Notes to Financial Statements

Note 1. Plan Description

The following description of the U.S. Corrugated, Inc. 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a 401(k) defined contribution plan covering all full-time employees of U.S. Corrugated, Inc. (the Plan Sponsor) and its subsidiaries (collectively, the Company). Participation is not limited to only full-time employees, but open to all eligible employees to participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility: Employees who have reached 18 years of age are eligible to participate in the Plan. There is no service requirement required by the Plan. Employees can participate in the Plan by making employee contributions. Company contributions are made to a participant's account after six months of service. The Plan allows for certain union employees to participate in the Plan.

Contributions: A participant may contribute between a minimum of 1% and a maximum of 100% of their annual compensation to the Plan subject to Internal Revenue Service (IRS) limitations (\$18,000 in 2016). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions (up to \$6,000). Participants may also contribute after-tax contributions. Participants may contribute amounts representing rollovers from other qualified plans. All of the Plan's investment options are fully participant directed. Participants may direct the investment of their account balances into any of the Plan's available investment options. The Plan currently offers twenty-four mutual funds and one common collective trust as investment options for participants.

The Company makes a matching contribution on behalf of each eligible participant. To receive the matching contribution, the participant must have made eligible contributions during the Plan year. The amount of the matching contributions shall be limited to 50% of the participants' deferral, not to exceed 6% of the participant's annual compensation for such Plan year. The amount of matching contributions to certain union employees varies based on the respective collective bargaining agreements.

The Plan has automatic enrollment for employees who satisfy the eligibility requirements at a deduction rate of 3% of their annual compensation unless the employee has opted out or made an alternative deferral election. The automatic enrollment includes a 1% increase in the deduction rate each year on the anniversary date of the participants' enrollment date up to a maximum of 6% of their annual compensation.

The Board of Directors of the Company, at its sole discretion, shall also determine the amount, if any, that the Company shall contribute to the profit sharing component of the Plan for the Plan year. To receive the profit sharing contribution, the participant must be an employee on the last day of the Plan year. There were no profit sharing contributions in 2016.

Participant accounts: Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Profit-sharing contributions are allocated to participants based upon the relationship of their wages to the total of all participants' wages for the Plan year.

Vesting: Each participant's 401(k) account is 100% vested at all times with respect to the participant's voluntary contributions, the Company's matching and profit-sharing contributions, and earnings thereon.

Notes to Financial Statements

Note 1. Plan Description (Continued)

Notes receivable from participants: In accordance with the terms of the Plan, participants may borrow a minimum of \$1,000 and up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Notes receivable from participants are generally payable within five years unless for the purchase of any primary residence for which the repayment period may be longer and bear interest at rates that are commensurate with local borrowing rates.

Termination of the Plan: Although the Company has not expressed any intent to do so, it has the right under the Plan to amend, to discontinue its contributions at any time or to terminate the Plan subject to the provisions of ERISA. In the event that the Plan is terminated, participants would remain 100% vested in all respective accounts.

Payment of benefits: A participant's vested interest in the Plan's assets is distributable upon retirement, death, disability, separation from service, attainment of age 59½, or the hardship of a participant, as provided for in the Plan. The Plan has an automatic cash-out provision for participants who have a vested balance of less than \$5,000.

Note 2. Significant Accounting Policies

The Plan's significant accounting policies are as follows:

Basis of accounting: The Plan's financial statements are prepared on the accrual basis of accounting in accordance with U.S. Generally Accepted Accounting Principles.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

The statements of net assets available for benefits present the fair value of the investment contracts. The statement of changes in net assets available for benefits is prepared on a fair value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are treated as distributions based on the terms of the Plan agreement.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Administrative expenses of the Plan are generally paid by the Company.

Note 3. Fair Value Measurements

The Financial Accounting Standards Board (FASB) issued Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

All transfers between fair value hierarchy levels are recognized by the Plan at the end of each reporting period. There were no significant transfers between Levels 1, 2 and 3 during the year.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Investments that use the practical expedient are not classified within the fair value hierarchy.

Following is a description of the valuation methodology used for investments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy. There have been no changes in the methodology used at December 31, 2016 and 2015.

Mutual funds (registered investment companies): Fair values are based on unadjusted quoted prices in active markets for identical assets or liabilities.

