Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Finnegan Chrysler-Jeep 401(k) Plan and Trust, which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Massachusetts Mutual Life Insurance Company and Nationwide Financial Services, Inc., including its subsidiary Nationwide Trust Company, FSB, a division of Nationwide Bank, the custodians of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodians hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the custodians as of December 31, 2014 and 2013, and for the year ended December 31, 2014, that the information provided to the plan administrator by the custodians is complete and accurate.

Emphasis of Matter

As discussed in Note 2 of the financial statements, the Plan adopted new accounting guidance related to the presentation of certain investments and disclosure of investments. Prior-year disclosures have been revised to reflect the retrospective application of adopting these changes in accounting. Our disclaimer of opinion is not modified with respect to these matters.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule, Schedule H, Line 4i-Schedule of Assets (Held at End of Year) as of December 31, 2014 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for purposes of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

December 31, 2014 and 2013

1. Description of Plan

The following brief description of the Finnegan Chrysler-Jeep 401(k) Plan and Trust (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Finnegan Auto, LP and Finnegan Chrysler-Jeep South, LP (collectively the Company or Employer) located in Rosenberg, Texas. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

All employees of the employer who have attained the age of eighteen (18) or older are eligible for participation in the Plan after the completion of six (6) months of service. Entry dates are the first day of each calendar month after meeting the eligibility requirements.

Contributions

The employer may make matching, qualified non-elective and discretionary contributions. The employer did not make any contributions for the year 2014. Each year, participants may contribute up to a maximum amount determined the by Federal Government, which for the years 2014 and 2013 was $17,500. Also, participants who have obtained the age of 50 before the close of the Plan year are eligible to make catch-up contributions, which for the years 2014 and 2013 was up to an additional $5,500.

Participant Accounts

Participants may direct their contributions to selected investments as made available by the plan administrator. Participants may change their investment options throughout the year via direct access with the plan's custodian.

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions (if any) and plan earnings. Allocations of the Company's contributions are based on elective deferrals or considered compensation, as defined. Plan earnings are credited to each participant's account based upon the performance of the investments selected at

1. Description of Plan (continued)

each valuation date. The benefit to which a participant is entitled is the benefit that can be derived from the participant's vested account.

Payment of benefits

On termination of service, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Hardship distributions are also available subject to certain limitations.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contributions plus actual earnings thereon is based on years of continuous service. A participant is 20% after two years of service, and then increasing by 20% per year until 100% vested at six years of service in Company matching and discretionary contributions. A participant is 100% vested at all times in qualified non-elective Company contributions. Upon death or disability, a participant becomes fully vested in their account balance.

Forfeitures

Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeited amounts may be used to reduce Employer contributions for the plan year in which the forfeitures occur and they may be used to pay any expenses associated with the administration and operation of the plan. There were no unallocated forfeitures at December 31, 2014.

Notes Receivable from Participants

Loans are available to all participants. The amount that may be borrowed is the lesser of $50,000 or 50% of the participant's vested interest in the Plan. The $50,000 maximum amount will be reduced by the participant's highest outstanding loan balance in the previous 12 months, over the outstanding balance of loans from the plan on the date on which such loan was made, or ½ the present value of the employee's vested accrued benefit under the plan. A participant shall only have one (1) outstanding loan at a time. The loans are secured by the balance in the participant's account. The interest rate charged will be determined when the loan is originated and will be the prime rate from the Federal Reserve of New York plus 1%. All loans must be repaid through payroll deductions with principal and interest paid ratably through the payroll deductions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-response investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan management to make estimates and assumptions that affect the reported amounts assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

2. Summary of Significant Accounting Policies (continued)

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of participant-initiated transactions are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation or depreciation of fair value of investments.

Recent Accounting Pronouncement

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-12 which is a three-part ASU to simplify financial reporting for benefit plans. Individual parts of this ASU can be adopted and during the year 2014 the Plan adopted Part I of this ASU and Part II was adopted during the year 2013, the effects related to the financial reporting of the Plan are as follows:

Part I - Fully Benefit-Responsive Investment Contracts (FBRIC), clarified that contract value is the relevant measure for FRBICs because that is the amount participants would receive in a transaction, eliminated the requirements to measure FBRICs at fair value, removed them from the related fair value disclosures, and eliminated the average yield disclosure requirement.

