INNISFREE MANAGEMENT 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2016 and 2015

(1) Description of Plan:

The following description of the Innisfree Management 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all non-excluded employees of a controlled group (Company) consisting of Innisfree Hotels, Inc. (the Plan sponsor) and fifteen participating companies. Employees who have one year of qualified service and are age 21 or older can participate in the Plan. Excluded employees are hourly employees and highly compensated employees. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions. Each year, participants may contribute a specific dollar amount per pay period or a percentage of their pretax annual compensation as defined in the Plan subject to certain Internal Revenue Service (IRS) limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Additionally, participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers pooled separate accounts and a guarantee interest option as investment options for participants.

The Company contributes a discretionary percentage of participant contributions, determined on a year by year basis, to the Plan. For 2016, the Company contributed 5% of eligible participant's contributions. Participants must have one year of service to receive the matching contribution. The Company can elect to make additional discretionary contributions. No discretionary contribution was made for 2016.

Participant Accounts. Each participant's account is credited with the participant's contribution and Company matching contributions and allocations of (a) the Company's discretionary contribution, and (b) Plan earnings (losses), and charged with an allocation of any administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(1) Description of Plan (Continued):

Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Notes Receivable from Participants. Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a fixed, commercially reasonable rate of interest. Principal and interest is paid not less frequently than quarterly, and generally the term of the loan may not exceed 5 years, unless it is for the purchase of a principal residence.

Payment of Benefits. On termination of service due to death, disability, retirement, or other reasons, a participant may receive a lump-sum amount equal to the value of the participant's vested interest in their account. If the participant's vested account balance exceeds $5,000 then the participant can elect to receive a partial withdrawal or installments but only with respect to minimum required distributions, over a period of not more than the participant's life expectancy. Hardship distributions to participants are permitted up to 100% of the participant's fully vested account balance.

Forfeited Accounts. At December 31, 2016 and 2015, forfeited nonvested accounts totaled $1,137 and $934, respectively. These accounts are used at the discretion of the Company to pay Plan expenses or reduce employer contributions.

(2) Summary of Significant Accounting Policies:

Basis of Accounting. The financial statements of the Plan are prepared on the accrual basis of accounting.

Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

(2) Summary of Significant Accounting Policies (Continued):

Notes Receivable from Participants. Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on an accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2016 and 2015, no allowance for credit losses has been recorded.

Investment Valuation and Income Recognition. The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits. Benefits of the Plan are recorded when paid.

Operating Expenses. Under the group annuity contract with AXA Equitable Life Insurance Company (AXA Equitable), participant administrative charges are deducted quarterly from participant accounts. These charges are presented as administrative fees in the statement of changes in net assets available for benefits. Investment related expenses are included in net depreciation of fair value of investments. Certain expenses of maintaining the Plan that are paid directly by the Company are excluded from these financial statements.

(2) Summary of Significant Accounting Policies (Continued):

Recent Accounting Pronouncement. In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) "Plan Accounting: Defined Contribution Pension Plans (Topic 962), Fully Benefit-Responsive Investment Contracts, Plan Investment Disclosures, and Measurement Date Practical Expedient" (ASU 2015-12). Under ASU 2015-12, plans are no longer required to disclose individual investments that represent five percent or more of net assets available for benefits and the net appreciation or depreciation for investments by general type. Additionally, the level of disaggregation of investments that are measured using fair value has been simplified. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to dissagregate investments by nature, characteristics and risk.

The Plan is required to adopt ASU 2015-07 for fiscal years beginning after December 15, 2015 on a retrospective basis; however, the Company elected to adopt the provisions for fiscal year 2015 and subsequent years, as allowed.

Date of Management's Review. Subsequent events were evaluated through January 30, 2018, which is the date the financial statements were available to be issued.

(3) Investment Contract with Insurance Company:

The Plan has entered into an investment contract with AXA Equitable. AXA Equitable maintains the Plan's assets as follows:

Pooled Separate Accounts - These accounts hold assets allocated to each separate account. The value of each separate account (16 accounts at December 31, 2016) is determined at the close of each business day based on fair value. These accounts are separate accounts (not part of AXA Equitable's general account (i.e., segregated)). Income, gains, or losses from the assets in each account are credited to or charged against that account without regard to other income gains, or losses of AXA Equitable or any other separate account.

(3) Investment Contract with Insurance Company (Continued):

Guaranteed Interest Option – The guaranteed interest option is part of the general account of AXA Equitable, pays interest at guaranteed rates, and provides an investment option in which the value of the principal will not fluctuate. The amount that a participant has in the guaranteed interest option at any time is equal to the sum of all amounts allocated or transferred to the account plus the amount of any interest credited less all amounts that have been withdrawn, including charges to or transfers from the account.

This investment choice is not guaranteed by the FDIC or any other government agency. All participant-directed withdrawals are permitted and are not subject to market value adjustments.

AXA Equitable sets current interest rates for the guaranteed interest option on a monthly basis. All amounts invested in the guaranteed interest option get the same interest rate. AXA Equitable guarantees that the minimum guaranteed rate will not be less than 1%. The current interest rate during 2016 was 3%.