U.S. Corrugated, Inc. 401(k) Savings Plan

Notes to Financial Statements

Note 3. Fair Value Measurements (Continued)

Following is a description of the valuation methodology used for investments measured at net asset value (NAV) per share (or its equivalent) as a practical expedient. There have been no changes in the methodology used at December 31, 2016 and 2015.

Common collective trust: The underlying investments of the common collective trust are primarily in a pool of investment contracts that are issued by insurance companies and commercial banks and in contracts that are backed by high-quality bonds, bond trusts and bond mutual funds. The fair value is the amount Plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity for an event other than death, disability, termination or retirement. The fair value has been estimated using the NAV per share of the underlying investments. Subject to certain restrictions, withdrawals from the common collective trust are generally permitted daily at fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes that its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

Investments as of December 31, 2016				
	Level 1	Level 2	Level 3	Total
Mutual Funds	\$ 15,614,624	\$ -	\$ -	\$ 15,614,624
Total assets in the fair value hierarchy	\$ 15,614,624	\$ -	\$ -	15,614,624
Investment measured at net asset value (a)				1,259,733
Total investments				\$ 16,874,357

Investments as of December 31, 2015				
	Level 1	Level 2	Level 3	Total
Mutual Funds	\$ 14,036,299	\$ -	\$ -	\$ 14,036,299
Total assets in the fair value hierarchy	\$ 14,036,299	\$ -	\$ -	14,036,299
Investment measured at net asset value (a)				1,226,470
Total investments				\$ 15,262,769

- (a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to line items presented in the statements of net assets available for benefits.

Note 3. Fair Value Measurements (Continued)

The following table summarizes investments measured at fair value based on NAV per share:

Investment	2016 Fair Value	2015 Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common collective trust ^(b)	\$ 1,259,733	\$ 1,226,470	\$ -	Daily	None

(b) This common collective trust seeks to provide preservation of capital, relatively stable returns consistent with its comparatively low risk profile and liquidity for benefit-responsive payments.

Note 4. Information Certified by the Trustee

The following is a summary of the Plan's asset information as of December 31, 2016 and 2015, and for the year ended December 31, 2016, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplemental schedule related to the following assets at December 31:

	2016	2015
Mutual funds	\$ 15,614,624	\$ 14,036,299
Common collective trust	1,259,733	1,226,470
Notes receivable from participants	270,606	207,719

Mercer Trust Company (the Trustee) also certified to the completeness and accuracy of \$405,624 of net appreciation of investments, \$608,554 of dividend income and \$9,822 of interest from notes receivable from participants for the year ended December 31, 2016.

Note 5. Investment Contracts

The Plan invests in the Putnam Stable Value Fund (the Fund), which is a common collective trust fund comprised of traditional guaranteed investment contracts (GICs), security-backed investment contracts, separate account guaranteed investment contracts, and short-term investments. Traditional GICs provide a fixed return of principal plus interest (based on the coupon rate) for a specified period of time. Synthetic GICs provide a variable crediting rate which resets at least quarterly and the issuer of the wrapper contract ensures that the interest crediting does not result in a future crediting interest that is less than zero. These investments are recorded at fair value in the statements of net assets available for benefits.

U.S. Corrugated, Inc. 401(k) Savings Plan

Notes to Financial Statements

Note 5. Investment Contracts (Continued)

The interest rate credited to the participant's fund account is reset at least quarterly. Inputs used to determine the crediting interest rate include each contract's portfolio market value, current yield to maturity, duration and market value relative to contract value.

Note 6. Income Tax Status

The IRS has determined and informed the Plan, in a letter dated January 10, 2013, that the Plan is qualified under Section 401(k) of the Internal Revenue Code (IRC). Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. There have been amendments to the Plan since the date of the letter; however, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

The Company's management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustments to the financial statements as of December 31, 2016 and 2015.

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8. Related Party Transactions

All of the Plan expenses were paid by the Company for the years ended December 31, 2016 and 2015, and personnel and facilities of the Company are used by the Plan at no charge. Certain Plan investments are shares of various funds managed by the Trustee and, therefore, any transactions between the Plan and the Trustee are considered related party transactions. Notes receivable from participants qualify as permitted party-in-interest transactions.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:
