AGC SOUTHWEST CHAPTERS 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2016 AND 2015

Note 1 - Description of Plan -

The following description of the AGC Southwest Chapters 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a multiple employer defined contribution plan established to provide retirement benefits for covered employees of participating employers that are also members of the Houston and Louisiana Chapters of the Associated General Contractors of America, Inc. (the Association). Covered employees consist of employees of participating employers except those who are specifically excluded based upon individual employer's participation agreements. A participating employer, upon adoption of the Plan, may also elect to have different eligibility requirements provided that the maximum age is not greater than 21 years of age or length of service is not greater than one year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Administrator oversees governance of the Plan, determines the appropriateness of the Plan's investment offerings, and monitors investment performance.

Contributions

- Participants may contribute up to 100% of their compensation as defined by the Plan, subject to certain limitations under the Internal Revenue Code (the Code). The Plan allows catch-up contributions, as defined by the Code, for participants who have attained the age of 50 prior to the end of the year. Participants also may rollover any amounts they receive as distributions from another qualified plan into their individual accounts. Participants have the option to choose Roth deferrals, in addition to the pre-tax deferrals. Each participating employer has the option of instituting automatic enrollment for those employees hired on or after a specified date, as defined by the adoption agreement of the participating employer, wherein the participating employer will automatically withhold a specific percentage of the employee's compensation upon becoming eligible to participate unless otherwise elected by the participant. Certain participating employers have elected automatic enrollment.
- Participating employers may elect to make discretionary matching contributions to participants who make elective deferrals. The discretionary matching contribution percentages are determined by each individual participating employer. Participating employers may, at their discretion, make non-elective contributions to the Plan, which are allocated to participant accounts based on a percentage of compensation as determined by the participating employers.

Participant Accounts

Each participant's account is credited or charged with the participant's contribution, the participating employer's contribution, the Plan's investment earnings or losses, certain Plan administration costs, and forfeitures of terminated participants' nonvested accounts. Allocations are based upon participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings on these contributions and employer safe-harbor contributions. Vesting in employer contributions plus actual earnings thereon is based on years of continuous service. Vesting schedules are based on annual vesting periods not to exceed six years and vary by participating employer based on each employer's election at the time of Plan adoption.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to specified limits under the Code. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest are paid ratably through payroll deductions. The loan balances at December 31, 2016 and 2015 totaled \$5,147,533 and \$4,277,508, respectively.

Payment of Benefits

Upon termination of service due to death, disability, retirement, or other termination of employment, participants are entitled to receive the value of their vested account balance. Participants may also withdraw a portion or all of their vested balance, while still employed, through in-service distributions upon reaching the age of 59½. Additionally, participants may qualify for a hardship withdrawal of their vested account balance, while still employed, for the purpose of immediate and heavy financial needs, as defined in the Plan document.

Forfeited Accounts

At December 31, 2016 and 2015 forfeited non-vested accounts totaled \$370,037 and \$558,377, respectively. These accounts can be used to reduce future employer contributions and/or pay administrative expenses of the Plan. During 2016, forfeitures totaling approximately \$360,000, were used to reduce employer contributions and/or reallocated to participant accounts. Forfeitures totaling \$12,318 were utilized to reduce administrative expenses

Note 2 - Summary of Accounting Policies -

Basis of Accounting

The financial statements of the Plan are prepared in accordance with the accrual basis of accounting. At December 31, 2016 and 2015, all assets of the Plan are participant directed.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully

benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the plan.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the Plan custodian. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis of accounting. Dividends are recorded on the ex-dividend date. Net investment gain includes gains and losses on investments sold during the year as well as appreciation and depreciation of the investments held at the end of the year. Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2016 and 2015, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a deduction from net assets based on the terms of the Plan document.

Risks and Uncertainties

The Plan provides for various investment options in any combination of selected funds held by the custodian. These funds are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with these funds, it is at least reasonably possible that changes in the values of these funds will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

Excess Contributions Payable

Amounts payable to participants totaling \$536,174 for excess of contribution amounts allowed by the Internal Revenue Service are recorded as a liability as of December 31, 2016 and included as part of corrective distributions for the year ended December 31, 2016. The Plan distributed the majority of 2016 excess contributions to the applicable participants before March 15, 2017. The remaining excess contributions will be distributed during 2017. The amount of excess contributions payable at December 31, 2015 was \$386,680.

Administrative Expenses

Participating employers, at their sole discretion, may pay certain expenses of maintaining the Plan. Such expenses are excluded from these financial statements. If such expenses are not paid by the participating employer, they are paid out of the Plan's assets and included as expenses in these financial statements. Fees related to withdrawals and the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net investment gain. During 2014, the Plan implemented the utilization of an expense fund. Fees for this expense fund, like investment management fees, are included in net investment gain as they are paid through revenue sharing, rather than a direct payment. The fund is used to pay Plan expenses as needed. These funds are included in the Stable Value Fund in these financial statements. The balance of the expense fund account as of December 31, 2016 and 2015 was approximately \$46,000 and \$17,700, respectively.

Reclassification

Certain prior year amounts may have been reclassified to conform to current year presentation. Such reclassification had no effect on the previously reported change in net assets available for benefits.

Subsequent Events

The Plan evaluated subsequent events and transactions for potential recognition or disclosure in the financial statements through January 30, 2018, the date the financial statements were available to be issued.

Note 3 - Plan Termination -

Although they have not expressed any intent to do so, the participating employers have the right under the Plan to discontinue their contributions at any time and the trustees have the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their respective employer contributions.

Note 4 - Tax Status -

The Associations have adopted a prototype plan which received a favorable determination from the Internal Revenue Service. The Plan itself has not separately applied for recognition of tax-exempt status. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. generally accepted accounting principles require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. With few exceptions, the Plan is no longer subject to income tax examinations for years prior to 2013.

Note 5 - Fair Value Measurements -

The fair value measurement accounting literature provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy consists of three broad levels. Level 1 inputs to the valuation methodology are based on unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access. Level 2 inputs are based primarily on quoted prices for similar assets in active or inactive markets and/or based on inputs that are derived principally from or corroborated by observable market data by correlation or other means. Level 3 inputs are unobservable and are based on assumptions market participants would utilize in pricing the asset.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. When available, valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Stable Value Fund: The Stable Value Fund is valued at contract value which approximates fair value. Contract value represents principal plus accrued interest, less withdrawals and expenses, plus or minus net transfer activity with the Plan's other investment funds.

Pooled Separate Accounts: These accounts are valued daily as the number of units held multiplied by the accumulation unit value (AUV). The AUV is determined based on the quoted net asset values of the shares of the underlying securities (mutual funds), the fund's dividends and the account charges.

Although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total

Total Investments at Fair Value	\$ -	\$ 26,708,607	\$ -	\$ 180,040,780

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statement of Net Assets Available for Benefits.

Gains and losses included in changes in net assets available for benefits for the year ended December 31, 2016 are reported in net investment gain.

The following tables summarize investments measured at fair value based on NAV per share as of December 31, 2016 and 2015.

Fees incurred by the Plan for the investment management services are included in net investment gain, as they are paid through revenue sharing, rather than a direct payment. Participating employers may also directly pay other fees related to the Plan's operations. All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

Note 8 - Reconciliation of Financial Statements to Schedule H of Form 5500 -

During 2016, ten plans of participating employers merged into the Plan with \$19,666,205 of assets.

During 2016, one participating employer transferred \$2,797,685 of assets out to a qualifying Plan.

Note 10 - Delinquent Participant Contributions -

During the year ended December 31, 2016, participant deferrals totaling \$2,538,686, were not timely remitted to the Plan in accordance with the requirements of the Department of Labor. The contributions were remitted to the Plan upon discovery of the errors. The participating employers will compute the lost earnings on these deposits and will make a contribution for lost earnings to the Plan during 2017.