Part II - Plan Investment Disclosures, simplified Plan investment disclosures which among other things eliminating the requirement to disclosure net appreciation or depreciation in fair value of investments by general type and eliminating the requirement to disclose individual investments with a value equal to or greater than 5% of net assets available for benefits.

Parts I & II of ASU No. 2015-12 are effective for fiscal years beginning after December 15, 2015 with early adoption or application permitted.

Subsequent Events

Subsequent events were evaluated through January 26, 2018, the date the financial statements were available to be issued.

3. Information Certified Massachusetts Mutual Life Insurance Company (MassMutual) and Nationwide Financial Services, Inc., Including its Subsidiary Nationwide Trust Company, FSB, a Division of Nationwide Bank (Nationwide)

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information certified by MassMutual and Nationwide, the custodians, as of December 31, 2014 and 2013, and for the year ended December 31, 2014, except for comparing such information certified by the custodians to information included in the Plan's financial statements and supplemental schedule.

MassMutual certified the completeness and accuracy of the Plan's fair values and contract values of assets at December 31, 2014 in the amounts of $361,089 and $36,033, respectively. They also certified the completeness and accuracy of the net depreciation in fair value of the plan's investments and interest and dividend income in the amounts of $414 and $448 for the year ended December 31, 2014. Nationwide certified the completeness and accuracy of the Plan's fair values of assets at December 31, 2013 in the amount of $362,241. They also certified the completeness and accuracy of the net appreciation in fair value of the plan's investments in the amount of $4,495 for the year ended December 31, 2014.

4. Fair Value Measurements

The fair value measurement accounting literature establishes a framework for measuring fair value in accordance with accounting principles generally accepted in the United States of America. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;

4. Fair Value Measurements (continued)

- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for major categories of investments measured at fair value:

Level 2 Fair Value Measurements

The mutual funds are held in pooled separate accounts; therefore, they are considered Level 2. There have been no changes in methodologies used for investments measured at fair value. Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds: Valued at the net asset value (NAV).

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Fair Value Measurements (continued)

The Plan's investments, measured at fair value by the three levels of the fair value hierarchy as described above are as follows at December 31, 2014:

	Level 1	Level 2	Level 3	Fair Value
Mutual funds in pooled separate accounts	$ -	$ 361,089	$ -	$ 361,089
Total investments, at fair value	$ -	$ 361,089	$ -	$ 361,089

The Plan's investments, measured at fair value by the three levels of the fair value hierarchy as described above are as follows at December 31, 2013:

	Level 1	Level 2	Level 3	Fair Value
Mutual funds in pooled separate accounts	$ -	$ 362,241	$ -	$ 362,241
Total investments, at fair value	$ -	$ 362,241	$ -	$ 362,241

5. Guaranteed Interest Contract with MassMutual

During the year 2014 the Plan entered into a benefit-responsive investment contract with MassMutual which had a contact value of $36,033 at December 31, 2014. MassMutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged with withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The guaranteed investment contract meets the fully benefit-responsive investment contract criteria, and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the contract. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. For example, premature termination of the contract by the Plan, Plan terminations, bankruptcy, mergers, and failure of the trust to qualify for exemption from federal income taxes or any

required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any event which would limit the Plan's ability to transact at contract value with participants is probable of occurring.

The crediting interest rate for the year 2014 was 1.70%.

6. Tax Status

Effective April 1, 2004, the Company adopted a Volume Submitter Profit Sharing Plan with CODA which received most recently a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2014 which stated that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in accordance with the applicable requirements of the IRC, and therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, no uncertain positions taken or expected to be taken would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax years in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

7. Related Party Transactions and Party-In-Interest Transactions

Certain Plan investments were investments managed by MassMutual and Nationwide during the year 2014. Both MassMutual and Nationwide were custodians during the year 2014 of the Plan's assets and they provided participant accounting and, therefore these transactions qualify as party-in-interest transactions. Total fees paid by the Plan for administration and trustee fees amounted to $112 for the year ended December 31, 2014.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Plan Termination

Although it has not expressed intent to do so, the employer has the right under the Plan to terminate the Plan subject to the provisions of ERISA. Upon termination, all participants would become fully vested in their account balances.