The guaranteed interest option contract promises contract value for a benefit event (termination, death, disability, and retirement); however, there is a possible market value adjustment for a plan-initiated transfer of assets to another carrier or termination of the plan's participation under the contract by the insurance company.

(4) Fair Value Measurements:

The Plan's investments are reported at fair value in the accompanying Statements of Net Assets Available for Benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(4) Fair Value Measurements (Continued):

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. No level 1 inputs were available to the Plan.

The following is a description of the valuation methodologies used for the investments measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Level 2 Fair Value Measurements

According to the Plan's Custodian, the pooled separate accounts are invested in investments such as mutual funds, equity securities, and fixed maturity securities and are valued at the net asset value which is based on market value of the underlying investments. While the majority of the underlying asset values are quoted prices, the NAV of the pooled separate accounts is not publicly quoted and are determined by the insurance company. NAV is a readily determinable fair value and is the basis for current transactions.

Level 3 Fair Value Measurements

The guaranteed interest account with an insurance company is not actively traded and significant other observable inputs are not available. The fair value of the guaranteed interest account is a discontinuance value which is the amount Plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity for an event other than death, disability, termination or retirement.

(4) Fair Value Measurements (Continued):

The following table provides information about the significant unobservable inputs related to the Plan's investment in guaranteed investment accounts:

Contract Type	Fair Value	Valuation Technique	Significant Unobservable Inputs	Range of Net Crediting Interest Rates
Guaranteed interest	$293,447	Assumed proceeds at discontinuance	Guaranteed rate	1%
			Current rate at December 31, 2016	3%

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016 and 2015:

		Fair Value Measurement at Reporting Date Using:	
December 31, 2016	Fair Value	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Pooled separate accounts	$ 1,065,127	$ 1,065,127	$ -
Guaranteed interest option with an insurance company	293,447	-	293,447
Total investments at fair value	$ 1,358,574	$ 1,065,127	$ 293,447

		Fair Value Measurement at Reporting Date Using:	
December 31, 2015	Fair Value	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Pooled separate accounts	$ 888,753	$ 888,753	$ -
Guaranteed interest option with an insurance company	332,078	-	332,078
Total investments at fair value	$ 1,220,831	$ 888,753	$ 332,078

(4) Fair Value Measurements (Continued):

The following tables reconcile the beginning and ending balances of fair value measurements using significant unobservable inputs (Level 3) of the guaranteed interest account for the years ended December 31, 2016 and 2015:

December 31, 2016

Beginning balance	$	332,078
Net unrealized gains relating to instruments still held at the reporting date		8,201
Purchases		29,110
Sales		(115,553)
Transfer into Level 3		41,377
Transfers out of Level 3		(1,766)
Ending balance	$	293,447

December 31, 2015

Beginning balance	$	307,476
Net unrealized gains relating to instruments till held at the reporting date		9,058
Purchases		13,736
Sales		(33,568)
Transfers into Level 3		35,376
Ending balance	$	332,078

The Plan's policy is to recognize transfers in and out as of the date of the transaction or change in circumstances that caused the transfer. Transfers into and out of Level 3 are due to changes in investment allocations by participants between pooled separate accounts in Level 2 and the guaranteed interest option in Level 3.

(5) Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

(6) Tax Status:

Effective January 1, 2015, the Plan was restated when the Company adopted a Defined Contribution Volume Submitter Plan and Trust sponsored by Saltmarsh, Cleaveland and Gund. The Internal Revenue Service has determined and informed Saltmarsh, Cleaveland and Gund by letter dated March 31, 2014, that Plan is designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

7) Related-Party Transactions:

At December 31, 2016 and 2015, the Plan held units in various pooled separate accounts and a guaranteed interest option of AXA Equitable, the Plan's Custodian. Notes receivable from participants qualify as party-in-interest transactions. These transactions qualify as allowable party-in-interest transactions under the provisions of ERISA.

(8) Benefits Due to Terminated Participants:

Net assets available for benefits at December 31, 2016 and 2015 include $221,484 and $353,977 respectively, allocated to the accounts of persons as of or prior to that date who have withdrawn from participating in the operations of the Plan.

(9) Information Prepared and Certified by Custodian:

All investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule of assets (held at end of year), including investments held at December 31, 2016, net appreciation in fair value of investments, interest income on notes receivable from participants, and investment expenses for the year ended December 31, 2016 were obtained from data that has been prepared and certified to as complete and accurate by the Custodian.

(10) Risks and Uncertainties:

The Plan, at the direction of the participants, invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(11) Nonexempt transactions:

As reported on Schedule 2, Schedule H, Line 4a – Schedule of Delinquent Participant Contributions, certain participant contributions were not remitted to the Plan within the time frame specified by the Department of Labor's Regulation 29 CFR 2510.3-102, thus constituting nonexempt transactions between the Plan and the Company during the 2015 Plan year. Late remittances amounted to $471 for the 2016 Plan year. The Company will file form 5330 with the Internal Revenue Service and will pay an excise tax related to the nonexempt transaction. The Company will also calculate and remit to the Plan an amount representing the earnings that contributions would have earned if they had been deposited timely.
