(1) Description of the Plan

The Kellogg Brown & Root, Inc. Retirement and Savings Plan (the Plan) is a defined contribution plan for certain qualified employees of certain subsidiaries of Kellogg Brown & Root LLC (the Company), the plan sponsor. The Plan was established in accordance with Sections 401(a) and 401(k) of the Internal Revenue Code of 1986, as amended (IRC) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The following description of the Plan provides only general information. Participants should refer to the Plan document or summary Plan description for a more complete description of the Plan's provisions.

The Company entered into an agreement with Bernhard Capital Partners to establish a joint venture named Brown & Root Industrial Services ("BRIS") during 2015. The employees who transferred employment to BRIS continued to participate in the Plan. Effective June 27, 2016, the Company and BRIS agreed to spinoff the accounts of those BRIS employees who participate in the Plan to the newly formed Brown & Root Industrial Services 401(k) Plan (the "BRIS Plan"). The Plan transferred $133,010,029 into the BRIS Plan on June 27, 2016.

(a) Eligibility

Certain employees of the Company are eligible for immediate participation in the Plan upon their date of hire.

(b) Contributions

Participants may elect to contribute to the tax deferred savings feature of the Plan through periodic payroll deductions. Participants may contribute up to 50% of their pre-tax eligible earnings. However, the total amount of a participant's pre-tax deferred savings contributions was limited to $18,000 for 2016 and the 2016 limit for eligible earnings was $265,000. Additional limitations are in place for highly compensated employees under the provisions of the Plan.

Participants who are age 50 or older before the close of the Plan year may elect to make a catch-up contribution ($6,000 per participant in 2016). Catch-up contributions are treated as pre-tax deferred savings contributions for all purposes of the Plan. Catch-up contributions are not subject to the 50% of compensation limitation, but instead, when aggregated with other pre-tax deferred savings contributions, cannot exceed 75% of a participant's compensation, the annual dollar limit, or the actual percentage restriction.

The Company matches contributions up to 100% of the first 5% and 50% of up to the next 1% of participant contributions to the Plan. The Company may also make an employer discretionary non-elective contribution to the Plan.

Employees are permitted to roll over pre-tax and after-tax amounts with earnings held in other qualified plans or individual retirement accounts (IRAs) into the Plan, as specified in the Plan document.

(c) Investment Elections and Transfers

The Plan participates in the KBR Employee Benefit Master Trust with State Street Bank and Trust Company (State Street) and in the KBR Master Trust with Vanguard Fiduciary Trust Company (Vanguard) (collectively, the Master Trust). The Master Trust was established for the collective investment of certain defined contribution and defined benefit plans. In addition, the Plan maintains a

clearing account, which invests in a short-term investment fund to facilitate the payment of benefits and receipt of contributions to the Plan. Contributions and participant account balances may be directed to any fund or a combination of funds.

The assets of the funds are held in the Master Trust (see Note 4). The Plan allows participants to make daily transfers of their account balances among the funds, subject to the Plan's investment transfer policy. The amount of the transfer may be all or any portion of the participant's account balance.

The Plan has an investment transfer policy which places waiting periods on transfers and reallocations into and out of all of the investment funds. If a participant makes a transfer or fund reallocation out of a fund other than the Stable Value Fund, the participant cannot transfer money into that same fund for up to twenty calendar days. If funds are transferred or reallocated into and out of the Stable Value Fund, the number of units that the money represents on the day of the transfer or reallocation transaction is locked in and cannot be transferred out of the Stable Value Fund for up to twenty calendar days. Participants are permitted to reallocate or transfer money into and out of the Stable Value Fund at any time.

(d) Administration

The KBR Benefits Committee (Benefits Committee) maintains all control, management, and administration of the Plan. The KBR Investment Committee maintains all powers and duties related to the Plan's investment fund or funds.

Vanguard is the Plan's trustee with the exception of the Stable Value Fund, which will remain with State Street, and The Vanguard Group, Inc. is the record keeper.

(e) Notes Receivable from Participants

A participant may borrow from their vested account balance a minimum of $1,000 up to a maximum equal to the lesser of $50,000 (reduced by the highest outstanding loan balance in all Company sponsored plans by the participant in the prior twelve months) or 50% of their vested account balance. A participant may not have more than one loan outstanding at any time. Loans bear interest at the current prime rate plus 1% as published in the Wall Street Journal at the time of the loan. Loans must be repaid within five years (10 years for primary residence loans) through payroll deductions and are collateralized by the participant's vested account balance. If a participant fails to comply with the repayment terms of the loan, the Benefits Committee or its designee may deem such defaulted loans as a distribution when the loans are considered uncollectible from the participant.

(f) Vesting

Participants' contributions to their accounts and earnings thereon are fully vested when made or earned. Generally, active participants vest in their Company matching contributions upon completing one hour of service. Participants become vested in their employer non-elective contributions account after the completion of three years of service. Employer non-elective contributions were discontinued effective December 31, 2005. Participants become vested in their employer discretionary non-elective contribution account after one year of service. There are also alternative vesting provisions that may apply to participants with employer contribution accounts that transferred from previously merged plans.

The nonvested portion of a participant's account is forfeited as of their benefit commencement date, as defined in the Plan.

Forfeitures can be used to reduce Company matching contributions and pay administrative expenses of the Plan. Forfeitures available as of December 31, 2016 and 2015 were $120,546 and $183,397, respectively. During 2016, forfeitures in the amount of $3,304,961 were used to reduce Company matching contributions and $1,000,000 were used to offset administrative expenses.

(g) Distributions

Each participant, or his or her designated beneficiary, may elect to receive a distribution upon retirement, termination, disability, or death. Direct rollovers to an IRA or other qualified plan are permitted. All termination distributions are made in lump-sum amounts. Periodic installments are also available to participants who retire, or become disabled, at the participant's election. Distributions upon death of the participant may be made in lump-sum amounts or periodic installments. Certain joint and survivor annuities are available upon election to participants who had a balance under the Halliburton Retirement and Savings Plan prior to June 1998 that was transferred to the Plan, as provided under the terms of the Plan.

While employed, a participant may make in-service withdrawals from their rollover and after-tax accounts as defined in the Plan document. In-service withdrawals from their tax-deferred savings are also permitted upon attainment of age 59-1/2 or proven financial hardship, subject to limitations under the Plan.

(h) Investment Earnings

Investment earnings on participants' accounts are allocated proportionately based on their relative account balance in each investment fund.

(2) Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements are prepared in conformity with accounting principles generally accepted in the United States of America using the accrual basis of accounting.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

(c) Valuation of Investments Held in the Master Trust

Investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

The Plan's proportionate interest in the investments of the Master Trust is shown in the statements of net assets available for benefits as Plan interest in the Master Trust (see Note 4).

(d) Securities Transactions and Investment Income of the Master Trust

The Plan records interest on cash and cash equivalents and notes receivable from participants held outside of the Master Trust as earned. Purchases and sales of securities held outside the Master Trust are recorded on a trade-date basis.

Purchases and sales of securities in the Master Trust are recorded on a trade-date basis. Realized gains (losses) on investments sold and unrealized appreciation (depreciation) for investments of the Master Trust are combined and presented as Plan interest in Master Trust investment income (loss) in the statement of changes in net assets available for benefits.

In addition, investment income or loss of the Master Trust includes dividends, interest, and other income. Interest income on the Master Trust investments is recorded as earned. Dividends on the Master Trust investments are recorded on the ex-dividend date.

(e) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes are reclassified as distributions based upon the terms of the Plan document. At December 31, 2016 and 2015, no allowance was considered necessary by management.

(f) Administrative Expenses

The Master Trust pays substantially all Plan expenses on behalf of the Plan. Generally, trustee fees, recordkeeping fees, audit fees, and investment management fees are paid from Master Trust assets and are charged to the applicable plans participating in the Master Trust. Expenses related to the direct management of the Master Trust are shared on an equitable basis by the participating plans. Expenses specifically related to an individual plan are charged to the assets of the plan which incurred the charges. These expenses are shown as a component of Plan interest in Master Trust investment income (loss).

