 – GUARANTEED INTEREST CONTRACT WITH INSURANCE COMPANY (CONTINUED)

and compound interest earned over the defined term – three, five or ten years - provided all contributions remain in the account until the end of the guarantee period. Interest rates are established on the first day of each month and apply to all regular contributions made into the account in that month. At the end of each reporting year a "composite rate" is determined which will be used to credit interest through the guaranteed term.

Because the guaranteed interest contract meets the criteria to be considered fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed interest contract. The guaranteed interest contract is presented on the face of the statement of net assets available for benefits at contract value. Contract value, as reported to the Plan by JH, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2016 and 2015 was $285,093 and $275,430, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a monthly basis for resetting. The guaranteed interest contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

NOTE 7 - TAX STATUS

The Internal Revenue Service has determined and informed the Plans administrator that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and therefore believe the Plan is qualified and the related Trust is tax exempt.

Accounting principles generally accepted in the United State of America require the Plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

NOTE 8 - PLAN TERMINATION

Although it has not expressed any interest to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, Participants are 100 percent vested in their accounts.

NOTE 9 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10 – RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by John Hancock Life Insurance Company (JH). JH is the custodian as defined by the Plan and, therefore these transactions qualify as party-in-interest transactions. The Plan has notes receivable from participants at December 31, 2016 and 2015. As a result, these notes and all transactions relating to these notes qualify as party-in-interest transactions. These party-in-interest transactions are exempt from the prohibited transactions rules of ERISA.
