HUMACare Retirement Savings Plan

Notes to Financial Statements

December 31, 2016 and 2015

1. Description of the Plan

The following description of the HUMACare Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan, as amended, is a salary reduction plan covering substantially all persons who were eligible employees of HUMACare, Inc. (the "Company") on January 1, 1997, or who became full-time employees after that date, and have completed one year of service. Effective January 1, 2002, the Plan is intended to constitute a multiple employer plan subject to Section 413(c) of the Internal Revenue Code (IRC) for participants of any participating employer. The employee's eligibility requirements range from eighteen (18) to twenty-one (21) years of age and completion of up to one year of service as specified by the participating employer. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

A participant may enter into a salary reduction agreement with the Company or any participating employer whereby the Company is authorized to reduce pre-tax or after-tax earnings (as defined in the Plan), or any part thereof, by such percentage as the participant shall specify. This salary reduction is subject to certain limitations as set by the Plan administrator and the Internal Revenue Service.

The Plan allows for each participating employer to contribute a profit sharing amount and a matching contribution as determined by the respective Plan document. These contributions are credited to the participant accounts as designated by the participant.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, and (b) Plan earnings and losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting provisions for each participating employer profit sharing and matching contributions and earnings thereon vary between participating employers; however all participants are fully vested upon reaching six years of credited service.

Payments of Benefits

On termination of service due to termination of employment, death, disability or retirement, a participant is entitled to receive a lump sum amount equal to the value of his or her vested account. In the event of a participant's death, the entire account balance is automatically paid to the participant's beneficiary. Benefit payments to participants are recorded upon distribution. Therefore, if a terminated participant's balance exceeds \$1,000 but is less than \$5,000, and the participant fails to make an election to receive a lump sum amount or a direct rollover to a participant selected plan, a distribution will be paid by the Plan administrator as a direct rollover to an individual retirement account designated by the administrator.

HUMACare Retirement Savings Plan

Notes to Financial Statements

December 31, 2016 and 2015

1. Description of the Plan (Continued)

Forfeited Accounts

Forfeitures of nonvested Company contributions and allocated earnings are used to pay for plan expenses or to reduce future Company contributions to the Plan. Forfeitures used to offset Company contributions for the year ended December 31, 2016 and 2015 were \$11,941 and \$21,302, respectively. Unallocated forfeitures at December 31, 2016 and 2015 were \$68,385 and \$78,963, respectively.

Notes Receivable from Participants

The Plan allows participants to borrow from their vested account. Participants may borrow a minimum of \$1,000 up to a maximum amount equal to the lesser of \$50,000 or 50% of the vested balance of their account, with a term of one to five years, unless the proceeds are used to purchase a primary residence. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1% on the effective date of the loan. Principal and interest are paid ratably through payroll deductions.

Hardship Withdrawals

During their employment with the Company, participants may make withdrawals from their before-tax employee contributions and vested employer contributions only in cases of "extreme financial hardship" as determined within Internal Revenue Service guidelines. All or part of any after-tax savings may be withdrawn as often as once each quarter.

Investment Options

Upon enrollment in the Plan, a participant may direct employee contributions in various investment options offered by the Plan. Employer contributions follow the same investment options elected. Participants may change their investment options daily. The investment options are diversified in conformity with the ERISA diversification requirement.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of net assets available for benefits of a defined contribution plan attributable to fully-benefit responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

HUMACare Retirement Savings Plan

Notes to Financial Statements

December 31, 2016 and 2015

2. Summary of Significant Accounting Policies (Continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Payment of Expenses

The Company is authorized but not required to reimburse the Plan for all expenses and fees incurred in the administration of the Plan. Such expenses shall include, but not be limited to, fees for professional services, printing and postage. The Company elected to pay a portion of the administrative fees incurred during 2016.

3. Tax Status

The Company adopted a volume submitter plan which received an opinion letter on July 7, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator, the tax counsel, and sponsor believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor or Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

4. Party-In-Interest

Certain Plan investments are managed by Transamerica Financial Life Insurance Company. Transamerica Financial Life Insurance Company was the Trustee for the years ended December 31, 2016 and 2015 as defined by the plan and, therefore, these transactions qualify as party-in-interest transactions.

HUMACare Retirement Savings Plan

Notes to Financial Statements

December 31, 2016 and 2015

5. Certified Investments

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplementary schedule, including investments and notes receivable from participants held at December 31, 2016, and net appreciation in value of investments, interest and dividends for the year then ended, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Transamerica Financial Life Insurance Company (the Trustee of the Plan).

6. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

- Level 1 - Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.
- Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:
 - Quoted prices for similar assets or liabilities in active markets
 - Quoted prices for identical or similar assets or liabilities in inactive markets
 - Inputs other than quoted prices that are observable for the asset or liability
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other meansIf the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 - Inputs that are unobservable inputs for the asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

6. Fair Value Measurements (Continued)

The following is a description of the valuation methodologies the Plan used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Pooled separate accounts: Valued at the net asset value of units of the pooled separate accounts. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the investments will be sold for an amount different from the reported net asset value. Transactions (purchases and sales) may occur daily. There are no unfunded commitments or significant redemption restrictions at December 31, 2016 and 2015.

General investment account: Valued at the net asset value of units of the general investment account. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the investments will be sold for an amount different from the reported net asset value. Transactions (purchases and sales) may occur daily. There are no unfunded commitments or significant redemption restrictions at December 31, 2016 and 2015.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2016.

Notes to Financial Statements

December 31, 2016 and 2015

7. Investment with Insurance Company

The Plan has a fully benefit-responsive stable value fund with Transamerica Life Insurance Company (Transamerica), the Trustee of the Plan. Transamerica maintains the contributions in a general investment account. The account is credited with earnings on the underlying investments, and charged for participant withdrawals and administrative expenses. The investment issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Contract value, as reported to the Plan by Transamerica, represents contributions made under contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) the Plan is changed so as to significantly affect Transamerica's obligations to the contract, (2) the contract can no longer be treated as a pension plan contract, (3) the Plan is terminated, (4) failure to comply with the contract requirements or (5) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The investment has a portfolio investment rate design in which all deposits in the investments are credited with the same interest rate on a daily basis, with no set maturity. Such interest rates are reviewed on a semi-annual basis for resetting and are effective on the first day of the first and seventh months of the year. Average yields and crediting rates for the years ended December 31, 2016 and 2015 were 1.40% and 1.55%, respectively.

8. Risks and Uncertainties

The Plan invests in various investment options. These investment options are exposed to various risks, such as interest rate, credit and market risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the Employee Retirement Income Security Act of 1974. In the event of Plan termination, participants shall become 100% vested in their accounts.

10. Delinquent Participant Contributions

For the years ended December 31, 2016 and 2015, participant deferrals and loan payments in the amounts of \$5,375 and \$6,417, respectively, were not remitted to the Plan by the Employer within the appropriate time period prescribed by law. These transactions constitute prohibited transactions as defined by ERISA. The Employer is aware of the occurrence and has taken appropriate steps to correct the situation.

11. Subsequent Events

Management evaluated the activity of the Plan through January 25, 2018 (the date the financial statements were made available to be issued) and concluded that no subsequent events have occurred that would require recognition in the financial statements or disclosure in the notes to the financial statements.