(g) Payment of Benefits

Benefits are recorded when paid.

(h) Recent Accounting Pronouncements

In February 2017, the Financial Accounting Standards Board issued Accounting Standards Update 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) Employee Benefit Plan Master Trust Reporting* (ASU 2017-06). ASU 2017-06 was issued to clarify presentation requirements for a plan's interest in a master trust and require more detailed disclosures of the plan's interest in the master trust.

The update also eliminates a redundancy relating to 401(h) account disclosures; however, this portion does not apply to the Plan. The new guidance will be applied retrospectively and is effective for fiscal years beginning after December 15, 2018, with early adoption permitted. Plan management has not yet adopted this guidance.

(3) Fair Value Measurements

The Financial Accounting Standards Board Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value, and requires additional disclosure about the use of fair value measurements in an effort to make the measurement of fair value more consistent and comparable.

Cash and cash equivalents, mutual funds, and bonds held within the Master Trust are presented at their quoted market values. Common/collective trust funds are stated at fair value based on net asset value (NAV) as determined by the investment managers. The NAV is used as a practical expedient and is determined based on the fair value of the underlying investments. There are no redemption restrictions or unfunded commitments. The Master Trust considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

Various inputs are used in determining the fair value of the Plan's investments. Valuation techniques used to measure fair value under ASC 820 must maximize the use of observable inputs and minimize the use of unobservable inputs. In addition, ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy under ASC 820, are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 - Inputs to the valuation methodology are other than quoted market prices in active markets that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices that are in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs to the valuation methodology are unobservable inputs (i.e., projections, estimates, interpretations, etc.) that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The inputs and methodologies used for valuing securities are not an indication of the risk associated with investing in those securities. The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or

model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. There have been no changes in the methodologies used at December 31, 2016 or 2015.

The following tables set forth by level, within the fair value hierarchy, the Master Trust's investments at fair value as of December 31, 2016 and 2015:

2016	Level 1	Level 2	Level 3	Total

(a) Certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the investment line item presented in the Master Trust's statements of net assets available for benefits.

(4) Interest in the Master Trust

Certain assets of the Plan are combined with the assets of certain other benefit plans of affiliated companies in a Master Trust. The assets of the Master Trust are segregated into funds in which the plans may participate. The combination of the plans' assets is only for investment purposes and the plans continue to be operated under their current plan documents, as amended.

The net assets of the Master Trust at December 31, 2016 and 2015 are summarized as follows:

(5) Information Certified by the Trustees

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Vanguard and State Street, the trustees of the Plan, have certified to the completeness and accuracy of all investments and notes receivable from participants reflected in the accompanying statements of net assets available for benefits as of December 31, 2016 and 2015, and schedule H, line 4i-schedule of assets (held at end of year) as of December 31, 2016, and the related investment activity and interest income on notes receivable from participants reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2016.

(6) Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated January 6, 2016, that the Plan and related trust are designed in accordance with the IRC. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and therefore, believes that the Plan is qualified and the related trust is tax-exempt as of December 31, 2016 and 2015.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan to determine if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(7) Plan Termination

The Company may amend, modify, or terminate the Plan at any time. No such termination is contemplated, but if it should occur, the accounts of all participants would be immediately fully vested and paid in accordance with the terms of the Plan.

(8) Risks and Uncertainties

The investments of the Master Trust are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(9) Party-in-Interest Transactions

The Plan, through its participation in the Master Trust, may invest in investment securities issued and/or managed by the trustees and asset managers. The Plan also contains notes receivable from participants. These entities and notes receivable from participants are considered parties-in-interest to the Plan. These transactions are covered by an exemption from the prohibited transaction provisions of ERISA and the IRC.

(10) Concentration Risk

Financial instruments that potentially subject the Plan to concentrations of credit risk principally consist of cash and cash equivalents. At times such investments may be in excess of federally insured limits.

(11) Subsequent Events

The Plan has evaluated subsequent events through January 23, 2018, the date the financial statements were available to be issued.
